This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Also on hand, the celebrated and unequalled

FRANKLIN HOUSE

Portsmouth, N. H.

The undersigned having assumed the management of this well known public house, and having made extensive improvements therein, solicits a continuance of the patronage of the travelling public that has so long been extended to the house.

A new parlor and an extensive suite of commodious and well-ventilated sleeping apartments have been added; and a separate Ladies' Entrance from Congress Street, arranged. Gentlemen with their families, or ladies unattended, will now find quiet and retired apartments connected with the street and dining hall by an independent staircase.

The house will be kept as a first class hotel in every respect, and the proprietors will spare no pains to merit the patronage of those visiting this section of the State.

A good STABLE is connected with the house, where persons visiting Portsmouth with teams, will be promptly attended and carefully waited upon.

MATHEWS'

VENETIAN LIQUID

HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1840; since that time it has been USED BY THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor fries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

☞ A singular suit has been brought in England, by the Bishop of Exeter, to restrain a clergyman from writing the Bishop's life. The biographer insists on his right and the subject denies it, and correspondence growing angry and failing to accomplish any change of the writer's determination, the Bishop appeals to chancery.

☞ A dispatch to the New York Post from Niagara Falls says a rebel emissary was arrested while endeavoring to cross the Suspension Bridge on Saturday. He was dressed as a woman, and was trying to nurse a baby.

☞ Messrs Stetson & Co., of the Astor House, New York, tender the freedom and hospitalities of their hotel to the volunteer surgeons, on their way to Washington, and on returning.

☞ The Charleston Mercury, Aug. 21, contains acknowledgements of the receipts of various sums of money from ladies, for completing a gunboat there.

☞ The Capitol and other public buildings in Washington, are to be used as hospitals. The President has offered half the White House for the same purpose.

☞ An inn-keeper in France has just been prosecuted and fined for having permitted guests to enter his house without registering their names.

☞ It is said that the Emperor Napoleon has fixed the majority of the Prince, his heir, at the age of fourteen years.

A correspondent writes from Frankfort-on-the-Main that large numbers of Germans of every rank are offering themselves at the American Consulate for service in the Union army. Among the number is Karl Washington, a Bavarian baron, a lieutenant in the army of that country and a nobleman of high standing. He is wealthy, and speaks French, German and English. His ancestors, he says, were Hollanders, and emigrated from England to Holland about two hundred years ago; and he has the Washington pedigree, showing the original families were probably the same. Strange to say he is a Roman Catholic.

Write your name by kindness, love and mercy, on the hearts of the people you come in contact with year by year, and you will never be forgotten.

THURSDAY, SEPTEMBER 4, 1862.

A REQUEST.—Each and every person who is indebted to The Chronicle or The Gazette office, for newspapers, advertising or job printing, is hereby desired to settle the same as soon as convenient. And all having claims, to present them. In these uncertain war times, it is best for all to keep their business as nearly square as possible, to be ready for any emergency.

MINISTERS AND WAR.

The Boston Post pays a very proper and deserved tribute of praise to the ministers and preachers who go so willingly into the U. S. volunteer service as chaplains and as soldiers,—especially complimenting Rev. Mr. Stone of Boston, without naming him. Turning from this view, the Post offers the following contrast:

"How strikingly in contrast with this spirit is the strange and fanatical conduct of one, a son of Massachusetts, who has been honored with one of the highest positions in the gift of her people. The Hon. Charles Sumner thus *discourses* upon the position of the clergy in a state of war," &c.

In sheer justice to the New England clergy in general, as well as to Mr. Sumner, the writer of this article, having been a member and an accredited lecturer of the American Peace Society, assures all who take any interest in these things, that Mr. Sumner made the *discourse* against war a number of years ago,—though the Post says he *discourses*, as if he had said these things in a recent speech.

They may also be assured, with perfect truth, that most of the ministers in New England were as really opposed to war as Mr. Sumner was, when he made the discourse. Most of them had no idea that we should ever be called upon to defend ourselves against an armed assault by any foe; and nothing could be farther from their expectations than what we see now.

Knowing the ministers of all denominations very extensively, we say, without fear of contradiction, that they entertain the same views of offensive wars, wars of aggression and conquest, now, as they did five years or fifteen years ago. But when a foreign foe threatens our coast, or a domestic enemy marches on our capital and attacks our very existence as a nation, they say, "Stand to your arms!"—and many of them suit the action to the word.

They have not changed a great deal—but circumstances have placed a tremendous "fire in the rear,"—and they merely face about to return it. Very likely Mr. Sumner may have done the same. We are pretty certain he has not published one "discourse" against defensive war, since Brooks, as the bully of the slave power, knocked him down and nearly killed him.

Similar blows, but harder ones, given by and for the same power, have waked up both priest and people at the North—to save themselves by the destruction of their foes. U. T.

☞ Among those who nobly fell at Centerville, Va., in the late battle, was Lieut. Samuel Fessenden, son of Senator Fessenden, of Maine. Severely wounded on Friday, he lingered until Sunday, when he died, and was buried beneath the soil on which he was doing his part to restore the supremacy of the stars and stripes. Of a genial and open nature, noble, generous, and endowed with talents of no mean order, he promised a career of great usefulness in the future; but at the early age of twenty-one years, he has fallen a sacrifice on the altar of his country. With many warm and true friends wherever he was known, with everything at home requisite to make his life happy and prosperous, he disregarded the inducements which such circumstances proffered him, and taking his life in his hand, went forth, to fall in the first battle in which he was actively engaged. Yet we know, from letters which he has written since he entered the service of his country, that he preferred to incur the risk of death itself, to a life of inglorious ease at home, when the Union so earnestly demanded his services; and though he has soon fallen, his life has not been wholly in vain. Such a death, even, may accomplish something towards the attainment of the object for which he fought.

☞ A gentleman recently arrived from New Mexico reports that the Indian troubles there are serious. The Apaches and Navajoes are waging a war of plunder, which has already resulted in the loss of hundreds of thousands of cattle and sheep, besides a very considerable destruction of life. Kit Carson is in the field at the head of a new regiment raised for him; and it is believed that he will be able to hold the savages in check.

THE REBELLION.

On Sunday about one-half of our dead and wounded were brought from the late battle-field, under a flag of truce, but the arrangements were so incomplete that many of the wounded were left, although suffering terribly, their wounds not being dressed. On Sunday noon a large body of rebel infantry attempted to capture our trains.—Gen. King's division had been sent to Fairfax, to prevent any demonstration of the enemy, and additional forces were sent to the spot; the rebels were repelled with heavy losses. The enemy's force was very strong and commanded by Jackson in person; and had not the attack been promptly met, our communication with Washington would have been cut off, and immense trains of wagons either captured or destroyed. Our baggage trains have been sent to Alexandria.

On Monday night, Gen. Pope's army advanced two miles. The same evening there was a severe engagement near Chantilly, about two miles north of Fairfax Court House, between a portion of his army and Jackson's forces. Our loss was heavy, but the enemy was driven back a mile, and we re-occupied the field of battle until 3 o'clock Tuesday morning.—Two of our Generals, Isaac I. Stevens and Philip Kearney, were killed.

The Philadelphia Inquirer of Wednesday morning makes the following statements:

Baton Rouge has been completely destroyed by our troops. Gen. Breckinridge had demanded its surrender. He had a large army with him.

Falls Church has been evacuated by our troops. The wounded who were in the hospitals there, have arrived in Washington. The railroad bridge over Bull Run has again been destroyed by the rebels. We have a report that Stonewall Jackson is on his way to Baltimore via Leesburg, with 40,000 men, and that he intends crossing near Edwards Ferry. The latest intelligence from Gen. Pope's army, dated headquarters, says that his whole column was falling back, and from thence to Washington.

The Tribune's correspondent states that in consequence of the threatening demonstrations of the rebel Gens. Hill and Longstreet, it was deemed necessary on Monday morning to evacuate Centreville, our troops retiring toward Fairfax Court house. Before reaching Fairfax, they were met by a detachment of Gen. Hill's division, under Stuart, who were concealed in the woods. Gen. Stevens' troops charged through the wood, driving the rebels before them with great slaughter. It was in this charge that Gen. Stevens was killed and his son wounded. Gen. Kearney's batteries then opened, causing great havoc. The enemy finally retreated, and our troops passed on without further molestation. The enemy's loss was heavy. Our loss is not stated.

An official order states that by command of Gen. Halleck, Gen. McClellan will have command of the fortifications of Washington, and all troops for the defence of the Capital. A Washington dispatch to the Baltimore American says "the enthusiasm of the army on hearing of the appointment o. Gen. McClellan to command them, is represented as wildly enthusiastic. The feeling extends through the whole army of Virginia. There is no panic here; all now is confidence and security."

1000 guerrillas in Southern Missouri, under Col. White, were attacked by Maj. Leppet, and after a desperate conflict of an hour's duration, completely routed.—Our troops captured all their wagons and equipage, and many prisoners; also a number of horses and mules.

The rebels are reported to be concentrating in large numberes at Cross Hollow, Ark., with the intention of marching north with the idea of taking Forts Scott and Leavenworth. Pike had made a speech to his men, saying that he intended to be quartered in Fort Leavenworth before snow fell.

The utmost exertions are being made for the defense of Cincinnati. The rebels, it is stated, are from 20,000 to 30,000 strong, and reported to be at Boyle's Station, Ky., 39 miles distant. They are expected to arrive opposite the fortifications on Thursday.

Maj. Gen. Wright has declared martial law in Jefferson County, Ky. There is great excitement in Louisville. The cotton brokers are removing their cotton across the river, and numerous citizens are removing their valuables, fearing that the rebels will attempt to capture the city.

Gen. Grant reports that on Monday Col. Dennis routed a superior force of rebel cavalry at "Whedon." The rebels left 110 dead on the field, and their wounded are estimated at over 250. Our loss was 5 killed and 40 wounded.

The notorious guerilla leader Pendexter, it is stated, has been captured while asleep in a house 20 miles from Hudson, Mo.

A Philadelphia dispatch says the dispatch stating that the Government had closed the N. Y. Tribune office was sent simply to appease the mob.

☞ A raft nearly 800 feet long by fifty wide arrived at Chicago on the 4th inst.—It contained 2,800,000 feet of lumber, and over 700,000 feet of spars, booms, gaffs for rigging vessels, and square timber.

NEW HAMPSHIRE ITEMS.

—— Among the wounded in the recent battles in Virginia are reported the following belonging to N. H. regiments and now in hospitals at Washington:—

2d Regiment—Lieut. Geo. W. Gordon, Co. D; Corp. J. W. Watson, Co. B; W. Sabine, Co. B; W. H. Goldsmith, Co. F; J. Hutchinson, Co. G; Albion R. Simmons, Co. I; John Marr, Co. K; L. H. Dickey, G. H. Scranton

5th Regiment—B. W. Hill.

6th Regiment—L. Babb, D. P. Grant, Co. D; L. F. Willard, Geo. W. Stevens, Co. K; P. Readdy, S. P. Bancroft. Lieut. "Cowan," of the 6th, is reported killed.

—— Some bees belonging to Rev. John Atwood of New Boston swarmed, a few weeks since, lighting upon a small bush near home. He attempted to hive them in the usual way, but they bolted, and took refuge in the steeple of the Baptist Church half a mile off, where they have since been busily at work.

—— The Amoskeag Co. offer to convert into lint, free of charge, all linen that is sent to 171 Merchant's Exchange, Manchester. With the machines they use for napping flannels, they can take old linen handkerchiefs, sheets or rags, and convert them into lint by the ton.

—— On Monday night a burglar entered the house of George W. Dustin in Manchester, and stole his wallet, knife and foot-rule taken from his pants' pocket, his son's watch, and a coat from the shed.—The pants were within a foot and a half of his head. The thief got about twelve dollars, and note for about $35.

—— Laconia has voted a bounty of $150 to volunteers for three years, and $100 for nine months' men. Those who enlisted under the first call of the President are to have their taxes abated.

—— In Orange, a few evenings since, a carriage containing a gentleman and two ladies, was overturned, throwing them with considerable violence to the ground. One of the ladies, Miss Ellen May, was thrown over a fence by the road side and seriously injured, tho' no bones were broken. The others escaped without serious injury.

—— The American states that the 11th Regiment has been ordered to move to the seat of war on Tuesday next.

—— A dispatch states that U. S. Marshal Ely passed through Concord, Wednesday morning, to look after parties who have been discouraging enlistments by trusteeing bounties of soldiers voted by towns.

HAMPTON CORRESPONDENCE, Sept. 2. Hampton has voted to pay one hundred and fifty dollars to nine months' men who shall enlist previous to Sept. 15.

One hundred dollars is to be placed in the hands of Rev. R. A. DeLancey for aid to the sick and wounded soldiers in the late battles. The citizens meet at the Town Hall this morning to bring in contributions for the same purpose. Mr. DeLancey leaves in the noon train for Washington, and will take charge of supplies.

The quota of Hampton for three years' men is 20; for nine months' men 21. 11 are already enlisted for three years, leaving 9 men to be raised. The Selectmen have not yet appointed a recruiting officer for 9 months' men, but will do so immediately, and it is to be hoped that the men may be obtained without a draft.

Elder Frank K. Stratton has been appointed Chaplain to the 11th Regiment, N. H. Volunteers. Mr. Stratton is much beloved by his people who part with him with sincere regret. Mr. S. will make a popular and efficient Chaplain.

Rev. John Colby has been appointed School Commissioner for Rockingham county. It is so seldom that men have honors *thrust* upon them, it is worthy of remark that Mr. C. knew nothing about the matter until he received official intelligence from headquarters, of his appointment. Mr. Colby is Superintendent of schools in Hampton, and no better selection could have been made for the County.

THE PACIFIC RAILROAD.—The persons named in the act to provide for the construction of a railroad from the Missouri River to the Pacific Ocean, and the Commissioners appointed by the Government, were to meet at Chicago, on Tuesday, for the purpose of organizing a body for the management and prosecution of this great enterprise. Hon. Joseph A. Gilmore and Judge Woodman have gone from this State to attend to their duties in the matter, as Trustee and Commissioner.

☞ Col. Fletcher Webster, of the Mass. 12th Regiment, who was mortally wounded at the battle of Bull Run on Friday last, was born in this city during the war of 1812, and was the oldest son of Daniel Webster. He was shot through the lungs, and died from hemorrhage and exhaustion. He had a wife and several children. His brother was killed in Mexico, and Mrs. Appleton, his sister, died a few years ago, so that none of the children of Daniel Webster are now alive.

☞ One night last week a daring thief entered the Court room in St. Johns, N. B., and stole and carried off the silk gowns, belonging to the judge, clerk and one or two lawyers.

In Epping, N. H., Dr. Nat Batchelder, who seems to be in some sort a "representative man," was arrested by order of Governor Berry for secession, and is now in Portsmouth jail, or as latest news says, Fort Constitution, whereat Portsmouth is so excited as to shake her cobwebs. What is to be done with Dr. Nat depends upon directions from the department at Washington. It seems that the doctor made a very secesh speech at Epping, whereupon a volunteer took him in his arms and quietly carried him out of the meeting. The doctor was foolish enough to prosecute, and the other party to make reprisals. As a result the man of medicine is in limbo.—*Portland Argus.*

The doctor is a "representative" of all the sympathizers with the great treason and rebellion. His present confinement in good quarters at Fort Constitution, has nothing of severity about it,—indeed it is quite too mild, if the statements against him are well founded, as we presume they must be, to lead to his arrest. Why he should have been moved from the jail is not very clear. We say this without the slightest ill-will against Dr. B., who is an old acquaintance of ours, and of whom we personally have no reason to complain. But in these times, it is absolutely necessary to know no friend but our country's. Down with the traitors, by word as well as deed.

HIGH SCHOOL NOTICE.—In accordance with the request of Surgeon General Hammond, for bandages and lint for our soldiers wounded in the late engagements,—

Voted, that the High Schools in this city be suspended between the hours of 11 A.M. and 5 P. M., until Saturday next, and that the scholars employ their time in making bandages and lint for the wounded New Hampshire soldiers in the hospitals; that the parents of the scholars and all others of our citizens be earnestly requested to cooperate in this movement, by sending cotton sheets and old linen to the High School House, Daniel street,—and also to render their personal assistance at the above hours. The utmost dispatch in this object is required. The citizens are also requested to send to the School House wines, jellies and cordials, which will be securely packed.

Contributions of money are also earnestly solicited, and may be sent to either of the Teachers.

The articles will be forwarded as soon as possible, under the direction of the City Government.

Citizens of Portsmouth, the wounded are calling upon you! Will you see them suffer? The smallest contributions are solicited, and may be sent to the School House.

Per order High School Committee.

JOHN BENNETT, *Sec.*

☞ Men are fond of amusing themselves with woman's fashions; but we would like to know what there is, that "fashion" *don't* rule? For instance, a few years ago, all the butchers used covered meat-wagons,—and we always considered them handsome carriages, too; whereas we now-a-days rarely see a 'butcher-cart' in this vicinity—tho' one is in our view now. "The fashions of this world pass away," not more surely and hardly quicker, in crinoline, than in carriages, horses, or what not, material or immaterial thing? To-day, war is all the rage, and standing armies and large navies; yesterday, how different! Well is it to remember, always, that we are "born but not buried"—and we cannot tell what a day will bring forth.

THE HAY CROP of New England is heavy this season, but considerably damaged by the wet weather at haying time.—The yield of second crop in this section, we think, is more general and heavier than we ever knew before, and there is much of it to be cut yet. In the fine field of ex Gov. Goodwin, in front of his residence in this city, we notice quite a quantity of herd's-grass has grown and well filled out to a head, the second time—which we believe we never saw before, though, as is well known, clover frequently does this for a second crop. This richly-manured field yields more and better hay yearly, than many starved farms of considerable extent.

☞ The crop of apples and pears is exceedingly large, this year—and the price so low that there will be plenty of cider and dried apples made. Along the road, almost anywhere, you will see many trees propped up, and some limbs broken down. Much fruit has "dropped" from the trees, all through the season; and the late winds shook off a tremendous quantity. But there is as much left, as the trees can ripen well.

☞ There was quite a heavy frost in this vicinity, Tuesday night. The bridges, &c., were white in the morning—but probably no great harm was done to vegetation.

AN APOLOGIST FOR THE TRAITORS.—D. O. Sullivan, formerly the editor of the Democratic Review, has written a letter to Gen. Franklin Pierce, which is published in London, wherein he apologizes for the Southern traitors. In his letter he uses the following language:—

"I may be execrated and exiled for it in my own section, or imprisoned in Fort Lafayette, within sight of my home. I will, nevertheless speak out the honest truth."—"My sole wonder is that the entire South did not, within three days after Mr. Lincoln's election, flash out in one blaze of insurrection from Maryland to Texas." After this, who will question that O'S. has fairly won his spurs?

☞ The Vermont State election was held on Tuesday. The returns, as far as received, give Governor Holbrook, the present incumbent, nearly ten times the number of votes cast for his opponent, Hon. B. F. Smalley, who heads the peace-democratic ticket.

☞ The Washington correspondent of the Philadelphia Inquirer says the attention of the Commander-in-Chief of the army has been occupied, for a few days past, in organizing a campaign against the Western Indians.

☞ Gov. Curtin, of Pennsylvania, to meet a requisition from the President, has issued an order for the formation of three cavalry regiments within 20 days. Advance pay and a bounty are to be paid.

☞ The Secretary of War has ordered the discharge of Mr. Charles Ingersoll, recently arrested for his speech at a Democratic meeting in Philadelphia.

☞ Gen. Mitchell is now in Washington, engaged in organizing a division, from the new regiments which have recently arrived at the Capital.

☞ Mr. John Plummer, of Prairie du Chien, Wis., has seven children, all sons, all born in England, and every one of them is in the army.

☞ An exchange says that the new levies raised in the West are being sent to the field ununiformed.

FAIRS IN NEW HAMPSHIRE.—1862.

At Portsmouth—Sept. 15th. Mechanical and Industrial. Also exhibition of vegetables, fruit and flowers. To continue five days. Proceeds to be devoted to the aid of volunteers.

At Milford—Oct. 1st and 2d. Hillsboro' Co. Agricultural and Mechanical Society.

At Weare, Purinton's Park—Oct. 2 and 3.

At Ossipee—Oct. 2d and 3d. Carrol Co. Agricultural Society.

☞ Dr. Dearborn, of East Salisbury, Mass., writes as follows:

EAST SALISBURY, Aug. 4, 1862

WM. GRACE, —Dear Sir:—Having been recently called upon to administer for a slight burn upon the arm and a bruise upon the foot of a small boy, occasioned by the fall of a small stone upon it; having one in hand some of your Salve, I applied it to both cases, and a few applications effected a cure, to my entire satisfaction. Having this opportunity to test the virtues of your Salve, I do cheerfully recommend it to the public as a good, safe, and efficacious application, and worthy the trial of those who may meet with similar cases.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 18th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Fresh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Sties, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 29 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 38 cents—or three Boxes for one dollar.

NEW HAMPSHIRE MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE
Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,

AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the best. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

The Fair will be held in

JEFFERSON HALL,

and a Large Temporary Building erected near it, making THREE LARGE HALLS in all, each connected with the other. In connection with the above, there will be a Hall fitted expressly for an EXHIBITION of

Fruits, Flowers, Vegetables, &c.

and contributions are solicited from any part of the State or elsewhere. Premiums will be awarded in this department similar to the County and State Fairs.

Exhibition open Day and Evening.

Tickets—Single Admission to the Entire Exhibition, 25 cents; Season Tickets, $1.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER, Corresponding Secretary, Portsmouth, N. H.

For further information apply to the same.

MORE VIGOR DEMANDED.—The New York World says that the "news from Virginia ought to fill up the quota of all the States within the present week. The capital again is in real danger, but the rebel armies are now within striking distance of our forces, and if men enough can be rushed into the field within the coming two weeks, the rebel army of Virginia can be utterly destroyed, and Richmond captured immediately afterward. Let the war committees now go to work with a will, and the ranks can soon be filled up. Push on the levies."

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstrations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, hot flashes, nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can why good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America.*

Explicit Directions, stating when they should not be used, with each Box.—*the Price One Dollar per Box*, containing from 50 to 60 Pills.

Steel Spring Saddle Horse,

(From the Home Journal.)

"Of all the child furniture we have ever seen, no article combines so much of those two important things—health and happiness—as the Adjustable Patent Steel Spring Saddle Horse, invented by Jesse A Crandall. It is not dangerous, like a common rocking horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its base, and its action is so like the gallop of a live horse that the child never wearies of it. This latest of child-novelties is exceedingly elegant and artistic in design; and so substantial and durable that it will last a lifetime. It is indispensable in every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made strong enough to sustain grown persons. As a pedestal for photographic pictures, nothing is more beautiful. Every Orphan Asylum and Institution where children are congregated, should be furnished with a number of these beautiful articles. They are fitted with side-saddles when required."

Different sizes of these Horses may be seen at the store of the subscriber, who is agent for the sale of them in this city.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swett's PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintance who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking two bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since.

CAROLINE H. SWETT.

This statement of my wife is correct.

SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.

HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1858. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. P. LEAVITT.

From ELDER I CRESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest her by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CRESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

THE WORLD IS WHAT WE MAKE IT.

O, call not this a vale of tears,
A world of gloom and sorrow;
One half the grief that o'er us comes,
From self we often borrow.
The world is beautiful and good;
How long will man mistake it?
The folly is within ourselves;
The world is what we make it.

Did we but strive to make the best
Of troubles that befall us,
Instead of meeting cares half-way,
They would not so appall us
Earth has a spell for loving hearts;
Why should we seek to break it?
Let's scatter flowers instead of thorns—
The world is what we make it.

If truth and love and gentle words,
We took the pains to nourish,
The seeds of goodness would die,
And peace and concord flourish.
Oh, has not each some kindly thought
Then let's at once awake it;
Believing that for good or ill,
The world is what we make it.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of R. H. Eddy & Co., Washington, (see dec 18, 1861.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Also, Reissues, Extensions, Designs, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters relating to Patents. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITIES, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of pushing their applications in a favorable course for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, all of which, of which patents have been granted, and the business done, has been satisfactorily proof of great talent and ability on his part, and I can recommend all inventors to apply to him in preference to any others, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made only one rejected application SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

SPEER'S SAMBUCI WINE,

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS,
SAMBUCUS TREE OF PORTUGAL,

Excellent Wine for Females.

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints.

Every Family should use the SAMBUCI WINE, celebrated in Europe as the most and beneficial Stimulating and Tonic Diuretic and Sudorific, highly recommended by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC it imparts healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is made from the Juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing decidedly superior to any other Wine in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, or strychnine or mixtures of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert E. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Also on hand, the celebrated and unequalled

MATHEWS'
VENETIAN LIQUID
HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1846; since that time it has been USED BY THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the skin, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL softness OF THE HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most permanent Dye ever used.

A correspondent writes from Frankfort-on-the Main that large numbers of Germans of every rank are offering themselves at the American Consulate for service in the Union army. Among the number is Karl Washington, a Bavarian baron, a lieutenant in the army of that country and a nobleman of high standing. He is wealthy, and speaks French, German and English. His ancestors, he says, were Hollanders, and emigrated from England to Holland about two hundred years ago; and he has the Washington pedigree, showing the original families were probably the same. Morning Chronicle.

Portsmouth, N. H.

A star for every State: a State for every star.

FRIDAY, SEPTEMBER 5, 1862.

A REQUEST.—Each and every person who is indebted to The Chronicle or The Gazette office, for newspapers, advertising or job printing, is hereby desired to settle the same as soon as convenient. And all having claims, to present them in these uncertain war times, it is best for all to keep their business as nearly square as possible, to be ready for any emergency.

THE REBELLION.

On Monday night there were a series of skirmishes along the whole front of our army in Virginia, and Hooker's division was mainly if not altogether, engaged in driving back the rebels. Tuesday morning, a train of 100 wagons with commissary stores, was intercepted by the enemy between Fairfax and Centreville, and driven off towards Manassas. This raid in our rear being known, the whole army, at noon, abandoned Centreville, and was massed this side of Fairfax Court House. Soon after, they again took up the line of march, and in the evening the advance was in sight of Munson's Hill. There was considerable fighting between Fairfax Court House and Washington. The rear guard consisted of Hooker and Fitz John Porter's commands, and did effectual service in keeping the rebels in check as our troops were moving in the fortifications protecting the city on the Virginia side. Gen. McClellan rode out to meet the returning column, and "was received with great demonstrations of gratification and pleasure by the army." The works for the defence of Washington are all in excellent condition, and are strongly manned by experienced artillerists. The gunboats now lining the Potomac are doubtless designed to prevent any attempt to interrupt the navigation of that river.

On Wednesday it was reported that the rebels were making a demonstration up the Potomac, and that some of them had already reached Leesburg, and are also spread between there and Chain Bridge, as if designing to cross the Ferry, somewhere in the neighborhood of Poolesville. It was also reported that Winchester has been evacuated, the rebels having appeared in force in the valley.

The Herald's Washington correspondent says on Monday Grover's brigade, of Gen. Hooker's division, had one of the fiercest bayonet fights that has occurred during the war. The brigade charged into the woods where the enemy were posted in three lines behind a breastwork, four or five feet high, and in about 20 minutes 507 of their number fell. Formed in one line, the brigade broke through two lines of the enemy, but being unsupported, they were obliged to fall back. *The 2d N. H. regiment, Col. Marston, actually crossed bayonets with the rebels*, and had a desperate encounter, in which they lost reverely, although they drove the rebels from their position.

The Herald's correspondent also states that immediately after accepting the command of the Washington defenses, Gen. McClellan proceeded to inspect the troops and fortifications on the opposite side of the river, and was engaged until midnight. He was received by the troops with great enthusiasm. A gentleman just from the rebel camp estimates the forces under the five generals, viz: Jackson, Longstreet, Ewell, Hill and Gustavus Smith, at not less than 250,000. They are all consolidated at Manassas, except Smith's column, 30,000, which is marching on Fredricksburg.

Savannah is garrisoned by five thousand troops under Mercer. The ram Fingal would not be ready for five weeks. The floating battery Savannah is conceded a failure. A large steamer, supposed to be the Nashville, loaded with arms, is lying at Savannah, having run the blockade via Warsaw Sound.

Gov. Curtin, of Pennsylvania, recommends all the people of that State to suspend business at 3 o'clock hereafter, and to devote the time to drill. Arms are to be furnished them.

Paroled prisoners say the report was prevalent among the rebel troops that Ewell had died of his wounds.

☞ The Governors of Maine, New Hampshire, Massachusetts and Rhode Island, met a delegation of the N. Y. National War Committee at Providence, R. I, on Thursday.

☞ It having been understood that fishermen are not to be exempted from a draft, a petition has been got up by the fishermen of Beothbay, Me., praying Gov. Washburn to exempt that class of citizens from draft.

LETTER FROM NEW YORK.

From our Regular Correspondent.

HARLEM TERRACE, N. Y., Sept. 2.

Dear Chronicle:—The Seventh Regiment returned from Baltimore last week, where they have served the country for three months by boarding at hotels and giving balls, hops and dinners,—returning they met with no ovation, no assembling of the populace, in addition to those whom the calls of business made present along the route. The 22d, 37th, and 71st, all volunteers for three months at the time of Jackson's raid in the Shenandoah, have also returned, and were more enthusiastically received, but to none was accorded a reception such as a similar occurrence two months since would have called forth.

New Yorkers have seen such an abundance of military during the last year and a half, (about 250,000 men) that they have lost their interest not only in the arrival and departure of regiments, but in the war itself. Excepting our foreign population, who are just at present wild over Corcoran, our citizens have lost their interest in everything, in the result of which dollars and cents do not figure. I have heard nothing which more closely illustrates this than a scene of which I was observant while foraging in a suite of public dining rooms at noon yesterday. Two friends were conversing on the momentous events which are daily transpiring in Virginia. One related to the other the latest telegrams, the terrible carnage, the terrific struggle on which the fate of the nation depended, and had scarcely closed his lips over the last word, when a third friend and listener, in the seat adjoining, with an American eagle as seen on a good dollar perched on every feature, inquired in the most business-like tone imaginable, "How's trade?" Now there's patriotism and self-sacrifice in its loveliest combination!—but nevertheless the leading idea of nine-tenths of our community.

By a late letter (Aug. 25th,) I have some information of sons of Portsmouth resident in that portion of the Confederacy which will be of interest to many of your readers. Messrs. Jas. W. Hickey, John Black, Wm. B. Bowles, Capt. Jos. Leach, and the Marcys, our informant writes, are in New Orleans, and in excellent condition—the former on parole, having been in arms when the city was taken. Mr. Quincy Lowd was acting junior lieutenant in the 11th Louisiana, and was in the engagements at Belmont and Shiloh. Chas. Sise, Esq. was corporal in Co. B, "Crescent Guards," but was discharged in consequence of an affection of the eyes, and is now at Mobile.—The writer then alludes to the battle at Baton Rouge, and its subsequent evacuation by the Federal forces, and says "six boats loaded with the killed, sick and wounded, came down the river, one bringing between 900 and 1000."

To morrow (Wednesday) morning at 8 o'clock, was the time appointed for the draft, but as the enrollment is not yet completed, it will not take place till after the 10th. One subject informed the enrolling officer that he had "mustered in," but being closely questioned by the official, explained it was his intention to say he "had mustard in," having taken it on his salad at dinner.

Readers of the papers, in search of the daily news, shouldn't be surprised if our Virginia commandant is guilty of a mistake, as every Pope makes a "bull."

Yours, NEWINGTON.

☞ A Washington dispatch to the Philadelphia Press, says Adj. Diachio, of the 49th Georgia regiment, (who is a prisoner, and desirous to return to Poland, his native country,) states that neither Jackson nor Ewell were in any of the recent battles.—The forces were commanded by Lee, Longstreet and Johnson, (not Johnston.) It was understood that Jackson and Ewell were in the Shenandoah valley, at the head of a considerable force. Only about half the rebel army was engaged, but reinforcements were close at hand. Adj. Diachio was captured with nineteen of his men. He, with an officer, wore shoes; the privates had their feet bandaged in rags. He says but few regiments were better off. The rebel army had no subsistence stores, the troops subsisting mainly on green corn found in the fields. There was a vast amount of suffering among them of all kinds.

☞ In reply to a Pennsylvania political committee, who had sent him some documents and asked his advisement, Hon. Sec. Seward says:—

"You will allow me to say that this nation is now engaged not in a political canvass between opposing parties about questions of civil administation, but in a civil war, carried on by opposing armies on an issue of national life or death. If the revolution prevail there will be no questions of administration left to settle. If it fail there will be time enough to settle all such questions."

☞ The blockade at Mobile is said to be no longer practically in force. Vessels are constantly running out and in, with supplies for the rebels. Coffee was so abundant that it was selling as low as 40 cents per pound. These statements are vouched for by a man recently arrived at New Orleans from Mobile.

NEW HAMPSHIRE ITEMS.

—— The full quota of Exeter is but 222, and ten more than this number had been enrolled before the statement of the quota was received.

—— The Manchester City Government offer $50 to volunteers for nine months, although the quota of that city is already full.

—— Miss Mary A. Verity, of Manchester, 12 years of age, has made up, alone, for the soldiers, a large box full of quilts, sheets, pillow cases, jellies, and many other comforts.

——A letter from Lieut. Platt, published in the Manchester American, gives a list of the casualties in the 2d Regiment in the late engagements. It says:

"We went into the battle with 32 in Capt. Carr's company, and only 16 have reported themselves this morning, Sept. 1. Frank O. Robinson was shot in the bowels and taken prisoner. Charles Tabor was shot in the head, and never moved afterwards. The following are the names of the wounded in Capt. Carr's company:—Charles McLaughlin, severely; W. Sidney, mortally; George McCannon, in foot; W. Fitzgerald, slightly in the leg; Cornelius Hastings, in the thigh; John B. Stevens, in hand; John Fife, in the neck; John Cushing, Thomas Bignal and George T. Clement, slightly."

The following officers of the 2d were wounded:

1st Lieut. Norton R. Moore, Co. F, shot and died while being carried from the field; 1st Lieut. Rogers, Co. G, the same; 2d Lieut. Cooper, Co. B, fatally; 2d Lieut. Holman, Co. H, fatally; 2d Lieut. Steel, Co. G, severely; 1st Lieut Young, Co. H, slightly; 1st Lieut. Ballard, Co. B, slightly; 2d Lieut. Roberts, Co. D, slightly; 1st Lieut. Gordon, Co. I, severely. Capt. Littlefield, Co. B, missing.

Lieut. Platt had his sword scabbard shot through.

—— Mrs. Frederick Worthen, of Manchester, whose husband is a teamster in the N. H. Battery, has received a very brief note from him, dated at Centreville, last Saturday, saying—"Battery boys all well."

—— The town of Claremont has enlisted fifty four men more than was required to fill both quotas under the calls of the Government, *and all are enlisted for three years*. When any other town in New England will show a better record, Claremont will yield the banner.

—— The Ninth Regiment was waiting at Arlington Heights last Saturday, for cartridges, and as soon as they received them, they expected to march to the battle-field.

—— The N. Y. Tribune's list of the killed and wounded contains the following additional names of members of N. H. regiments:—

6th Regiment.—Adj. Phin P. Bixby, Concord, killed; Capt. E. D. Comings, Co. H, wounded; Capt. Robert L. Ela, Concord, Co. I, killed: Lieut. Geo. H. Muchemore, Keene, do.; 2d Lieut. Timothy K. Ames, Peterborough, do.; Lieut. Charles L. Fuller, Peterborough, do.; Lieut. James C. Brooks, Co. C, Newmarket; Lieuts. Buckman and Mider, wounded; J. Hays, in thigh; J. T. Downing, do.; Wm. H. Reading, head; H. C. Flagg, arm; N. T. Hackett, breast; Geo. M. Cram, head, badly; James H. Smith, Co. E, shoulder, slight; A. F. Netting, Co. E, face; G. W. Stevens, Co. K; O. Blaiston, Co. D, fingers; G. W. Currier, Co. B, side:

2d Regiment.—The Tribune states that Capt. Joshua Littlefield, of Somersworth, was killed; Lyman A. Dickey, Co. I, wounded in arm; H. M. Shaw, Co. E, hand; G. H. Scranton, Co. D, arm.

1st Battery.—Lieut. John Tradley, (Wadleigh?) Manchester, killed; C. H. Dickey, wounded.

☞ The bark S. W. Holbrook, at Boston, from Havana, Aug. 25, brings information that a Confederate screw steamer (man-of-war) with three masts, anchored among the Cardenas Keys on the night of August 19. A schooner from Nassau, N. P., arrived at Havana on the 18th, and communicated with another Nassau schooner, and left immediately. The remaining schooner was shipping all the men that could be found, and the supposition was that they were for the war steamer alluded to above.

☞ Gen. Isaac Ingalls Stevens was killed on Monday, while leading his brigade into action, and himself bearing before them the flag which he loved with unsurpassed devotion, and which he died defending.—He was a democrat in politics and supported Breckinridge in the late presidential canvass, acting as chairman of the National Democratic Convention at Washington. A loyal and true-hearted lover of the Union, he at once severed all connection with his leader, when convinced of his treason.

☞ Rev. T. S. King, of California, has been enjoying a vacation in Oregon. He has spoken on the war and lectured for the benefit of a Presbyterian Church in Portland. By invitation of a Methodist clergyman he preached in the same place the first Sunday in August; being the first Unitarian minister ever listened to in that far-off commonwealth.

☞ The St. Paul, Minn., Pioneer of the 30th ult. says Col. Sibley's advance reached Fort Ridgely on Wednesday morning last. On Monday the Indians, in a large body, moved up the river towards Redwood.—They had a large train of wagons, horses and cattle, and are supposed also to have about 200 captives—women and children.

HOW TO MAKE LINT BY THE QUANTITY.—The following, by one of the employees of the Amoskeag Mills, where they make lint as fast as old linen is furnished them, we take from the Mirror:

"Take any cylinder from six to ten inches in diameter, covered with common card clothing, say an old card 'doffer' or 'licker-in,' or even the strippers on a common woolen card; put it into a 'grinder' frame, or even upon the centres of a turning lathe, where a velocity of 600 to 800 revolutions per minute can be obtained; then take the material,—old table covers, towels, napkins, sheets, &c., (these coarser fabrics being more easily worked than finer goods,)—fold them up like a common handkerchief and apply one end to the cylinder, holding fast with one hand to the other end, and using the other hand to press the goods up on the cylinder. This hand should be guarded by fastening a piece of common belt leather to the palm, allowing the end of the leather to project half an inch or so beyond the finger tips. Care must be taken not to allow the cloth to lie too far on the cylinder, as it will tear the cloth and make a poor article. By this method, any one familiar with cotton or woolen carding can make more lint, and of a superior quality, than 5000 persons can scrape by hand in the same time."

☞ Five regiments from the North arrived at Washington on Sunday, and went straight on into Virginia, toward the field. Thirty-five thousand men, of the new recruits mostly, have been sent forward from near by the city, *most* of them within the last three days. Among the regiments was the 33d Massachusetts, Col. Maggi. The captain of the color company of this regiment is Thomas B. Rand, formerly of this city. As senior captain he commanded a battalion of that regiment in the recent battles, although he has been but three weeks in the service. Although having had very slight opportunities for drill, we are assured that the service he was so suddenly and unexpectedly called upon to perform, was attended to in a highly-creditable manner.

☞ At the commencement of Brown University, the honorary degree of A. M. was conferred on A. B. Meservey of New Hampton, N. H., and Hon. W. P. Sheffield of Newport, and the degree of LL. D. on Judge Staples of Providence. The speaking at the dinner was wholly on the war.—Eloquent speeches were made by Gov. Washburn of Maine, Gov. Andrew of Massachusetts, Gov. Berry of New Hampshire, Gov. Sprague of Rhode Island, and Hon. B. F. Thomas of Massachusetts, and others.

☞ Thirty-five different countries sent samples of cotton to the English exhibition. The English people are confident that from some of them a new and sufficient source of supply will be opened.

☞ Five years ago the number of Bibles in existence was about four millions, in fifty different languages. The number at present is estimated at thirty-two millions, in two hundred different languages.

NEW HAMPSHIRE
MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE
Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,

AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the best. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

The Fair will be held in

JEFFERSON HALL,

and a Large Temporary Building erected near it, making THREE LARGE HALLS in all, each connected with the other. In connection with the above, there will be a Hall fitted expressly for an EXHIBITION of

Fruits, Flowers, Vegetables, &c.

and contributions are solicited from any part of the state or elsewhere. Premiums will be awarded in this department similar to the County and State Fairs.

Exhibition open Day and Evening.

Tickets—Single Admission to the Entire Exhibition, 25 cents; Season Tickets, $1.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER,
Corresponding Secretary,
Portsmouth, N. H.

For further information apply to the same.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 15th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Ears, Swelled Neck, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Fresh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Sties, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co, 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

Local.

IN BOARD OF ALDERMEN, on Thursday evening, a petition was received from Capt. Betton, asking that the time for paying the bounty of $200 to volunteers for 3 years, be extended to the 15th inst., to which time the draft is postponed. Granted by this Board.

A proposition to send a committee to Washington, with the contributions from this city, and to attend to the wants of our wounded soldiers, was referred to the Mayor,—a decision in regard to the matter to be made at a special meeting.

As in all probability such a committee will be sent, it is earnestly hoped that our citizens generally will do their utmost in sending in contributions; there can now be no reasonable doubt that the articles will be conveyed to those for the alleviation of whose sufferings they are designed.

☞ In accordance with the request of the High School Committee, a large quantity of old linen and cotton sheets, was sent to the Hi h School on Wednesday, and the scholars entered into the work of preparing the same with a will. We trust that our citizens will continue in the good work, for the time is short! Let every family send something that is needed. Pickles, piccalilli, acid preserved fruits, &c., are earnestly solicited. Also old calico dresses and men's old clothing, are greatly needed. Now is the time; let all give a helping hand. Our Portsmouth soldiers are wounded, and they appeal to Old Strawberry Bank not to lag in this work. Let this appeal go to every home, and let there be a response that will cheer the heart of every soldier. Let all the ladies in the city devote the present week to this labor, and let the High School be filled to overflowing with workers. All are invited. *

Messrs. Editors:—A piece in the Chronicle of Sept. 2, seems to require some explanation, for we must acknowledge it was rather a queer farce. For some time past the premises of the principal actor causing such a tumult near Market Square, have been visited not only daily but hourly, by those foragers so common in this city. He and his family were obliged to be constantly on the watch to save a few plums for home use and the trees from utter destruction On the day mentioned by "Spectator," a party of five made their appearance, and commenced an attack on the trees in question. After being discovered and chased in a westward direction, they escaped the first attempt at capture. The gentleman, on leaving home at 2 P. M., discovered the depredators in Court street, with hats and pockets well filled with fruit from premises of others. After some maneuvering, and a little, stratagy he caught two of them near Market Square. The description of the affair, noise, &c., is well given by "Spectator." We can only say that our neighborhood, since the affair of last week, has been comparatively quiet, with no rebels in sight. Should they come again, either to his place or the gardens of his neighbors, look out for another exhibition of speed. Let all orderly citizens do likewise and this kind of rebels will be scarce. A CITIZEN.

☞ We are pleased to learn that the Oratorio of Belshazzar, which was given with such general acceptance, at the North Church, last week, will be repeated on Wednesday evening next, for the benefit of the sick and wounded soldiers. The Concert will be given in the Unitarian Church.

☞ Immediate contributions from our citizens, for our wounded soldiers, are earnestly reqested to be sent to the High School House, as a City Committee will leave on Saturday or Monday, to see them properly distributed, and to look after the wounded.

☞ A private dispatch received in this city on Thursday afternoon from Washington, stated that Capt. George A. Gerrish, of the 1st N. H. Battery, was wounded in the recent battles in Virginia, and is now a prisoner in the hands of the rebels.

Capt. Robert L. Ela, Co. I, 6th Regiment, reported killed, is the eldest son o George W. Ela, Esq., formerly of this city

☞ The rebels assisted the men in the burial of our dead on Monday night, after stripping them of their clothing, with the exception of their pants. Our men say that the enemy were at the time so hungry that they rushed for the haversacks of our killed and wounded.

☞ Gen. Philip Kearney, recently killed in Virginia, was one of the boldest and most successful of our American officers. He has been styled "the thunderbolt of war." He lost an arm in the Mexican war. His name will live as long as the history of gallantry shall endure.

☞ In the year 1524, Hergott, the bookseller, was executed by command of Duke George, of Saxony, because he had sold a Bible. At the present time, 5000 societies are employed in distributing Bibles among Christians and heathen.

—— It is stated that the New Hampshire battery has lost three guns.

☞ The Methodist Camp Meeting at New Market Junction was a busy and animated scene on Wednesday. The previous days had been unfavorable weather,—but Wednesday was fair and cool, and every train brought accessions of people, while carriages by the hundred came from every quarter. Forty-two tents were pitched in a circle round the grove; and were densely peopled with persons who had mostly come from a distance. The crowd was largely increased by people who came to attend the war meeting in the afternoon, at which Gov. Berry was expected.

At the commencement of that meeting, four or five thousand people were drawn up in a compact body, in front of the preaching stand, — where perfect order reigned.

Gov. B. was not present, being suddenly called to Rhode Island, on pressing duty. Good speeches, however, were made by Rev. Dr. Barrows, of Boston, and others, among whom were Hon. John P. Hale,—and especially by one who had the best right to speak there, viz., a student for the Methodist ministry, who had enlisted when the war broke out, had lost a leg in battle, and was with us in uniform, but on crutches.

In all the speeches, the most thorough sentiments of loyalty and liberty were best received and most applauded.

The day was lengthened out into the moonlight, for the people from Portsmouth, by an accident to the freight train near Candia, where a car of coal (ten tons) got slightly off the track, and would not move out of the way till it was got on again.—Telegraphic orders went to Portsmouth, and a train of cars from the Eastern Railroad came out to bring us in,—but before they reached the Junction, the Concord train got through and came down, and then, to avoid collision, we waited till the Eastern train arrived,—when both trains came to the city in good order, and the passengers landed, having made a day of it.

☞ Eleven hundred paroled prisoners, some of whom were taken by the enemy on Thursday at Manassas, arrived at Georgetown on Tuesday, and report that Gen. Lee has established his headquarters three miles beyond Bull Run, on the Warrenton turnpike.

☞ Three immense rifled cannon, 7 1-2, 8 and 8 1-2 inch bore, have already been found in the hold of the prize steamer Bermuda. Other cases not yet opened are supposed to contain small cannon or rifles.

☞ Portland's quota is full, for all the calls that have been made by the Government.

☞ Dry goods received by late arrivals from Europe, are advertised in the Charleston papers.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long study and practice,—they are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America.*

Separate Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Steel Spring Saddle Horse.

[From the Home Journal.]

"Of all the child furniture we have ever seen, no article combines so much of these two important things—health and happiness—as the Adjustable Patent Steel Spring saddle Horse, invented by Jesse A. Crandall. It is not dangerous, like a common rocking horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its base, and its action is so like the gallop of a live horse that the child never wearies of it. The latest of child-novelties is exceedingly elegant and artistic in design; and so substantial and durable that it will last a lifetime. It is indispensable to every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made strong enough to sustain grown persons. As a pedestal for photographic pictures, nothing is more beautiful. Every Orphan Asylum and Institution where children are congregated, should be furnished with a number of these beautiful articles. They are fitted with side-saddles when required."

Different sizes of these Horses may be seen at the store of the subscriber, who is agent for the sale of them in this city.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., but she obtained no relief until I procured some ten or twelve bottles of DR SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. CAROLINE H. SWETT.

This statement of my wife is correct.
SIMON SWETT.
Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dis-tress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb 24, 1858. Dr Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM. P. RAVITT.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without the natural rest by day or night. She had applied to a number of physicians, but could not grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the diseases above named." ISAAC CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

THE WORLD IS WHAT WE MAKE IT.

O, call not this a vale of tears,
A world of gloom and sorrow;
One half the grief that o'er us comes,
From self we often borrow.
The world is beautiful and good;
How long will man mistake it?
The fault is within ourselves;
The world is what we make it.

Did we but strive to make the best
Of troubles that befall us,
Instead of meeting care half-way,
They would not so appall us
Earth has a paradise within;
Why should we seek to break it?
Let's scatter flowers instead of thorns—
The world is what we make it.

If truth and love and gentle words,
We took the pains to nourish,
The seeds of discontent would die,
And peace and concord flourish.
Oh, has not each some kindly thought?
Then let's at once awake it,
Believing that for good or ill,
The world is what we make it.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, D.C. (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches into the American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials bel ow prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

Those, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that a new pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN LAGOW.

During eight months, the subscriber, in course of his large practice, made on twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

SPEER'S SAMBUCI WINE,

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT.
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS,

SAMBUCUS TREE, OF PORTUGAL.

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sedative. Highly endorsed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gravel and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but the pure juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no admixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert B. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Also on hand, the celebrated and unequalled

MATHEWS'
VENETIAN LIQUID
HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1846; since that time it has been USED BY THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, interfere with the NATURAL softness of the HAIR,—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

For the Gazette.

MY EARLY HOME.

O, that I were a careless child,
As when I used to roam,
Unmindful of the fleeting hours,
Around my cottage home.
I love to think of those bright days,
Too beautiful to last;
And memory often brings them forth,
From out the treasured past.

I seem to breathe again the air,
Perfumed with fragrant flowers;
To hear the wild birds' carolling,
Within the leafy bowers:
One robin redbreast used to come
Constant at earliest dawn,
And perching on the moss-grown roof,
Pour forth his morning song.

And then how well I loved to stray
Beside the murmuring stream,
Or, seated on its grassy banks,
Youth's glowing fancies dream.
The sweet spring-blossoms earliest grew
Beside its rippling waves;
And lovely violets ventured forth
Above the withered leaves.

Bright picture of the past! no more
Will it return to me;
The mill, the stream, the shaded grove,
I never more may see;
The dear old home is changed and dark,
Its rooms are lonely now;
The flowers I reared with tender care,
Now all neglected grow.

The fields are just as green as then,
As balmy is the breeze;
The wild birds sing as joyously
Among the garden trees;
But no glad welcome meets them now,
No voice to their a response;
No light step sweeps among the vales,
Or o'er the hillock bounds.

'Tis past—all past, and life's stern path
In weariness I tread;
The golden future of my dreams
Its radiance has not shed;
For long, dark years have passed since then,
And grief has been my lot,
But oft my lonely, yearning heart
Looks back to that dear spot.

Portsmouth, N. H. H. M.

A FRENCH OFFICER'S OPINION OF AMERICAN SOLDIERS.—Col. Cluseret, of the army of the Shenandoah, has sent home a long letter, which appears in the Siecle, of Paris, and which eulogizes the American soldiers in the highest terms. He says they possess every quality of the French soldier and two other qualities besides; a patience and a resignation beyond all belief. He speaks of their long marches, without food and almost barefoot, as something unparalelled in military history, and believes them the first soldiers in the world.

"In the time of peace prepare for war," is a good maxim. But it is equally good the other way: *in war prepare for peace.* We war in defence of our civilization, and it is well to keep civilizing influences and agencies in as full and steady practice as the times still permit. It would be the worst possible economy to abandon them altogether, to let Art and gentle culture "slide," because fighting has become imperative.

As Indian chief once said as wise a thing as any philosopher. A white man having remarked that he had not time enough to do something, the Indian replied: "Well, I suppose you have all the time there is."

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other Foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions; and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

MR. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all inventors* to apply to him in preference to others, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth, N. H.

A star for every State: a State for every star.

SATURDAY, SEPTEMBER 6, 1862.

A REQUEST.—Each and every person who is indebted to The Chronicle or The Gazette office, for newspapers, advertising or job printing, is hereby desired to settle the same as soon as convenient. And all having claims, to present them. In these uncertain war times, it is best for all to keep their business as nearly square as possible, to be ready for any emergency.

BUTLER'S BLACK TROOPS.

At New Orleans, on the 22d ult., Gen. Butler issued, from the Headquarters of the Department of the Gulf, a General Order, No. 63, of which the following is the substance:—

"Whereas, On the 23d day of April, in the year eighteen hundred and sixty-one, at a public meeting of the free colored population of the city of New Orleans, a military organization known as the 'Native Guards' (colored) had its existence, which military organization was duly and legally enrolled as a part of the militia of the State, its officers being commissioned by Thomas O. Moore, Governor and Commander-in-Chief of the militia of the State of Louisiana;

And whereas, Such military organization elicited praise and respect, and was complimented in General Orders for its patriotism and loyalty, and was ordered to continue during the war;

And whereas, Said military organization, by the same Order, was directed to report to Major General Lewis for service, but did not leave the city of New Orleans when he did;

Now, therefore, the Commanding General, believing that a large portion of this militia force of the State of Louisiana are willing to take service in the Volunteer forces of the United States and be enrolled and organized to 'defend their homes from ruthless invaders;' to protect their wives and children and kindred from wrong and outrage, to shield their property from being seized by bad men; and to defend the Flag of their native country as their fathers did under Jackson at Chalmette against Pakenham and his myrmidons carrying the black flag of 'beauty and booty.'

Appreciating their motives, relying upon their 'well known loyalty and patriotism,' and with 'praise and respect.' for these brave men—it is ordered that all the members of the 'Native Guards' aforesaid, and all other free colored citizens recognized by the first and late Governor and authorities of the State of Louisiana as a portion of the Militia of the State, who shall enlist in the Volunteer service of the United States, shall be duly organized by the appointment of proper officers, and accepted, paid, equipped, armed, and rationed as are other volunteer troops of the United States, subject to the approval of the President of the United States. All such persons are required at once to report themselves at the Touro Charity Building, Front Levee street, New Orleans, where proper officers will muster them into the service of the United States."

On reading the above, Uncle Toby soliquized thus: The world moves—slowly perhaps to appearance, and not in a straight line,—nevertheless it moves.

Not long ago, Gen. Phelps, then at Baton Rouge, desired to enlist and arm negro volunteers, by whose aid he hoped to hold the place. He was not permitted to do so, and resigned. Baton Rouge has been attacked and is in danger. And now Gen. Butler issues the above singular order, which speaks for itself. Phelps grounded his proposed action on natural right and military need and power. Butler grounds his action on the precedent left for him by a rebel governor! and he is doing now, in *Louisiana*, exactly the same thing which was to turn against us in Kentucky 50,000 bayonets, if it were done by any Governor of a *free* State.

INVASION OF KENTUCKY.—The rebels, for the time being, have an unobstructed field in the finest portion of Kentucky, and they will fare sumptuously for a while.—They may undertake to continue their march to the border. The indications are that Buckner and Morgan are pushing forward to form a junction with Kirby Smith. Cerro Gordo Williams will also probably march from the Big Sandy Valley and join Smith at Paris. Vigorous measures have been adopted to prepare for the coming contest.

☞ A correspondent of the Dover Gazette states that the remains of a Miss Butler, interred about forty years ago in Berwick, were recently dug up to be removed a short distance. When the coffin-lid was raised, it was found that the body had been passing into a state of petrifaction. It had not fully attained that state, but was about as solid as limestone, and also strikingly resembled the same.

☞ The rebel steamer Nashville has again run the blockade. She got out of Warnaw Sound on the evening of the 26th ult. with a cargo of cotton, it is supposed, for England.

THE REBELLION.

The work of getting the army into a good position in front of Washington has been accomplished with entire success.—Not one army wagon was left on the route. Many of the troops occupy positions a short distance from the positions of last fall and winter. The new levies are arriving at the rate of several thousand a day, and are immediately assigned commissions to cooperate with the veteran troops. A number of gunboats have approached within view of Washington. Two of them are in the vicinity of Georgetown. Such craft never before appeared in that part of the Potomac.

The Washington Star of Thursday evening says, from intelligent and cool headed men among the returned prisoners, it learns that the main force of the enemy has certainly been drawn back to the northwest and northeast of Fairfax Court House, as though in a position to march back through Thoroughfare Gap, or forward to the Potomac at Leesburg with equal facility.

Kerby Smith's rebel forces were on Wednesday at Lexington, Versailles and Georgetown. The position is a good one for an advance on either Cincinnati or Louisville. On Thursday forenoon the Paris, Ky. operator evacuated his office;—the rebel infantry and cavalry were then entering the town. It is reported that Gov. Morgan is opposed to evacuating any part of the interior of Kentucky. Troops are being sent to Cincinnati and Louisville as rapidly as possible.

Boliver, Tenn., is reported to be invested by a heavy force under Price. There is also a large force of the enemy 7 miles distant. Gen. Villippigue is reported to have crossed the Hatchie river at Brownsville, on the night of the 1st inst., and is probably making towards Bolivar.

☞ The evacuation of Baton Rouge was effected without casualities, and the Union troops encamped at Carrolton.

It is rumored at Louisville, that on Thursday Gen. Gilbert's force was attacked by the rebels near Shelbyville, Ky., 30 miles east of that city. The result was unknown, but heavy reinforcements were rapidly approaching to Gilbert's aid.

Col. Rathbone has surrendered Spencer, in western Virginia, to the rebels. Col. Mulligan has been unable to find the rebels on the line of northwestern Virginia.

A Washington dispatch says it is believed from careful calculations that our whole loss in the late battles will not exceed 6000 wounded, 1000 killed, and 2000 prisoners who, with the exception of the officers, have been paroled.

The rebel iron-clad steamer Ovieto, now called the Florida, at Cardenas has been ordered off by the Governor General, but remains, alleging that she is in distress.—Three Union gunboats are waiting outside Cardenas for her. Two or three rebel steamers, it is said, have left Havana lately for parts unknown.

UNANIMITY IN VERMONT.—So far as returns have been received, unanimity of sentiment was exhibited at the recent election in Vermont. Burlington, in former years politically nearly an equally balanced town, this year gives the Union ticket 499, and the Peace Democratic ticket 10 votes. Four other towns give a unanimous Union vote, and two only one vote each for the Democratic candidate.

QUEER FISH.—The Lawrence Journal says "bakers and beer venders are looked after at Camp Stanton, Boxford, Mass., with a vengeance. Thomas Crosby, a fish dealer from Lawrence, was taken and his whole cart load of beer and gingerbread confiscated, while he was locked up in the guard house."

☞ The correspondent of the Philadelphia Press says Gen. Kearney was killed while making a reconnoisance alone. The ball struck his hip and passed into the abdomen. Army officers think this is the greatest loss we have sustained during the war, and freely acknowledge that we had no abler general in the service. Gen. McClellan wept bitterly at the sight of his dead body.

☞ A party who left Richmond on Friday states that 350 federal prisoners were taken to Richmond on Wednesday of last week. It was said at Richmond that at the raid on Catlett's Station, $5,000,000 worth of federal property was captured; also Pope's entire wardrobe, and that of his staff, and his paymaster, with $60,000. [These Richmond reports are to be taken with many grains of allowance.]

☞ Diamond dust is said to be as poisonous as strychnine, and chemical analysis shows the similarity. The celebrated poisoning case of Cook by Palmer, in England, for which the latter was hanged, took place by means of diamond dust, it is now believed.

☞ An American artist, William W. Story, is admitted by all the English critical authorities to bear away the honors in the department of sculpture at the Great Exhibition.

☞ No female nurses are wanted for the hospitals near Washington.

NEW HAMPSHIRE ITEMS.

——As later accounts come in, they prove that the first hastily-collected lists of the killed and the wounded in the recent battles, are very erroneous. Thus, the correspondent of the Boston Journal states that the following members of the 6th N.H. Regiment, who have been reported killed, were among the wounded:—Adj. Phin P. Bixby, reported wounded, taken prisoner; Capt. Ela, arm broken. The same correspondent states that the 2d N. H. was in the severe fire of the enemy for a considerable time, and is reported to have lost heavily. Col. Marston was not injured.

——Hon. Frederick Smyth, of Manchester, one of the commissioners from this country to the World's Fair, arrived at his home in Manchester on Thursday, after an extended tour of Europe, and received a hearty welcome from his fellow citizens.

——The N. Y. Tribune has the following additional list of the wounded:

2d Regiment—Corp. J. J. Gammon, W. L. Stebbins, Geo. W. McKinney, W. E. Bancroft.

6th Regiment—Sergt. Charles Thurston, James E. Sanborn.

——The Manchester American publishes a letter from Mr. John K. Piper, of the N. H. Battery, dated Centreville, Sept. 1, in which he says:—

We have been in battle for a week steady now. Friday we were shoved clear up in front of the enemy's whole fire, and badly used up. It was after dark and the fire was awful—beyond description. Lieut. John Wadleigh was wounded in the leg. The infantry that were supporting us broke and fled, but our men stuck by their guns until the rebels came up and knocked them down with their muskets. If we had not fought desperately, we should have lost the whole battery.

The 2d N. H. was badly cut to pieces. I saw Capt. Bailey, now acting Lt. Col. of the regiment, and Stephen Smiley, and they are safe.

☞ A correspondent of the Boston Traveller gives the following account of a visit to witness the drill of the famous Continental Company of Buffalo:—

I looked in one evening at the drill of a company of Continentals, composed of the "solid men" of Buffalo, and which has been organized with a view to ulterior service in case the rebellion cannot be put down without another call upon the patriotism of the people. Every man in this company is over 45, and most of them are large portly grandfathers, with gray heads, men of property and standing, and of conservative tendencies as you may infer from the officers—one Millard Fillmore being Captain, and ex-Post Master Gen. N. K. Hall 1st Lieut.

The Chaplain is Rev. Dr. Lord, once in bad repute among radical anti-slavery men, as Moderator of a South-Side Presbyterian Convention at Richmond, which did not treat with much favor the particular isms so long and persistently patronized by William Lloyd Garrison and Wendell Phillips. But Dr. Lord sees very clearly now the cause of the rebellion, and proposes to strike directly at it. Mr. Fillmore put his men through in good style, and the moral effect of raising the company among the fathers has had a mighty influence upon the military spirit and upon recruiting in the city.

SINGULAR.—The fact of Gen. Hunter's removal from the command of the Department of the South was not publicly announced until Tuesday, yet as long ago as the 21st of August, Jefferson Davis promulgated an order in which the removal is assumed to have taken place. That order commenced thus: "Whereas, Major General Hunter, *recently in command*," &c., language showing very plainly that the chief of the insurgents supposed or knew him to be already removed.

☞ The barque Prentiss Hobbs arrived at New York from Matanzas on Thursday. She reports that an iron clad war steamer arrived at Cardenas on the 19th ult., flying a piratical rebel flag. The pirate steamer has already captured several merchant vessels, although they were heavily armed, in her cruise off the Bahamas. Her pirate captain told the authorities that she was a rebel war steamer, without a name. She is undoubtedly the Ovieta.

☞ The Boston Courier has a letter from an officer of the regular army of the U. S. in Virginia, in which the writer says: "I am convinced I *like a rebel* quite as much as a nigger stealer; one breaks in upon the Constitution to save his property, the other to steal it; if slavery is a curse, it will cause its own destruction; it is Constitutional, therefore why interfere with it?"

☞ The dwelling house of Wm. Wharfield at North Blandford, Mass., was burned Saturday afternoon. Mrs. Wharfield, who was alone in the house, perished in the flames, her charred remains being found near the door. It is thought that she was taking her usual afternoon nap, and while asleep was suffocated. The cause of the fire is unknown.

☞ The story about 40,000 men under Stonewall Jackson, being *en route* for Baltimore, was doubtless made to send to Europe by the last steamer, for effect on that side of the water.

☞ It is estimated that the whole number of seamen in the world is no less than three millions, of whom 7,500 die every year.

☞ A man in California advertises three wheeled children's gigs."

NEW HAMPSHIRE MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE
Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,
AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the best. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

The Fair will be held in

JEFFERSON HALL,

and a Large Temporary Building erected near it, making THREE LARGE HALLS in all, each connected with the other. In connection with the above, there will be a Hall fitted expressly for an EXHIBITION of

Fruits, Flowers, Vegetables, &c.

and contributions are solicited from any part of the State or elsewhere. Premiums will be awarded in this department similar to the County and State Fairs.

Exhibition open Day and Evening.

Tickets—Single Admission to the Entire Exhibition, 25 cents; Season Tickets, $1.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER,
Corresponding Secretary,
Portsmouth, N. H.

For further information apply to the same.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 19th century by DR. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

Local.

☞ A special meeting of the Board of Aldermen was held on Friday forenoon, at the call of the Mayor. It was voted that a committee be appointed by the Mayor, to proceed to Washington at once, to attend to the wants of our sick and wounded soldiers, and Aldermen Junkins, Knowlton and Rider were appointed as the Committee.

The Committee announce that they will take any letters or packages which our citizens may wish to send to their friends in the army in the vicinity of Washington, and will deliver them to those to whom they are directed, if it be possible to do so. The High School House will be open for the reception of such articles, to-day and to-morrow, from 8 o'clock A. M. to 9 P. M. The Committee will leave on Monday morning.

☞ To surprise a good soldier is generally regarded as an extremely difficult and hazardous achievement, yet it is sometimes done; and we trust that Capt. M. T. Betton may never be more unpleasantly surprised than he was on Thursday evening. On that evening the Ladies of the Portsmouth Division Sons of Temperance most unquestionably did, by the practice of a little strategy, succeed in surprising him,—he being, in fact, taken entirely off his guard. Capt. Betton is a member of the Sons, and was present at their meeting on the above evening. While little anticipating any sudden interruption of the usual quiet enjoyment and advantage afforded by such occasions, he found a company of soldiers filing into the Hall, as if bent upon some important mission. The fact that they proved to be his own company, however, gave a pleasanter aspect to an affair which under different circumstances and in more southern climes might have seemed somewhat tragic. The soldiers having entered, the ladies advanced and presented to him and his brave fellows a costly and beautiful silk flag, inscribed "God and our Country." The presentation was as complimentary to the fine company who were the recipients, as it was creditable to the fair donors.]

☞ As Mr. John Langley, of Dover, a machinist employed at the Portsmouth Navy Yard, was at work on Thursday afternoon, he received a telegraphic dispatch stating that his son had been killed in one of the recent battles in Virginia; and shortly after received another dispatch stating that his wife had suddenly died of heart disease, on hearing of the death of her son.—His is, indeed, one of the saddest cases of the many produced by this civil war.

WARNING.—A little girl, 6 years old, hung on to the end of a dray in this city, a few days since, curling her feet under the end; directly the wheels went into a hollow, bringing the end of the dray to the ground, and breaking the thigh of the little girl. A little boy of the same age was at play on a pile of boards, and by a sliding of the boards had his leg broken. Both the bones were set by Dr. Folsom, and they are doing well.

☞ The alarm of fire at midnight on Thursday night, was caused by the burning of "Seavey's Mills" in Rye. They were a sawmill and a gristmill, worked by tide power, and belonged to Moses H. Odiorne.—The blaze lighted up this city,—but the fire was so far distant from us that no help from hence would have been of any benefit. The mills were partially insured. The bridge was injured, but is passable.

☞ Henry Sargent, a Marine who deserted from the Portsmouth Navy Yard somewhat over a month ago, was arrested by Police Officer Johnson, of this city, at Concord on Wednesday. He had been to Pittsfield, where he had enlisted for three years in a company of volunteers, which went to Concord on Wednesday to join the Eleventh regiment; and was arrested just as the company were marching upon the camping ground, after their arrival.

☞ We understand that the committee who were appointed by the Mayor, at a special meeting of the Board of Aldermen held on Friday, to proceed to Washington to look after the sick and wounded soldiers of this city, have declined serving, it being understood that an arrangement is to be made to have the business forwarded without expense to the city.

The arrangements at the High School House for the reception of goods, will remain the same as published, only closing this eve.

☞ We are pleased to learn that another private dispatch from Washington, received in this city on Friday afternoon, stated that Capt. George A. Gerrish, of the N. H. Battery, although a prisoner, was not wounded in the late battles.

☞ Let every one send something to the High School, to-day. Old shirts that can be mended, are earnestly solicited.—Let no one refrain because they fear that what they have is too small to send. Send it in, however small your contribution.

☞ Corporal Gammon, of this city, Co. K, 2d N. H. Regiment, is among the sick and wounded who have arrived at Philadelphia.

☞ Capt. Towle's Company of Volunteers was mustered into the U. S. service on Thursday. We learn that 71 of his Company passed the surgeon's examination.

☞ We learn that orders have been received at the Portsmouth Navy Yard to build two new steamers—one side-wheel and the other iron-clad.

☞ We are indebted to Col. John H. Jackson, of the 3d N. H. Regiment, for a copy of the New South, the publication of which, after a short interruption, has been renewed at Port Royal, S. C.

Also to Mr. George F. Willey, of the Eastern Express Company, for late New Brunswick papers.

☞ The U. S. steamer Augusta, Capt. Parrott, arrived at Philadelphia on the evening of the 3d inst.

Steel Spring Saddle Horse.

[From the Home Journal.]

"Of all the child furniture we have ever seen, no article combines so much of those two important things—health and happiness—as the Adjustable Patent Steel Spring Saddle Horse, invented by Jesse A Crandall. It is not dangerous, like a common rocking horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its base, and its action is so like the gallop of a live horse that the child never wearies of it. The latest of child-novelties is exceedingly elegant and artistic in design; and so substantial and durable that it will last a lifetime. It is indispensable in every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made strong enough to sustain grown persons. As a pedestal for photographic pictures, nothing is more beautiful. Every Orphan Asylum and Institution where children are congregated, should be furnished with a number of these beautiful and reliable. They are fitted with side-saddles when required."

Different sizes of these Horses may be seen at the store of the subscriber, who is agent for the sale of them in this city.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were affined, and all witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by medicine which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. CAROLINE H. SWETT.

This statement of my wife is correct.
SIMEON SWETT.
Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
HANNAH BROWN.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often severe pain, so that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1860, she had been confined for a number of weeks, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it does not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

SPEER'S SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS FREE OF PORTUGAL.

The Great Remedy for Kidney Affections, Rheumatism, Gravel, Complaints Incident to Females.

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in Speer's Vineyard, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak, and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, delicious flavor and invigorating properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D has now the gratification of presenting the unfortunate with remedies that have never, since the world introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Ancyloses, Strictures, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Eruptions of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, Delusions of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all part of the country, with full directions for use, on receiving description of your case. Dr. Dow has also the greatest French Capotiles, warranted the best preventive. Order by mail. These for $1 and a red stamp.

CAUTION.

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, Nos 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon recovers to perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

in all cases. No Charges Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all different and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Meudum,
Henry F. Wendell, John Sise, and others.

Also on hand, the celebrated and unequalled

MATHEWS'

VENETIAN LIQUID

HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1846; since that time it has been USED BY THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL softness of the HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

SOLD BY ALL DRUGGISTS.

Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity, and throughout the State. ☞ Liberal terms for yearly advertising.

The Chronicle.

SWALLOWED A HOLE.—The other day Charlie, five years old, found one of those curious bone-rimmed circles, which I believe ladies have named eyelets, and while playing in the garden, swallowed it. The family were in the house busily engaged on a work of entomology, when Charlie ran in with mouth wide open and eyes distended to their utmost capacity.

His mother caught him by the arm, and trembling with that deep anxiety which only mother can feel, inquired—

"What is the matter? What has happened?"

The urchin, all agape, managed to articulate—

"Water!"

It was brought him; when, after drinking copiously, he exclaimed—

"Oh! mother, I swallowed a hole!"

"Swallowed a hole?"

"Yes, mother, swallowed a hole with a piece of ivory around it!"

A PHYSICAL TRAIT OF THE HAYTIENS.—A traveller writes:

"The Blacks of Hayti have a singularly delicate sense of smelling. They often unconsciously display this physical peculiarity in the most ludicrous and unusual modes.—When they are buying anything, for example, even things devoid of odor—such as a key, a tumbler, or a plate—they frequently involuntarily put it to their nose, as if to test its freshness, as our housewives would test the freshness of meat or fish. Take a gold ring with an alloy or copper in it and they will instantly detect the presence of the baser metal by the sense of smelling.—So, at least, I was told by curious and accurate observers."

A SPLENDID LIGHT.—The new theatres in Paris are lighted by a new system. "Imagine," says a reporter for one of the journals, "for the ceiling of the vast hall an immense ground-glass occupying the whole of the cupola, behind this place some 1500 gasburners, and above them a sort of great white cap, which serves as a reflector and sends down the light. This passes through the ground-glass and falls like a soft rain over the entire hall, which it fills with a brilliant light, and yet which has nothing harsh and fatiguing to the eyes.—Not a single gas-burner is seen, throughout the theatre, and yet it is lit up to its darkest corners.

THE CAP OF LIBERTY.—The explanation of the cap of liberty is this:—"After the death of Cæsar, the conspirators, who had secured his death, marched out with a cap, as an ensign of liberty, carried before them on a spear—the cap without a head, indicating that the tyrant had lost his power. From that fact, and for this reason, it has ever since been an emblem of liberty."

☞ Stonewall Jackson has been made a life Director of the Southern Bible Society.

He that sympathizes in all the happiness of others, enjoys the safest happiness; and he that is warned by all the folly of others, has attained the soundest wisdom.

A lady correspondent in Auburn sends us a piece of poetry entitled, "Kiss me before you go." We will do so with exquisite pleasure. The times call for every man to do his duty!—*Lewiston Journal.*

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Models of the claims or any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. ALL THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has acted for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

MONDAY, SEPTEMBER 8, 1862.

THE REBELLION.

Many reports and rumors come over the wires in the absence of authentic news. It is asserted that the rebels are now preparing to cross into Maryland. Our forces are vigilant and active. Large masses of our troops continue to be marched night and day to positions within striking distance of the river fords. In front of our army also, the rebels are active, and our pickets were driven in on Friday afternoon, by a detachment of the enemy's artillery and cavalry. It is reported that Jackson has entered Leesburg with his troops, and is pushing towards Harper's Ferry, and Longstreet with a considerable force is marching in the same direction. It appears by a private letter that our troops have been withdrawn from Aquia Creek, if not altogether, certainly in part. The military stores have been amply secured. Five or six gunboats were at last accounts lying in that vicinity.

An order has been issued at Cincinnati, compelling citizens to be in their houses by 9 P. M.

New Orleans is believed to be safe against any attack the rebels can make. Our troops are strongly intrenched. Baton Rouge has not been burned. The town is now held by our gunboats, which have already repulsed a rebel attack, and are competent to protect it.

Middlebury, Tenn., seven miles from Bolivar, it is said was taken by the rebels on Sunday afternoon, after several hours' fighting. We lost 37 killed and 7 prisoners; the rebel loss was 4 killed and 8 wounded.

It is reported that a small body of rebels on Wednesday crossed the Ohio river, and advanced to Racine, O., where they killed one man, wounded two others, and stole 12 horses; that they then re-crossed the river and encamped for the night; and that subsequently they were crossing at Racine, and advancing on both sides of the river. The people were rising to resist them.

Farmers from the upper part of Montgomery county, Md., report that heavy firing was heard late Friday evening in the direction of Norton's Ferry. The rebels are posted in strong force at several points on the opposite shore, and a battalion of cavalry and 4 pieces of artillery crossed the river near Point of Rocks, on Friday, but did not venture far. In a short time they returned.

A small rebel force occupied Frederick, Md., on Saturday. After the evacuation of Fredericksburg, Va., many of the people packed up shoes and other much needed articles which they had bought of our sutlers, and sent them to the rebels.

A rebel force which attacked our troops at Stevenson, Ala., were repulsed with heavy loss. Bragg is reported to be marching on Nashville.

The latest rumors are that Pope has been relieved of his command.

☞ At the opening of the United States District Court in Admiralty at Buffalo, on Tuesday, Judge Hall decided that no lawyer was entitled to practice in that Court who had not procured a license to practice, as required by the Federal Tax Bill.

☞ It is reported that preparations, both military and naval, are making by France, in view of Italian eventualities.

☞ The new fortification works at Plymouth, England, have been carried away by the sea.

☞ The Tribune's Washington correspondence says Capt. Samuel Phillips Lee has been appointed Acting Rear Admiral, and assigned to the North Atlantic blockading squadron, in place of Goldsborough, relieved at his own request.

☞ The Chicago Tribune pronounces the reported battle and victory by General Buell in Tennessee, a *canard*, on the authority of an officer direct from Gen. Buell's headquarters.

☞ In the recent battles the rebels had a corps of unarmed men, whose duty it was to bear off the killed and wounded as fast as they should fall, or as soon as their removal could be effected.

☞ A rebel mail recently captured in the vicinity of Fredericksburg confirms the report of the enemy's heavy losses, especially among the officers, including Gen. Ewell.

☞ The steamer Fulton, at New York, from New Orleans, brought the statue of Washington, taken from Baton Rouge.

☞ The remains of Col. Fletcher Webster reached Boston on Friday morning.

NEW HAMPSHIRE ITEMS.

—— Commander Francis Winslow, of the gunboat R. R. Cuyler, who died a few days ago on the southern coast, of yellow fever, was a native of Dunbarton, this State. He was a very efficient officer, and had rendered signal service in the capture of blockade runners.

—— The Mirror states that Col. E. Q. Fellows of the 9th Regt. has been made acting Brigadier General—his brigade consisting of the 9th N. H., 108th N. Y., 128th and 132d Penn. Regiments, encamped near Fort Woodbury, Va. Wm. A. Webster, M. D., of Manchester, has been appointed Brigade Surgeon, and Lt. John Edwin Mason, also of Manchester, Aid-de-Camp to Gen. Fellows.

—— In a collection of flags shown in front of the Traveller building, in Boston, last week, was one which was carried by New Hampshire troops through the war of the Revolution. Its stripes were once red, but have faded to yellow.

—— The Washington correspondent of the Concord Statesman, states that Gen. Hooker, said, after arriving from the Peninsula:—

"I know my men, and I think they know me. We have a perfect understanding of each other, and will work together, and I trust do our duty. Your New Hampshire boys (the 2d Regiment) are my right hand men. They never fail me."

—— A letter from the 7th Regiment in the Manchester Mirror, states that no charge has been made against Col. Bell, of the 4th Regiment, who is under arrest at Port Royal, and the probability is, that there is none to make. The General Order, purporting to come from Gen. Hunter, censured him without specific charges, or a Court Martial, at which the true state of the case could be ascertained by investigation. The correspondent says he speaks from a knowledge of the circumstances, and is sure complaints were made to Gen. Hunter or his staff, by irresponsible persons, who designed to injure Col. Bell in the estimation of the Commander of the Department.

—— Among the Volunteers for nine months in Londonderry, is Col. Charles R. Clark, who was Colonel of the Eighth Regiment of N. H. Militia, in the days when we had "trainings" instead of battles for excitement.

—— Arms sufficient for four regiments have been sent from Washington, for the New Hampshire Volunteers. Two thousand are Springfield rifles, and the remainder are from an armory in France.

—— Seven companies of the 12th Regiment were in camp at Concord on Friday, and two more companies were expected on Saturday.

—— On Thursday evening, a large sawmill owned by D. Green, was burnt at Berlin Falls, together with a large amount of lumber,—total loss, $8,000 to $10,000.

—— The post office at Sandwich, was broken open on Monday night, and all the letters stolen except those in the safe.

——Evarts W. Farr, of Littleton, a captain in the 2d Regiment, who lost an arm at the battle of Williamsburg, has been appointed Lieut. Colonel of the 11th. Edward R. Hutchins, of Concord, has been appointed Assistant Surgeon of the same regiment.

—— Chas. D. Thompson, in the employ of the Manchester Print Works, sends yearly to London apples for sale. This year he intends to send 1000 barrels, and has already engaged 400 barrels at $1.00 per barrel. He sends none but the best kind.

—— Matthew H. Worthen, who was buried in Manchester, on Thursday, was next to the oldest of ten children, the youngest of whom is 30 years of age. He is the first of the number that has died.

ANOTHER OF THE SONS.—Several prominent gentlemen, in Brooklyn, N. Y., have been authorized by Gov. Morgan to recruit a regiment from the first three Senatorial Districts of New York State, and, in their official announcement of the fact, state that "the regiment will be commanded by an officer of great distinction, and graduate of West Point, Capt. Matthew Marsh Blunt, at present acting Colonel of the 12th Regular Infantry, with the Army of the Potomac." Capt. Blunt had previously been selected to command two regiments from New York City, but so highly did Gen. McClellan esteem his services, that he declined to permit him to be transferred to the Volunteer service. Capt. Blunt is a native of this city.

☞ The brave Col. Brodhead, of the Michigan Cavalry, died of his wounds, near the battle-field, on Tuesday afternoon. Two bullets had passed entirely through his body. He was about 38 years old, a native of New Hampshire, and son of Hon. John Brodhead, formerly M. C. from this State. He served through the Mexican war, and was conspicuous for intrepidity and daring. A nobler soldier does not survive him.—His remains have been brought to Alexandria. In the last letter he wrote, all stained with his blood, he says:—"I have fought manfully, and now die fearlessly. The old flag will triumph yet. The *soldiers* will gild its folds, polluted by imbecility and treason."

ABUNDANCE OF ARMS.—The National Intelligencer of Washington says that the War Department has arms in readiness for all the troops which have so far been mustered into service; and its arrangements for the future ensure a full supply as more troops take the field. There is no foundation for the reports that there is a scarcity of arms, and that the Department will therefore be forced to pay high prices.

This is good news:—and now let the three years' men and nine months' volunteers press forward to their posts of duty and usefulness:—and let the President call for one or two hundred thousand, or more, volunteers for *six months*, to begin their service on the first day of November. These men would clothe themselves, (being allowed monthly pay for it,)—and if our forces were poured upon the enemy in great masses during the winter, at all assailable points,—the rebel power might be broken before spring.

These additional forces, in any desirable number, might be obtained for short terms readily, and without great bounties.

☞ A religious movement of great interest is springing up in Turkey. In Constantinople immense excitement has been produced by the work of a German missionary against Mohammedanism. A reply has been prepared and is circulating among the Mohammedans.

A SHOAL OF FISHES.—On Sunday the menhaden were so plenty in the bay, as to form an almost unbroken body, rods wide, from Plum Island to Hampton river. A fisherman at Salisbury beach waded in with a basket and scooped up a bushel at once. A million of barrels would not have contained the fish in sight, and when the waves rolled in they turned up in the sunlight like new mown hay raked in rows.—*Amesbury Villager.*

☞ The Salem Gazette says the company of nine months' volunteers which has just been raised by Messrs. J. Langdon Ward and E. W. Phillips, in that city, was organized on Wednesday last. The following officers were unanimously elected:—Captain, J. Langdon Ward; 1st Lieut., Edward W. Phillips; 2d Lieut., Wm. H. Hurd.

☞ Gloomy reports of our national affairs, it must have been remarked, have been exceedingly rife just on the eve of the sailing of the English steamers. These are now called "Reuters," (which term is synonymous with "Roorback") and they are made to order to suit the London market.

☞ Barnum is making the Boston Aquarial Gardens as attractive as any mortal can. Among the many other attractions, Gen. Tom Thumb and Com. Nutt are to have a grand trial of merit and skill, for a prize of $1000. The engagement commences on Monday, 8th inst., and will continue two weeks.

☞ It is said that Gen. Heintzelman advises that when the draft is made the men be allowed the privilege of joining the old regiments, and all who do so to receive the bounties. He thinks they can fill up the old regiments in that manner. The Secretary of War has decided not to fill up the old regiments with drafted men, unless they volunteer to go in them.

☞ The World states "on good authority," that Sec. Stanton tendered his resignation to the President on Thursday, and that it was accepted, and Gen. Halleck appointed his successor.

Reports from Helena, Ark., state that Brig. Gen. Albert Pike, of the rebel army, is under arrest for treason to the rebel Government.—*National Intelligencer.*

☞ The Bombay Chamber of Commerce have forwarded $25,000 to the Mayor of London, for distribution amongst operatives suffering by the cotton famine in England.

☞ Gen. Stahl was not killed, as reported. A telegram from unquestionable authority says that he was not even wounded.

☞ Rev. J. W. Hanson, Pastor of the Universalist Church in Haverhill, Mass., has been appointed Chaplain of the "Old Sixth" regiment.

☞ It is said to be now definitely settled that the first call for 300,000 volunteers embraced the number requisite to fill up the old regiments.

☞ Hon. J. Holt has been appointed by the President, Judge Advocate General of the Army, with the rank of Colonel. He will enter upon his duties without delay.

☞ The celebrated statue of Washington has been removed from Baton Rouge to New Orleans, by order of Gen. Butler.

☞ The Granada Appeal confirms the Federal evacuation of Baton Rouge, but does not say the place is destroyed.

☞ Hon. James F. Simmons has resigned his seat as U. S. Senator from Rhode Island, and the General Assembly have elected Lieut. Gov. Samuel Green Arnold to fill the place for the remainder of the term, which expires on the 4th of March next. Mr. Arnold received 71 of the 81 votes cast.

☞ There is a strike among the harness makers in Newark, N. J. On Friday the workmen paraded the streets. Most of the manufacturers, it is thought, will accede to their demands, as they have Government contracts to fulfill.

FROM MINNESOTA.—The Indians attacked Forest City, Minn., Sept. 3d, and were repulsed. Capt. Strout writes to the Adjutant General from Hutchinson on the 3d, that he was attacked by 150 Indians, a part of whom were mounted. The fight lasted two and one-half hours, when the Indians gave way. Our loss was 3 killed and 15 wounded. Capt. Strout also states that the Indians had excellent guns, and were dressed partly in citizens' clothing and rode horses. He thinks the difficulty in that vicinity will be very serious.

☞ The Washington Star affirms that "the stories alleging that considerable quantities of our quartermaster's and commissary's stores fell into the hands of the rebels in the course of our late retrograde movements, are untrue. With the exception of the 50,000 rations only that they captured at Manassas, (which, by the by, were well nigh entirely wasted by the party making the capture, in their famished eagerness, each to clutch whatever he could to eat,) no other of our provisions fell into their hands. They also took forty-eight wagon loads of hospital stores, the bulk of them being whiskey only. We have been able to hear of no other captures of stores made by them."

A Card.

To Mr. JOHN G. TIBBETTS and associates, painters at the Navy Yard, and Mr. E. D COFFIN, Portsmouth:

Fellow Workmen:—I can scarcely find words to express my gratitude for the manifestation of your kind regard, upon the occasion of the presentation to me, of a valuable Sword, Belt, and Sash, on Friday evening last.

This is but a continuation of the kind services I have so often received at your hands, and which have so many times before, laid me under lasting obligations to you. This gift will serve to recall the pleasant hours we have passed together, and to remind me, that when you "*cut off the painter*," it was with a hope that, ere long, we would be made fast again, at his old moorings.

I give you my most grateful thanks; and promise that, with God's help, my sword shall never seek its scabbard in disgrace.

NEW HAMPSHIRE MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE

Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,

AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the best. As this is to be a STATE Instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cane and Leather Frames, and all kinds of Fancy Work.

The Fair will be held in

JEFFERSON HALL,

and a Large Temporary Building erected near it, making THREE LARGE HALLS in all, each connected with the other. In connection with the above, there will be a Hall fitted expressly for an EXHIBITION of

Fruits, Flowers, Vegetables, &c.

and contributions are solicited from any part of the State or elsewhere. Premiums will be awarded in this department similar to the County and State Fairs.

Exhibition open Day and Evening.

Tickets—Single Admission to the Entire Exhibition, 25 cents; Season Tickets, $1.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER, Corresponding Secretary, Portsmouth, N. H.

For further information apply to the same.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Limbs, Chilblains, Chapped Hands, Ringworms, Sprains, Flesh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Sites, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 20 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

☞ We understand that Aldermen Junkins and Rider, and Messrs. W. R. Preston and Rufus K. Oxford, have been appointed a committee to proceed to Washington with the Hospital Stores, for the sick and wounded soldiers of New Hampshire. The committee will leave this city at 11 1-4 o'clock to-day, (Monday) for Washington. All persons having letters or packages to be sent to their friends, should leave them with the committee as soon as possible. Messrs. Jackson & Co's Express have offered to carry the same free of expense, and the committee have accepted the offer. The number of boxes and cases which the committee will take, is 28 large packages of clothing, delicacies for the sick, &c., contributed by the citizens of Portsmouth.

To meet special or individual cases, *Contributions of Money* are needed by the committee; and any funds furnished either of the committee in season this morning, will be carefully and judiciously applied.

☞ We now have in this city four recruiting offices. Those who have been engaged in this business have met with good success. But our quotas are not all filled; we fear that they will not be filled, if our citizens do not manifest a strong personal interest in the matter.

The mere fact that we have as recruiting officers, young men who are worthy of all confidence, will not alone insure the filling up of our quotas. It is absolutely necessary that all who feel an interest in obtaining recruits and in putting down the rebellion, should manifest that interest constantly.—For there is need of hard, unceasing labor, and every one should do something to aid the good cause. Each individual must decide for himself in what manner he, as a citizen, can accomplish the most good. It is unpardonable for any one, at such a crisis as this, to claim that he can do nothing for the cause. Each man can accomplish something. No man is without his influence, for good or for evil. If any man can so deceive himself, as really to believe he has no influence, perhaps the best thing for his country he can do, is to enlist. And, indeed, those having the most influence over others, can in no better way exert that influence, than by enlisting, and inducing others to follow them.

☞ Measures have recently been taken to organize a volunteer company in this city, for home defense. A paper has been circulated and a large number of names obtained, principally of those who are by age exempt from military duty. The signers held a meeting at the Common Council Room on Saturday evening, when Joseph B. Adams, Esq., was elected Captain of the company, and C. C. Jackson, Esq., First Lieutenant. The company then adjourned until this (Monday) evening, when the remaining officers will probably be elected.

☞ Capt. M. T. Betton, on Friday evening, was the recipient of a handsome and costly sword, sash and belt from his late fellow-workmen at the Portsmouth Navy Yard. His acknowledgement of their kindness will be found in our advertising columns this morning.

A CORRECTION.—*Messrs. Editors:*—In justice to the preacher mentioned in "Sigma's" first communication on "Discouraging Enlistments," we would state that upon inquiry we find that a mistake has been made, whereby the wrong person was named. The objectionable address or exhortation was made the Sabbath previous to the one named, by a person who, let it be mentioned for the honor of old Portsmouth, is not a resident of this city. We willingly make this correction without being requested so to do.

The other statement, that "the society had voted never to take up arms, even if drafted," probably arose from the fact that a number of the members of this church had signed a petition to be presented to the President, asking to be exempted from military service on account of "conscientious scruples." There is a little disagreement between the statement of our informant and that of the church member, which is probably only a misunderstanding. Mr. Wood, however, informs us by authority, in behalf of the society, that the statement in reference to the meeting purporting to have been held, &c., is untrue!

SIGMA.

☞ On Friday night, two horses belonging to Harry Bright (really Henry Brittroff, or some such spelling,) were killed by the freight train on the Eastern Railroad, near the Creek in this city. Harry has always been very fond of pasturing his cows, pigs, and other animals, in the roads and streets even, to the disgust of all lovers of decency and good order; and, we are told, has frequently turned his horse in upon the railroad premises at night to graze. This time, when the freight train came along, the three were at or near the Creek bridge, which is perhaps fifteen or twenty feet high—and one jumped down and ran safely away; while the other two, which were of considerable value in doing his stevedore's work, were killed. Sorry for his loss, but we wish every road cow in the city was served likewise.

☞ It will be seen by our City Council report, that the proposed $400 bounty will *not* be paid; but that the $200 will be continued to recruits for several days yet.

CITY COUNCIL.—At a special meeting on Saturday evening, the Common Council passed, in concurrence, the ordinance extending the benefits of the relief fund to the families of those residents of this city serving in the U. S. Navy. This ordinance was passed by the Board of Aldermen about two weeks since, but was not then concurred in by the Common Council. The law of the State requires that towns and cities shall extend to the families of those in the Navy the same benefits as are enjoyed by those of Volunteers in the army.

The Common Council passed an ordinance extending the time for the payment of the bounty of $200 to volunteers for three years, to the day on which a draft is ordered to be made. Concurred in by the Board of Aldermen. This bounty of $200 will, therefore, be paid to all who enlist for three years to make up the quota of this city, whether they enlist in old or in new regiments; and should the time of the draft be again extended, the time for the payment of this bounty will also be extended to the same date.

The Common Council *rejected* the bill giving $400 bounty to volunteers for three years, by a vote of four to nine.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their effect, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of such complaints, as prolapsus, or falling of the womb, which has consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, perfect regularity.* They are known to thousands, who have used them at different periods, through out the country, having the sanction of some of the most *eminent Physicians in America.*

Steel Spring Saddle Horse.

[From the Home Journal.]

"Of all the child furniture we have ever seen, no article combines so much of those two important things—health and happiness—as the Adjustable Patent Steel Spring Saddle Horse, invented by Jesse A Crandall. It is not dangerous, like a common rocking horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its base, and its action is so like the gallop of a live horse that the child never wearies of it. The latest of child-novelties is exceedingly elegant and artistic in design; and so substantial and durable that it will last a lifetime. It is indispensable in every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made strong enough to sustain grown persons. As a pedestal for photographic pictures, nothing is more beautiful. Every Orphan Asylum and Institution where children are congregated, should be furnished with a number of these beautiful articles. They are fitted with side-saddles when required."

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some tea or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENKINS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. I had from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. CAROLINE B. SWETT.

This statement of my wife is correct.
SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1833. Dr Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints.
WM. P. LEAVITT.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicine shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

FAITH.

A swallow in the spring
Came to our granary, and built the eaves
Enough to make a nest, and there did bring
Wet earth and straw and leaves.

Day after day she toiled
With patient art, but ere her work was crowned
Some sad mishap the tiny fabric spoiled,
And dashed it to the ground.

She found the ruin wrought;
Yet not cast down, forth from the place she flew,
And with her mate fresh earth and grasses brought,
And built the nest anew.

But scarcely had she placed
The last soft feather on its ample roof,
When wicked hand, or chance, again laid waste,
And wrought the ruin o'er.

But still her heart she kept,
And called again,—and not slight, hearing calls,
I looked, and lo, three little yellow legs
Within the earth-made walls.

What Truth is here, O man!
Hath hope been smitten in its early dawn?
Have clouds o'ercast thy purpose, trust or plan?
Have Faith, and struggle on.

PRESCRIPTION.

Take the open air,
Did it more than take the bitter
Follow Nature's laws
To the very letter.
Let the Doctors go
To the lair of Bacy;
Let alone the pie,
The brandy and the whisky,
Freely eat and drink,
Keep your spirits cheerful;
Let no dread of sickness
Make you ever fearful.
Eat the simplest food,
Drink the pure, cold water,
Then you will be healthy
(or, at least, you ought to.

YOUNG MEN, BEWARE!—An anonymous note containing the following startling announcement and directed to the Postmaster, passed through the Bradford Post Office. It has been duly posted up in the office for the benefit of all whom it may concern:

"PENALTY.—Any gentleman riding without a lady, during the "Rebellion" (because of the scarcity of the male community) will be subject to a fine of not less than $3, to be handed to the 'Soldiers' Relief Society.' Per order, UNMARRIED LADIES."

At Delmonico's Restaurant, corner of Chambers street and Broadway, New York, a man sometimes orders a dinner which, including his wines, amounts to twenty-five dollars; and in Laurens street, just above Canal, there is a sign, "Poor Man's Home—Beds 5 cents—Meals 6 cents."

Why are sheep like the most dissipated, reckless and unfortunate of creatures? Because they gambol in youth, frequent the turf, think it no disgrace to be blacklegs, and are often fleeced.

☞ Jackson, in the recent actions, was, according to the report of captured rebel soldiers, wounded slightly in the foot.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE OF PORTUGAL.

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wine in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which induces them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

MATHEWS'
VENETIAN LIQUID
HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been USED BY THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the safest, cheapest, neatest, most convenient, most successful, and most permanent Dye ever used.

SOLD BY ALL DRUGGISTS.

RUM AND WATER.—Sir Charles Napier, a famous British officer in India, in reviewing a regiment just come out, said:—

"Young men, let me tell you that you are come to a country where *if you drink you are a dead man.*" If you be sober and steady you'll get on well; but if you drink you are done for. You will either be invalided or die. I knew two regiments in this country, one drank, the other didn't drink. The one that did drink has been all but destroyed. I know there are some men who will drink in spite of their officers, but such men will soon be in the hospital, and very few in this country that go in ever come out again."

The Newburyport Herald says of our own soldiers gone South:—

"They have gone to a country with climate and diseases that make rum-drinking—even if it were pure rum—destruction; and where the strychnine whiskey will be as fatal as would the explosion of a bombshell in their bowels.

"When you get South they may tell you the water is not good, and so you will find it. The effects of a change of water is soon apparent in men or animals moving from one section to another, whether north or south, east or west; but the poorest water, where the horses will not drink, is better than any liquor you will obtain. The rum is poison; the poison affects the system, opens it to disease—to the miasma of the swamps or the contagions of camp or hospital, and soon the seeds of death are sown and the harvest is reaped."

Lewis Cass drank no strong drinks, in our army in 1812-15. Zachary Taylor also abstained. Taylor used to boil the water in Florida, and then cool it, before he drank. A soldier from Portsmouth, who went through the war of 1812-15, used to put pepper into the water which he drank, and in the milk porridge or water porridge which he ate, after he returned, as he had done in the army when he could get the things.

THE END OF A DRINKING CLUB.—A celebrated drinking club, in a large town in the West of Scotland, which had formerly great influence at the local elections, is broken up. Two of its members were sent to a lunatic asylum, one jumped from a window and killed himself, one walked or fell into the water at night and was drowned, one was found dead in a public house, one died of delirium tremens, upwards of ten became bankrupt, four died ere they had lived half their days. One who was a bailie when connected with this club, is at present keeping a low public house.—Such are a few facts well known to those living in the locality.—*Liverpool Albion.*

☞ A Company of U. S. Volunteers, at Lancaster, Pa., have unanimously pledged themselves not to drink intoxicating liquor, nor to play cards during their term of service,—and they requested their Captain to offer prayer with them, that they might keep their resolution.

☞ It was once suggested to have the Aurora Borealis represented upon the coat of arms of the State of Maine.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE MOST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of decisions and official decisions relative to patents.
Those, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, furnish ample, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful practitioners* with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them a speedy and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has acted for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on their rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

A star for every State: a State for every star.

TUESDAY, SEPTEMBER 9, 1862.

THE REBELLION.

Gen. Pope has been assigned to the command of the Department of the Northwest. Maj. Gen. Reno has been appointed to the command of the 3d Army Corps, Gen. McDowell having been granted leave of absence for fifteen days. The armies of the Potomac and Virginia, under Gen. McClellan, have been ordered to be provided with three days' rations. Fredericksburg, Va., is occupied by rebel infantry and cavalry.

A correspondent states that about dark on Friday, Gen. Lee rode into Pooleseville, Md., at the head of four regiments of infantry, guided by a farmer, who has been professedly a Union man, and has his pockets filled with our gold. The infantry went off to the left toward Frederick. The rebel Gens. Robert Lee, Hill, Stuart and Fitzhugh Lee are with the men. They have few or no shoes, and no knapsacks. Their wagon trains were crossing on Saturday morning. The farmers are bringing in hay and provisions of all kinds and giving them away. There is not a loyal man, with the exception of one or two, there.

Frederick is about 60 miles from Baltimore, and 40 overland from Washington.—Saturday night and Sunday immense bodies of our troops were in motion for the Upper Potomac and elsewhere. Nearly all the rebel troops have apparently been withdrawn from our front. Large rebel reinforcements on Saturday were passing from Ashby's Gap, south of Leesburg, as if to cross at Sinchor's Ferry, between Point of Rocks and Edward's Ferry. Our troops at Harper's Ferry and Martinsburg have been cut off from reinforcements by the movement of the rebels toward Frederick; nothing has been heard from them. The rebel force at Frederick is estimated at 40,000 men, under Stonewall Jackson.

A rebel picket who was captured near Clarksburg Sunday, says Jackson has [45,000 men.

It was reported at Fortress Monroe, on Saturday, that the Merrimac No. 2 had come down to Newport News; had had an encounter with two of our gunboats, and had driven them before her. There were no fears of any serious result. An arrival from City Point, same day, reports everything quiet in the river, and no rebels or rebel gunboats in sight.

The pirate steamer Florida arrived at Cardenas, Aug. 19th, her captain, Maffit, being sick with a fever. A Spanish war vessel is there to prevent her following any American vessels out for capture.

A Hilton Head correspondent states that a steamer supposed to be either the Nashville or Emma, attempted to run the blockade out of Savannah on Monday week, and got ashore on Jones Island and was fired by her crew.

400 rebel cavalry attacked Brig. Gen. White's outposts at Martinsburg, Va., on Saturday, and were defeated with the loss of about 50 prisoners, and horses and arms. Our loss was 2 killed and 10 wounded.—The loss of the enemy greatly exceeds ours, but is not accurately known.

A special dispatch states that Gen. Buell has ordered Nashville to be evacuated, and 15,000 rebels entered Boyd's Station on Sunday.

☞ Washington, on Sunday, notwithstanding the news that the rebels had passed over into Maryland, and that thousands of traitors had welcomed their advent, was not in a state of unusual excitement. On this statement, the Newburyport Herald remarks,—"This circumstance will neither relieve nor abate our fears, until we know that there is ground for tranquility in due preparation for the safety of the capital and of the common cause. There are men enough and means enough to protect Washington and every loyal State, from the incursions of the enemy, if our leaders in the field knew their duty, and were able and *disposed* to discharge it. Late results give at least a show of consistency to the reports, assenting as their causes "treason and incapacity; and if in the end it shall appear that these charges were well founded, we shall have occasion not only to regard slavery as the original cause of our troubles, but of our late reverses."

☞ The Grenada (Miss.) Appeal complains bitterly that one million dollars worth of slaves have absconded from the counties of Tunica and Coahoma since the Union troops went there. It says we "have violated the Constitution."

NEW HAMPSHIRE ITEMS.

—— The Exeter News-Letter states that as Mr. L. Hall, of Durham, was returning home from Newmarket, on Thursday evening last, with about $500 which he had received as the bounty for his sons who had just enlisted for the war, he was met by two men who knocked him down and left him senseless, after robbing him of the money. He is now recovering from the injuries he received.

—— A week or two since, a man calling himself Peter Coyn, at Gorham, violently assaulted and attempted to kill Thomas Noon at Gorham. An officer went to arrest him, when Coyn made an assault upon the constable, and then escaped to Portland, where he was arrested. He used a knife first upon Noon, and made a plunge at him which would have killed him had he not avoided the blow. The knife went thro' a door. Coyn then seized a pitchfork, but it was knocked out of his hands.

—— A salute was fired at Sanbornton, on the announcement of the news that Gen. Halleck had succeeded Stanton, and that Gen. McClellan had assumed command of the army. Bad taste.

—— The Mirror says the 11th Regiment has been ordered to leave for Washington on Thursday next.

—— A private letter received from Capt. Bailey of Co. I, gives the following as the loss of the 2d Regiment, in the late bayonet charge of the Brigade:—15 killed, 90 wounded, and 52 missing.

☞ A letter in the N. Y. Express says that Mr. Brodhead has received a blood-stained piece of paper from his brother, Col. Brodhead, commanding a Michigan regiment, who was mortally wounded in the recent battles, and has since died, in which he says—"I am about quitting the world, a victim to Gen. Pope's incapacity and Gen. McDowell's treason."

☞ The Boston Post, after mentioning the dying charge of Col. Brodhead, against Pope and McDowell—very properly counsels caution, and suggests the possibility of an error in judgment. "But (adds the Post) "it is due to his testimony—to the country—to those implicated—that a searching investigation be made, and full justice rendered, whatever the consequences. It cannot be denied that the public do not believe the reverses of the past fortnight are all the result of the ordinary chances of war, or wholly of incapacity, and it is the duty of the Government to find out the truth and promulgate it, that, if execration be due it may be awarded where it is due."

NO OTHER PAPER HAS THE NEWS.—We find the following in the Manchester Mirror of Saturday last:—

The Sagamore House, at Rye, was burnt Thursday night. It and the outbuildings were insured for $2,500, worth $4,500. It was owned by Capt. Geo. W. Towle of the Tenth Regiment, and it has been closed since last October. It was the work of an incendiary.

The Mirror manifests a commendable enterprise in gathering items of news, of interest to New Hampshire readers, but in the above statement, although circumstantial enough to be founded on fact, the Mirror has not manifested its usual accuracy. The Sagamore House was standing on Monday morning. A report, arising from the burning of Seavey's Mills, on Thursday night, was in circulation in this city on Friday, that the Sagamore House had been destroyed, and this report, probably, occasioned the above statement.

☞ A letter from Washington, Sep. 5, contains the following:—

"The community generally will sympathize with Postmaster General Blair and his family, on the unexpected decease of a lovely daughter, which sad event took place on Thursday, in Philadelphia. For several weeks the child was ill, and on Monday afternoon the mother left here with her for a visit to the Springs of Bethlehem, Pa.—Pressing duties precluded the absence of the father from the seat of Government, but he had hopes of the daughter's recovery. On Thursday afternoon, however, he received the afflicting tidings of her death, by telegraph."

☞ Forney writes to the Philadelphia Press:—

Major Gen. McClellan is making every preparation for a speedy resumption of hostilities. He has issued orders to the troops to prepare themselves for an instant advance upon the enemy, and, if we may judge by the signs and preparation around us, the few weeks to come will be as fruitful of as great, and I trust, more happy events, than those just passed. At all events, whatever the policy may be, rest assured that there will be no delay, no tardiness, no unnecessary waiting, no trifling with our enemy, or with the spirit of the troops.

☞ The Tribune's Washington correspondent says one of our surgeons was informed by a rebel surgeon, who amputated Gen. Ewell's leg, that he has since died.

☞ The N. Y. Times' Washington correspondent says the orders for a Court of Inquiry into the cause of recent events has been countermanded.

☞ A citizen of Fredericksburg reported that the inhabitants were armed within two hours after Gen. Burnside evacuated the place.

☞ A Mr. Wizzell, of Exeter, England, has invented a spiral fluted nail, which is said to be greatly superior, in many respects, to nails of the ordinary kind. The nails, however large, require no holes before driving, the spiral point causing the nail to revolve as it advances. There is no danger of the nail splitting the wood. They are manufactured by machines, each of which will twist at least 4000 per hour, and the plain nails now in use can be twisted by other machines, by the same inventor, at the rate of 16,000 per hour.

ANOTHER DEMOCRAT ON THE WAR.—General John A. McClernand, formerly a Democratic Congressman, had a reception at Springfield, Ill., on Saturday last, and in his speech on the occasion spoke strongly in favor of the war and of using all available means, negroes included, to bring it to a successful termination. He denounced all who supported the government with an "if" or a "but," as hypocrites, and no better than the rebels.

☞ On Tuesday of last week, a son of Mr. Daniel Putnam, of Brandon, Vt., six or seven years old, was caught in the main belt of Luce's Machine Shop, and carried over the pulley, through a narrow passage of but 4 1-2 inches, and seriously, probably fatally, injured, one jaw being broken twice, his limbs seriously bruised, and the flesh shockingly torn from the left side.

☞ The meanest man out of Dixie lives in Portland. A day or two since, he bought a paper of a newsboy, and offered him a ten-cent piece; the coin, however, slipped from his hand and fell through a grate into a pile of coal below. The boy hastened into the cellar to find the money—succeeded—returned, covered with smut, and offered the purchaser two three-cent stamps and one cent, being the change due him. He refused to receive it, although the lad declared he had no other change.—The man declined taking the paper, and walked off with the ten-cent piece in his pocket.

LINT made of cotton is no lint all, and the term reminds us of a "*carpet*-bag" made of india rubber cloth. *Lint* is a term used for *linen* scraped fine, and the word comes from *Linus*, the latin word for flax. Hemp is much like flax,—but cotton quite unlike. Tarred hemp, picked to fine oakum, we doubt not, as Dr. Sayre, of the N.Y. Bellevue Hospital, has found by much experience, is far better than "cotton lint,"—and the best thing to be found for the purpose.

☞ The Worcester Transcript stated a few days since, that "Artemas Ward" had been before the police court of that city for drunkenness, and committed to the lock-up. There must be a counterfeit Artemas somewhere, for Charles F. Brown, the only real "Artemas," is in Waterford, Maine, where, for more than a month, he has been rusticating, and taking life easy.

☞ The following is an extract from a private letter written by an officer of our army, to his wife in New York, dated Helena, Ark., Aug. 30:—

"During the past year we marched 4800 miles, lost four men, been in thirteen skirmishes and two regular battles, and we are now here fortifying, expecting to whip the rebels as we have done every time."

Maj. Gen. McClellan, on being told of Gen. Kearney being shot, shed tears, and exclaimed to the bearer of the message:—"My best general officer is gone, and who shall I put in his place?"—*Boston Post.*

We hope Gen. McClellan uses better English than would appear from the above.

☞ Intelligence has been received that the new U. S. gunboat Octorora captured a large English steamer off Charleston.—She was loaded with saltpetre, ammunition and arms, and valued at $250,000.

☞ A colored man named Gaytown, of Geneva, in Van Buren county, Mich., has traveled to Rhode Island to enlist in Gov. Sprague's regiment of colored men. Here is truly an example of patriotism.

☞ The Washington Star says that the regiments of new troops are brigaded with the old regiments, by which means they will be effective soldiers much sooner than if otherwise brigaded.

A FANCY FOR CAKE.—A Boston paper says that on account of the capaciousness of the pockets of some of the working ladies at the Tremont Temple, the cake rations had to be stopped on Friday.

☞ Governor Evans, of Colorado Territory, says the statement that a great discontent exists among the population of Colorado, is utterly false.

☞ At a town meeting held in Buxton, Me., on Saturday, it was unanimously voted with only one dissenting voice, to give to each *drafted* man $150 bounty.

☞ Among the students at the Theological Seminary at Canton, N. Y., is Miss Olympia Brown. She is studying theology with a view of entering the ministry.

☞ A Washington dispatch says:—An application of Gen. Stone for service was answered that the Government would notify him when he should be needed.

☞ Acting Assistant Paymaster R. C. Peirce, of Greenland, has been ordered to the steamer Dawn.

☞ The Richmond papers claim to have taken 80 cannon from Gen. Pope.

City Loan of $52,500.

The City of Portsmouth will receive proposals at the office of the City Treasurer, until the 15th day of the present month, for the whole or any part of the above loan, for a term of not more than twenty years, at a rate of interest not exceeding 5 per cent., payable semi-annually, said Loan being authorized by Ordinances Nos. 76 and 78, and to be applied to payments of Bounties to Volunteers. ROBERT LEFAVOUR, City Treasurer.

NEW HAMPSHIRE

MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE

Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th. of September,

AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on Exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the best. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

The Fair will be held in

JEFFERSON HALL,

and a Large Temporary Building erected near it, making THREE LARGE HALLS in all, each connected with the other. In connection with the above, there will be a Hall fitted expressly for an EXHIBITION of

Fruits, Flowers, Vegetables, &c.

and contributions are solicited from any part of the State or elsewhere. Premiums will be awarded in this department similar to the County and State Fairs.

Exhibition open Day and Evening.

Tickets—Single Admission to the Entire Exhibition, 25 cents; Season Tickets, $1.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER, Corresponding Secretary, Portsmouth, N. H.

For further information apply to the same.

July 19th, 1862.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Flesh Wounds, Scaldings, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Weak Eruptions, Festers, Stings, Cancers, Whitlows, Itch, Stiles, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 38 cents—or three Boxes for one dollar.

For sale in Portsmouth by WM. R. PRESTON and J. H. THACHER; and by respectable Druggists and country stores everywhere. 10 1m

Local.

☞ The committee entrusted with the charge of conveying to Washington the contributions from this city for the benefit of our sick and wounded soldiers, left this city on Monday morning. They took with them a very generous supply of hospital stores, &c., which well attested the liberality of our citizens. We expect to hear from them in a day or two. We publish in another place, a list of the articles packed at the Boys' High School, and shall publish a complete list of the articles sent, to-morrow.

☞ The Boston Journal has a list of the killed, wounded and missing in the 2d N. H. Regiment. The regiment had actually present in the fight 21 commissioned officers and 311 enlisted men. Total 322. 10 commissioned officers and 122 enlisted men were killed, wounded and missing.—Total, 132. Killed, 16; wounded, 87; missing, 29.

The losses in Co. K were as follows:

Private Henry Walker, killed; Sergt. W. Walker, in hand; John Meagher, in hand, severely; Corp. Thomas Gammon, in head; William H. Goodwin, wounded and left on the field; Alex Stewart, in head; Charles Robinson, in face; Warren L. Stebbins, in foot; Corp. Jere. Mahoney, missing; William Nicks, missing; M. E. Long, missing; Henry H. Wilson, missing.

A SCRIPTURAL PARAPHRASE.—A very kind, well intending old gentleman in Dublin, thought he might edify his friends, and the world at large, by using his poetical talents to make Scripture stories still more attractive. To many a dinner party the old gentleman was invited, for the after treat his versification afforded. The writer of this heard only the beginning of the finding of Moses, which, for its graphic style, disfiguration of the rules of syntax, richly illustrating the serio-comic of the Irish character, deserves a place among works travestie. The princess descends to the Nile, accompanied by her maidens;

"On Egypt's banks, contiguous to the Nile,
Great Pharaoh's daughter came to swim in style;
And after having had a glorious swim,
Ran about the sands to dry her skin,
And kicked the basket the baby lay in.
'Gals,' says she, in accents mild,
'Which of ye is it as owns the child?'"

☞ We intended before this to have mentioned in commendation, the charming concert given by the Boston Mendelssohn Club, in this city, last week. We really believe they played even better than ever before, if possible—and their programme was the best,—at any rate the most "popular," they have given here. The new instrument, the saxophone, is a singular cross between a clarionet, a cornet, a bass-horn and a bassoon, in sound, and looks almost exactly like an immense meerschaum, with many "keys;"—and is so heavy and requires such fingering, that the player must hang it from his neck by a cord. It is rather a pleasing instrument, and must be an improvement to an orchestra. Miss Pearson sang finely, and gave great satisfaction to the audience. The attendance was not large—not half what one would reasonably suppose would turn out for such a first-class entertainment, especially when entertainments of any sort are so few here. To be sure, the public attention is greatly engrossed by more serious matters; but we think it is pleasant and desirable, if not absolutely necessary, as times, to turn, for a little, from the consideration of war's dread work, and list to the concord of such sweet sounds as this Club always gives.

☞ This is the year for "tall" vegetation, take either signification of that ubiquitous word. Grass and grain grow with a perfect disregard of all precedents, and the "second crop" is very large. Even at the Shoals they get a double grass harvest—for being at Star Island last week, we saw them "making" a very handsome second crop, off their small but fertile patches. There is not much danger of white weed there either, though we saw almost all other kinds of weeds among the rocks.

And speaking of tall growth,—we heard a lady laughingly state, the other day, that her dahlias had grown above the wood shed, and so high that she couldn't get at the flowers, to pluck for a bouquet! And we know of a hardy Prince's feather in this city, which has grown much higher than the one-story part of the house near which it stands, and the branches probably cover eight or ten feet in diameter,—as large a "tree" as the biblical grain of mustard seed sends forth.

THE EXEMPTION OF JUSTICES OF THE PEACE.—Secretary Stanton has exempted Justices of the Peace from the operations of the draft. That official can hardly be aware of the mischief he has done, especially in Massachusetts. In order to post him a little in this matter we would state that in the city of Boston alone there are no less than thirteen hundred and forty nine of these functionaries, while the total number in the State is not much under seven or eight thousand. Perhaps the Secretary imagines that their absence would result in injury to the interests of the State. If so the honorable Secretary is the subject of a most remarkable hallucination.—*Bost. Trav.*

In Portsmouth there are about sixty Justices of the Peace; most of them more than forty-five years of age; and several of the younger justices are otherwise exempt: so that only about a dozen of them would be liable to do military duty.

☞ Capt. Towle's company of Volunteers—Co. G, 10th Regiment, returned to this city on Monday morning, on a furlough of three days. They paraded the streets on Monday morning accompanied by Knight's Brass Band. The Dover company also returned to that city on the same day. Capt. Towle's men received their city bounty of $200 each, on Monday.

PORTSMOUTH, Sept. 6, 1862.

The People's Home Guards will do well to form themselves into a company immediately, not only for a defence against a foreign foe, but to defend the people's rights, maintain order, and sustain the laws of the State and the Government of the United States. A FELLOW CITIZEN.

☞ We have received Washington papers of late date, from Mr. Fletcher D. Locke, Sutler's Clerk, of the 9th Regiment.

☞ See yon fair maiden in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America.*

Explicit Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Pills sent by mail, promptly, by remitting to the Proprietor sold by Druggists generally.

NEW GOODS

JUST RECEIVED FROM NEW YORK.

Steel Spring Saddle Horse.

[From the Home Journal.]

"Of all the child furnishing goods ever seen, no article combines so much of those two important things—health and happiness—as the Adjustable Patent Steel Spring Saddle Horse, invented by Joseph A. Crandall. It is not dangerous, like a common rocking horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its feet, and its action is so like the gallop of a live horse that the child never wearies of it. This latest of child-novelties is exceedingly elegant and artistic in design; and so substantial and durable that it will last a lifetime. It is indispensable in every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made strong enough to sustain grown persons. As a pedestal for photographic pictures, nothing is more beautiful. Every Orphan Asylum and Institution where children are congregated, should be furnished with a number of these beautiful articles. They are fitted with side-sadles when required."

Different sizes of these Horses may be seen at the store of the subscriber, who is agent for the sale of them in this city.

☞ ATTENTION, THE WHOLE! ☜

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since.
CAROLINE B. SWETT.

This statement of my wife is correct.
SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erypielas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1863. DR Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM. P. LEAVITT.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that you previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

SONG OF THE RIVER.

BY CHARLES KINGSLEY.

Clear and cool, clear and cool,
By laughing shallow, and dreaming pool;
Cool and clank, cool and clash,
By shining shingle and foaming weir;
Under the crag where the owlet clings,
And the inled wall where the church bell rings,
Undefiled, for the undefiled;
Play by me, bathe in me, mother and child.

Dank and foul, dank and foul,
By the smoke-grimed town in its murky cowl;
Foul and clank, foul and clash,
By wharf and sewer and slimy bank;
Darker and darker the further I go,
Baser and baser the richer I grow;
Who dare sport with the sin-defiled?
Shrink from me, turn from me, mother and child.

Strong and free, strong and free,
The floodgates are open, away to the sea.
Free and strong, free and strong,
Cleansing my streams as I hurry along,
To the golden sands and the leaping bar,
And the tainless tide that awaits me afar.
As I lose myself in the infinite main,
Like a soul that has sinned and is pardoned again.
Undefiled, for the undefiled;
Play by me, bathe in me, mother and child.

ASKING QUESTIONS.—There are few positions of more delicacy than in interrogating Sunday Schools, especially young scholars. This is shown by the experience of a clergyman, who was opposed to having any mirth in Sunday Schools. He thought it injurious to all, unnecessary for the entertainment of the children. He offered to address the school, and show how they could be well entertained seriously. The following dialogue ensued:—

"Children, I am going to tell you about Peter. Who knows who Peter was?"

No answer.

"Cannot any one—those large girls—tell me who Peter was?"

"I can," said a little fellow over in the corner.

"Ah, that's a good boy. Now you come up on the platform by my side, and stand up in this chair, and tell those girls who Peter was?"

Jimmy did as he was bid, and in the shrill voice of childhood repeated—

"Peter, Peter, pumpkin eater,
Had a wife and couldn't keep her—"

At this point he was stopped, but not before the full point was taken by the school, and Mother Goose's poem appreciated.

THE HONEY-MOON BRIGADE.—The New York Express gives the following as a communication:

"Deuteronomy, 24th chapter, 5th verse: 'When a man hath taken a new wife, he shall not go out to war, neither shall he be charged with any business; but he shall be free at home one year, and shall cheer up his wife which he has taken.'"

It is of some interest to newly married young men to know whether Gov. Morgan will ignore this "higher law," and compel them to go to the war. B.

[If the Mosaic law be in force on this subject, it would also call for circumcision, the payment of tithes, and the choice of meats:—and it would *forbid* the return of fugitive boadmen, and call for a pretty strict life.]

"A WISE REMARK.—"Having in my youth," says a celebrated writer, "notions of severe piety, I used to rise in the night to watch, pray and to read the Koran.—One night, whilst deeply engaged in these exercises, my father, a man of practical virtue, awoke while I was reading, 'Behold,' said I to him, 'thy other children are lost in irreligious slumber, while I alone awake to praise God.' 'Son of my soul,' he answered, 'it is better to sleep than to awake to remark the faults of thy brethren.'"

For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL.

The Great Remedy for Sickness, Lowness, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE, related in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sedative—highly esteemed by eminent physicians, used in Hospitals and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, precious flavor and exclusive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Rice, and others.

MATHEWS'
VENETIAN LIQUID
HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1840; since that time it has been used by THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.
SOLD BY ALL DRUGGISTS.

Daily Morning Chronicle

New Series

VOL. 21. PORTSMOUTH, N. H. WEDNESDAY, SEPT. 10, 1862. NO. 30.

The Chronicle.

☞ It is related of Gen. Sigel that during the battle of Friday he suddenly withdrew the whole of his right wing, combined that with his left, and with wonderful celerity hurled both on the enemy's right, driving him back with great loss. Here is an evidence of fine generalship. Promotion and responsible command cannot be too quickly bestowed on officers who give evidence of the possession of ability like that shown by Franz Sigel.

☞ The first number of The Commonwealth has reached us. It is a handsome weekly paper, published in Boston, and edited by M. C. Conway, who handles the slavery question without gloves, and the generals in the same way. In his salutatory address, he says the paper is not to be the organ of any party or person, however liberal, but to be devoted to the cause of humanity. The price is $2 per annum.

☞ The frigate Santee is discharging her stores and dismantling at Charlestown Navy Yard, preparatory to being laid up in ordinary. Being a sailing ship, she is not so available for blockading purposes as smaller and less expensive vessels.

☞ An order from the War Department states that the quota of volunteers being full and enrollment of the militia complete in the several States, the restrictions upon travel are now removed.

☞ It is announced that the marriage of the Prince of Wales with the Princess Alexandrina of Denmark, will take place next spring.

☞ Miss Jane H. Shaw, of Bath, has been nominated by the Republicans of Sagadahoc County, Maine, for Register of Deeds.

☞ The vote in Vermont was very light, but shows a Union majority of from 25,000 to 30,000.

EFFECT OF MUSIC ON THE SICK.—The effect of music upon the sick has been scarcely at all noticed. In fact, its expensiveness, as it is now, makes any general application of it out of the question. I will only remark here that wind instruments, including the human voice, and stringed instruments capable of continuous sound, have generally a beneficial effect—while the piano-forte, with such instruments as have no continuity of sound, has just the reverse. The finest piano-forte playing will damage the sick, while an air like "Home, Sweet Home," on the most ordinary grinding organ, will sensibly soothe them, and this quite independent of association.—*Florence Nightingale.*

THE RIGIDITY OF THE EARTH is a question of much interest to natural philosophers. Prof. Wm. Thomson has published a paper going to show that this rigidity must be greater than that of glass or steel, because, if not, the earth would so yield to the movement of the ocean, that differences in the height of tides would be hardly perceptible.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any other agency can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

A star for every State: a State for every star.

WEDNESDAY, SEPT. 10, 1862.

THE REBELLION.

Preparations are actively continued in Pennsylvania to repel the invasion of the rebels. Arms are being rapidly distributed through the Southern Counties. Our forces in Maryland are moving rapidly on the enemy. Hooker and Sigel are in the van. A Washington dispatch says that military men there believe the report of a paroled prisoner, who arrived on Monday, and states that about 150,000 rebels have passed into Maryland, the body of them over the Monocacy. He had passed through the lines and counted twenty-seven batteries. All the Federal forces at Frederick, Md., fell back to Harper's Ferry, having burned the hospital and commissary stores, and removed the sick and wounded. The postmaster took away the mails and all the Government funds. Governor Bradford of Maryland has called on all the citizens to organize for the defence of the State.

A dispatch states that the fort at Winchester, Va., containing twelve tons of gunpowder, has been blown up. It shook the earth for miles around. The enemy obtained no supplies. Our people burned the railroad depot at Winchester, with all the commissary stores.

"Perley" telegraphs that well-informed Baltimoreans do not fear the rebel raid, as the secessionists know the city is doomed to destruction if attacked. It is not believed that any rebel forces are within forty miles of Baltimore. But few Marylanders have joined the rebels. Detectives found eighty-five new telescopic rifles, concealed at Georgetown in a lumber yard of Mr. Wheatley, who has had several profitable Government contracts recently.

The rebels reached Hagerstown, Md., on Monday night, and advanced still further.

The Intelligencer prints a general order, showing that Maj. Gen. Banks commands the forces in and around Washington during the absence of Gen. McClellan, who has gone to the vicinity of Frederick.

A party of rebels were defeated near Cumberland Gap on Thursday last, by a Union foraging party.

It is now known that the steamer burnt in the Savannah river, supposed to be the Nashville, was the Emma. She had 740 bales of cotton on board.

Rebel guerrillas on the 3d captured the steamer W. B. Terry, while aground in the Tennessee river, 100 miles above the river's mouth. They removed two Dahlgren howitzers, and then burnt the boat.

A letter from Newbern, N. C., Sept. 3d, says 300 of our troops defeated 1400 rebels near Plymouth, driving them after an hour's fight. Our loss was 3 killed.

It was reported at Helena, Ark., that Gen. Rosencrans was repulsed in an attack on the rebels at Tupelo.

GEN. HOOKER'S COMMAND.—A correspondent of the Boston Journal writes:

"One of our most popular Generals is Gen. Hooker. He holds the utmost confidence of his men, as did the lamented Kearney, who has fought out a campaign by his side. They were tried and true friends, and no one will feel the loss of the latter more than will Gen. Hooker. He now takes command of the two divisions, thus leaving to Gen. Grover the first division of Heintzelman's corps, in the absence of Gen. Sickles, who, according to seniority, succeeds to this position. Col. Cowdin has been commanding Gen. Grover's brigade but owing to an indisposition of the former, Col. Marston of the 2d New Hampshire, another noble officer, now commands the brigade."

☞ The *Moniteur* says that the insurrection which threatened to compromise the destinies of Italy has terminated. Garribaldi, after a very sharp contest, was compelled to surrender, and an Italian frigate was immediately ordered to convey him to Spezzia.

The blockade of the Sicilian coast has been raised.

☞ By an order from the War Department, every clergyman who has pastoral charge of a church or congregation, is exempt from a draft.

☞ Sixty thousand bushels of wheat and forty thousand bushels of corn were burned at Buffalo on Monday. The loss is estimated at $100,000.

☞ The order for a Court of Inquiry into the recent disaster has not been countermanded, but only suspended. It met and adjourned for a week.

☞ The U. S. steam frigate Tuscarora left Plymouth on the evening of the 27th, and was said to be bound for Cadiz.

NEW HAMPSHIRE ITEMS.

—— The Amherst Cabinet is on the eve of suspension, unless the people of the county determine otherwise. We shall regret to miss its honest face. The times are severe on all newspaper enterprises except those of the huge city leviathans.

—— The house of a prominent citizen of New Ipswich has frequently been entered, and small sums of money taken, while the family were at church. A few Sundays since, however, a neighbor remained in the house after the family were gone, and secured three young chaps who entered.—The affair was settled by the principal rogue agreeing to enlist as a recruit in one of the N. H. regiments.

—— The Concord correspondent of the Boston Journal says that Gov. Berry does not intend to let those towns that have been slow in providing volunteers escape without furnishing their quota of the men needed from this State. Whatever other towns may do in exceeding the number of men required of them, every town must furnish its quota, and if it does not do it voluntarily, the draft will be applied. Towns interested should take notice and govern themselves accordingly.

—— Charles H. Roberts, Esq., of Farmington, the Doorkeeper of the Senate Chamber, has been appointed State Military Storekeeper.

—— J. H. Thompson, a prominent and well known citizen, formerly of Holderness, and Commissary of the 3d N. H. Regiment, died at Port Royal, a few days since. Lt. John R. Hynes, formerly of the Manchester Mirror, has been appointed commissary of the 3d.

—— Amos Webster, of Manchester, offered to give a cow to the first man in his school district who would enlist for three years, under the last call of the President. The first three men who enlisted being comfortably off as to property, unanimously waived their claim to the cow in favor of the fourth—he being a man with but little property. Seven men have enlisted from this district under the new call, and Capt. Webster offers to give his remaining cow to the next man who will enlist.

—— A Manchester correspondent of the Boston Herald states that the Governor and Council, on Friday, decided not to commission Col. Thomas J. Whipple, of Laconia, as Colonel of the 12th.

☞ We notice that Hon. Herman Foster, the U. S. Assessor for the 2d collection district, has divided into two districts the city of Manchester, and appointed Maj. Samuel N. Bell as assistant for one of these districts. Maj. Bell is one of the best lawyers in Manchester, and will make an excellent officer. He is of democratic politics, but Mr. Foster seems determined to have his work well done, without regard to political considerations. Messrs. D. J. Abbott and Woodbridge Odlin are the assistant assessors at Concord.

CALIFORNIA ELECTION gives an overwhelming majority for the Republican Union ticket: the returns show 47 union Assembly men elected, and 4 union democrats. Not one democrat was elected to the Senate; but 6 Douglas democrats and 4 Breckinridge democrats, holding over, constitute the whole opposition in the Senate, which has 39 members.

This legislature, now chosen, will elect a loyal United States Senator, instead of Latham.

MAINE ELECTION.—The election in Maine on Monday resulted in a Republican triumph. 31 towns give Coburn 17,356, Bradbury 12,170, and Jameson 2325.—The Republican majority in these towns this year is 2858—last year 6820. The aggregate vote this year in these towns is 31,854—last year 37,108. The aggregate vote this year will fall short about 13,000. There will be a large Republican majority in both branches of the Legislature, though not so large as last year.

☞ 350 Indians attacked a party of whites 18 miles from Fort Ridgeway, Minn., Sept. 4. With the aid of Col. Sibley, the whites drove them back; 13 whites were killed, and 37 wounded. The party had previously buried 85 massacred whites.—Fort Abercrombie is surrounded by these savages, and the Commandant reports that he will be compelled to abandon the post, unless reinforced.

☞ Over $10,000 were contributed in San Francisco for suffering Ireland, and sent forward by last steamer. The California Supreme Court has decided that the State taxes must be paid in gold; consequently legal tender notes have been sold as low as 15 per cent discount. The judges are poor lawyers or poor patriots, or both.

☞ Gen. McDowell's letter to the President, asking for a Court of Inquiry, is represented to be a frank, manly and honest document. He desires a thorough investigation.

☞ The arrest of straggling officers in Washington continues, daily and nightly.

☞ Forney's Press denies, semi-officially, that Sec. Stanton has resigned.

ABBOTT'S HISTORY OF THE GREAT REBELLION.—John S. C. Abbott, the author of the Life of Napoleon, the most popular history of that great man ever published, is engaged in writing a history of the Civil War in America, which will be issued in two volumes, one during the present year, and the other soon after the close of the war. The style of Mr. Abbott is clear, graphic and strikingly dramatic, and is peculiarly adapted to the tastes of the public.

We have seen specimens of the engravings and letter-press, which show that the work will be a first class production in bookmaking. The form is large royal octavo, and the work will be furnished with beautiful portraits on steel, battle scenes from designs by Darby and others, and maps and diagrams in abundance.

The book is to be sold only by subscription, and the canvass has already commenced with good success. It will not, only with those who are in the habit of buying books by subscription, but with the best readers of the country. Edward Everett, Robert C. Winthrop, Jared Sparks and others, who are themselves historians, are subscribers to this book.

This war will make a page in the world's history that will always be read with interest, and Mr. Abbott has facilities probably unequalled, for procuring accurate, reliable information on all matters connected with it.

The gentlemanly agent for the work is in Portsmouth, and will give our citizens generally an opportunity to secure a copy.

NAVAL.—The new Monitor now building by Harrison, Loring & Co., South Boston, is to be named Nahant. She is to be 200 feet in length, and to have six inch plating.

The Dictator is the name chosen by Capt. Ericsson for his monster iron-clad vessel, which will be longer than the Persia or Niagara, and bearing heavier and thicker armor than almost two ordinary iron clads.—The side armor will be ten and a half inches thick; the wooden armor, or "lining," being four feet by six feet thick up and down.

☞ Joseph Butler, 17 years of age, oldest son of Mr. Joseph W. Butler, was drowned in Newburyport, about 6 o'clock Monday afternoon. He probably sunk from cramp.

SALE OF PEWS AT AUCTION.

On MONDAY, Oct. 6th, at 4 o'clock, P.M.

Will be sold at public auction,

The pews, in the STONE CHURCH, numbered 1, 3, 4, 21, 22, 23, 47, 66, 67, 68, 91, 92, 111, 114, 120, 131, 132, in the body of the house. Also Nos. 1, 2, 5, 6, 7, 8, 9, 11, 13, 14, 15, 16 17, 19, 21, 22, in the Gallery. The above Pews will be sold on the premises, without reserve,

For cash or on one year's credit with interest, at the option of the purchaser; unless previously disposed of at private sale.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not unsurpassed by any other agency by which man is enabled to secure them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The business practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have issued; and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend, *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

NEW HAMPSHIRE

MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE

Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden

IN PORTSMOUTH,

To commence on the 15th of September,

AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to the state. Premiums to be awarded in the various departments.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the REST. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

The Fair will be held in

JEFFERSON HALL,

and a Large Temporary Building erected near it, making THREE LARGE HALLS in all, each connected with the other. In connection with the above, there will be a Hall fitted expressly for an EXHIBITION of

Fruits, Flowers, Vegetables, &c.

and contributions are solicited from any part of the State or elsewhere. Premiums will be awarded in this department similar to the County and State Fairs.

Exhibition open Day and Evening.

Tickets—Single Admission to the Entire Exhibition, 25 cents; Season Tickets, $1.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER,
Corresponding Secretary,
Portsmouth, N. H.

For further information apply to the same.

July 19th, 1862.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century, by Mr. W. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Fresh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Broken Limbs, Nettle Rash, Sore Breast, Weak Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Stiff Wrist, and Sores and

The saw and grist mill of Moses H. Odiorne, at Portsmouth, N. H., were burnt on Thursday night.

Seavey's Mills, in Rye, N. H., were burnt last Thursday night. The property was partly insured. Same night the Sagamore House in that town was fired by an incendiary and destroyed.—*Boston Journal.*

The Sagamore House was *not* burnt.—"Seavey's Mills" were burnt,—and they belonged to Moses H. Odiorne. There was only *one* fire in Rye that night—not three.

☞ Admiral Smith, Chief of the Bureau of Yards and Docks, visited the Portsmouth Navy Yard on Monday, and was received with the customary salute.

U.S. steamer R. I. Cuyler arrived at the Portsmouth Navy Yard on Tuesday morning, from Key West via New York. She is to be taken up to the wharf, thoroughly cleansed and fitted for sea immediately.

There are 1196 workmen employed upon the yard at present.

☞ This evening, it will be remembered, is appointed for the Concert at the Stone Church, in aid of the Volunteers. This "object" alone ought to fill the house, even without any performance in particular; but with such an entertainment as is offered, the seats should all be occupied, without any other object except to enjoy the rare and excellent vocal and instrumental music. It would seem that all who heard "Bulshazzar's Feast" the first time, would gladly avail themselves of the opportunity to do so again—inasmuch as a single hearing of such a composition, or of almost any other, is totally inadequate to its full comprehension and appreciation; especially as it will be presented this time under so much more favorable circumstances—with the pleasanter and better arrangement of the house for concerts, the performers being located so much lower, and the audience facing them when seated; which, with the large and splendid organ for accompaniment, and the farther opportunity afforded the choir for study and rehearsal of the cantata, renders the guarantee of a most enjoyable entertainment, to those who have or have not heard it before, a safe matter. Give the soldiers a bumper, and encourage so worthy an effort of our home amateur musicians.

N. B. The tickets for to-night are not the same as those used last week.

BOUNTY.—The way in which some, if not all the bounty is paid in Exeter, is this: The volunteer takes the town's note on interest, which is a good investment for the soldier, and a good arrangement for the town, as it does not have to advance the money nor obtain a loan. Could not such an arrangement, to some extent, be made in Portsmouth? S. B.

☞ Acting Master T. A. Harris, of this city, has been ordered to the command of the steamer Stepping Stones.

☞ The vote in some of the towns in Maine in this vicinity, was as follows:

	Coburn	Bradbury.
Eliot,	158	179
Kittery,	272	223
North Berwick,	136	180
South Berwick,	227	226
Wells,	240	347

Eleven votes were cast in North Berwick for Jameson.

☞ Gen. Hunter and staff, and Gen. Saxton, arrived at New York on Tuesday, from Port Royal.

☞ See yon fair maiden in another column, picking Sambucci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstrations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. In all cases they are invaluable, *inducing, with certainty, perfect regularity.* They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most eminent *Physicians in America.*

Explicit Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Steel Spring Saddle Horse,

[From the Home Journal.]

"Of all the child furniture we have ever seen, no article combines so much of those two important things—health and amusement, as the Adjustable Patent Steel Spring Saddle Horse, invented by Jesse A. Crandall. It is not dangerous, like a common rocking horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its base, and its action is so like the gallop of a live horse that the child never wearies of it. This latest of child-novelties is exceedingly elegant and artistic in design; and so substantial and durable that it will last a lifetime. It is indispensable in every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made strong enough to sustain grown persons. As a pedestal for photographic pictures, nothing is more beautiful. Every Orphan Asylum and Institution where children are congregated, should be furnished with a number of these beautiful articles. They are fitted with side-saddles when required."

Different sizes of these Horses may be seen at the store of the subscriber, who is agent for the sale of them in this city.

GLASS PRESERVING JARS,

LUDLOW'S PATENT TEST JARS.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. CAROLINE B. SWETT.

This statement of my wife is correct. SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.

HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1833. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which proved quite severe, I signal and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. F. LEAVITT.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

TRIBUTE

TO THE MEMORY OF REV. DR. WILLARD,* of Deerfield, Mass.

BY GEORGE OSGOOD.

The mountains wild and vallies fair,
Again in summer robes appear,
And tender flowers are waving where
The winter winds swept cold and clear.

The ancient trees along the street
Their graceful branches intertwine,
To shade us from the burning heat,
As the bright rays of noontide shine.

The joyous birds at morn and eve
Their sweetest songs delight to sing,
And cheer the hearts of those who grieve
Among the loveliest scenes of spring.

The groups of children at their play,
Give hope and gladness to the scene,
As pass the happy hours away,
Like sunlight o'er the village green.

Yet in the sunlight and the shade,
One holy man no more is found;
On yonder hill his form is laid,
To rest beneath the burial mound.

When dying leaves in sadness fell,
Beneath October's genial sun,
In solemn tones the passing bell
Told that his earthly course was done.

Beneath the old trees of his care,
The people, that around him grew,
Mourned sadly as they gathered there
To bid his hallowed face adieu.

And as they bore his form to rest
From all its sufferings, toil, and strife,
They laid the white cross on his breast—
An emblem of his spotless life.

And well that cross became the bier
Of one whose calm and earnest faith
Would never let him shrink with fear
To go to prison or to death.†

Oh! once, when in the gathered crowd
We saw his aged form arise,
We felt that nought could ever cloud
The truth that lit his sightless eyes.

Like an apostle, he would dare
To break the proud oppressor's rod,
And without doubt or fear declare
The counsel of the living God.

Like a true martyr, he would end
His life in suffering, woe, and pain,
And by his very death befriend
The bondman flying from his chain.

Like an old prophet, in his might,
His noble form arose sublime,
As for the cause of truth and right
He dared denounce a nation's crime.

His reverend form has passed away!
On the pure river's fruitful shore,
In the full light of perfect day,
The eyes we loved are dim no more.

* Rev. Dr. Willard was a well known blind preacher among the Unitarian churches in Massachusetts.

† At a meeting of the Unitarian Association in his neighborhood, shortly after the passage of the fugitive slave bill, Dr. W., in the face of opposition, denounced the measure, and declared that he could not obey it, but was ready to submit to its penalty, which would carry him to prison, and that imprisonment, at his age and with his infirmities, would be death.

SPEER'S SAMBUCI WINE,

OF CHOICE OPORTO FRUIT.
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS IREE. OF PORTUGAL.

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the Juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquor, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,

MATHEWS'
VENETIAN LIQUID
HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been used by THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most permanent Dye extant.

BLANKETS FOR SOLDIERS.—A circular from E. D. Townsend, Ass't. Adj. General of Maine, relating to the troops under the new levy, has the following which is a matter of importance to all soldiers. The circular says:—

"As the sudden call for volunteers and militia has exhausted the supply of blankets fit for military purposes in the market, and it will take some time to procure by manufacture or importation, a sufficient supply, all citizens who may volunteer or be drafted, are advised to take with them to the rendezvous, if possible, a good stout woolen blanket. As all clothing, blankets, and shoes issued by the United States to its troops are charged with average cost, and no soldier who furnishes his own blanket is obliged to draw one, it is to his interest to supply himself, and thereby avoid much discomfort, as it is impossible for the United States to supply all immediately."

In this connection, says the Bath Times, we would suggest the propriety of those of our people who have blankets, comforters or coverlids, which they can spare, to give the same to the soldiers now going into camp.

☞ Gen. Wool has issued a very stringent order, requiring all military characters in his department, whether officers or privates, to be in camp at half-past seven in the evening, and in future no passes will be recognized except such as are issued by the colonel of a regiment to which the bearer belongs, or by Marshal Vannostrand.

☞ Great excitement was recently created in monetary and mercantile circles in London by the discovery that a large amount of the Bank of England note paper had been stolen from the establishment where it is manufactured, and that notes forged with it had been successfully passed. The Bank has offered a large reward for the detection of the rogues.

☞ The Rhode Island Legislature, at its late session, passed a militia bill, by which no person is relieved from draft unless exempted by the laws of the United States.—Consequently even Quakers are not exempted. Right.

☞ We are indebted to Lt. Col. J. H. Jackson, and L. D. Spalding, Esq., of this city, for copies of "The New South" newspaper, printed at Port Royal, S. C. Also to Expressman Willey, of the Maine line, for late St. John's papers.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed to cure, introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Loss of appetite, Disorder of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotiles, warranted the best preventive. Order by mail. Price $1 and a red stamp.

April 7—1y 3aw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

April7, 1862—1y8aw

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THURSDAY, SEPTEMBER 11, 1862.

THE REBELLION.

The rebel Buckner has been appointed a Major General. Beauregard was at last accounts said to be at Mobile. A joint committee had been appointed by the rebel Congress to investigate the charges against Secretary Mallory, who is said to be very unpopular. The armed rebel steamer Yorktown, bound from Mobile to Havana, was lost on the 26th ult. Crew saved.

On Monday a rebel cavalry regiment was driven out of Poolesville, Md. Our loss was one killed and eight wounded.

A Frankfort, Ky., dispatch, 9th inst says it was rumored that a large body of rebels with artillery were, on Tuesday moving from Danville towards Lebanon Ky. The report was prevalent that Bragg with 96 regiments was crossing the Cumberland.

Clarksville, Tennessee, has fallen into the hands of our troops. Col. Lowe left Fort Donelson on Saturday, with the intention of attacking the rebels there on Sunday. He was met by them in considerable force, but they quickly dispersed.—Col. Lowe took twenty five prisoners.

Gen. Pope's report of the recent battle in Virginia, severely censures Fitz John Porter's conduct, but speaks in the most decided terms of the zeal and energy of McDowell, Banks, Reno, Heintzleman, Hooker and Kearney. He attributes the disaster of Saturday jointly to the bad conduct of Porter and the failure of McClellan to send supplies.

The correspondent of a New York paper says that Flag Officer Dupont reports that there are no rebel soldiers on the Southern coast, so far as he can discover. The inference is that every armed man has been sent to swell the armies now aiming to invade the north.

The Baltimore Clipper of Tuesday says "We learn from Col. Piper of our army who has just arrived here and who passed through the pickets of the rebel army, the Gen. Burnside's army was on their trail.—Gen. Burnside had 40,000 troops in his command. Gen. McClellan is in the field with another large army, also en route after the rebel army."

The Chicago Tribune reports on "the best authority that Gen. Grant's army is being concentrated upon an important line for active operations."

All the able-bodied men in Pennsylvania have been ordered to organize immediately, and to be ready to march at an hour's notice; and all the officers and members of companies are requested to provide themselves with the best arms they can recure, with at least 60 rounds of ammunition.

No rebels had appeared near Hagerstown, Md., on Tuesday.

A New York paper says Gen. Hunter is to take command of the army of the Potomac.

☞ The managers of those no plus ultra dollar Excursions to the Lake, via Manchester and Concord, desire us to state, in answer to repeated and almost innumerable inquiries,—that owing to the great demand for cars on the Concord road, for transportation of troops and the other unusually large amount of travel, it has been impossible to procure a special train for the excursion, last week or this; but it is probable that at least one more may be arranged, and perhaps it will take place next week—of which, whenever it occurs, due notice will be given in good season.

☞ One of the crew of the U. S. gunboat Massachusetts, at Port Royal, writes that Mr. John W. Caswell, of Rye, has been promoted by the Department to the position of Master's Mate, and Mail Agent. Mr. Caswell entered the service as seaman; being taken from that position and given the charge of the mail, he performed this duty in such a satisfactory and zealous manner that he has thus been promoted.—Glad to hear it.

☞ We learn that a meeting of the Portsmouth Home Guard was held at City Rooms Tuesday evening, for election of officers; Col. Andrew J. Beck was elected Captain, Ezekiel Fitzgerald 1st Lieutenant, and William H. Sise 2d Lieutenant.—120 members have joined the company.

☞ At Scranton, Pa., immediately upon receipt of the intelligence that rebels had invaded Pennsylvania, a public meeting was called. The stores were closed, guns fired, bells rung and the residents assembled en masse for drill. The Governor has been tendered the services of the entire population.

☞ We are informed that one hundred and one men were drafted in York on Wednesday. The town voted to pay a bounty of $200 to all who were drafted.

NEW HAMPSHIRE ITEMS.

—— The American states that some of the leading men in Carroll and Belknap Counties, are urging the appointment of Col. T. P. Pierce, of Bedford, as the commander of the régiment which has been raised in that section.

—— While Alpheus G. Hobbs, of Pelham, was bathing on Sunday, he was shot by another man who was gunning, the shot taking effect in one arm and both legs.

—— A fine horse and equipments were presented to Col. Harriman at the camp of the 11th Regiment, in Concord, on Monday, by some of his friends in Dover.

—— A dispatch from Asst. Adj. Gen. Buckingham to Gov. Berry, Sept. 4th, says recruiting for old regiments will continue, and advance pay and bounty will be paid until further orders.

—— The 11th regiment, Col. Harriman, is ordered to leave for Washington, this (Thursday) morning at 7 o'clock, but there is some doubt about its being able to do so.

—— The Patriot says it is reported by private letters that Capt. W. D. McPherson of Concord, of the Sharpshooters, was killed in the late battles; and Capt. W. P. Austin, and private Isaac Davis, wounded.

☞ The 18th day of September has been appointed by Jefferson Davis as a day of (?) fasting and prayer, by a proclamation, inviting the people to assemble in worship to render praise to God for the triumphs at Richmond and Manassas.

From the N. H. Patriot.

IMPRISONMENT FOR THE EXPRESSION OF POLITICAL OPINION.—We have received the following communication from a citizen of New Hampshire who is in confinement. We do not believe that he wilfully misrepresents the facts. If the facts as stated by him are true, then there is established over us, instead of law, a petty despotism, powerful enough to oppress, but without power to protect. It seems to us that it can hardly be possible that the Governor of New Hampshire should have felt himself strong enough, in his abolition proclivities, to assume that the Union was at an end, that their was no more sovereignty of States, but that he could, on his own suggestion, or on the suggestion of any body else, issue a warrant directed to a Marshal of the Government of the United States. If the Governor of this State can issue a warrant to the Marshal of the United States, or if the President of the United States can issue an order to any officer of the State of New Hampshire, high or low, then there is no distinction between the authority of the United States and the authority of a sovereign State. And if this be true, we may as well understand, early as late, that not only the constitutional rights of citizens, but the theory of a Constitutional Government under our system, has reached its end:—

To the Editor of the N. H. Patriot:—Last Friday I was arrested, and I am still imprisoned in this military fortress, upon an order signed, "N. S. Berry, Governor and Commander-in-Chief of N. H. Volunteers," addressed "to the United States Marshal for the District of New Hampshire," for alleged "violations of the Order of the War Department of the United States, dated Aug. 8th, 1862, in regard to persons who are engaged in discouraging volunteer enlistments, or in any way giving aid and comfort to the enemy." No specification of the charges against me has been furnished, no provision has been made to bring me before any lawful tribunal for trial, and the generous offers of my friends to furnish bail for me to any amount required, have been absolutely refused. I know not what charges may be made against me, through the corrupt and servile portion of the newspaper press; they will, no doubt, be gross enough. I ask permission to say, therefore, to my friends and the public, that I have committed no offence against my country or its laws. That I have often spoken plainly, and in a manner not particularly flattering, of the present Administration and its supporters, is probably true; but I have used no language more harsh certainly than my opponents habitually applied to the Administration of Jackson, Van Burea, Polk, Pierce and Buchanan, and at times too when the country was engaged in the war with Mexico and threatened with war with France and Great Britain. In short, I differ strongly from the principles and policy of the present Administration, and have said so:

"The very head and front of my offending
Hath this extent—no more."

The charge that I have discouraged voluntary enlistment, or rendered aid or comfort to the enemy, is untrue and absurd. I did urge, in the Epping town meeting, that three hundred dollars should be paid as a bounty to each volunteer, instead of a less sum; and by so doing I displeased some of my political opponents who prefer to stay at home rather than fight, and who desire to keep their purses and their persons alike free from the burdens of the war. This, no doubt, has caused my arrest; but my sincere desire to aid the families of the poor but worthy men who are going to expose their lives in the battles of the country, does not lie upon my conscience as a crime or a cause of reproach.

Were I accused of any crime, I could give bail and prepare myself for trial. As it is, I must await the pleasure of the arbitrary power that has imprisoned me, unless, as my counsel assure me, the laws of the land will still give me redress.

I must apologize for bringing so insignificant a subject as my personal wrongs to the notice of the public; but the consideration of my case may lead the freemen of New Hampshire to consider how far the securities of their own rights and liberties are in danger. Freedom of speech, freedom from unwarrantable and unlawful arrest, reasonable bail and a speedy trial, are rights secured by the Constitution of the State and of the United States. Do they still exist? and if not, why and by whom are the people of New Hampshire deprived of them?

NATHANIEL BATCHELDER.

Fort Constitution, Sept. 1st, 1862.

NOTES OF FORMER DAYS.

Kings—Preachers—Witches.—In 1649, Jan. 30, King Charles I. of England was beheaded. Oliver Cromwell began his reign this year.

In the year 1650, Cromwell conquered Scotland, and annexed it to England, of which kingdom, now more properly called the Kingdom of Great Britain, or the British Empire, Scotland has ever since been a very loyal and important part.

These changes had an important influence on the laws, polity, and manners of New England. In Portsmouth, in the year 1652, commissioners were chosen in town-meeting for the "ending of small causes," and the town appointed the times when they should hold their courts at "Strawberry Bank."

This year the selectmen examined the old town books; and what was not approved was crossed out, and what was approved, was left to be recorded in a new book.

The common lands were granted by vote of the town; and an excise was laid upon wines, which was paid to the town treasurer by the persons licensed to sell them.

Deeds were executed in the presence of two witnesses, and recorded in the town records.

Mrs. Mason sent over Joseph Mason, as her agent, to take charge of the estate here. He found Richard Leader in possession of the lands at Newichewannock, and commenced actions against him before the court in the County of Norfolk. Doubts arose whether the lands in dispute were within the jurisdiction of Mas achusetts, and the question was referred to the General Court, who ordered a survey to be made of the northern boundaries of their patent.

In 1653, a committee of the General Court, two surveyors and several Indians for guides, went in search of the most northerly point of Merrimack river, which the Indians informed them was at Aquedoctan, the outlet of Winnepissiogee lake. The latitude of this place was found by observation, to be 43 degrees, 40 minutes, 12 seconds: to which they added three miles.—They then sent two experienced seamen to find the same latitude on the eastern shore, which ascertained it to be on the north point of an island in Casco Bay. A line drawn through these two points, from the Atlantic to the Pacific ocean, according to their construction of the charter, they determined to be their northern boundary, which included the whole of Mason's claim, and the greater part of Gorges'. The Court granted to the heirs of Mason a quantity of land in lieu of what had been assigned him by Gorges and others, as a compensation for his disbursements and expenses. The agent saw no prospect of success, and therefore made no further attempt to recover any part of the estate, but returned to England.

At a town meeting, held on the 11th of April, 1655, the inhabitants "generally acknowledged themselves willing that Mr. Browne should continue their minister, as he had been, if he were so pleased;" and at a meeting the 10th of July, "It is ordered that Mr. Browne, our minister, is to give an account of what is his due from the inhabitants before this day." It is uncertain how long he had been preaching here, or how long he afterwards continued.

1656, April 14th. At a town-meeting it is mentioned that Mr. Sherburne bath promised to entertain Mr. Browne. The votes of the last year and this memorandum are all that can be found respecting him.

The inhabitants voted in town-meeting, on the 27th day of October, to give an invitation to Mr. Samuel Dudley, son of Thomas Dudley, the Deputy Governor of Massachusetts, to be their minister, and to give him a salary of eighty pounds a year; and appointed the selectmen a committee to present him the vote, and make a contract with him. They waited upon him the 10th of November, and presented him the vote of the town. He accepted the the proposition, and agreed to visit them the next spring; but it does not appear that he ever came. He was afterwards settled at Exeter, and died there in 1683, aged 77.

The delusion respecting witchcraft, extended itself generally throughout New England: in a few instances it appeared in this town. Goodwife Walford was brought before the court of assistants for this offence, upon the complaint of Susannah Trimmings. A recital of the testimony will show how far a disordered imagination contributed to make a person believe that she was bewitched; and what degree of credulity was necessary, to fix the offence upon the person accused. Mrs. Trimmings testified, "As I was going home on Sunday night, the 30th of March, I heard a rustling in the woods, which I supposed to be occasioned by swine, and presently there appeared a woman, whom I apprehended to be old Goodwife Walford. She asked me to lend her a pound of cotton; I told her I had but two pounds in the house, and I would not lend any to my mother. She said I had better have done it, for I was going a great journey, but should never come there. She then left me, and I was struck as with a clap of fire on the back; and she vanished toward the water side, in my apprehension, in the shape of a cat. She had on her head a white linen hood, tied under her chin, and her waistcoat and petticoat were red, with an old green apron, and a black hat upon her head." Oliver Trimmings, her husband, said, "my wife came home in sad condition. She passed by me with her child in her arms, laid the child on the bed, sat down on the chest and leaned her head upon her elbow. Three times I asked her how she did. She could not speak. I took her in my arms, and held her up, and repeated the question. She forced breath, and something stopped in her throat, as if it would have stopped her breath. I unlaced her clothes, and soon she spake and said, 'Lord, have mercy upon me, this wicked woman will kill me.' I asked her what woman. She said Goodwife Walford. I tried to persuade her it was only her weakness. She told me no, and related as above, that her back was as a flame of fire, and her lower parts were, as it were, numb and without feeling. I pinched her, and she felt not. She continued that night and the day and night following, very ill, and is still bad of her limbs, and complains still daily of it."

Nicholas Rowe testified, "that Jane Walford, shortly after she was accused, came to the deponent in bed, in the evening, and put her hand upon his breast, so that he could not speak and was in great pain till the next day. By the light of the fire in the next room, it appeared to be Goody Walford, but she did not speak. She repeated her visit about a week after, and did as before; but said nothing."

Eliza Barton deposed, "that she saw Susannah Trimmings at the time she was ill, and her face was colored and spotted with several colors. She told the deponent her story, who replied it was nothing but her fantasy; her eyes looked as if they had been scalded."

John Puddington deposed, that "three years since, Goodwife Walford came to his mother's. She said that her own husband called her an old witch; and when she came to her cattle, her husband would bid her begone, for she did overlook the cattle, which is as much as to say in our country, bewitching."

Agnes Puddington deposed, that "on the 11th of April, the wife of W. Evans came to her house, and lay there all night; and a little after sunset the deponent saw a yellowish cat; and Mrs. E. said she was followed by a cat, wherever she went. John came and saw a cat in the garden—took down his gun to shoot her; the cat got up on a tree, the gun would not take fire, and afterward the cock would not stand. She afterwards saw three cats,—the yellow one vanished away on the plain ground; she could not tell which way they went.

The first settlers were careful not to give titles to persons who had no claims to them. The degree of Esquire was conferred on none but rulers and magistrates. and very few were addressed by the title of Mr.—There are instances where persons have been degraded, or deprived of this title by sentence of a judical court; which ordered that the defendant should be called by the name of ——, and not Mr. as he formerly used to be. The common appellation between neighbors was Goodman, and Goodwife or Goody.

THE 2D N. H. REGIMENT.—The N. Y. Herald's correspondent told a better thing of our 2d regiment, than appeared from the account as telegraphed to the Boston papers. The following extract from his letter will allow New Hampshire readers to understand the facts in the case—

At about 3 o'clock P. M., the first brigade was ordered to form in line on the outskirts of the woods, clear them and take possession of the railroad beyond and hold it, if possible, at all risks.

This brigade, composed of the remnants of the heroic First, Eleventh and 16th Ms. regiments, and the Second New Hampshire (the 26th Pennsylvania being held as a reserve,) fell into line, as ordered, and made the charge in their customary gallant style. They speedily discovered the enemy prepared to meet them, drawn up in four lines.—Dashing towards them they received the enemy's fire unflinchingly, with the coolness of veterans, and in a few moments more they penetrated two of the front lines of the foe, and had they been in sufficient force would not have left the work incomplete; but being imperfectly supported, and by that time having become so reduced as even scarcely to have men enough to skirmish with, they were compelled to fall back to the edge of the woods and collect their scattered fragments.

Of the 2300 men who went into the engagement, 517 were killed or wounded. A large majority of the latter, however, were carried off the field in safety. This charge is declared to be, by men skilled in such matters, one of the finest—if not the finest—of the war. It was a clear, calm, bold, heroic, give and take, man fashion bayonet charge. The gallant Second New Hampshire, especially, covered themselves with glory.

"After breaking through the first line, with a bound the New Hampshire boys rushed upon the second almost at the same moment, and bayoneted their opponents and retired in excellent order. Although scarcely one-quarter their original number, they lost 133 in killed and wounded in this memorable assault."

☞ Besides the five-days splendid Running Races at the Boston Franklin Course, advertised to commence the 18th of Sept.; there is to be a great union Horse Fair for trotters, at the same place, commencing Oct. 14, to last five days.

☞ Gov. Morton of Indiana has ordered all the male citizens in the border counties to organize themselves into military companies.

☞ A one thousand ton side-wheel gunboat is to be built immediately at the Charlestown Navy Yard.

☞ Lorenzo D. M. Sweat, "war democrat," is probably elected to Congress from the first Maine District, by a small majority.

☞ The U. S. steamer Sacramento was taken from the Dry Dock at the Portsmouth Navy Yard on Wednesday.

☞ As we have before announced,—the manager of the "Mechanic and Industrial Fair," advertised in another column, is to erect a temporary building for this purpose, to connect with Jefferson Hall, in this city; and the work is now progressing. Altho' this exhibition is in no way connected with, or under the direction of, any Society whatever, but a private enterprise, under the sole control of Mr. H. M. Carter, and associates, as announced by him from the first—yet he assures us that the exhibition will be a success, and that he has promises of a large list of entries of mechanical and manufacturing interest.

It will also be seen that the ladies are invited to enter fancy articles, specimens of needle work, &c.; and specimens of vegetables, fruit and flowers are also solicited.—It is announced that liberal premiums will be awarded in all these departments, though the amounts are not stated.

In the absence of any County or State Fair this year, it would seem that, even in these war-engrossing times, a most creditable and interesting show might be gotten up, as we earnestly hope will be the case. Though the work is a great one for private individuals, yet Mr. Carter has before proved himself a tremendous worker for such occasions, and we have no hesitation in endorsing him to our readers, who do not know him, as a most gentlemanly and reliable person; and at any rate, that he will do his utmost for the interests of all concerned, and to take the best care of all articles sent in. It must be allowed that the time is very short to work in—but four days being left before the advertised opening.

GRACE'S CELEBRATED SALVE, it is said, is working astonishing cures. Every day it is curing some serious sore or wound. It is the best present that could be sent to any one in the army or navy, for Dr. Wm. Grace, the inventor of it, saved the lives of hundreds of wounded soldiers through its agency. The following testimonial is from G. F. Rand, of Wolfboro, N. H., formerly of Amesbury.

See advertisement.

SO. WOLFBORO', N. H., July 13, 1862.

Mr. Grace—Sir:—My wife was in Amesbury in May last, and having been troubled with a sore on her nose for some two years, and supposed to be a cancer, she bought a box of your salve, which almost entirely cured her, after failing in all other remedies. I would also say that the overseer of the weave room had his foot very badly hurt by the falling of a heavy weight upon it, jamming the great toe nail entirely off. His foot swelled very badly, and was much inflamed. After trying a number of remedies, I gave him a little of your salve, which cured the foot in a few days. I enclose one dollar, for which please send me the amount in salve, and your conditions to agents, also, for the salve will sell if it can be kept here. Yours truly,

C. F. RAND.

MARBLE STATUES, versus LIVING MONUMENTS.—Let moulded bronze and sculptured marble perpetuate the memories of the great destroyers of the human race; the man of science, whose intellect, with its knowledge, and those energies have been devoted to the mitigation of suffering and the salvation of life, will be immortalized by "living monuments." For example, as the peerless remedies of Professor HOLLOWAY are bequeathed from generation to generation, soothing bodily torture, controlling disease and lengthening the span of existence, the gratitude of millions will transmit his name and fame through the lapse of ages to the latest syllable of recorded time. Compare the exploits of the most renowned "thunderbolts of war" from Cæsar to Napoleon, with the quiet victories of this soldier of humanity over pain, sickness and death. His Pills and Ointment have raised up and restored to health a greater multitude than any conqueror ever slew. Thousands of war's wounded victims have been saved from mutilation by the application of the Ointment; and travel where you may, in this country or any other, you will meet with numbers of the convalescent and the cured, rescued from the very jaws of death by his inestimable Pills. If any reader doubts these statements, we refer him to the same sources whence we derived them—to multitudes who suffered from dyspepsia, liver complaint, intermittent fever, scrofula, erysipelas, and other agonizing internal and external disorders, but who have been restored to perfect health and the pursuits of active life by these inestimable specifics, and whose constitutions have been braced up and permanently strengthened by their invigorating influence.—[N. NEW HAMPSHIRE
MECHANIC & INDUSTRIAL FAIR,

NOTICE TO THE
Citizens of the State of New Hampshire.

There is to be a MECHANIC INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden
IN PORTSMOUTH,
To commence on the 15th of September,
AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the best. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

The Fair will be held in
JEFFERSON HALL,
and a Large Temporary Building erected near it, making THREE LARGE HALLS in all, each connected with the other. In connection with the above, there will be a Hall fitted expressly for an EXHIBITION of

Fruits, Flowers, Vegetables, &c.

and contributions are solicited from any part of the State or elsewhere. Premiums will be awarded in this department similar to the County and State Fairs.

Exhibition open Day and Evening.

Tickets—Single Admission to the Entire Exhibition, 25 cents; Season Tickets, $1.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER,
Corresponding Secretary,
Portsmouth, N. H.
For further information apply to the same.

☞ Beautiful floral display at Mr. Shores' bookstore—also a larger and finer one at Mr. Rogers' Kittery Nurseries. And see that trio of immense war-colored vegetables in the window of the "City Clothing Store."

NAVAL.—Com. Wilkes has been assigned to a new and very important field of duty. His command is a flying squadron of about a dozen vessels in the West India waters, and will proceed with all dispatch to the new station. Com. Wilkes' flag ship will be the Wachusett.

☞ We have a charge against the Kittery Lyceum, for printing. Can any one tell us who ought to and will pay the bill?

☞ See yon fair maiden in another column, picking Sumbuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Eyes, Swelled Neck, Cancers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Flesh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Stiles, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass. and M. S. Burr & Co., 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention. City Treasurer.

One Box sent postpaid by mail to any part of the United States, on the receipt of 28 cents—or three boxes for one dollar.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice. They are mild in their operation, and certain in correcting all irregularities. Painful obstructions, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity*. They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most eminent physicians of America.

Explicit Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Pills *sent by mail, promptly*, by remitting to the Proprietor. Sold by Druggists generally.

Steel Spring Saddle Horse.

(From the Home Journal.)

"Of all the child furniture we have ever seen, no article combines so much of those two important things—health and happiness—as the Adjustable Patent Steel Spring Saddle Horse, invented by Jesse A. Crandall. It is not dangerous, like a common rocking horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its base, and its action is not like the gallop of a live horse that the child never wearies of it. This latest of child-novelties is exceedingly elegant and artistic in design; and so substantial and durable that it will last a lifetime. It is indispensable in every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made strong enough to sustain grown persons. As a pedestal for photographic pictures, nothing is more beautiful. Every Orphan Asylum and Institution where children are congregated, should be furnished with a number of these beautiful articles. They are fitted with side-saddles when required."

Different sizes of these Horses may be seen at the store of the subscriber, who is agent for the sale of them in this city.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine has done equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintance, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe pleuritic pain; and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by the medicine which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no return of it since.
CAROLINE B. SWETT.

This statement of my wife is correct.
WM. P. SWETT.
Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
HANNAH ROWE.
PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and other symptoms, and of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1838. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM. P. LEAVITT.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months without her natural rest by day or night. She had applied to a number of physicians, but continued to grow worse till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I found your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

ON, BROTHERS, ON!

BY W. W. CALDWELL.

Our Country calls! Fling out on high
Each starry ensign to the sky!
God for the right! our battle-cry!
Our motto—Death or Victory!
On, Brothers, on!

Our Country calls! To her we owe
All that of happiness we know;
Justice and law's protecting care,
The rights of freemen everywhere.
On, Brothers, on!

Our Country calls! O leave awhile
The joys of home, the loved one's smile;
Far dearer, sweeter will they be,
When crowned with peace and victory.
On, Brothers, on!

Our Country calls! Let not a word
Of doubt or craven fear be heard;
No backward look, no faltering tread,
But courage, vigor, life instead.
On, Brothers, on!

Our Country calls! No more delay;
Honor and duty point the way;
For her defence who would not fly,
And gladly for her safety die?
On, Brothers, on!

Come from each hamlet, city, town,
From hill and vale come pouring down,
Till East and West unite to show
An avalanche upon the foe!
On, Brothers, on!

Come as our fathers came when they
Broke from oppression's thrall away,
And side by side fought, bled, and died
At Concord and at Lexington.
On, Brothers, on!

So shall the tide of error stay,
So shall the dun clouds roll away;
Our Country saved, united, free,
Eternal home of Liberty.
On, Brothers, on!

A RICH CARGO.—The Philadelphia North American says that rosin, a year ago, brought a dollar and a half a barrel. It is now worth twenty dollars a barrel. The cargo of the prize schooner Emeline Rickly, consisting of 1010 barrels and 118 casks of rosin, is to be sold on the 17th of September; that of the schooner Susan Jane, 400 bbls. and 117 casks of pitch, and 52,000 shingles, on the 16th of September; that of the schooner Harris and Sarah, consisting of 750 barrels and 136 casks of rosin and 71,000 shingles, on Sept. 17th.

PRINTING ESTABLISHMENTS.—The returns of manufacturing establishments in New York city, reveal the astonishing fact that more capital is employed in carrying on the printing trade than any other business, the amount being over eight and a half millions! Over six thousand persons are employed in printing, and various establishments use up about five millions of dollars' worth of raw material, ink, paper, &c., per annum.

☞ The Union officers taken prisoners in the late battles, were detained at Gainesville until Friday last, when they were all conducted to Richmond, with the exception of some of the more severely wounded, who were, by the humanity of Dr. Guild, Medical Director of Gen. Lee, allowed to proceed to Washington in our ambulances under the protection of a flag of truce.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE OF PORTUGAL.

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints.

Excellent Wine for Females.

Every family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is prepared from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

(A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.)

WE REFER TO

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,

Desirable Residence
ON MIDDLE ROAD FOR SALE.
The Subscriber will sell the COTTAGE HOUSE in which he now resides, on Middle Road—one of the most carefully constructed, and for its apparent size, most capacious Dwellings in Portsmouth; containing nine good sized rooms, with an ample attic—seven of the rooms measuring 16½ feet each.
The house was built by the day, ten years since, by the late Wm. F. Currier, under the particular inspection of the subscriber, and for his own use. The Lot measures 65 feet on Middle Road, and is over 300 feet deep, well filled with almost every variety of forest and fruit trees, with vines, shrubs and flowers, all in full bearing and in the greatest abundance. The premises will be disposed of at private sale only, and not at any time at auction

MATHEWS' VENETIAN LIQUID HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1846; since that time it has been USED BY THOUSANDS and no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and MOST *permanent* Dye ever used.

The Chronicle.

OUR IRON-CLAD FLEET.—A summary of the resources of this country in iron-clad vessels, built and building, is, according to the N. Y. Tribune, as follows:

2 frigates, afloat.
1 Monitor, afloat.
2 gunboats afloat (Galena and Naugatuck.)
7 gunboats on Western rivers, afloat.
4 gunboats on Western rivers, purchased and making.
9 monitors building.
1 Monitor, for California, building.
13 gunboats for the protection of Ohio and Ind.
3 Mississippi gunboats.
1 tremendous ram, to be plated with 6-inch iron.
1 gunboat, to be built at Brooklyn Navy Yard.
1 gunboat at Dry Dock.
1 gunboat at New York (Thirteenth street).
1 gunboat at Boston.
1 gunboat at Kingspoint.
1 gunboat at Philadelphia.
1 vessel supposed to be building secretly by Mr Ericsson.
2 new Ericsson vessels. Total, 49.

Of these, one building at Philadelphia, two at New York, one at Greenpoint—and possibly others—are to be exclusively iron.

The following is the actual force of our iron fleet afloat at present:

Vessels.	Tuns.	Officers and men.	Guns.
New Ironsides	3,500	(about) 400	18
Roanoke	3,400	500	8
Naugatuck	70	100	2
Monitor	about 1,000	100	3
Galena	1,000	150	7
Benton	about 500	100	16
Carondelet	about 500	100	16
Cairo	800	100	16
Mound City	700	100	16
Cincinnati	800	100	16
A O Tyler	800	100	16
Essex	800	100	16
Choctaw	800	100	16
Total	15,370	1,860	155

There may be one or two more of smaller dimensions, but these are the most important. The Roanoke is the only craft among them not manned and ready for immediate service.

—— The Manchester American says a citizen in a neighboring city, who had made many stirring appeals to his fellow citizens to enlist, finally concluded to set the example and enlist himself. He was "blessed" with a physical infirmity which he supposed would exempt him from military duty. The surgeon examined him and pronounced him to be "all right—just the man for a soldier." "What!" said the astonished "patriot," "you don't mean to say I can go?" "Certainly sir." "But," said he, "I have a serious infirmity"—at the same time pointing it out to the examiner. "Never mind that," said the heartless surgeon, "you are all right; go and do your duty." The last that was seen of this 'patriotic' individual he was endeavoring to procure a substitute.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Tumors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr. D devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which enervates the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
April 7—1y 3taw.

CAUTION
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all disease incident to the female system. Prolapsus Uteri, or falling of the womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
April7, 1862—1y8taw

CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

FRIDAY, SEPTEMBER 12, 1862.

ILLINOIS CORRESPONDENCE.

Alden, McHenry Co., Sept. 5th.

Friend Miller:—Here where Illinois joins Wisconsin there occurs little to interest your readers in war-time. Our late harvest of spring wheat is over. A late harvest here is always a poor one. Some have averaged less than eight bushels to the acre: the scarcity of labor has led men to leave their poorest fields untouched.—Much hay rots on the ground, and men reduce their stock of cattle. Taxes are coming. All this is dismal, but our agony for our country makes us forget it. Few democrats go to the war, but half of the rest that can possibly go have volunteered.—We welcome the draft and wish it had come earlier.

We see few papers here except the Chicago and New York Tribunes and our county paper that believes exactly as they do. So we wonder that "good, honest Abe" is restrained by malign influences that we know little of. The greatest victory we have yet won would give us less hope and less joy than that magic word LIBERTY TO ALL.

War is a civilizer. What mental energy, what mechanical skill, what Yankeeism has the South acquired since Lincoln's election? As this war is destined to reduce them to poverty and leave them dependent on the sweat of their own brow, and not of the brows of those they have bought or stolen, our descendants will see an enterprising, thriving race there, as the twentieth century opens. Among us too, there is mental development in the direction of geography. You know what pains I have taken for the last twenty years to get people to buy good school atlasses to read by. Last fall I fooled our store-keeper into buying a half dozen of Colton's $1.20 atlasses (the best the world has ever seen for less than $5) and he sold just one of them. Now men see maps in newspapers, buy maps, stick maps on their walls, and even learn which side of the Mississippi Baton Rouge and New Orleans are. There is hope of us yet.

War makes us conversant with past history, our own and that of the world. I have come across two books that are perfect treasures to me in these days; both are by Marcius Willson: Outlines of History, and History of the United States. It is a shame, but I never knew where some of Napoleon's greatest battles were fought, till Willson showed me. And I cannot take up his U. S. without a feeling of regret that I had never seen it when I was at Quebec, at Ticonderoga, at Breed's Hill, at Newport, on the battle-field of Long Island, at Saratoga, at Niagara, at Princeton, at Trenton, and at Monmouth, and on other fields where I have been misled by the presumptous, or vexed by the stupid. The "Outlines" has eighteen maps, and between five hundred and one thousand geographical notes, and needs no more of either. The "U. S." has just such geographical notes and an infinitude of maps, from an inch square to a whole page—all of both that are needed. The Outlines has an index of places; neither of persons—a great desideratum.

Another book I am sorry I have not mentioned earlier in the war.. Our volunteers at the South find themselves surrounded by a strange vegetation, often with time heavy on their hands, and no clue to the vegetable world around them. New Bern is one of the richest localities of rare plants in the world. In that region, alone of all the world, is found that curious plant *Venus Fly-trap*, of which almost every body has read. See Gray's Lessons in Botany, page 52. I know not of ten specimens of this plant in all the herbariums in the U. S., while certainly a thousand are in want of it. How many other plants of lesser note are peculiar to that region, or scarcely to be found elsewhere, I know not. The scanty vegetable world at Key West makes a Northerner stare. And at Pensacola too, and indeed everywhere south of Virginia, the want of Chapman's Southern Flora ought to be felt in every regiment. Chapman himself is a Florida chap: he has lived there to my knowledge since 1840, and was an eminent botanist then. Of his book no praise is too high: its appearance is an era for southern botany. I wish there was a copy to each company in our southern army.

All our best botanists have been children of laboring men. Laboring men at the South are not permitted to send their children to school. And so, although there have been a dozen zealous botanists at the South in our own day, the work of detecting new plants—a work for a thousand pairs of sharp eyes—is not half done there. But there is more than that for northern men to do. The male white population there must be rapidly disappearing under the operation of battle, fever and surgery. An actual preponderance of the African race can only be prevented by migration or colonization from the North. Many, whose duties will have kept them South for two or more winters, will never again be contented with the rigorous winter and the stern hills of New Hampshire. Indeed, I have often thought, as I looked at the rocks peeping thro' the snow, there must be something allied to insanity in the tenacity with which you cling to that chilly soil. Why, if I owned the best farm in your State, I would be willing to burn all my buildings and fences, (I forgot your everlasting stone-wall when I wrote that) and abandon all my cattle to the wolves and my fields to the bears, for a small house in a valley of New Granada—*among equally good neighbors.* In that last is the rub. Where can we find that neighborhood? Yet our boys will learn to do without that, and in the society of damsels whose lovers they have shot, they will soon learn to forget the homely energy that conquers competence, comfort and wealth from the stern nature of their native hills.

Truly yours, I. F. H.

THE REBELLION.

The defences of Harrisburg, Pa., are being perfected.

Advices from New Orleans, to Sept. 17, state that the rebels are constantly threatening an attack upon the city, but that, should they be strong enough to enter the city, the gunboats would drive them out, whatever might be the result to the city. Union reinforcements were arriving from Pensacola.

Business was again suspended in Cincinnati, on Wednesday, and three thousand laborers were ordered to work upon the trenches. Scouts reported that the rebels, to the number of 16,000, were moving on the city in two divisions.

The Grenada Appeal of the 5th inst., says that a fight took place at Denmark on Tuesday last, between the Federal force of Gen. Jackson, and Pierson's Confederate cavalry, which resulted in a drawn battle. The Confederates captured 200 prisoners and 2 pieces of cannon.

Two dispatches, dated Chattanooga, 4th inst., state that the Federal forces have evacuated Huntsville, Ala.

The Philadelphia Inquirer has a dispatch from Poolesville, Md., saying that our forces occupy Sugar Loaf Mountain. The Boston Journal says the rebels had established an observatory on this mountain, from which they had an unobstructed view of the country for miles in every direction. It was of great importance to them as a look-out, being located near the Monocacy river, where they are reported to be intrenched. The capture shows that our forces have made a very considerable advance, and are getting within fighting distance of the enemy.

The rebels, 20,000 strong, with 48 pieces of artillery, occupied Hagerston, Md., on Thursday morning. Gen. Lee has issued a proclamation to the people of Maryland.

Gen. Rosecrans has not been repulsed at Topello, Miss. On the 6th he was at Inka, Miss., and had not then attacked the rebels.

It is reported that the rebels drove in our pickets opposite Cincinnati on Thursday. They are about two miles from our lines, gradually feeling our position. A corps of veteran Union soldiers arrived at Cincinnati on Thursday, and no reverse is apprehended.

TYRANNY.—Things have come to a high pass, says Uncle Toby, when the war power grabs the doctor away from the bedside of his patient, tears the husband from the bosom of his family, and drags the devout christian away from his sabbath home, first to a prison, and then to a grim fortress on a rock! This is strange, passing strange if true, and stranger still if the victim be so loyal, that he gets into confinement for the excess and zeal of his patriotic loyalty. If the reader should inquire whether there is more of truth than poetry in the picture, Uncle Toby would refer them to the card of Dr. Batchelder, in which he says:—

"My sincere desire to aid the families of the poor but worthy men who are going to expose their lives in the battles of their country, does not lie upon my conscience as a crime or cause of reproach."

No, no, not the slightest burden of this kind lies on the doctor's conscience, or disturbs the repose of his neighbors. Leaving negatives and suppositions, here is his positive statement:

"I did urge, in the Epping town meeting, that three hundred dollars should be paid to each volunteer,; and by so doing I displeased some of my political opponents who prefer to stay at home rather than fight, and who desire to keep their purses and their persons alike from the war. This, NO DOUBT, has caused my arrest."

A possible reason for displeasure, but not for arrest—and the doctor "remembers to forget" one curious item of the story, viz. that in the Epping meeting he talked in so patriotic and beautiful a strain, that one of "the poor but worthy" volunteers took him up and dropped him out of doors. This seems strange—but republics are usually ungrateful.

NEW HAMPSHIRE ITEMS.

—— Capt. Joshua F. Littlefield, of the 2d New Hampshire Regiment, has been brought into Washington after having been on the battle-field for six days, shot through the arm and thigh, and his body smashed. He is in good spirits, and Col. Marston has hopes of his recovery.

—— Lieut. John H. Thompson, of Holderness, commissary of the 3d Regiment, who died on the 27th of Aug., was an ardent admirer of Henry Clay, and took a vow that he would never shave again till Clay was President. He kept his word, and his immensely long beard made him appear to strangers an eccentric man.

—— Manchester offers another bounty of $75 to those residents who shall, before the first of November, enlist in any of the old regiments or in the battery.

—— The Seventh Regiment New Hampshire Volunteers, Col. Putnam, left Beaufort for Florida, on Monday, Sept. 1. The band was mustered out of service on the day previous. The 7th left a large number of sick at the hospital.

—— On Sunday last the baptizmal font—several plates and cups of the communion service—belonging to the Franklin Street Church, in Manchester, were found to be missing. On Monday morning the missing property was found uninjured in the yard of the Church, having been deposited there during the night. As the ware was silver plated, it is supposed that the robbers, finding that it could not be turned to any great account, thought it safer for themselves to return it.

—— The Lancaster Republican says the Second Regiment is garrisoning Fort Lyon at Alexandria—Col. Marston being acting Brigadier General. The Fifth is at Alexandria. It was in Sumner's corps and acted as a reserve; hence was not in the great fight. On arriving at the front, Pope's men passed through the lines, the Fifth being the rear guard and the last regiment. Col. Cross was with the men, and commanded the pickets. The men were five days on the move, the days hot and the nights bitter cold. They had only hard bread, and a limited supply of that.

—— The horse and wagon of Nathaniel Horn and the horse of John Bickford, were stolen from their barns in Farmington, on the 3d inst.

☞ Mr. John Langley, of Dover, who received two dispatches while at work at the Portsmouth Navy Yard on Thursday of last week, stating that his son was dead, and that his wife had died of heart disease on learning of her son's death, went immediately to his home in that city. He there found the report in relation to his son correct, but that respecting his wife incorrect, as she met him at the door on his arrival. Why and by whom the dispatch was sent we have not learned. Mr. Algernon F. Chase, the son, twenty-one years of age, died Aug. 27th, between Warrenton and Manassas Junction, Va. He entered as a private in Co. B, 2d N. H. V., Aug. 9th, entered his regiment on the 22d, and died five days after upon his first march, from sunstroke.

☞ The Portland Press of Thursday gives the following item:

SECESSION SPIRIT IN YORK.—We are informed by one of the first gentlemen of York, Me., that in that town on election day, cheers were given for Jeff. Davis, and threats were made by the secession rabble to spill the blood of the "d—d black republicans." So disorderly did the rebel sympathizers become, that it became necessary to read the riot act.

The draft was made in York on Wednesday, but the accounts of the number drafted vary materially. There were on Thursday all manner of rumors circulated in this city, of disturbance at the time of making the draft, but we have been unable to ascertain that any of them were founded on truth.

P. S.—Since the above was in type, we have been informed that the draft in Maine is made by companies of the ununiformed militia. In York there are three companies. In the Cape Neddick company the draft was made regularly; in York Centre there was a disturbance, and the draft was postponed until Monday. Of the result in the third Company we have not been informed. This statement explains the discrepancy in the rumors, and seems reasonable.

It was reported that the draft was to be made in Elliot, on Thursday, but it was afterwards rumored that the quota had been filled by volunteers, and the draft thus rendered unnecesary.

MINISTERIAL SKEDADDLE.—We are informed that Rev. Mr. Blodgett, a smart young orthodox clergyman, who had been in Newmarket (his first settlement as a pastor) but a few months, where he lived high—drove fast horses in good carriages—liked the company of girls in his rides—married and brought home a young wife—then sold his horses, the keeping of which was too expensive—and having pocketed the money departed last week, for parts unknown, leaving his wife and sundry creditors to ponder upon the frailty of human nature. It is further said that two rather fast young women disappeared about the same time; but whether the lambs accompanied the migratory shepherd is uncertain.—*Ballot.*

NEW HAMPSHIRE
MECHANIC & INDUSTRIAL FAIR.

NOTICE TO THE
Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden
IN PORTSMOUTH,
To commence on the 15th of September,
AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as GOOD MATERIAL, INTELLECT and ENERGY as the best. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies.

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

The Fair will be held in
JEFFERSON HALL,
and a Large Temporary Building erected near it, making THREE LARGE HALLS in all, each connected with the other. In connection with the above, there will be a Hall fitted expressly for an EXHIBITION of

Fruits, Flowers, Vegetables, &c.

and contributions are solicited from any part of the State or elsewhere. Premiums will be awarded in this department similar to the County and State Fairs.

Exhibition open Day and Evening.

Tickets—Single Admission to the Entire Exhibition, 25 cents; Season Tickets, $1.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER,
Corresponding Secretary,
Portsmouth, N. H.

For further information apply to the same.
July 19th, 1862.

BOSTON RACES.
FALL MEETING.

The Fall Meeting, for Running Horses, will come off over the **Franklin Park Course,**
On THURSDAY, the 18th day of Sept.,
And continue four days. The following stakes and purses will be run for:

FIRST DAY,—THURSDAY, Sept. 18.
Post Stake for all ages; four-mile heats; $200 entrance, play or pay; four or more subscribers to fill the Stake. Track to add $800; no second money.

SECOND DAY,—SATURDAY, Sept. 20.
First Race—Stake for Three-year-olds; mile heats; $100 entrance; $50 forfeit; six or more entries to fill the stake. Track to add $200; second best to save stake, if three or more start; should this stake not be filled, same race and purse will be given, five for all ages.

SAME DAY—Single Dash of two miles, free for all ages. Purse $200.

THIRD DAY,—TUESDAY, Sept. 23.
Single Dash of one mile, free for all ages. Purse $100. Winner of two-mile dash excluded from starting.

SAME DAY.—Purse $700; three-mile heats; free for all ages.

Entrance money on all purses; five per cent. to go towards a Handicap Purse of $400; two-mile heats; free for all ages; to come off on the 4th day of the Meeting, Thursday, Sept. 25, free only for Horses that have run during the Meeting.

The Post Stake and Three-year-old Stake will close on the 1st day of September.

Horses owned in Canada the 1st day of August, 1862, will be allowed five per cent

Local.

THE DRAFT.—A general order from the Governor, appoints Amos Paul, of South Newmarket, to superintend the draft in Rockingham county, and to hear and determine the excuses of persons claiming exemption from military duty; and Thomas E. Sawyer, of Dover for Strafford county. Also, Dr. Wm. Perry, of Exeter, and Dr. Jacob P. Whittemore, of Chester, Examining Surgeons for this County, and all claims for exemption on account of disability must be certified to by one of them. Dr. A. G. Fenner, of Dover, and Dr. E. C. Dow, of Rochester, are appointed for Strafford Co. The order also directs

That in the towns failing to furnish their full quota of men, as required, by the 15th of September, the draft will proceed on the above named day, or as soon thereafter as the necessary revision of the enrollments can be made, and continue, between the hours of 9 o'clock in the forenoon and 5 o'clock in the afternoon, until the whole number required from such town shall be drafted.

Detailed instructions will be furnished to the Commissioners and Surgeons before they will be expected to commence their duties.

Proper notice will be given by the Commissioners and Surgeons of the times and places of their sessions.

☞ Nobody knows exactly what the quota of Portsmouth is, nor how many we lack of having it full: but there is no *doubt* among the best informed, that we need many recruits yet—probably from 100 to 150—the exact number depending much on whether the navy recruits count or not; and if they do, whether the many enlisted therein under the age of enrollment, also count.

Only two or three days yet remain before the draft is ordered; and shall we suffer old Portsmouth to be thus disgraced by a conscription, in comparison with her sister cities' volunteer quotas? Men of influence and money, forbid it—young men, prevent it,—by the only means,— enlisting, and prevailing on others to do so.

☞ A patriotic citizen suggests that all stores be closed to-day and to-morrow at 3 o'clock, that all may do what they can to fill up our quotas, and keep off the odious draft. Who will start in this matter? How would it do to have the Band on the Square and wake up all the people? Let us have the quotas before Saturday night.

☞ The Concert at the Stone Church on Wednesday evening—the second performance of the cantata Belshazzar's Feast—was attended by an audience more select than numerous; the receipts being only about $50—and as the expenses were fully one-half that amount, the sum of $25 was the net result in aid of the Volunteer fund. (Not to mention the object—for we never did think much of drawing charity out of an audience, by giving them a performance worth double their money paid for "object" and all,) we should hardly know what sort of a concert, unless it be the everlasting "nigger," *would* call out a house here now, seeing that three such as we have lately had, have not succeeded any better. Ah, yes, come to think of it, there is "an entertainment to which we are invited," that is, all the young men, on Monday next, and in which there will no doubt be general interest manifested—in fact, in which there may now be so much, that none can be spared for anything else. N. B. We do not now refer to the Mechanic Fair, which is announced for that day—though we hope that will also be thronged.

As was to be expected, the performance was a considerable improvement over the first—things went smoother, easier, more satisfactorily, doubtless, to singers and hearers; and it must be allowed that, all things considered, the whole entertainment was a musical success—surprisingly prompt, accurate and spirited. The orchestra and the organ were prettily trimmed with flowers and flags, and the chorus of the star-spangled banner was sung at the close; and the audience stood up, as did not that at the Temple the other night, even when the quintet club rose. Perhaps they tho't "star-tangled spanner" stock was not *rising*.

☞ A few days since, a son of the Emerald Isle, in conversation with one of the soldiers from a neighboring fort, gave his opinion that Jackson was a smarter General than McClellan or Pope. The soldier concluded that he was discouraging enlistments, and taking the law into his own hands, gave Pat a severe pummelling, causing the blood to flow quite freely.

☞ The Dover Enquirer states that Chief Justice Bell has issued a writ of habeas corpus, to have Dr. Batchelder, now imprisoned at Fort Constitution for disloyal practices, brought before him at Manchester.

☞ John Scammon, Jr., of Stratham, on Thursday afternoon, in a store in this city, expressed sentiments which were considered offensive and treasonable. Something of a crowd collected, and he was arrested by officer Johnson. The alternative was given him to take the oath of allegiance or to be locked up, and he expressed a preference for the latter.

A WAIF BOAT. One night last week, as the reader may remember, "Seavey's mills," in Rye, were destroyed by fire. On that same night, while a citizen of Kittery was surveying the fire from a standpoint at or near the Navy Yard bridge, he saw a boat pass under the bridge, down stream, with no one on board as he thought:—but as soon as the boat had floated so far that faces could not be seen from the bridge, a man rose up in the boat, and rowed briskly to the cove near the seat of Rev. Daniel Austin. The man disappeared at once, but the boat remains where he left it: and putting these things together, it is suspected that the incendiary came in that boat from the fire which he had kindled, to avoid the exposure of a retreat by land. He'd had just about time enough to reach the bridge from Rye, when his boat was first discovered.

☞ We understand that Mr. Perham contemplates running one of his cheap Excursion trains from Boston to Portsmouth, during the week of the Mechanic Fair here, if practical arrangements can be made with all concerned. No doubt a large number of the Sons and daughters of Portsmouth would gladly avail themselves of such an opportunity to visit our city; and a crowd of others would come to see the place and the Fair. We hope Perham will do it.

We also understand that an Excursion from Portsmouth to Boston is talked of, during the week of the splendid Running Races at Chelsea, which will also come within the time of the match performance of Gen. Tom Thumb and Com. Nutt at the Aquarial Gardens. We hope Perham will fix this also.

The Colorado, like other ships built at Norfolk, is in a rotten condition. Her planking is bad, and knees clumsily fitted. If the department had ordered her machinery to be taken out, on her arrival here, and set up on board the Franklin, it would have afforded a first class steamer by this time, besides obtaining the advantage of the use of the shiphouse, so long occupied by the Franklin.—[Ballot.

We understand some active men in Portsmouth and this vicinity are making exertions to raise a regiment of nine months' men in Rockingham county. We doubt the expediency of publishing names at present, but if raised and officered according to the present programme, it will be an honor to the county.—*Exeter Ballot.*

☞ The Governor and Council have appointed Mr. Frank W. Hackett of this city, a Justice of the Peace for Rockingham County.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—they are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America.*

Explicit Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Steel Spring Saddle Horse.

(From the Home Journal.)

"Of all the child furniture we have ever seen, no article combines so much of those two important things—health and happiness—as the Adjustable Patent Steel Spring saddle Horse, invented by Jesse A. Crandall. It is not dangerous, like a common rocking horse, to children's feet, cannot be upset, does not wear or upset, but stands firm on its base, and its action is so like the gallop of a live horse that the child never wearies of it. This latest of child-novelties is exceedingly elegant and artistic in design; and so substantial and durable that it will last a lifetime. It is indispensable in every family where there are children. It should in every public nursery school and gymnasium in the country, as it can be made strong enough to sustain grown persons. As a pedestal for photographic pictures, nothing is more beautiful. Every Orphan Asylum and Institution where children are congregated, should be furnished with a number of these beautiful articles. They are fitted with side-saddles when required."

Different sizes of these Horses may be seen at the store of the subscriber, who is agent for the sale of them in this city.

GLASS PRESERVING JARS,
LUDLOW'S PATENT TEST JARS.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my little brother has had the ague for the space of three years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintance, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effects of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my system pure by the medicine which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since.
CAROLINE B. SWETT.

This statement of my wife is correct.
SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for humors.
HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress in my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.
M. LOVEY.

Exeter, Feb. 24, 1838. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM. F. LEAVITT.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I believe your medicine one of the best that can be found for the disease above named.
ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26ly

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT.
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS FREE OF PORTUGAL.

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medicinal properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, and possesses no rankness of spirits or other liquors, and is admired for its rich, peculiar flavor and medicinal properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist, and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,

MATHEWS' VENETIAN LIQUID HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1846; since that time it has been used by THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, interfere with the NATURAL softness of THE HAIR,—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most permanent Dye ever used.
SOLD BY ALL DRUGGISTS.

NEW HAMPSHIRE ITEMS.

——Mrs. Malcolm Livingston, of Concord, fell dead about 6 o'clock on Tuesday afternoon last in the State House yard.—She was a strong, muscular and athletic woman and apparently as well as ever during that day. She went to call her daughter, when she fell and instantly expired. She was about 42 years of age.

—— A young lad by the name of Quimby in a store in Concord, a day or two since, was wounded in the shoulder by the discharge of a pistol which was not supposed to be loaded. The boy is doing well.

—— The 9th N. H. Regiment has been attached to Gen. Burnside's command, which is the rightwing of all the forces now collected and gathering for the defence of Washington.

—— Lieuts. Muchmore and Fuller, of the 6th regiment, reported killed, have arrived at Washington. They received, each, severe wounds.

NAVAL.—It is currently reported in naval circles that the U. S. steamer South Carolina was lost off Abaco in the vicinity of the locality where the Adirondack was wrecked, the South Carolina having followed in the track of that ship.

P. S.—The ship arrived at Port Royal, Aug. 30, and was coaling prior to taking her departure for the vicinity of Charleston, S. C. From this it would appear that the report of her having been lost, must be without foundation.

☞ Late Havana advices state that the rebel steamer Florida was ordered off, by the authorities at Cardenas, who placed war steamers each side of her, allowing no one but the doctor to leave her or go on board. The yellow fever prevailed on board, and she has lost many of her crew by sickness and desertion. Nine were buried on the 31st ult., including a son of Maffit, her commander. She then went to Havana with only 36 hands, most of them sick, including her captain, who has the putrid fever. She is leaky. She was ordered off and went to sea on the night of the 1st in a heavy thunder storm.

☞ Maj. John F. Lee, Judge Advocate of the Army, has resigned the office. He has occupied the position about 14 years.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the early and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Irritation, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y Staw.

CAUTION

To Females in Delicate Health.—DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

April7, 1862—1y Staw

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SATURDAY, SEPTEMBER 13, 1862.

THE REBELLION.

Preparations are being made for another attack on Vicksburg, by the land and naval forces. It is reported that Com. Farragut is about to attack Mobile.

The rebels, about 1200 strong, attacked Washington, N. C., on the 6th of September, but by the aid of the gunboats, 500 of our troops repulsed them and drove them seven miles. The magazine of the gunboat Picket blew up, and Capt. Nicholas and 19 men were killed and 6 wounded.—Our loss in the fight on shore was 7 killed and 46 wounded. The rebels lost 30 killed, 36 taken prisoners, and many wounded.

The enemy before Cincinnati were throwing up earth-works in front of Fort Wallace on Thursday evening. Reinforcements of veteran troops are constantly arriving and Cincinnati is considered safe.

The evacuation of Frederick, Md., by the rebels is confirmed. Stonewall Jackson, with his advance, on Thursday night was at Hagerstown, preparing to move with his whole army into Pennsylvania.

Our troops at Cumberland Gap are surrounded and their supplies cut off. A correspondent says he has been assured by the highest authority that in no event will Cumberland Gap be surrendered or evacuated. The only means the rebels have of destroying them, is to starve them to death, and in this respect the prospect looks somewhat gloomy.

Five companies of the N. Y. 7th regiment have been ordered out, with one day's rations,—probably to go to Philadelphia.

Bragg, with 40,000 men, is coming up from Sparta, Tenn., by Lexington, Ky.; and Gen. Buell from Nashville, Tenn., by Louisville, with 45,000 men. There seems to be a race between them, Cincinnati being the goal and the prize.

New-Orleans, says the Picayune, has never known a hotter August than the one just finished; but not a case of yellow fever has occurred!

The New-Orleans correspondent of the New-York Herald describes a review of the U. S. troops by Gen. Butler, and says,—"The regiment of colored freemen (Native Guards,) authorized by Gen. Butler, is progressing finely, and will probably be full in a few days, and a second one will also soon be ready." Lt. Col. S. H. Stafford is colonel of the first regt.

James Syme, a prominent druggist, and Henderson his clerk, have been sentenced to three years hard labor with the ball and chain, for shipping medicines and drugs to the rebel army. Syme's property has been confiscated, and his store, with its immense stock of valuable drugs and medicines, has gone into the hands of Gen. Butler's medical director, for the hospital.

Other arrests of busy rebels were made, and other seizures. Col. Thomas had attacked some rebel forces, and captured 1500 cattle, horses, &c.

☞ Gen. McClellan issues a stringent order to remedy the vice of straggling in the army. All officers, of whatever grade or regiment, are vested with authority to drive forward all stragglers to their regiments, and resistance is at the risk of death. All houses on the line of march are to be occupied by the Provost Guard, and protected against injury, and marauding and robbery are made punishable with death, the sentence of which is "to be executed promptly and in the most public manner."

☞ John Scammon, Jr., of Stratham, who was arrested in this city on Thursday afternoon for expressing treasonable sentiments, was discharged late on Thursday evening, after having expressed contrition and signified a willingness to take the oath of allegiance.

The Portsmouth Chronicle says that one of the greatest arts of all newspaper work is the ability to make items; which is true, and without intending a compliment, we would put the Chronicle among the first demonstrators of the art. U. T. is an adept in the piquant —*Boston Sat. Eve. Gaz.*

☞ Workmen broke ground for the new reservoir on Baymarket Square on Friday morning.

Interesting to Carpenters, Builders, and Wood-Workers.—See the Patent Saw Machine on exhibition at the State Fair. 4t

A Request.—Each and every person who is indebted to The Chronicle or The Gazette office, for newspapers, advertising or job printing, is hereby desired to settle the same as soon as convenient. And all having claims, to present them.

NEW HAMPSHIRE ITEMS.

—— The Patriot says it is understood that Messrs. Stevens and Savage, who were designated by the Twelfth Regiment for Lieut. Colonel and Major, decline those offices in consequence of the refusal of the Governor to commission Col. Whipple as the commander.

—— Lieut. Rogers, of Nashua, son of ex-Mayor Rogers, is believed by his friends to be dead. He had been in fourteen battles. Lieut. Emerson, son of Col. E. P. Emerson of Nashua, is a prisoner. He has written to his father.

Governor Curtin, of Penn., on Thursday evening called on the Mayor of Philadelphia for 20,000 men to be sent on the next day, and requested him to call all the able-bodied citizens to assemble at 10 o'clock on Friday morning, in readiness to obey the summons to immediate service.

—— The 11th N. H. Regiment, Col. Walter Harriman, left Concord on Thursday morning, en route for Washington.

☞ Mr. Wm. M. Hills, of Rockland, with Capt. Andrew Jameson, went to St. Johns, N. B., in a yacht, last week. The family of Mr. H. received a dispatch that he was dead. It is now learned that he was murdered, and the Rockland Free Press thinks it was because he would not haul down the Union flag in St. Johns harbor.—The St. Johns Freeman regards the affair as a quarrel and its result. The Coroner's jury rendered a verdict that Mr. Hills came to his death at the hands of one John Collins.

☞ Capt. F. F. Welles of Boston, with 20 divers, 300 men and 4 whale-ships, arrived at Fortress Monroe on Wednesday, for the purpose of raising the sunken vessels at Hampton, Newport News, Gosport and James River. Their contract requires them to raise the Cumberland whole. Capt. Welles intends to raise the Merrimac whole if possible.

☞ Appleton Oaksmith, the slave trader, escaped on Thursday morning from Boston Jail, where he was confined to wait for the session of the U. S. Circuit Court in October, when his motion for a new trial was to be argued. The Post says that he had been gone four hours before he was missed. The motion for a new trial in such a clear case, was a neat dodge to let something turn up,—as it has done.

☞ The Boston Transcript states that "the supply of hospital stores at Washington is sufficient for the relief of the sick and wounded for at least six months. Those wishing to make contributions where they will really alleviate the distress of our soldiers, should send them to the New England Rooms, New York, conducted by Col. Frank E. Howe."

☞ The Patterson Guardian states that "Mr. Alfred Speer, the great Sambuci wine manufacturer of Passaic, N. J., offers two dollars extra bounty to every volunteer for Aquackanock township, to fill her quota.—He will increase this bounty if others will come up and exceed it. Aquackanock's quota is 95 men.

☞ A few days since, a little girl about 4 years old, in Waltham, Mass., plucked a tiger lily from the garden and snuffed the pollen from the flower into her head. She was shortly after seized with dizziness and convulsions, from which she died, after excruciating suffering, in four days.

☞ The Springfield Republican states that Mrs. George Jonce and her two children were found murdered and their dead bodies hidden by leaves in a wood near the town of Otis, Mass, on Monday last. Mrs. Jones had been grossly outraged, and her brains knocked out with a club. Suspicion is fastened upon a party of negroes.

☞ The Department of the Northwest, to which Major General Pope has been assigned, includes Wisconsin, Iowa, Minnesota, Nebraska, and Dacotah, with the troops raised and to be raised therein, under his command, his headquarters being at St. Paul, Minnesota.

☞ The last of the wounded at Centreville, 250 in number, arrived at Washington on Wednesday. About 50 places are occupied in and about Washington and Alexandria for hospitals. Several more churches having been opened for hospitals in the former city.

☞ At the annual meeting of the stockholders of the Boston and Maine railroad, in Haverhill on Wednesday, the following gentlemen were chosen directors:

Peter T. Homer, Boston, Mass.; Daniel M. Christie, Dover, N. H.; James H. Duncan, Haverhill, Mass.; Geo. W. Kittredge, Newmarket, N. H.; Nathaniel G. White, Lawrence, Mass.; Israel M. Spelman, Cambridge, Mass.; Henry Saltonstall, Boston, Mas.

☞ Mr. John T. Junifer, a colored man about forty years of age, was killed at the Eastern Railroad station in Salem, on Tuesday morning last. He attempted to get up on the train, but fell under it, and two cars passed over him.

☞ The Massachusetts Republican Convention, on Wednesday, re-nominated Gov. Andrew. Lieut. Gov. Nesmith declining to serve, Hon. Joel Hodgdon, of Williamsburg, was nominated for that office.

REVOLUTIONARY APPEAL.

In one of the darkest times of the American Revolution, the following documents were issued, one copy of which went to Wolfborough,—and is republished there in the "News," as a part of the town history:

Portsmouth, 28 Sept, 1777.

"Sir.—I am desired by the two Houses of Assembly, to recommend it in the strongest manner to the militia of this State, that as many of them as can possibly leave home, do immediately equip themselves in the best manner possible, and march to the reinforcement of the Northern army, and put themselves under the officer commanding there. You will please to inform the officer and men that they will be allowed the same pay, rations and encouragement that are received by the other officers and soldiers of this State; that by one bold exertion we may be amply revenged for the execrable abuses that have been exercised by our merciless foes, restore to some degree of happiness a great number of our Northern brethren who have been cruelly forced from their peaceful habitations, and put it out of the power of our worse than savage enemy, evermore to show their faces in that part of the country. I, therefore, do most earnestly entreat you to exert every faculty, to stimulate the militia under your command, to march without the least delay to the assistance of their brethren now in the field, and share with them in the glory of vanquishing the most barbarous enemy that ever pretended to civilization. The militia of New Hampshire have already a high seat in the Temple of Fame; one and one effort more will place them beyond the reach of envy.

"I am, your Humble Servt.,

"W. Whipple, Brig. Gen."

This letter was accompanied by one from Col. Badger:—

Portsmouth, Sept. 24, 1777.

"To the Selectmen of Wolfborough:—Gentlemen:—You will see by the within recommendation of the Court, I must entreat you to exert every nerve, as this seems to be the critical moment. Send forward all the men you can get, to be at my house by Tuesday next, if possible. When the men are met, the officers shall be appointed as they agree. I am, gentlemen, your Humble Servant, Joseph Badger, Col."

This appeal seems not to have been in vain. Capt. John Sinclair, William Lucas, John Lucas, Benj. Blake, Andrew Wiggin and Moses Ham immediately responded to the call. And, judging from the character and position of these men, it was, no doubt, patriotism alone that prompted them to act. These, with other brave men, were permitted to witness the glorious termination of that autumnal campaign, in the capture of Burgoyne and his army. Besides these six persons, who enlisted for three months, at least eight others had up to this period served in the army, showing that more than one-forth part of the persons in the town of Wolfborough, capable of bearing arms, had, before the close of the second year of the war, seen service. The names of the other soldiers were Ichabod Tibbets and David Piper, who had each served seventeen months; John Piper, who had served fourteen months; Jeremy Gould who had served twelve months; and Jonathan Lary, William Rogers and John Fullerton, who had each served five months. It is not known how long a time Enoch Thomas had then served, or when any others than those already named had been in the army.

FAIRS IN NEW HAMPSHIRE.—1862.

At Portsmouth—Sept. 15th. Mechanical and Industrial. Also exhibition of vegetables, fruit and flowers. To continue five days. Proceeds to be devoted to the aid of volunteers.

At Weare, Purinton's Park—Oct. 2 and 3.

At Ossipee—Oct. 2d and 3d. Carrol Co. Agricultural Society.

Great Horse Trot.—The great stallion trot for $10,000 between the celebrated horse Ethan Allen, and a horse called Robert Fillingham, came off on Wednesday at Long Island. The match was mile heats, best three in five, to harness, and was won by Fillingham in three straight heats, the time being 2:24 3-4, 2:25 3 4 2:31.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

Delicacies.—One of the special delicacies of modern times may be accounted Speer's Sambuci Wine, which combines with rare purity and nicety of flavor, the good qualities of port and claret. It is neither insipid nor bitter, but hits the happy medium most to be desired in a cordial beverage, or a drink for the sick. For invalids it is invaluable by virtue of its tonic qualities, and particularly its absolute freedom from all adulterations. Actual trial will show that the Sambuci Wine has excellence of its own, unrivalled by any other wine in the market.—[New Yorker.

NEW-HAMPSHIRE
MECHANIC & INDUSTRIAL FAIR,

NOTICE TO THE
Citizens of the State of New Hampshire.

There is to be a MECHANIC & INDUSTRIAL FAIR, for the encouragement of the Mechanic Arts, holden
IN PORTSMOUTH,
To commence on the 15th of September,
AND CONTINUE FIVE DAYS.

The proceeds, over and above the expenses, to be expended to aid our volunteers.

There will be competent and impartial Committees chosen to decide on the merits of the various articles on exhibition, and liberal PREMIUMS will be awarded in the various departments.

As this is the first Exhibition of the kind ever held in this State, we are determined it shall be successful. There is no possible reason why New Hampshire may not get up as good a show as any other State. We have as good MATERIAL, INTELLECT and ENERGY as the best. As this is to be a STATE instead of a County Fair, we would like to have EVERY PART OF THE STATE represented by some specimens of the industry and ingenuity of her sons and daughters.

The most liberal arrangements will be made with the Railroads, for the transportation of articles for exhibition and visitors on the occasion.

N. B.—The best of care will be taken of all Articles sent in.

To the Ladies

We ask for specimens of Needle Work, such as Embroidery, Worsted Work, Quilts, &c. Also specimens of Weaving, Spinning, Knitting, Crochet Work, Hair Work, Drawings, Paintings, Shell work, Cone and Leather Frames, and all kinds of Fancy Work.

The Fair will be held in
JEFFERSON HALL,
and a Large Temporary Building erected near it, making THREE LARGE HALLS in all, each connected with the other. In connection with the above, there will be a Hall fitted expressly for an EXHIBITION of

Fruits, Flowers, Vegetables, &c.

and contributions are solicited from any part of the State or elsewhere. Premiums will be awarded in this department similar to the County and State Fairs.

Exhibition open Day and Evening.

Tickets—Single Admission to the Entire Exhibition, 25 cents; Season Tickets, $1.

N. B.—All articles should be sent in three or four days previous to the exhibition. All articles must be directed to HENRY M. CARTER,
Corresponding Secretary,
Portsmouth, N. H.

For further information apply to the same.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Limbs, Chilblains, Chapped Hands, Ringworms, Sprains, Fleth Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Stiles, Lame Wrist, and Sores and Wounds of the most dangerous nature, without leaving scars. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from the use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills is the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, painful Menstrations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. Any female can, safely and with ease, see she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *endearing, with certainty, perfectly regularity.* They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America.*

Local.

☞ The Boston Journal states that, by instructions from the War Department the men in the naval service are not to be credited to the various places to which they belong. This, in many towns and cities, will add greatly to the number to be furnished under the last call. It is currently reported, however, that the Governor and Council have decided that in filling the quota of this state, the several cities and towns shall be credited with the men they have furnished for the Navy. Yet if the city authorities and the people of Portsmouth do not desire a draft, it behooves them to bestir themselves.

Citizens of Portsmouth:—Let us collect on the public Square, this (Saturday) afternoon at 3 o'clock, for the purpose of raising the balance of our Volunteers, to fill our quota, without the disgraceful draft. Let all who feel an interest for the credit of the city be present.

A MERCHANT.

CITY COMMITTEE.—A letter has been received from a member of the Committee sent to Washington with the contributions for the sick and wounded soldiers from this city. The Committee reached Philadelphia on Tuesday afternoon. They were informed in Boston that it would be useless to carry any hospital stores to Washington at present, and they accordingly stored them in Boston, to await their order.

In Philadelphia every facility was afforded them to further the object of their mission. They had visited some of the hospitals, and found the sick and wounded well cared for and kindly treated. The men all seemed cheerful. The letter continues:

"We asked in regard to Hospital stores, and were told that too much could not be sent,—especially wines, brandies, cordials, lint and bandages. Of these they were in need. We shall proceed to Washington, and if the stores are not needed there at present, from all accounts they will be very soon. Our people should not hesitate about keeping on in the work of preparing articles similar to those we have.

The goods we have stored had better remain where they are for the present, as it would not be of any advantage to send them or any other stores at present. But they will all be needed, and many more, and should be kept in readiness to be sent at a moment's notice. We shall ascertain further in regard to such things before we write again.

We were told by some of our soldiers that we were the first New Hampshire men they had seen, and it would have done you good to see how it cheered them up to talk of the Old Granite State.

The letter contained the following partial list of the killed, wounded and missing in the N. H. regiments. Where no places are mentioned, they are in the hospitals in Philadelphia:—

Second Regiment.—John Hanson, died at Alexandria, Sept. 6. Sergt Frank O. Robinson and Henry Walker, Co K, killed. Samuel Smith, died at Washington, Sept. 8. M. D. Merrill, Co D, in arm. Orin Pervere, Co E, sick, but recovering. Henry Shaw, Co E, in hand. Also the following of Co K,—Warren L. Stebbins, of Northfield, in toe; James F. Gammon, in hand; Wm H. Goodwin, wounded and missing; Charles Robinson, in face, but now with the regiment; W. Whidden, in hand, at Newport, R. I.; Michael E. Long and H. H. Wilson, missing. Wm C. McIntire, Co K, was taken prisoner, but released and is with the regiment. Joseph West, Co K, sick at Washington. Lieut. W. W. Walker, in hand; John Meagher, do; Alex. Stewart, in head; Jere. Mahoney, missing; Wm Nicks, do; Wm W. Shaw, in hand.

Fifth Regiment.—W. S. Kimball, Co. A, sick, convalescent; C. H. Eaton, Co. H, do.; Capt. F. D. Green, Co. B, at Newport Grove, R. I.; W. Hanson, Co. I, do.; J. L. Kendall, Co. I, rheumatism; W. H. Tupper, Co. A, wounded.

Sixth Regiment.—E. Fosso, Co. A; J. Hamilton, Co D; J. N. O. Kensing, Co D; J. D. Sias, Co D; M. E. Sacker, Co D; H. Jones, Co E; S. S. Metcalf, Co F, in hand, at Newport; E. Wight, Co F, at Newport; Edward Noble, Co F, in Rhode Island; H. Whittaker, Co G; L. P. Dodge, Co G; W. A. Morgan, Co G, at New York; M. Robb, Co G, at Newport; H. G. Coffin, Co G; H. S. Simonds, Co. E; D. Hastings, Co I; H. M. Farren, Co I; G. P. White, Co K; Henry C. Flagg, in arm, at Washington; D. Divine, sick at New York.

MUSICAL.—*Messrs. Editors:*—Allow me, a stranger, to express the pleasure I felt on listening to the concert given on Wednesday evening, at the Stone Church. I had been informed there was but little musical talent in Portsmouth, and supposed there were no singers possessing any particular merit; therefore my surprise was great, when on Wednesday evening I stened to hi so many pleasant voices of excellent quality, and a few of *rare* and *sweetest* tone, possessing unquestionable merit. I can truly say that the whole performance, both vocal and instrumental, was far superior to anything I had anticipated. The ladies and gentlemen deserve much praise for sustaining their several parts so acceptably.—I understand that the Director of the concert is a recent resident of your city, and that he has already made himself deservedly popular in his profession. He certainly deserves great credit for the skill and taste displayed in the dramatic arrangements.—"All hail to the Stars and Stripes." For the cause, Yours, INCOGNITO.

☞ We are requested to state that the steamer Clipper will, probably, run from Portsmouth to the Fort and the Navy Yard, during the time of holding the Mechanics' Fair, leaving the wharf at 9, 10, and 11 o'clock, A. M., and 2, 3, and 4 P. M. Also, will leave each day for Dover, at half past five P. M., to return the next morning.—Fare to the Fort and Navy Yard and back, 25 cents. To Dover, 25 cents each way.

☞ Rev. Messrs. Patterson and Humphriss, of this city, spoke at a war meeting in Rye, on Wednesday evening. A party of about forty ladies and gentlemen from this city, attended the meeting. The speeches were, of course, fervent and patriotic, and were enthusiastically received by the whole audience, with the exception of a few individuals in the entry, who by groans and hisses made considerable disturbance, until two Rye volunteers went out and seizing one, brought him in and sat him down in the centre of the hall, for all to gaze upon. They then started for another, but he had skedaddled. The meeting was quite lengthy, not adjourning until after eleven o'clock.

Previous to the adjournment, Rev. Mr. Patterson requested Mr. Nath'l J. Coffin, "the fighting man," to step forward that he might be seen. Mr. Coffin naturally showed some reluctance to do so, but two of the volunteers finally induced him to comply, when a Portsmouth young lady stepped forward and with the following happy and appropriate address, presented him with a costly sword, sash and belt, from some of his Portsmouth friends:

When friends go from us, the heart prompts parting gifts—gifts that through space and time shall speak to them of us and of our abiding interest in them.

To-night, honored Sir, on the eve of your departure whither your country calls, intimate friends desire to present you with some token of their regard. To a *patriot soldier* what shall be offered but a *patriot sword?* In behalf of those friends, then, I ask you to accept these insignia of your soldier calling.—I give into your hands this good sword, confident that that hand shall be polished and cold, ere this hilt is polluted by a traitor's grasp. Unsheathed—we know it rests not in its scabbard, till this wicked rebellion be crushed and the dear, old flag float again over the whole sisterhood of States—as it *will*, for "the right must win."

In that glad day, we hope to bid you "welcome home!" We look to see once more your glittering steel, though not as now *bright*, but deeply, deeply stained—the sad stains telling the deserved fate of Columbia's ungrateful sons. So perish traitors! Go! in this the hour of the nation's sorest need, with brave heart and strong hand "Strike for the Union!"

Mr. Coffin, in a few words, expressed his thanks to his friends who had so unexpectedly honored him, and the meeting adjourned.

☞ Mr. Avery, 29 Congress street, has a very convenient pocket "historical war map," accompanied by a brief summary of principal events of the war, &c. Price, 25 cents.

Steel Spring Saddle Horse.

(From the Home Journal.)

"Of all the child furniture we have ever seen, no article combines so much of those two important things—health and happiness—as the Adjustable Patent Steel Spring Saddle Horse, invented by Jesse A. Crandall. It is not dangerous, like a common rocking horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its base, and its action is so like the gallop of a live horse that the child never wearies of it. This latest of child-novelties is exceedingly elegant and artistic in design; and so substantial and durable that it will last a lifetime. It is indispensable in every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made strong enough to seat six grown persons. As a pedestal for photographic pictures, nothing is more beautiful. Every Orphan Asylum and Institution where children are congregated, should be furnished with a number of these beautiful articles. They are fitted with side-saddles when required."

Different sizes of these Horses may be seen at the store of the subscriber, who is agent for the sale of them in this city.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but the obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor WASH, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in two months, and I have had no trouble from it since.

CAROLINE B. SWETT.

This statement of my wife is correct.

SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side, and seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.

HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1838. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. P. GRAVITT.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that you made your visiting our house in the spring of 1840, she had been confined for a number of months, without the natural rest day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26 1

FLETCHER WEBSTER.

COL. FLETCHER WEBSTER, although always and perhaps rightly claimed as a son of Portsmouth, first saw the light in the District of Maine. His father and mother resided in a house on Pleasant street, in front of where ex-Mayor Jennes now resides. Our town was invested with soldiers, and there were so many fears of danger from the enemy at the time, that it was not thought safe for Mrs. W. to remain in town; and so she took up a temporary residence in Kittery,—from whence she returned in due time bearing the young Fletcher to her home. Thus has a life which was commenced amid the ragings of war, and within the sound of every martial demonstration, closed half a century after on the battle-field.

The body of Col. Webster was brought to Boston on Friday, and on Monday was laid in state in Faneuil Hall, which was appropriately decorated with the white and sable emblems of mourning, blended with the glorious flag, in defense of which have fallen so many brave and noble men. Four flags were pendant from the centre of the ceiling, an American Shield forming the centre piece, and streamers of white and black, radiating to the galleries. The fronts of the galleries were draped with festoons of muslin, looped up by small national shields.

The body of Col. Webster was arrayed in his full military dress, and enclosed in a rich rosewood casket, splendidly mounted with silver. The equipments which he wore in the battle when he fell were displayed on the casket, which was bedecked with floral wreaths and similar tokens of affection.

A silver plate on the lid of the casket bears the following inscription:

COL. FLETCHER WEBSTER,
12th Massachusetts Volunteers.
Born in Portsmouth, N. H., 25th July, 1813.
Fell at the head of his Regiment on the old Battle Field of Bull Run, Va.,
August, 1862.

Thus the last son of the illustrious Daniel Webster was laid in solemn state upon the platform of old Faneuil Hall,—that very spot where the father's foot had so often trod,—that very hall where the father's potent voice had so often spoken strong words for the Constitution and the Union,—with the father's portrait looking grandly down from the great picture on the wall, as if guarding and blessing the remains of the son who had so nobly died in the same holy cause of liberty and Union.

And there the coffin lay from two o'clock till seven. And Tuesday morning, at a little after eight, the doors were again opened, the Germania Band took position in the gallery and played sad symphonies and marches, and for two hours the citizens continued to press in for a sight of the face of the dead.

Some twenty in a minute passed the body, so that Monday and Tuesday over eight thousand persons had the opportunity, and thousands more would have been pleased if they had it.

Soon after 10 o'clock the doors of the hall were closed, and at half-past 11, a long procession with military escort, moved to the Stone Church at Church Green, where services were performed by Rev. Chandler Robbins.

The body was then conveyed to Marshfield, and deposited near the remains of the great man who has made the name Webster immortal.

Col. Webster's brother Edward perished in the Mexican war, and there is now but one male of the family left, a son of Col. Webster, whose career, if he will but emulate the example of his fathers, cannot but be honorable.

THE PORTSMOUTH BAPTIST ASSOCIATION met at Plaistow on Wednesday and Thursday of this week, awakening considerable animation in that pleasant, hospitable, quiet town. Ministers and delegates were present from nearly all the fourteen churches of the "Association," in very good number. Rev. Noah Hooper of Exeter was chosen Moderator, Rev. E. B. Eddy of Portsmouth, Clerk, Rev. C. H. Corey of Seabrook, Clerk pro tem, and L. W. Brewster, Treasurer. The Associational sermon was preached by Rev. W. H. Dalrymple of Stratham, on "Christ's character as a King." The letters from the churches indicate the true war feeling throughout, and at the same time show considerable religious interest. Rev. E. B. Eddy wrote the Circular Letter to the Churches, pointing to the duty of the members to exhibit an active, working, self-sacrificing interest in the cause of our country. Sermons were also preached by Rev. Mr. Collins of Great Falls, Rev. Mr. Hills of Dover, and others. Rev. C. H. Corey, just from the seat of war, where he had charge of wounded soldiers during the late retreat, was expected to give some account of the events to which he was witness there. The convocation was one of much interest.

PRIVATE FRACTIONAL BILLS.—When silver change disappeared in July, four of our substantial firms procured the engraving of 25c bills, all of which were signed by each firm as issued them, and were redeemable by either firm in bank bills, whenever your might be presented. For a few days they were very frequently returned for redemption. But after a week or two the matter was well understood to be only for a public accommodation, and without risk. They were then everywhere received like silver, in this and neighboring towns, and up to the time that Congress prohibited the issue, about five thousand of these bills were issued, and are now still in circulation, those who issued them redeeming at sight a dollar's worth of them on hand. A premium has in some instances been paid for them. One of those who issued them had last week twelve bills presented at his counter. On handing out a three dollar bank bill, the lady replied, "O, I can get that for them anywhere—I thought you paid a premium!"

At the July session, the Governor and Council appointed Mr. Frank W. Hackett a Justice of the Peace for Rockingham County.

It having been intimated that Mr. H. had taken his commission to escape a draft, we deem it no more than justice to state that Mr. H. was appointed on petition of the Portsmouth delegation of the N. H. Legislature, sent to the Governor and Council on the third week in June; and that his commission bears date of July 2, 1862. This was before either call for troops was made and the question, which has since become interesting, of Justice exemption was dreamed of. We further understand that the gentleman in question entered his name as liable while taking the enrollment of ward one, and does not believe that any Justice of the Peace under 45 is or ought to be exempt from draft.

REMARKABLE PRESERVATION.—On Tuesday evening last, soon after sunset, Mr. Benjamin Edmonds fell from a back window in the third story of his son's residence in State street, upon the roof of a one story addition to the house, and from thence to the ground—a distance of not far from twenty feet. No bones were broken, nor was he so much injured as to prevent his walking into the house with assistance. Mr. E. is a tall man, weighing over 200 pounds, and is about 76 years of age. His mind of late being in a feeble state, he is now unable to relate the circumstances of his fall. It is probable that in extending his head out of the window he lost his balance. The preservation was most remarkable.

EXCURSION TO PORTSMOUTH AND VICINITY.—Mr. Perham has arranged for a half-price excursion from Boston, to Portsmouth, Rye Beach and Hampton Beach, on Wednesday next.

CLEAR FORTNIGHT.—From Friday, 29th Aug. to Friday, Sept. 12, the sky has been generally uncloaded, with the exception of one day, Monday, Sept. 1st. Clouds are now gathering.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert E. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

MATHEWS' VENETIAN LIQUID HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been used by thousands and in no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is ONE FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most popular Dye ever used.

CONVENTION OF MUTES.—The New England Association of Deaf and Dumb commenced their biennial session, in Portland, Me., on Wednesday. There were about 130 mutes, male and female, present. The Press states that a proposition was made by one of the mutes to revise the Constitution, which elicited considerable debate. As this debate was all done by signs it was exceedingly interesting, and afforded much amusement to the spectators. At one time half a dozen were talking all at the same time, and yet it was as *quiet* as a church yard. Some of the speakers evidently made good hits which were loudly applauded by the members of the Association. Finally the mover of the proposition withdrew it, for which course he was applauded.

THE NEW SCALE OF PAY FOR NAVAL OFFICERS.—Under the new law of Congress the pay of officers of our navy is as follows: admirals, $2000; commodores, $1800; captains, $1600; commanders, $1400; lieutenant commanders, $1300; lieutenants, $1000; masters, $800; ensigns, $500. These rates of pay are exclusive of rations, which are furnished to each officer. Some are allowed several rations—rations for servants; others, such as masters and ensigns, are allowed only one. If officers do not draw their allowance they can get commutation money instead.

——"Perley" states that "Col. Marston of the New Hampshire Second has obtained from the line officers engaged with the regiment in its recent gallant bayonet charge, full particulars of the individual bravery of the men, some of whom bayoneted two and three rebels. It is to be hoped that the Colonel will have an opportunity to prepare from his own recollection, and from the materials furnished him by his officers, a report of this heroic charge made by his 'Granite State boys.'"

☞ By virtue of instructions to all the Collectors of Customs, the Secretary of the Treasury has ordered that the late law of Congress shall be enforced, which requires all shipmasters, whenever they clear, whether foreign or coastors, to take an oath of allegiance to the United States.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at hi, office, Nos. 7 and 9 ENDICOTT STREET, Boston on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of prescribing the unfortunate with remedies that have never failed, where the first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Gleet, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Consumption, and the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for their use, on receiving description of your cases. Dr. Dow has also for sale the French Capotles, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y Saw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days, so invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston or Albus. Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days, so invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases, at every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

A star for every State: a State for every star.

MONDAY, SEPTEMBER 15, 1862.

☞ That the leaders of this unholy rebellion did not originally contemplate a division of empire, is self-evident. They calculated upon a divided North, and intended to seize the reins of government, establish a military despotism, and compel the freemen of the North to live under their domination. Failing in their calculations, and finding the North united when they commenced their infernal work, they assumed another characacter, for the *time*, and proclaimed to the world that all they wanted was to be "let alone," and they actually succeeded in making some of our own people believe that to be their only intention. But recent successes have made them bold, and they now declare their real intention—that of subjugating the North. And it has come to this, as we have before said—that we must either conquer, or be conquered. We must either establish the supremacy of the United States, and the authority of the Constitution, in the rebellious States, or submit to be ruled by the rebels as subjugated provinces. These are the terrible alternatives. Is there a man in New Hampshire, in New England, in all the loyal States, so craven that he will not spring to his feet, and declare his determination that the Union must be maintained, the Constitution vindicated, and this foul rebellion crushed. There is no escape. The dread alternative is forced upon us. Let the Government move in its might, and the people will sustain it.

☞ The Citizens' Committee of Boston have just published a circular, in which they say:—

"Many of our citizens have in their houses rifles or fowling pieces, which, by the addition of bayonets can be made useful in suppressing the rebellion, and would prove invaluable should a sister State ever call upon us to assist in repelling invaders. The Government has undoubtedly arms sufficient for the grand army which is now being placed so rapidly in the field. What would be the effect upon that army, to know and feel that at every hearthstone in the North there was a musket and a man to rally, like the minute men of the Revolution, to their support in case of unanticipated and unforeseen disaster!

They recommend three things:—1st, that each citizen who has arms make a report in writing to the Secretary of this Committee, stating the style, size and quality of arms which he possesses.

2d. "That our citizens procure and keep on hand a suit of woolen clothes, blanket, proper shoes and under-clothes adapted for use during a short campaign. Many, no doubt, who are unable to take the field, would be willing to see that some friend is fitted out." And,

3d. "That those who are without arms should immediately procure them."

"The Citizens Committee expressly desire that the public may not construe this call as an alarm. They make these suggestions strong in the hope and belief, that our army is fully capable of crushing this rebellion, but there are many reasons why such a reserved force, which calls for no particular personal sacrifice, should be created."

It has been matter of regret with many citizens, that the Legislature of New Hampshire did not revive the *militia* in June last, or the June before, and call for a *general arming* of the whole, somewhat on the old plan. It was never a great burden,—and though many of the old arms have disappeared, yet the number of serviceable arms, fowling pieces and rifles, in the hands of the people of New Hampshire must be some thousands,—and a call from some authority would bring out a large portion of them—more than the Legislature supposed.

☞ The Confederate steamer 290 is reported to have received from the steamer Bahama, off the Western Isles, iron plates, munitions of war, &c., to enable her to intercept Northern vessels as they approach the coast, and in the absence of any ports, to take and destroy ships and cargoes. She is commanded by Capt. Semmes, late of the Sumter. She is now called the Alabama.

☞ A Union cavalry officer, writing to Wilkes' Spirit from Tennessee, says that out of a district there which had sixteen hundred voters, *fourteen hundred* (including almost *every* man capable of bearing arms,) have gone to war for Jeff. Davis & Co. Why stand we *here* idle?

☞ Gen. Canby has been relieved from the command of the Military Department of New Mexico, and will repair to the States in a few days, where he will again enter the field. Gen. Carleton, his successor, is now in Arizona with his brigade, and will reach Santa Fe in a short time.

THE REBELLION.

The rebel Gen. Loring on Wednesday afternoon, crossed the Potomac at Williamsport, Md., and fell into a masked battery of the Federals. He was repulsed with great slaughter and the loss of many prisoners.—Frederick on Thursday afternoon, was nearly evacuated. The rebels moved in retreating order with their teams in advance.

Rebel cavalry, on Thursday morning, surprised our troops at Williamsburg, Va. Col. Campbell, of Penn., and five Captains, four Lieutenants, and a few privates were taken prisoners. The rebel commander, Col. Shingles, with eight of his officers and nine men, was killed. We remained in possession of the place.

Jenkins' whole force of guerillas was met and routed in Western Virginia on the 9th.

Gen. Morgan has made a foray through the rebel lines at Cumberland Gap, and captured a provision train and cattle enough to subsist his army 50 days. He also captured the rebel Gen. Austin and 60 soldiers.

A gentleman from Norfolk says the most reliable information current there from Richmond was, that the Merrimac No. 2 was in no condition for service, her plating not being completed.

The whole of Gen. Buell's army is hastening to the suppo t of Nashville, which is now menaced by Bragg, who follows our rear guard at a respectful distance. The city is being fortified. Gen. Thomas is to be placed in command. Eight thousand men from the army of Gen. Rosecrans, under command of Gen. Jefferson C. Davis, have arrived for the purpose of reinforcing Gen. Buell. Four regiments, with two pieces of artillery, have left Nashville to attack Kirby Smith in the rear; and 15,000 men, under Gen. Buell, were to leave on the night of the 5th for the same destination.

Scouts report that the enemy in front of Cincinnati are retreating in confusion, and prisoners state that they are doing so, because they have heard of Gen. Buell's presence in Kentucky and have not heard from Bragg.

A Baltimore dispatch, of Saturday, 13th, states that railroad communication was interrupted and the telegraph wires cut between Harper's Ferry and Cumberland, by the rebels on Friday.

The Philadelphia City Council has appropriated half a million dollars for the defence of the city and State, and has given the Mayor full powers. Martial law has been declared in Harrisburg.

The dispatch received on Sunday by Messrs. Hutchings, Isley and others, stated that a large force of rebel cavalry attempted to cross the Potomac near Harper's Ferry on Thursday, but our batteries opened on them while in the river and compelled them to retreat. The slaughter among them was fearful, the river runningred with their blood. They had previously attempted to storm our batteries on the Maryland heights but were repulsed with great loss. Gen. Lee is said to be at Hagerstown, Md., with a large force. Heavy firing was heard on Friday in the direction of Harper's Ferry, and also on Saturday in the direction of Martinsburg, but the results were unknown. Gen. Hooker took possession of Frederick on Friday night, and on Saturday morning Gen. McClellan and staff entered the town. A rebel wagon train has been taken. The rebels have not yet entered Pennsylvania. On Saturday a dispatch was received at Philadelphia, to send all the troops to Harrisburg at once, as a great battle was going on between the Union forces and a part of Jackson's army. The call was being answered promptly.

BOLD ATTEMPT AT ROBBERY.—A daring attempt was made at Wheeling, Va, on Wednesday night last, to rob the Government vault of the Custom House, which contained $1,250,000. The vault is strongly constructed. The walls are fourteen inches thick, and between every layer of bricks there is also a layer of crossed and riveted iron firmly embedded in the cement. The robbers worked hard and skillfully, digging a large aperture through the brickwork of the wall, but the iron remained and resisted all their efforts, till the approach of day compelled them to beat a retreat without effecting their object. It is supposed the rogues secreted themselves in the building the day before. With a little more time they would probably have succeeded.

☞ Over $100,000 changed hands at the race over the Fashion Course when Ethan Allen was defeated. Ben Wood and John Morrissey are reported—the former winning and the other losing heavily. They say Fillingham can make his mile in 2:15.

☞ A number of the friends of Rear Admiral Foote in Brooklyn, N. Y., have made arrangements to present him a splendid sword, as a token of their appreciation of the services he rendered to the nation on the Mississippi and Tennessee rivers.

☞ Washington Navy Yard will be closed to the public until further orders.—Only the officers of the yard and the workmen hereafter will be admitted.

NEW HAMPSHIRE ITEMS.

—— The officers of the 12th (Bellknap Co.) Regiment were appointed on Thursday as follows: Colonel, Capt. Joseph H. Potter, of the regular infantry; Lt. Colonel, Capt. John F. Marsh, of the 6th Wisconsin regiment, a native of Hudson; Major, G. T. Savage, of Alton. Lieut. Colonel Marsh was in the division of Gen. King in the army of Gen. Pope, and was wounded in one of the recent battles before Washington. He also served through the Mexican war.

—— On Wednesday there were 2200 soldiers in camp at Concord.

—— "Perley" writing from Washington to the Boston Journal says: "Col Marston is in the city, looking after the wounded of his brave regiment, which is known as having made the bravest and best bayonet charge of the present war."

—— Capt. Barker, of the 2d N. H. Regiment, has got his discharge and accepts the Lieut. Colonelcy of the 14th N. H.

—— "Scout" writing from Rockville, Md., to the Boston Journal, under date of Sept. 8, says:—

"Gen. Burnside paid a visit to several of the new regiments, including the 9th New Hampshire, Col. Fellows, last evening, and though he went unostentatiously, his familiar face was soon recognized by the soldiers and the camp was the scene of the utmost enthusiasm. The Granite State has heretofore been well represented in the ninth army corps by the 6th Regiment, and undoubtedly the General, judging by the conduct of this regiment, is pleased to have more from the same State under him now that his army is so much enlarged."

THE DRAFT.—To-day, the 15th September, is the day appointed for drafting for all deficiencies in town quotas in New Hampshire—"or as soon thereafter as the necessary revision of the enrollments can be made" by our State authorities. "Shall we have to draft here?" everybody has been asking. We don't know—nobody knows; but we hope not—we should much regret that the old Granite State should be found wanting in voluntary patriotism at this juncture. Next to being invaded by a foreign foe—which she never was yet—we should regard a draft within our borders; not because of any sound, reasonable objection—for in many points of view, especially if no exemption or substitution is allowed, it is one of the fairest modes of letting all support their own Government. But the name has an unpleasant sound, in a popular government, and besides implies that the administration is ahead of the people in urging on the cause of the Union and the government, which has not been the case yet. Let there be no draft, except that on the individual and united efforts of all.

The statement made that Fletcher Webster was the "last of the blood of Webster," is unfounded, since another of the great man's sons, Sidney Webster, Esq., is now practicing law in this city.—*New York Argus.*

The Argus is mistaken. Sidney Webster, Esq., who was private Secretary to President Pierce, is a native of Gilmanton, N. H., and of another family than that of the great Statesman.

☞ The Columbia (S. C.) Gaurdian, says that Gen. Beauregard, on reporting for duty, was assigned to the Department which includes Charleston and its defences.

☞ Perley telegraphs that the friends of prisoners subjected to close confinement, as officers of Gen. Pope, have reason to hope for their speedy exchange.

☞ Minister Harvey at Lisbon, notifies the Secretary of State that the Portuguese Government issued a decree admitting foreign breadstuffs free of duty.

☞ The police by industry and activity have caused the names of two thousand "skedaddlers" to be enrolled on the draft list in New York.

☞ Only 4000 bales of cotton have been brought into New Orleans since its capture by the national forces on the 25th of April.

☞ One Alderman and one Policeman were among the conscripts, at the draft in Hartford.

☞ Kossuth, says a Scottish newspaper, is in the final stages of consumption.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Flesh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Sties, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external balm. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is guaranteed to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co, 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 38 cents—or three Boxes for one dollar.

Important to Females.
DR. CHEESEMAN'S PILLS.
The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS
was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS
are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, through out the country, having the sanction of some of the most *eminent Physicians in America.*

EXCURSION, WAR MEETING, &c. — As Mr. Perham has already announced, in the Boston papers and by bills,—an Excursion train will run from Boston to this city next Wednesday. Undoubtedly a large number of the sons and daughters of Portsmouth, and other residents there, will come down on the occasion; and it will of course be the desire, and for the interest of our citizens, that the visitors may enjoy themselves —more especially if any of them should be disappointed in "the Fair," as we hope none may be.

Mr. Perham also announces that there will be a War Meeting held here on that day, Wednesday, at which distinguished speakers will defend the Union and the most vigorous war policy; and he has written to us, as loyal public journalists, to ask if our citizens will not co-operate, by joining in, and perhaps with speeches, music, &c. What say the citizens? What say our City Government? Rightly managed, there may be a glorious meeting—an interchange of patriotic sentiments, which would be pleasant and improving. We have heard much regret among citizens—especially among recruiting officers,—that the War Meetings were suspended; and such a grand one as this might be, would be welcomed by every patriot, at this juncture.—Even though there be no fear of drafting hereabout—of which, by the way, nobody can be sure yet—still we presume no one will deny that our people are hardly up to the emergencies of the crisis, either in spirit or action; and no mortal can tell what is coming yet. Who says for a rousing war meeting next Wednesday? The people would enjoy it—will our authorities see to it, that they have the opportunity?

P. S.—We are requested by a Market Street merchant to state that a movement is on foot to have a Mass Meeting on Market Square at 3 o'clock this (Monday) afternoon. The citizens are most earnestly invited to close their places of business at one o'clock, and to unite, one and all, in the work of encouraging enlistments, and manifesting their interest in, and admiration for, the volunteers. The Portsmouth Cornet Band, it is expected, will be in attendance on Market Square at two o'clock, and the several church bells will be rung. Shall not all unite in making this meeting one of great and lasting benefit, unmarred by any event which shall occasion regret in the mind of any true and loyal citizen?

☞ Capt. Betton's Company of Volunteers will probably leave Portsmouth on Tuesday afternoon, for camp at Concord.—Laconia Engine Co. No. 2, and Ex-1's, have offered their escort and will probably go to Concord, accompanied by the Portsmouth Cornet Band.

☞ The Home Guard is to have its third Drill this evening: and all the members should attend these early meetings, to begin at the groundwork. The company includes a wide scope of ages, from young to old—and having now 120 or 130 members, the number ought to be doubled. The drill is only good exercise now: but if invasion or other danger were to occur, one organized company of 200 men, well armed and drilled, would form a good nucleus for a much larger force.

The editor of the Portsmouth Chronicle is trying to find out how to collect a bill for printing, of a defunct lyceum. He had better get out a writ returnable to the "Court of Death."—*Portland Press.*

Our friend of the Press has made a "writ of error" this time, we guess. We will wage him a dish of that Popham chowder, that we realize on that Kittery Lyceum bill—on *pain* of eating it, if we lose, too.

☞ Mr. Lamprey announces his Fall Term of Dancing School, to commence next Wednesday. Mr. L. has been too long among us to require any further evidence that he has no superior in his profession; and the mention of some of his new dances in the advertisement shows that he is fully up with the latest fashion of steps and changes. Let the little folks dance and be happy while they may.

☞ The Company, which has been stationed at Fort McClary for some months past, was mustered out of the service on Saturday morning.

☞ A letter from a member of the City Committee at Washington, states that they had called on Col. Marston and showed him the list of articles contributed by our citizens for the sick and wounded members of the 2d regiment. He read the whole list through, and as he did so, manifested much feeling and repeatedly remarked—"how kind they are to our boys."

Mayor Simes had previously received a dispatch, requesting that the articles, which had been stored in Boston, should be forwarded immediately. They were of course promptly sent, and our citizens will learn with pleasure that they will soon be in the possession of those for whom they were so kindly and so freely contributed.

☞ There will be an excursion, to-morrow (Tuesday,) the whole length of Lake Winnipiseogee, from this city and other places, via the Eastern, Conway and Cocheco railroads, and the steamer Dover,—there being no change of cars through to the Lake. Fare, from Portsmouth, $1.; children under 12 years of age, half-price. Train leaves Portsmouth at 8.45 A. M.; arrive at the Lake at 10.45. Returning, leave the Lake at 4.30 P. M. There will be a band of Music on board the boat. If the weather is unfavorable the excursion will be postponed to Thursday.

☞ Company G, 10th regiment, now numbers 97 men, and 73 of them have been paid the $200 bounty by the City; 6 more are entitled to it but have not yet been paid. Portsmouth, therefore, contributes 79 men to this company.

MARRIAGES.

In Hampton Falls, Mr. MOSES YOUNG of Newbury, to Miss HATTIE A. DENNIS, youngest daughter of Capt. George W. Dennis of Newburyport.

DEATHS.

In this city, Sept 12th, EDWIN W. MITCHELL, aged 4 months and 8 days, child of Thomas and Isabella Mitchell.

OBITUARY.

The following appropriate tribute to the memory of the late Mrs Webster of this city, we quote from the Puritan Recorder, to which paper it was doubtless furnished by the pastor of the North Church in this city, of which the departed was a member.

Died, in Portsmouth, N. H., 1st inst, MRS. HANNAH B. WEBSTER, aged 30 years, wife of Horace Webster, Esq., and only daughter of Rev. Dr. Blanchard, of Lowell.

This mournful visit of Divine Providence removes from her circle of relatives and friends, one who was a model wife, sister, daughter and friend. She had lived in her new home but a little more than two years, and yet she had entered with such a resolute and yet quiet energy upon every department of Christian activity, that the church with which she was connected feel the loss as of a veteran in service. She united in rare perfection those graces and accomplishments which made her seem most truly in her place while in her home and ministering to the wants of her family, and that activity in all objects of general usefulness and charity, which is often displayed at a sacrifice of household duties. Her character was one of remarkable symmetry, formed as it was, under the most judicious influences, and young as she was, her counsel was matured and trustworthy. She was rigid in exacting the whole length and breadth of the Gospel, far beyond most around her in the precision and purity of her doctrine, and yet distinguished for grace, meekly, and all the excellencies of the most polished society; she was a living proof that the truest lady may be the finest Christian. She was a lineal descendant of John Rogers, the martyr, and was not ashamed to confess that the faith which was good enough for him to die by, was good enough for her to live by. Her loss is, consequently, an almost beyond exception, in the partner of her joys; the remarkable adaptation of the character of husband and wife, seemed to give signally their days of fair promise. She was a daughter whom her father and her mother were able fully to prize, and in this respect inestimable. It is a great solace to their friends, that they are now able to use to such rich advantage, those consolations, which they have so long and signally blessed in imparting to others. "Death loves a shining mark." It has this time cut down at the threshold of her matron career, one whose personal beauty, and whose blended dignity and grace were the charm of all, one who was a main spring in all Christian activities, one who was rich in the accomplishments of a Christian education, and specially versed in our best lyrics, one who will long be remembered with pride and affection.

"When my life barque, richly freighted,
In the light of morning lay,
Came my Father's hand so gently,
And its treasures bore away
Beggared by the sore affliction,
Eagerly my heart pursued
As, 'mid clouds his face concealing,
The receding hand I viewed.
Wings of faith its flight supporting,
Lo! it cleaves the upper sky;
There my heart its treasure greeting,
Both within his hand shall lie."

McGREGOR'S PATENT
AIR-WARMING AND VENTILATING
FURNACES.

The subscriber would invite the attention of any person in want of a Furnace, to this celebrated heating apparatus, the most perfect in use;—simple, powerful and durable.

The advantages which this Furnace possesses over all others, are:

1st. The perfect consumption of coal No clinkers are made, and no ashes need be sifted.

2d. A continuous fire may be kept through the entire season.

3d. No red hot iron comes in contact with the air to be warmed, and ample accommodation is offered for the evaporation of water, so that the atmosphere of the rooms is that of a soft Italian summer, without any of the dry, oppressive air often felt in furnace heated rooms.

4th. No gas can escape from the fire chamber into the room above

5th. More heat is generated from the coal than by any other method of heating; consequently it is THE MOST ECONOMICAL.

The patterns of this Furnace have been very greatly improved recently, and several sizes added, making in all twelve sizes of Brick and Portable Furnaces, adapted for all sizes of buildings.

This Furnace is more used than any other in first class dwelling houses and public buildings—and volumes of testimonials can be shown in its favor.

We might refer to the following persons who are using the McGregor in this city:

Rev. Chas. Burroughs, D. D.; Messrs. Alfred W Haven, Mark H. Wentworth, George Wentworth, J. P. Bartlett, Com. John Pope, Wm. L. Dwight, Mrs Levi Woodbury. Also to Rev. Dani. Austin, Kittery; Capt. Chas. H. Salter, Greenland, and many others.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prescribed, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. CAROLINE H. SWETT.

This statement of my wife is correct.
SIMEON SWETT.
Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
DANIEL BOWE.
PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1853. Dr Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM. P. LEAVITT.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH; since then, she has recovered her health so far as to rest quietly for dairy and table use. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

SAMBUCUS TREE, OF PORTUGAL.

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sedative, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,

MATHEWS'
VENETIAN LIQUID
HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been USED BY THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY and CERTAINTY. It causes no annoyance or trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, alter the NATURAL PERFUME OF THE HAIR,—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.
SOLD BY ALL DRUGGISTS.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers connected with Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The Testimonials bel ow given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has financial reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more skilled in preparing their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor by the Commissioner of Patents.

R. H. EDDY.

Boston, Dec. 2, 1861 aw

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Painful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the slightest stings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Diseases of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capobes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

April 7—1y Saw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Such as Leucorrhœa Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate cases of child-bearing, and many the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to a specialty, can now offer the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

April7, 1862—1ydaw

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and long-standing diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

The American Annual Cyclopædia,
—and—
Register of Important Events
OF THE YEAR 1861,

Embracing Political, Civil, Military and Social Affairs, Public Documents, Biography, Statistics, Commerce, Finance, Literature, Science, Agriculture, and Mechanical Industry.

The form of a Cyclopædia has been selected, as affording room for the greatest variety of details, without becoming too minute and tedious. The work is already in an advanced stage of preparation, and will be issued as early in the year as its proper completion will permit. The volume will be in the style of the New American Cyclopædia, having not less than 750 pages, royal 8vo.

The work will be published exclusively by subscription, and its exterior appearance will be at once elegant and substantial.

In Cloth, $3. In Library Style, leather, $3.50.

TUESDAY, SEPTEMBER 16, 1862.

THE REBELLION.

Our forces on the 11th were compelled to evacuate Gouley, Western Virginia, after destroying all the Government property they were unable to take away. Our forces shelled and burned Charlestown, Va., two houses only being left. They destroyed all the salt works.

The rebels, on Sunday afternoon, were repulsed in an attack on Mumfordsville, Ky., with heavy loss. They sent in a flag of truce asking permission to bury their dead, which was granted.

Gen. Morgan, at Cumberland Gap, is scouring the country for forage, and will hold out until relieved. The rebels are still in his front, but not in his rear.

Gen. Burnside passed through Frederick, Md., early on Saturday morning, and the whole army pushed on after the enemy by every road, even crossing fields. Before the rebels left Frederick they sacked and destroyed the Union newspaper office.—Ladies there hid American flags about their persons to prevent the rebels from carrying them off. The rebels did not destroy the three turnpike bridges over the Monocracy, but left nothing but the piers standing of the splendid iron railroad bridge. Jackson's force, it is pretty well established, recrossed the Potomac near Williamsport, on Friday. It is reported that Longstreet was repulsed at Harper's Ferry, on Friday, and the battle was renewed on Saturday morning.

A dispatch from Gen. McClellan on Sunday evening to Gen. Halleck says:—

After a very severe engagement the corps of Gen. Hooker and Gen. Reno carried the hight commanding the Hagerstown road by storm. The troops behaved magnificently. They never fought better. Gen. Franklin has been hotly engaged on the extreme left. I do not yet know the result, except that the firing indicated progress on his part. The action continued until dark, and terminated leaving us in possession of the entire crests. It has been a glorious victory. I cannot yet tell whether the enemy will retreat during the night, or appear in increased force during the morning. I regret to add that the gallant and able Gen. Reno is killed.

Dispatches from Gen. McClellan dated Monday, say:—

Gen. Franklin's success on the left was as complete as that in the centre and right. The enemy is making for the river in a perfect panic, and Gen. Lee stated last night publicly that he must admit that they had been shockingly whipped. I am hurrying everything forward to endeavor to press their retreat to the utmost. I do not think our loss is very severe. Gen. Lee is reported wounded, and Gen. Garland killed. Gen. Hooker alone has taken over 1000 prisoners. It is stated that Lee gives his loss as 15,000. Information received completely confirms the rout and demoralization of the rebel army.

Stonewall Jackson has been whipped in three battles. Col. Miles still held his position at Harper's Ferry on Monday morning. He has received 30 days' supply of provisions.

☞ Hon. John R. Thompson, U. S. Senator, died at his residence in Princeton, N. J., on Friday night.

☞ Col. Bullock, of Massachusetts, said in a late speech,—

"We are in war for National existence, and our very identity will vanish as a dream, our liberties will pass away like a scroll, if, whenever and wherever we can reach it, we recognize the obstacle of a social status with toleration and favor."

To this the Boston Evening Gazette responds,—"We believe this is the ground that all loyal men are ready to take. We all want a guarantee for future peace, and we all know the obstacle which stands in the way. We say with our heart and soul, REACH IT by force of arms, and then deal with it."!

GARIBALDI.—The details of Garibaldi's capture says that he was wounded in the thigh and foot by a bayonet. His retreat was cut off, and unconditional surrender became inevitable, but his resistance, nevertheless, was desperate. He has arrived at Spezzia. It is reported that his wounds are not serious and that they are progressing favorably. It is presumed that he will be tried and sentenced, but pardoned on account of his past services. One rumor says that the Government intends sending Garibaldi to America.

☞ Sailors are so scarce in New York that thirty dollars per month has been offered in several cases without effect, and vessels are now lying in the harbor loaded, and cannot sail for want of seamen.

NEW HAMPSHIRE ITEMS.

—— During the terrific engagement, in which Capt. George A. Gerrish, of the N. H. Battery, was taken prisoner, the infantry, by which the battery was supported, broke and fled, and a company of sharp-shooters (Berdan's) were sent to his support. They also broke and fled, with the exception of five brave fellows who stood by to the last. The men stuck by their guns, though within ten yards of the enemy, till the rebels rushed upon them, striking them down with their muskets. It was only by desperate hand-to-hand fighting that they prevented the capture of all their pieces. As it was they lost three, and their beloved captain also.

—— Ex-President Pierce was in Manchester last week. The American states that he was not seen much upon the street, and his associations have been with politicians whom he has invited to his hotel, or visited at their dwellings and places of business.

—— The 10th Regimedt has received orders to move on Monday, Sept. 22d.

☞ The following members of Co. K, 2d N. H. Regiment, all from this city, were seen at their camp, by the City Committee, and were all well, viz.:—

Lieut. John E. Sides, Lieut. George E. Sides, Rob't Sides, Chas. E. Plaisted, Chas. W. Patch, M. E. Long, Alvah Manson, Wm. McIntire, Wm. Lawson, Geo. Raitt, Moran, Wm. W. Shaw, Jere. Murphy, Thos. Gannon, J. L. Locke, Rutledge, Jas. W. Taylor, Rufus L. Bean, Chas. E. Gleason, Chas. H. Warren, John F. Dearborn. M. E. Long has been previously reported missing.

The following Portsmouth boys had been met by members of Co. K, on the Peninsula or on the march:—

Robt. Bell, 6th U. S. Cavalry; Oliver Knight, 1st Minn.; Wm. Deverson, 1st Ms., sick; James Leverton, 16th Mass., wounded at Fair Oaks; Henry Smith, Thos. Kennedy, Wm. Kennedy, and Paul C. Hoyt, of the 14th Mass.; John Swindell, Battery I, 5th Regulars; Allen Leach, 19th Mass.; Dan'l J. Vaughan, 57th New York. All the above were well, except where it is otherwise stated.

—— The following soldiers are in the hospitals at Baltimore:—

Edwin Lamprey, Co. I, R. I. Battery, from Hampton, N. H., convalescent. Austin Carr, Co. F, 5th N. H., do. Hiram Carroll, Co. B, do. do. George W. Wood, Co. K, 6th N. H., do. Scribner Coles, Co. H, 5th N. H., do. Mark S. Billings, Co. B, 2d N. H., reported killed, is alive and with the Regiment.

At Judiciary Hospital, Washington.—*2d Regt.*, C. H. Hill, Co. K, wounded but improving; G. H. Scranton, Co D.—*5th Regt.*—Eugene A. Parker, Co H; J. H. Gates, Co C; Bradley H. Hill, Co F.—*6th Regt.*—E. A. Barrell, Co G; J. S. Dernary, Co F; Geo. O. Knapp, Co F; H. D. Buckram, Co B; W. A. Russell, Co F; C. W. Wilson, Co H; Chas. Bodwell, Co G; Paul Greenleaf, Co K.

At Cranck's Hospital.—*2d Regt.*, J. B. Stevens, wounded in hand, doing well; H. M. Shaw, Co C, doing well; Aaron Ewerett, fever, improving, Wm Bancroft, Co F, do.; Charles M. Robinson, Co K, reported killed, was wounded in the face and is now doing well.

Caspan's Hospital.—6th Regt.—A. A. Gove, Co I, heart disease, comfortable; Wm. S. Neal, doing well; P. N. Gile, Geo. K. Rollins, Otis S. Currier, John G. Colcord, Ezekiel Clough, Stephen Leathers, all of Co. C., convalescent; W. H. Wallace, Cyrus H. Farnum, and Henry C. Lakeman, Co. E., do.

—— Raymond's quotas are more than fall. Sewell D. Tilton of that town has been chosen Captain of a Company recruited there and in Deerfield and Fremont.

☞ Hampton's three-year's quota left for Concord, Monday. The nine-months' men come very slow there.

☞ A large number of rifles, fowling pieces, and other arms, have been reported in Boston, by the owners, to the War Committee. It is said a similar call is to be made through the State. Why should not such a call be made, in Portsmouth, and through New-Hampshire?

☞ Old Deerfield, Mass., held her war meeting on Wednesday evening. One young man offered to volunteer if the young ladies would kiss him, upon which two ladies bestowed the favor craved, but his pluck was not equal to the emergency, and he backed out amid the hisses of the audience.

☞ The recent disastrous flood in Philadelphia destroyed one million dollars' worth of property. A culvert burst and the water undermined and swept down a dozen brick houses and endangered fifty-two more.

☞ The Chief of Police in Cincinnati seized some two hundred loafers about the Court Room the other morning, and sent them at work on the fortifications at Covington.

☞ We have heard of no draft in Maine, or at any rate in the section of the State near us, except in York and North Berwick—and the reports of disturbances there were incorrect. Eliot has filled her quotas by volunteering.

☞ Rev. George L. Chaney, of Salem, Mass., is to be ordained over the Hollis Street Society (late Starr King's) of Boston on the 5th of October.

Local.

☞ The Fair at Jefferson Hall will open this evening. See advertisement.

DEPARTURE OF CAPT. BETTON'S COMPANY FOR CONCORD.—This fine company, raised mostly in this city, will leave in the afternoon train to-day for Concord.

The members of the city government and all citizens who wish to join in the escort are invited to meet at the City Rooms at 3 o'clock.

The procession will be under the direction of Gen. J. G. Hadley, as Marshal, and will be accompanied by the Cornet Band. Per order Com. Arrangements.

Portsmouth, Sept. 16th. '62.

☞ Gen. Perham writes to request us to say, that he has held several War Meetings with his Excursion parties, in various places this summer, and all have been pleasant and entirely successful. He says he shall bring some good patriotic speakers from Boston; and that he has *invited* ex-President Pierce, but received no answer as yet; and he also desires that some of our public speakers will take part. We have no doubt they will; and there are plenty who would be glad to aid in employing the Cornet Band on the occasion, if somebody who has time to spare, would take the matter in charge.

☞ Mr. John Lowe Pickering, of Newington, had his right arm badly broken, in attempting to bridle his horse, in pasture, last week. While his arm was over the animal's neck, he swung violently round, till Mr. P. lost his hold and fell heavily to the ground. On attempting to rise, he found the arm was injured; and supposing it was out of joint, he requested members of his family to pull vigorously on his hand, and rub the wrist,—which they did so effectually as not only to put the dislocated joint in place, but also actually set the broken bone just above, so well that the physician had no need to re set when he came afterwards.

☞ Mr. Lamprey's Juvenile Dancing School commences Wednesday afternoon.

☞ Hon. Charles R. Train, a member of Congress from Massachusetts, has enlisted as a private. The Mayor of Perth Amboy, N. J., heads the list of nine months' volunteers.

☞ The rebel newspapers state that Gen. McClellan was killed at Manassas on the 31st ult., and the Petersburg Republican gives him a first rate obituary notice.

☞ Drafting in Massachusetts has been postponed to Oct. 1.

INTERESTING TO CARPENTERS, BUILDERS, AND WOOD-WORKERS.—See the Patent Saw Machine on exhibition at the State Fair. 6t

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Scald Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Fresh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Sties, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure, if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 38 cents—or three Boxes for one dollar.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *relieving, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, through out the country, having the sanction of some of the most *eminent Physicians in America.*

J. C. CARR.

Local.

☞ Portsmouth suspended other less-important business, on Monday afternoon, and held a grand War Meeting on Market Square. A large crowd gathered, including many ladies—whose attendance is almost as desirable and important as that of the men, for in no way can you reach their husbands, brothers, fathers, sons and lovers, so well as through women alive to patriotism. The stores were closed, the church bells rung, and the splendid chords of our Cornet Band called the people together.—

Lt. Geo. T. Wildes, of Capt. Thacher's nine-months' Company, was appointed by the War Committee, President of the Meeting, with Capt. Betton and J. Dearborn esq. as Vice Presidents, and Messrs. Thos. S. Nowell and E. P. Kimball for Secretaries.

Lt. Wildes made a few remarks, and invited his young friends to "come" up to the defence of the Union. He introduced Rev. Mr. Humphriss, who was succeeded by Rev. Mr. Waterbouse, Rev. Mr. McKenzie of Rhode Island, and Dr. Lyon.

The address of each was pertinent and brief, earnestly and plainly put, and well received. The music of the Cornet Band was liberally interspersed, and could not fail to tell on the spirit of every man who has soul enough to "keep step to the music of the Union"—which the ladies *all* do, of course. At 5 o'clock, the meeting adjourned to half-past 7—at which time a still larger crowd was present, including a larger proportion of men, our Navy Yard army of workmen being on hand.

Speeches were made by Rev. Messrs. Goodrich, Humphriss, and Patterson. The announcement of the glorious news from Gen. McClellan's army, was received with the most hearty and enthusiastic cheers. Mr. Patterson, in the course of his remarks stated that the Portsmouth Cornet Band desired to enlist, and he appealed to the multitude to contribute money to enable them to do so. Capt. Eldredge subsequently expressed his willingness to give each member $10, provided they would enlist.

MUSICAL CRITICISMS.—It may be recollected by some of our readers who are interested in such matters—that the Chronicle published a somewhat detailed notice of the first performance of the cantata of Belshazzar's Feast, the writer referring particularly to some of the principal personations—generally with the highest approval, but in one or two instances venturing to mention some trifling defects or blemishes. A mutual musical friend, at once called our attention to the evident fact that the performers at that very agreeable entertainment, are but amateur singers, and that it was hardly fair to apply to such the strict rules of musical judgement, as our critic did in his notice, the same as if they had been professionals. We are very sorry if anything was said which had better been left unsaid; but really, we think impartial criticism the most valuable, and that the praises of a friend who would not blame you at any rate, or point out your mistakes, if he thought he saw any, are of little worth. We know that the writer of that article, appreciated and enjoyed the entertainment as highly as any person who heard it; and he joined with us in thanking those who brought it out. It was no little work to learn the cantata in so short a time, and its performance, after so much recent rehersal, must have been a severe tax on the voices of those who not only had long solo parts to sustain, but sang throughout on the choruses, as "Daniel" and most of the others did—and would readily account for some straining and hoarseness of voices.

P. S.—Most of the above was written a day or two after the first representation of the cantata; but on learning that the concert was to be repeated, we deemed it best to defer publishing it until now. The second performance was considerably improved on the first—whether or not partly owing to our critic's suggestions, is not for us to say. Suffice it for us, that those performers are among the very best we have available in our city, and it becomes all to make the most of such opportunities of hearing and encouraging them—as we believe this Chronicle has always been ready and willing to do.

☞ The Excursion by way of the P. S. & P., the Conway and the Cocheecho Railroads, and the steamer Dover, to day, (as advertised,) gives opportunity for a beautiful trip for a trifling expenditure.

Portham's Excursion from Boston to Portsmouth is also announced for to-morrow.

And we understand that he intends running an Excursion train from Portsmouth to Boston next week.

Also that there are to be other Excursions to the Lake, via Manchester and Concord—the route which has proved so tremendously popular with our citizens.

☞ Messrs. J. Dearborn & Son are the first of our hatters to advertise the new Fall styles of gentlemen's hats.

A CHAPTER OF INCIDENTS.

PLEASURE AQUATICS.

Walking is generally considered very good exercise,—by many called the best, though rowing justly disputes with it for "the palm" —(*our* "palm" is blistered now from its effects,)—and pedestrianism is, by some, regarded as capital amusement. Riding is held in higher esteem by most of those who can afford it,—but has the disadvantage, (or recommendation, as you prefer,) of costing more. But though we have tried both, some little, and enjoyed each in its turn, yet we must say that boating is, after all, under favorable circumstances, the most luxurious, indolent and enjoyable of all modes of pleasure locomotion. We go in for a good time, where there is not too much work to do, now a-days. We think "the demon of industry" chases the Yankee, generally, altogether too fast and too far—so that he rarely knows how or learns to enjoy the luxury of *dolce far niente.*

But lately we have had the good fortune to participate in three or four boating excursions: and it will please some parties, even in these war times, if it does not interest all concerned, for us briefly to chronicle and put on record a few incidents of these pleasant trips, and may benefit some by guiding them in the same direction.

A regular-built, down river chowder-party, was that which drew a score of ladies and gents to Gerrish's Island, in our lower harbor, one lovely morning, a few weeks ago. That "demon" aforementioned, kept the writer hereof, away, till just at dinner-time; but as he was "bound" not to lose his dish (or rather, no matter how many dishes) of Capt. G.'s chowder—Hoyt's Kittery Express was the land-conveyance by which we reached the shore opposite the Island, in time; and being taken across the creek, per "tender" boat sent, we "took a seat" on the ground, and "hung our hats up" on the same, under that noble spreading oak, close to the water, and as near that hornet's nest as we cared to, [of which hornet's nest, more anon.] In that party, besides the Captain, and indeed who can well be called mate, was the man with the shortest name in town—though he is one of the longest men we have, (measuring as many feet as letters in his name), and is rarely caught short, and was never slow in taking care of his allowance, any more than in helping prepare it for all. Then there were the mistress of ceremonies, and her assistants—and one fair demoiselle, who like Uncle Sam's 'aids to the revenue,' was said to be a great deal more efficient *after* dinner was served up than before.

This same party, with a difference, had visited this lovely spot twice before, last year's summer, for a chowdering scrape; and it was rather against the grain of the young men of the party, (who had some grit, even if they were all members of the stay-at-home rangers,) on this the third occasion, to find their "institution" interfered with by a large hornet's nest, built since last Fall, in a bush near "our" oak tree.—[It may be well to say, that though the nest was large, the hornets were not, being of the small but spiteful white-tailed species—yet of sufficient size for all practical purposes, according to the testimony of the young lady who was stung by one of them on the first arrival of the party—she being selected probably because she was recently a bride, and so the sweetest of the party, being in the first honey-moon.] Well, the gallant youth determined to drive out the rebel intruders, and against the remonstrances of the old folks, (but in their absence,) and in spite of the fears of all the ladies, a long pole was procured, and one end being covered with paper and chips, was fired and thrust under the bush containing the terrible cone or shell. What a commotion was there, directly!—and there was some locomotion among the spectators too. But the fire burned up nest and bushes, and hosts of the hornets—and the rest skedaddled. Good riddance!

Well, out of that sunset and singing boat-ride home, and the remembrance of euchre, and rambling, and feasting, and lounging, and fun of all sorts—tinged this time with a regret that one who on former occasions had helped us to enjoy all, was now detained home by long sickness—out of the three down-river, grew an up-river party—of which, by and by.

But meantime, the yacht Florence, and that other down-river trip, and cunner-fishing, (but alas! not frying—so we had to eat supper without them) of which we have already spoken—but which we can hardly give up talking about. IND.

McGREGOR'S PATENT

AIR-WARMING AND VENTILATING

FURNACES.

The subscriber would invite the attention of any person in want of a Furnace, to this celebrated heating apparatus, the most perfect in use;—simple, powerful and durable.

The advantages which this Furnace possesses over all others, are:

1st. The perfect consumption of coal No clinkers are made, and no ashes need be sifted.

2d. A continuous fire may be kept through the entire season.

3d. No red hot iron comes in contact with the air to be warmed, and ample accommodation is offered for the evaporation of water, so that the atmosphere of the rooms is that of a soft Italian summer, without any of the dry, oppressive air often felt in furnace heated rooms.

4th. No gas can escape from the fire chamber into the room above

5th. More heat is generated from the coal than by any other method of heating; consequently it is THE MOST ECONOMICAL.

The patterns of this Furnace have been very greatly improved recently, and several sizes added, making in all twelve sizes of Brick and Portable Furnaces, adapted for all sizes of buildings.

This Furnace is more used than any other in first class dwelling houses and public buildings—and volumes of testimonials can be shown in its favor.

We might refer to the following persons who are using the McGregor in this city:

Rev. Chas. Burroughs, D. D.; Messrs. Alfred W Haven, Mark H. Wentworth, George Wentworth, J. P. Bartlett, Com. John Pope, Wm. L. Dwight, Mrs. Levi Woodbury. Also to Rev. Danl. Austin, Kittery; Capt. Chas. H. Salter, Greenland, and many others.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prescribed, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since.

CAROLINE H. SWETT.

This statement of my wife is correct.

SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.

HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1858. DR. SWETT:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. P. LEAVITT.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow worse; but she commenced using your PANACEA and HUMOR WASH, and since then, she has recovered her health so far as to rest quietly night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may20

Morning Chronicle.

NOT A BARBER.—In Worcester last Wednesday morning, three respectable gentlemen entered a barber's shop to get shaved. There were three negroes lounging in the interior, apparently belonging to the shop and waiting for customers. The gentlemen took off their hats, coats and shirt collars and disposed themselves in the arm-chairs to be lathered and operated upon. Two of the negroes quickly flew about their business, but the third customer remained unattended to; the indifferent negro whom he supposed would remove his beard for him continued to brush his own crispy hair and admire himself in the glass, regardless of the customer's presence. "Well," said the latter, finally, getting out of patience, "are you going to shave me when you get through brushing your own hair?" "Not dis mornin', sar!" was the curt reply, and the negro walked leisurely out of the door. The gentleman was lost in astonishment, but found himself again upon learning from one of the grinning barbers that he had been addressing "ONE OB DE DELEGATES TO DE CONVENTION!"—*Boston Post.*

Very important, if true, says Uncle Toby:—but why the "respectable gentlemen" should have been *astonished*, because all negroes are not barbers, is not very clear: but probably his discernment, his gentility and his patience, or petulance, were all about of equal value. A *real* gentleman would have laughed at such a *sell*, instead of grunting over it. U. T.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

MATHEWS'
VENETIAN LIQUID
HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been USED BY THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, interfere with the NATURAL softness of the HAIR,—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at hi, office, Nos 7 and 9 ENDICOTT STREET, Boston on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for the duties of society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
April 7—1y 3taw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other painful disarrangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the great mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had more experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superiors in the treatment of them.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.
April7, 1862—1ydaw

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

—and—
Register of Important Events
OF THE YEAR 1861,

Embracing Political, Civil, Military and Social Affairs, Public Documents, Biography, Statistics, Commerce, Finance, Literature, Science, Agriculture, and Mechanical Industry.

The form of a Cyclopædia has been selected, as affording room for the greatest variety of details, without becoming too minute and tedious. The work is already in an advanced stage of preparation, and will be issued as early in the year as its proper completion will permit. The volume will be in the style of the New American Cyclopædia; having not less than 750 pages, royal 8vo.

The work will be published exclusively by subscription, and its exterior appearance will be at once elegant and substantial.

In Cloth, $3. In Library Style, leather, $3.50.

A star for every State: a State for every star.

WEDNESDAY, SEPTEMBER 17, 1862.

THE REBELLION.

Gen. Bragg attacked our forces at Munfordsville, Ky., on Monday morning.—A portion of Gen. Buell's army subsequently arrived and joined in the fight against the enemy.

The rebels at Florence, Ky., have been joined by Humphrey Marshall, with a large force, and are intrenching themselves.

All accounts of the Charleston, Va., fight agree that the rebels were severely handled and repulsed with great loss. Col. Lightburn gave the citizens an hour's notice to leave the town, before it was destroyed.—His forces marched through the town in perfect order and arrived at Ravenswood on the Ohio river, on Monday evening, bringing their baggage through in safety. The enemy is supposed to be moving slowly down the Kanawha.

Harper's Ferry was surrendered to Loring and Jackson on Monday morning, after a most determined defence, for three days. Col. Miles was killed. All of our forces, numbering 6000, were paroled, and when they left, the enemy were preparing to blow up three spans of the iron bridge. The N. Y. Herald's dispatch states that an officer from Harper's Ferry reports that the rebels evacuated the place in a great hurry.—They were sending everything across the river as fast as possible. They left Harper's Ferry in such haste that they had not time to complete enrolling the prisoners, and a number were unconditionally released in consequence.

The N. Y. Times has a dispatch from Hagerstown stating that two portions of the rebel army have united this side of the Potomac, to the number of 70,000 men. The Times' account of the late battle says that Longstreet was killed and Hill captured.

On Monday Gen. McClellan was still pursuing the retreating enemy, with his reserves and a large body of fresh troops.—Howell Cobb had been wounded and taken prisoner. Gen. McClellan, on Monday evening, had already sent to the rear 8000 prisoners and 4 batteries.

Jackson on Tuesday, had recrossed the Potomac, and Gen. McClellan engaged him with a tremendous force ten miles from Sharpsburg, Md.

The battle, on Tuesday, near Sharpsburg closed without a definite result.—Stragglers coming into Hagerstown, report that the rebels were surrounded, and that their ammunition and provisions were exhausted. But a dispatch to Gov. Curtin, of Pennsylvania, states that the battle re commenced early on Wednesday morning, and was raging with great fury up to 9:45, the latest advices. It is supposed that the rebels are making a most desperate push to reach Williamsport and get across the Potomac. A force has been detached from the Union army to destroy the bridges or to block the Ferry over the Potomac at that point.

☞ The Cincinnati Catholic Telegraph of Sept. 10, says:—A battalion of colored men was organized in this city on Wednesday, and marched across the river to labor on the defensive works of Covington and Newport, the Kentucky law forbidding free colored immigration, to the contrary, notwithstanding!

The Ohio river is here crossed by a temporary bridge formed of coal barges floored with planks. It is capable of sustaining the heaviest artillery and baggage trains.

☞ A ploughman was hung at Warwick, Eng., recently, for shooting his fellow servant in the back while bent over the wash tub, according to his own confession, because she never would draw him enough beer! He also stated that before committing the crime, he "tossed up" whether he should kill the girl or not, and the chance lighting of the coin decided the poor girl's fate.

☞ A white child, who was bound out to a negro master, by the Philadelphia Board of Guardians of the Poor, has recently died from horrible treatment in his apprenticeship.

☞ On information that there is now no danger to be apprehended to the California mails from the Indians, the department has ordered that the daily overland mail be resumed.

☞ The French scientific papers are full of a discovery recently made by a young chemist named Cotelle, by which he is able to extract alcohol from coal gas, of a superior quality, and at a cheap rate.

NEW HAMPSHIRE ITEMS.

—— The friends of Maj. Angell, of the 10th Regiment, have presented him with a splendid sword, sash, belt, camp chest, saddle and trappings.

—— A letter from Hilton Head, S. C. to the Manchester Mirror, dated Sept. 8th, says:—

Col. Louis Bell, of the N. H. 4th, has been returned to duty. It seems that a depraved female black was troubling the camp, and Col. B. sent her out. Gen. Hunter considered the negro race abused by the proceeding, and would listen to no explanation, but termed it sarcastically, the "manly act of turning a negro girl over to her master." The matter was rectified by General Brannon, commanding the department of the South, in the absence of Gen. Hunter. Col. Bell will join his regiment immediately on its arrival here from Florida. Captain Greenleaf of the 4th has been appointed Provost Marshal. The General Court Martial is still in session at Beaufort, occupied in the trial of Col. Serrell, of the N. Y. Vol. Engineers. Among the cases of the Court Martial are Cols. Jackson and Putnam, and Maj. Drew of the N. H. Regiments. Lieut. Col. Bedell of the 3d is recovering from his severe illness, and will probably be out in camp in a few weeks. On account of ill health the Third has been excused from all fatigue and guard duty outside their own camp for the next four weeks. The friends at home can rest assured that everything possible for the good of the regiment will be brought about by Col. Jackson and our Surgeons, Drs. Eaton and Bozzell.

—— The Manchester Weekly Union has again passed into the hands of James M. Campbell, Esq., who is editor as well as proprietor.

—— The American states that Dr. Geo. B. Twitchell, of Keene, one of the most distinguished surgeons in New England, has been appointed surgeon of the Thirteenth Regiment.

—— Capt. S. H. Lathrop, of Lebanon, of the 17th Regular infantry, has been appointed Assistant Inspector General, and placed upon the staff of Gen. Heintzleman, with the rank of Lieut. Col. of Cavalry.—Capt. Lathrop has of late been stationed at Fort Preble, Portland harbor, Me.

—— Peterboro' had three Lieutenants in the late battles, and all of them were killed, viz:—Lieut. Sylvester Rogers, of the 2d, T. K. Ames 2d, and Chas. L. Fuller, of the 6th. Lieut. Ames was an only brother of Mrs. Scott, wife of Lieut. Colonel Scott, who was also his only sister. Mrs. Scott, it will be remembered, was drowned in the Potomac, at the time of the late steamer disaster.

—— The following members of the 9th N. H. Regiment were wounded in the battle of South Mountain, on Sunday:

Surgeon W. A. Webster; Jacob Abbott, Co K, wounded in side; Thos. J. Austin, Co K, in hand; Chace Foster, Co G, severely; Lyman W. Ramsay, Co A, in ankle; Chas. W. Glidden, Co A, in back; Eben Eldredge, Co K, in jaw slightly; Moses W. Poole, Co E; Wm. F. Cowing, Co H, in hand slightly; Henry Simpson, Co B, in hand; Sylvester Warren, Co K, in arm; Frank B. Hackett, Co F, in hand; Geo. W. Hall, Co I, in leg; E. Hazleton, Co D, severely; Geo. Judkins, Co K, in leg; Sergt. Geo. W. Gove, Co G, in shoulder.

—— Albin Beard, Esq., editor of the Nashua Telegraph, died at Nashua on Tuesday evening. The funeral of Mr. Beard will take place on Friday at 2 o'clock.

For the Chronicle.

Messrs. Editors:—Has the time come that every business man must sell out his stock of goods at a sacrifice, shut up shop and enlist for the war? From a communication in your yesterday's issue, referring to the young men in the Home Guard, we would infer that it is the writer's idea on the subject. But for one we must say that, as yet, we cannot see it in that light. It is a very easy thing for a journeyman mechanic, farmer or a laborer, to drop his tools and say he will enlist, and very little sacrifice is made by so doing. Not so with the man of business. Large stocks of goods must be disposed of; accounts settled and many other matters attended to that can be known only to those in mercantile trade, before he can be ready to answer the call for volunteers. You will therefore find many young men, and old men who *would* willingly enlist *if* they could do so and without making ruinous sacrifice. At the same time they are willing to pay for those who are willing and can enlist. If the plans of some people could be carried out, they would like to see every wealthy man and every business man compelled to enlist, not thinking that without wealth and business at home, bounty money would not be raised very soon. The Home Guard was organized for the purpose of encouraging a military spirit in our midst, and at the same time give an opportunity to old and young to learn the art of war. When the exigencies of the times demand us to sacrifice our business and leave for the battle field, we stand ready to go; but until we can see that such a sacrifice is necessary, we shall feel no shame in shouldering a musket once or twice a week in the ranks of the Home Guard.

A NUMBER OF YOUNG MERCHANTS.

LETTER FROM NEW YORK.

From our Regular Correspondent.

HARLEM TERRACE, Sept. 10.

Dear Chronicle:—The Sixth Massachusetts, of Baltimore massacre renown, passed through here yesterday morning, and were escorted by a delegation of their fellow citizens of the old Bay State to the Park Barracks, where they were regaled with a bountiful collation, while the officers breakfasted at the Astor House.

They carried a beautiful "star spangled banner," on the field of which was inscribed in gold letters, "Baltimore, April 19, 1861."

Newspaper extras are the regular after-dinner dessert now-a-days, and as nothing but rumors are obtainable, the purchaser often doubts after perusal whether he has his five cents' worth, more especially as the next expenditure of five pence, (the standard price,) in most instances, ensures in a half or quarter-column item a direct contradiction of the "most reliable rumors" of the hour previous.

The steamship Great Eastern still lies at anchor in "Flushing Bay," in the Sound, about four miles from our Harlem country-seat,—and the round trip of nearly 10 miles forms a pleasing and healthy row of a moonlight evening, as your correspondent discovered last week. The continuous working of the steam-pumps would seem to indicate a greater injury to her hull from the rocks off Montauk, than is acknowledged. She will take very few return passengers in her present condition, but as they are busily at work with diving-bells and other apparatus the injury may be repaired.

There is another object of interest in the form of a vessel, which lies in the Sound, a couple of miles from my residence,—a British treasure-ship, the frigate "Hussar," which sailed over after the British fleet, having a valuable cargo and between one and two million dollars for the payment of troops, and in her passage through the Sound grounded at Hell Gate, but floated off, when an attempt was made to run her ashore, but she sank in sixty feet of water, abreast of what is now Port Morris dock.

Some ten years ago a company from Connecticut, with a license, schooner and submarine apparatus, anchored over the spot, and since then have lived and dived, said but little, but according to report, found considerable. Human skeletons have been brought to the surface, and wine-bottles encrusted with shell fish. The hulk is said to be rapidly falling apart, but in such a secret mystery are their movements shrouded, that little information can be obtained as to their past success, or the future pursuance of their *craft*-y avocation.

Over the entrance of one of the handsomest stores on Broadway, No. 343, in richly gilt letters, are two names familiar and favorite with many of your readers—Allen & Paine. Having established a wholesale trade of over $300,000 per year in Boston, and wishing a more extended field of operations, they have leased one of our richest metropolitan palaces, and their numerous friends will be pleased to hear of their past prosperity and the certainty of their future success.

An extraordinary trot for $5000 a side came off on the Fashion Course, L. I., yesterday afternoon, between "Ethan Allen" and a new horse, "Robert Fillingham," and won by the latter. Best three in five, three straight beats; time 2.24 3-4, 2.25 3-4, 2.31—Ethan Allen being about ten lengths behind each heat. Being intimately acquainted with the owner of the winning horse, your correspondent had a fine opportunity to "see the fun."

The trotting was terrific and, performed by a new stallion never before on a regular course, over a horse like Ethan Allen, and within two and a half seconds of Flora Temple's best time, (Flora's 2.19 3 4 at Kalamazoo being generally discarded,) bids fair to work quite a revolution in sporting circles.

The omission of the word "party" in the phrase "hilarious river-party," in my letter of Aug. 20, and of the words "from New Orleans" after "letter," in the third paragraph of my last, are noticeable and not chargeable to the manuscript. ["Newington" does not display his usual accuracy in making this statement.—*Proof-reader.*]—Be careful of the types, and tell me what old fashioned, heating institution resembles a one-cent postage stamp with a hole in it? A Franklin stove! NEWINGTON.

☞ Mr. Perham's Voluntary War Meeting on Market Square, Wednesday afternoon, was well attended and passed off very well. There were good speeches from Rev. Messrs. Case of Boston, Cox of Salem, and Waterhouse of Portsmouth,—who were introduced by Rev. Mr. Miller.—Gen. Perham's letter to Ex-Pres. Pierce was read;—and patriotic songs sang at the commencement and close.

☞ Gen. Stoneham is assigned to the command of the division lately under the gallant Kearney, and Gen. Sedgewick has been assigned to the army corps of Gen. Banks.

☞ A man in the country, who has read about sailors "heaving up" anchors, wants to know if it is sea sickness that makes 'em do it.

Local.

AN EXPLANATION.—A short article in yesterday's Chronicle—not editorial, but a communication, signed "Many Volunteers," was not and is not endorsed by "The Chronicle"—and the fact that the senior editor of this paper is a member of that Home Guard, and the publisher belongs to another military organization not in the field, and was and is desirous of drilling with the Home Guard, is proof enough that the personal sentiments of the editors are not in agreement with that advanced by our anonymous correspondent, concerning *young* men belonging to the Guard. On the contrary, we wish every young man in town, who cannot or does not enlist, would join some organization to prepare him to be a soldier when his time comes—and we can't see how the doing this can discourage or deter any patriot from enlisting. Perhaps the time may come, when martial law must be proclaimed here, and *all* young men go out to battle; but till then, why not all drill?

As to the article in question, it was brought into our composing-room late at night, and was not seen by either of our editors; but it was written by a most estimable young volunteer, and beyond doubt with the best motives, and our foreman deemed advisable to admit it to our columns, which we should not have done ourselves. But we don't see, however, that any great harm has been done; and while we disagree with the article, *we* can "pardon something to the spirit of liberty," which induced the young and inexperienced writer to put it forth—and we rather think we have had occasion to regret its publication as much as any body, for we have been continually bored about it ever since.

Another.—Some of our friends living in Ward Two, think the idea absurd, that our Wards are to be considered as three separate towns, in furnishing recruits for the war—inasmuch as the enrollment is made as in one town, and taxes are assessed, and money disbursed as in one—and so it would be entirely unjust to divide for the quotas. And this appears reasonable, too; but we were led to editorially adopt the views of a patriotic friend, as to the division of Wards, (without time for thought or examination of the matter,) from the prominence given to *Ward* organizations, subscriptions and enlistments, in Boston and elsewhere. To be sure Boston is not New Hampshire; but many of our laws and customs agree. But as our laws and city regulations are, we are convinced, on reflection, that it would be as difficult as unfair, to attempt to separate Portsmouth into Ward towns, in the matter of supporting the war—for it would involve a total division of bounty and other funds for the aid of the volunteers. This is our deliberate opinion now, till we see something to change it—although many do not agree with it. And we presume it is almost unnecessary for us to disclaim any intentions or desire, to excite or increase any feeling of jealousy between those who give their purses to their country's cause, and those who contribute of their substance for the same sacred object. "United we stand."

For the Chronicle and Gazette.

Messrs. Editors:—It is somewhat remarkable that 'many volunteers' should growl at the company in the Home Guard, when the company of volunteers appeared highly pleased with their escort. The writer of the growl, if he be even one volunteer, must be of keener optics than his neighbors, to see any discouragement to enlistment, in the composition of the Home Guard, which would hardly have existed, if *young* men had not aided in getting it up. Had he known the objects of the Home Guard, and seen its constitution, he could not have uttered the growl. Except the Goodwin Guards, (now very few in number, as many have enlisted,) and a section of the Horse Guards, we had here no resident soldiery that could be called upon in emergency, nor any organization to keep up a military spirit. The Home Guards are enrolled to supply these deficiencies in part: especially to afford an organized body that can be ordered out instantly, for defence or police: and while their membership does not relieve them from a draft, it does place them at the Governor's service, whenever he sees it needful to call them into the field.

It is not likely that any one, unless he were ignorant or stupid, would be deterred from enlistment by any such consideration: and therefore it is to be hoped that many more, old and young, will join us; that our out door drill on Friday afternoon shall be fully attended; the Goodwin Guards filled up; and new companies formed.

ONE OF THE SENIORS.

☞ Perham's Excursion from Boston, Wednesday, brought down about 300 people, a nice party of ladies and gentlemen—a portion of whom stopped at the Beaches, but the most spent the day in rambling about the city and suburbs.

☞ The card of Messrs. N. S. Payne & Co., commission merchants of Portland, appears in our columns this morning. They request the patronage of the citizens of Portsmouth, and of York County, Me., where the senior partner is well known as an energetic business man.

☞ A seaman on board the U. S. steamer R. R. Cuyler, at the Portsmouth Navy Yard, fell from the gun deck to the keelson, on Wednesday afternoon, striking upon his face and injuring himself so severely as to render his recovery doubtful.

☞ A jeweller exhibits in the World's Fair, at London, a most accurate miniature portrait of the Queen, composed of distinct brilliants almost as fine as diamond dust, and of which more than 2000 are required to complete the likeness, small as it is. Another jeweller contributes a necklace of diamonds worth nearly half-a-million of dollars.

BUY CALIFORNIA WINES.

They are the Purest!

The Best!

The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operations, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints incidental to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity*. They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America*.

Explicit Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Pills sent by mail, promptly, by remitting to the Proprietor. Sold by Druggists generally.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworm, Sprains, Fresh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Worm, Eruptions, Fevers, Shingles, Cancers, Whitlows, Itch, Stiles, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 38 cents—or three Boxes for one dollar.

McGREGOR'S PATENT

AIR-WARMING AND VENTILATING

FURNACES.

The subscriber would invite the attention of any person in want of a Furnace, to this celebrated heating apparatus, the most perfect in use;—simple, powerful and durable.

The advantages which this Furnace possesses over all others, are:

1st. The perfect consumption of coal. No clinkers are made, and no ashes need be sifted.

2d. A continuous fire may be kept through the entire season.

3d. No red hot iron comes in contact with the air to be warmed, and ample accommodation is offered for the evaporation of water, so that the atmosphere of the rooms is that of a soft Italian summer, without any of the dry, oppressive air often felt in furnace heated rooms.

4th. No gas can escape from the fire chamber into the rooms above

5th. More heat is generated from the coal than by any other method of heating; consequently it is THE MOST ECONOMICAL.

The patterns of this Furnace have been very greatly improved recently, and several sizes added, making in all twelve sizes of Brick and Portable Furnaces, adapted for all sizes of buildings.

This Furnace is more used than any other in first class dwelling houses and public buildings—and volumes of testimonials can be shown in its favor.

We might refer to the following persons who are using the McGregor in this city:

Rev. Chas. Burroughs, D. D.; Messrs. Alfred W. Haven, Mark H. Wentworth, George Wentworth, J. P. Bartlett, Com. John Pope, Wm. L. Dwight, Mrs. Levi Woodbury. Also to Rev. Danl. Austin, Kittery; Capt. Chas. H. Salter, Greenland, and many others.

☞ ATTENTION, THE WHOLE! ☜

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c. &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since.

CAROLINE H. SWETT.

This statement of my wife is correct.

SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.

HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been troubled with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I can now eat the hardest food at night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. P. LEAVITT.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA AND HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26tu

Every Family should use the SAMBUCI WINE Celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent Physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC it imparts a healthy action to the Urinary and Kidney, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

AS AN SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians a powerful medical preparation in order to supply Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no admixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and blooming, soft and healthy skin and complexion.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

MATHEWS'
VENETIAN LIQUID
HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been used by thousands and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of any class; it is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It never fails, causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired, some that will not fade, crock, nor wash off—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR.—It makes it soft, glossy, and pliable.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most permanent Dye ever used.

The Chronicle.

VERMONT STATE FAIR, was held this year, because the owners of the Fair Ground held a contract with the Society, which they would not release, short of fifteen hundred dollars. The exhibition of sheep was very fine, and great numbers were shown. The other departments were good, but not great.

The Boston Post's correspondent says:—"Thursday was *the* day of the fair. The attendance was remarkably large, and could not have been less than 8000. Mr. Greeley proved to be a good "card" for the Society and saved it from serious loss. His address was listened to by at least 6000, and was well received. He treated quite extensively of the agriculture of Vermont, as he knew it in the days of his boyhood, and as it is destined to be at no distant period. He advised the farmer to manure highly—using the product of his own farm instead of that bought in the cities. He had faith in some commercial fertilizers, but he believed that muck and the absorbents of barn yards were of greater value. He pitched into tobacco and rum soaked farmers, and closed with a peroration on the state of the country, in which he could not avoid dragging in some emancipation nonsense."

He must be a very ingenious man indeed, who could descant on the state of the country now, without allusion to emancipation, — and of course anything in its favor would be nonsense to men who worship slavery or hope to thrive by it. In Vermont, such nonsense is popular just now, —she fills her quota with volunteers, and runs it over a little,—and at the late election the Union ticket had a majority in every town in the State.

DRUNKENNESS IN THE ARMY.—Cincinnati correspondents give a sad account of its prevalence among the officers at Cincinnati. A Cincinnati letter of the 9th, says:

"If there be one curse greater than another in our army, it is that of whiskey at headquarters."

UNITED STATES STOCKS. — Nothing more clearly exhibits the confidence of the people in the stability of the Government, and their firm and unwavering belief in the ultimate success of the Union army, than the steadiness of the stock market. Notwithstanding the reverses of the Federal Army in Virginia, and the invasion of Maryland by the rebels, Government Stocks have not fluctuated *two per cent* for the last fortnight. The demand for investment has at no time been larger, and one house alone, Messrs. Spencer, Vila & Co., have sold over $750,000 United States Securities since Sept. 1st. —*Traveller.*

☞ The Portland Kerosene Company are, it is said, about to resume the manufacture of oils from coals, which, though a little more expensive than oil made from petroleum, is said to be preferable to that, on many accounts.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Twenty specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Searches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents not accorded the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to compile a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such uninterrupted proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *four* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Register of Important Events
OF THE YEAR 1861,
Embracing Political, Civil, Military and Social Affairs, Public Documents, Biography, Statistics, Commerce, Finance, Literature, Science, Agriculture, and Mechanical Industry.

The form of a Cyclopædia has been selected, as affording room for the greatest variety of details, without becoming too minute and tedious. The work is already in an advanced stage of preparation, and will be issued as early in the year as its proper completion will permit. The volume will be in the style of the New American Cyclopædia, having not less than 750 pages, royal 8vo.

The work will be published exclusively by subscription, and its exterior appearance will be at once elegant and substantial.

In Cloth, $3. In Library Style, leather, $3.50.

A star for every State: a State for every star.

FRIDAY, SEPTEMBER 19, 1862.

THE REBELLION.

A portion of Gen. Burnside's forces are said to have re occupied Harper's Ferry, on Tuesday evening, before the rear of Gen. Hill's Division had all crossed the river; and to have secured quite a number of rebel prisoners. The rebels, for want of transportation, destroyed much of their plunder, but, it is said, our forces have recaptured nearly all the guns and arms; the enemy did not succeed in destroying the railroad bridge. The whole number of our killed during the siege was 43, and wounded about 150.

A dispatch to the N. Y. Herald, Wednesday evening, says the rebels had been driven and were retreating to Hagerstown.—In the severe engagement on Tuesday, the enemy were well thrashed. On Wednesday, the battle commenced at 5 A. M., near Gettysville. Jackson joined Lee's forces at Antietan Creek, while our forces were reinforced by 30,000 men from Washington. Jackson's reinforcements to Lee are reported at 40,000 men. We have undoubtedly won great and decisive victories, both Tuesday and Wednesday. Among the trophies are whole batteries, and thousands of small arms and prisoners. Gen. D. H. Hill is reported killed. Longstreet is not killed, but is wounded and a prisoner. Gen. Hooker was wounded in the foot.—Gen. Mansfield was killed.

Dispatches to the New York papers state that on Wednesday, all the forces which Gen. McClellan had taken with him to Frederick, were taken to the point indicated and the engagement is believed to have been between the whole of the two armies In the afternoon, it was reported from Hagerstown, that the rebels were retreating in great disorder; that subsequently heavy and rapid firing was heard in the direction of Williamsport, which induces the belief that Gen. McClellan has pursued the retreating rebels to that point; and that they made a stand there to cover their passage across the Potomac, which was rising, thus rendering their passage more difficult. Since Friday last the rebels have evacuated Leesburg, and a force of 10,000 men, with 50 pieces of artillery and a supply train of about two miles in length, has gone in the direction of Harper's Ferry. On Tuesday and Wednesday, six batteries of artillery belonging to Gen. Longstreet's division were captured, and it is said we have taken 15,000 prisoners since Sunday.

By express we get the welcome news that Sibley's Texan expedition had been broken up, defeated, routed and scattered near Fort Fillmore. About half the force were taken prisoners, together with all their arms, equipments, horses, stores and cannon. Sibley was assassinated by his own men; also Col. Steele.

It is rumored that Gen. Jackson has been captured, although it is not confirmed in official quarters. The retreating enemy will, it is thought, fall into the hands of the Pennsylvania militia. All the news received indicates that Wednesday's fight was decidedly in our favor, yet another battle is necessary to determine who shall finally be the victor. No firing, however, was heard on Thursday, and it was supposed both sides were burying the dead. Our loss is very large. There seems no doubt that our troops have recaptured Harper's Ferry, and occupied, by strong guard, all the river fords from there to Williamsport.

Gen. Hooker reports that a great battle has been fought and we are victorious. He only regretted that he was not permitted by his wound, to take part until the end, for he had counted on either capturing their whole army or driving them into the Potomac.

A Cincinnati dispatch says the rebels commenced falling back on Wednesday, and at last accounts were near Falmouth, Ky., burning the bridges on the Covington and Lexington railroads.

A WAIF.—We understand that a male infant, apparently about three months old, was left upon the door-step of a house in Greenland, on Saturday evening last. The family were attracted to the spot by its cries, and taking the little stranger in, kindly cared for it until Monday, when it was handed over to the "fathers of the town," who have made arrangements for its support.

☞ On Monday, two men from Lynn, were badly injured on the Eastern Railroad, near Somerville station, by improperly putting their heads out of the windows, and being struck by gateposts. One, named William Sibley, will probably not recover.

Local.

☞ We are requested by Mr. Perham to state that the excursion from this city to Boston, advertised to take place, to-morrow (Saturday,) is postponed.

Of course, Mr. Perham was in no wise responsible or blamable for the sad accident of Wednesday evening.

☞ A letter from a member of the City Committee, at Washington, says there will probably be need of the following articles for the soldiers, viz:—cotton and woolen shirts and drawers, pants, coats, suspenders, pocket handkerchiefs, towels, army blouses, jellies; blackberry, raspberry, currant and grape wines, apple jelly, small soft pillows, and bandages.

There are now in Washington large quantities of sheets, pillow cases, comfortables, pickles, vinegar, cider and lint, and it is, therefore, useless to send them.

The letter states that the New Hampshire men, in Washington, are doing all they can for the relief of the soldiers from this State.

☞ Our readers are referred to the advertisement of Dr. Morrill, in this morning's Chronicle. Dr. Morrill is a native of Newburyport, and has been practising for several years in New Orleans, passing the summers at home. He is not a traveling physician, but, we understand, has been called to this city to attend a few cases.—He has many testimonials of success in his treatment of diseases.

☞ Laconia Engine Co., No. 2, of this city, Capt. Rand, which escorted Capt. Betton's company to Concord on Tuesday, stopped in Manchester over one train on Wednesday, and were entertained by the Amoskeag Steam Engine Company.

☞ Mr. J. Albert Sanborn has been made Orderly Sergeant of Co. G, 10th N. H.,—Capt. Towle's. Mr. S. will "do excellently well" in that position, says the Ballot.

NEW HAMPSHIRE ITEMS.

—— It was announced that the State Bounty would be paid to the 10th Regiment, on Wednesday. The 10th is to leave on Monday for Washington.

—— Capt. Joseph H. Potter, of the regular army, declines the appointment of Colonel of the 12th, much to the regret of those who know his ability as an officer.

—— Squads of men for the 2d, 5th and 6th regiments were sent off last week, numbering in all about a hundred.

—— The Manchester American says:

It has been intimated that the Fourth Regiment may be merged in the Second, and such officers of the former as are needed be commissioned anew, and those who are not competent, be dropped. Many of the commissioned officers of the Fourth do not stand exceedingly high in the estimation of the Executive.

—— *General Hospital, Washington.*—Charles P. Norton, Co. E, 2d regt.; Lyman A. Dickey, Co. I, 2d; J. B. Stevens, Co.C, 2d.

Armory Hospital.—Asa Folsom, Co. B, 2d, in hand; Geo. A. Whitney, Co. K, 6th, in thigh, doing well; John Hayes, Co. F, 6th, do.; Daniel Jones, Co. H, 6th, chronic rheumatism, comfortable; G. W. Woods, Co. C, 6th (sent to Baltimore;) Albion R. Simmons, Co. I, 2d, in leg, comfortable; Chas. Holt, Co. G, 2d, in both cheeks, the ball entering one side and coming out on the other, comfortable.

INCIPIENT TREASON.—A few days ago the New York Times made the following startling statement. As Mr. Raymond, the editor, has a wide knowledge of the interior operations both of political and military cabals, he probably speaks from positive information, and not from random guesses:—

We tremble to think of what may follow the successful lodgment of a rebel army on loyal soil. *We do not fear the division of the Union so much as the overthrow of the Government.* No man of ordinary political sagacity can conceal from himself the fact, that there is a deep, strong undercurrent of political machination underlying all the movements of the war, and giving character and color to all the developments of public opinion. There are men North and South,—men of ability, of character, position, both civil and military,—who look to the possibility of saving the Union in *other ways* than by simply conquering the rebels and compelling by force their return to their allegiance. We need not tell any one that there are men who regard this war as having been brought upon the country by the triumph of the Republican party, and who do not believe it possible to end it and preserve the Union, until the results of that triumph are for the moment set aside, and the country has a chance to plant the Government on another basis. But we can tell President Lincoln that there are men in the army who do not believe the war will end except by conceding the independence of the South, *unless the Government is again restored to Southern control, or a Convention is held, to form a Constitution under which both North and South can live together in a common Union.* We do not know that any officer in the army would advocate, or in any event aid in the execution of such a scheme. But we warn the President against doing anything, directly or indirectly, by neglect or by positive acts, to encourage the development of such a sentiment, or to stimulate in any heart the toleration of such a thought. We need not warn him of the absolute necessity of crushing the growth of such treason and disloyalty in its beginnings.

☞ The Memphis Argus has been suppressed for publishing a report of the surrender of Cincinnati to the rebels.

ONE OF THE LETTERS.—Gen. Perham invited ex-President Pierce, among other distinguished speakers, to his war-meeting in this city, on Wednesday. No answer was received to the letter, however, which was read at the meeting here, and which we give below. While many will deem it specially pertinent to the case, and enjoy it as a good hit; others will regard it as impertinent and out of place. But, while to a certain extent, a private citizen may be allowed the moral liberty—subject to the penalties—of personal choice for himself, as to which way, and how far he will exert himself for the present crisis, even when his government and his country are at stake; still it is another matter with a man who has allowed himself to be identified with the nation, and accepted its special honors and glories. He should have no choice, but owes his life, his all, to that country and that government, ten times more than any private citizen. As to the pertinence of the matter, who shall say that Gen. Perham is not as National a man as Gen. Pierce—and has not contributed to the happiness, and well-being of as many of his fellows? But here is the letter—and Perham has long since proved able to speak for himself:—

TO EX-PRESIDENT PIERCE:

BOSTON, Sept. 11, 1862.

Dear Sir:—A war meeting is to be held at Portsmouth, N. H., on Wednesday the 17th inst., and will be addressed by distinguished speakers.

Our country is in a deplorable situation, Our Government has held back the means necessary to put down the rebellion promptly. Is it not the duty of every loyal man to urge Government to use every means that God has put in our power to crush out this unholy rebellion, without regard to the Constitution or consequences? and when the rebellion is quelled, if it is found that the Constitution has been injured, then go to work and make it good.

If you are truly a loyal man, I believe you can do the country much good by taking strong measures to sustain our existence as a people. Other leading Democrats have taken hold with a will to put down this awful rebellion, both in the field and before the people. I will name two only—Gen. B. F. Butler of Massachusetts, and Hon. Daniel S. Dickinson of New York.—Of these two named, there is no question of their loyalty, but of your loyalty there is doubt expressed by many, and to be honest with you, I myself have not had the confidence in your loyalty that I wish to have in one who has been President of the United States.

I may have judged you wrongfully. I therefore invite you to be present at Portsmouth, N. H., on Wednesday, the 17th inst., and address the people on the subject of the war, in such a manner that there will be no more doubts expressed in regard to the position you occupy.

You have been greatly honored by the people of your State and by the people of the United States. You received a very large popular majority of the votes for President, larger than any other President has received, with the exception of Washington.

Your age will not prevent your doing great service hereafter for your country, either in the field or otherwise.

Is it too much to ask you to offer your services, and your life too, if it will be the means of saving our country and uniting every part of it under one Government (the stars and stripes) as it was two years ago.

Hoping to receive a favorable reply from you immediately, I subscribe myself,

Very respectfully your ob't servant,

JOSIAH PERHAM.

{ His Excellency Frank Pierce,
{ Ex-President of the U. States,

By his new and complete system of

MEDICAL ELECTRICITY.

DR. MERRILL has devoted upwards of twelve years exclusively to the study and practice of ELECTRICITY, and has succeeded in reducing its use to a rational system of

MEDICAL PRATICE.

Deafness.

Dr. Merrill would especially invite attention to his successful treatment of Deafness; and, as many persons from a distance may be induced to visit him, begs leave to state that the only form of Deafness to which he considers his system of practice applicable, is that resulting from exhaustion or partial paralysis of the Auditory or Acoustic Nerves. In such cases, accompanied by ringing in the ears, want of proper secretions, &c., where there is no organic injury of the ear, his treatment is HIGHLY SUCCESSFUL.

Instruction.

DR. MERRILL is prepared to furnish physicians and others with his

Improved Electro-Magnetic Machine,

FOR MEDICAL PURPOSES.

He will also give through instruction to individuals or classes in his system of applying Electricity, enabling them to treat the various diseases successfully.

BUY CALIFORNIA WINES.

They are the Purest!
The Best?
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

GRACE'S CELEBRATED SALVE!
A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 13th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworm, Sprains, Fresh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cankers, Whitlows, Itch, Stiles, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and Wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has been used for the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 20 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

Special Notices.

A SANATORY MOVEMENT.—Physicians in the army and navy are constantly devising ways and means to improve the healthfulness of the soldiers and sailors. In the mean time the people at home are not neglected; but various new compounds are daily coming into use, through the exertions of philanthropic men in our midst. Among those we mention especially Mr. Wm. Grace of Amesbury, Mass., the proprietor of Grace's Celebrated Salve. This salve is said to be, from abundant testimony, which the propietor can furnish, an excellent remedy for all external ailments of the flesh. It has already received favorable comments from the press; and we are informed by Mr. Gorwin, the agent for the sale of the salve in Newburyport, that there is a constant demand for it. Its introduction is indeed a sanatory movement, and we would refer the reader to the advertisement, that he may see to what a variety of ills it is adapted.—[Herald of Gospel Liberty.

For the Chronicle

ENLISTMENTS, BOUNTIES, AND PLAY SOLDIERS.—*Messrs. Editors:*—In reply to a list of young merchants, I would say if our country is to be saved from ruin by the poor, would to God we were *all* poor. It is a pity those merchants should reckon themselves among the wealthy, while they only let themselves for mules to circulate the false assertions of the moneyed aristocracy, who *say* they are willing to raise a suitable bounty for those who are willing to enlist. The writer was called on yesterday by twelve able bodied men who offered to enlist in a body for two hundred dollars bounty. My reply was, I would see what could be done for them and others in order to fill Mr. Thacher's company, and have them off at once. And I would recommend that the city come together once more and instruct the city authorities to furnish the money for that purpose, and should there be any objections made by any one, let that man be branded as a traitor to his country. Yours,

CHARLES ROBINSON.

☞ The writer of the communication signed "A Number of Young Merchants," is far from being a rich man: but he is a well wisher to the volunteers,—and like many of our young shop-keepers, must destroy all the gain he has made so far, if he brok up his business by enlisting. On this same class, the taxes of all sorts fall heavily.

Those who are so earnest to do or say something against rich men, seem to forget that rich men need fear no *draft*, for they can certainly get substitutes. And on the other hand, a $200 or $500 bounty could not *tempt* a rich man to enlist,—though it might tempt one that is poor.

We suppose that the policy of this city, as to Bounties, is fixed and settled—and while we give Mr. Robinson's card over his own signature, as we will any man's,—we see no effect likely to come of it, except to delay enlistment, and so bring on the draft.—If Mr. R. or any other rich man, chooses to give a private bounty of $50 or $500 to any volunteer, so be it.—But those who *wait* for that, may get drafted, after all.

☞ The Fair, at Jefferson Hall, if not just what was expected, is a pleasant place to spend an hour. There is quite a large and fine display of ladies' work, fancy articles, &c., with not a few other curiosities, floral decorations, boquets, &c.; a limited show of very handsome fruit and vegetables, and a few very ingenious machines, including the sawing machine referred to in another place. The exhibition is well worth the 15 cents admission; and the well-intentioned sole manager, with all his mistakes, is worthy of patronage. The exhibition is open both day and evening.

A SECRET.—There is one bit of information, which accidentally came within our possession a short time ago, and is too mean for us to "keep" any longer, though we have had no request or permission to make it public, nor was it furnished to us for that purpose, or supplied to us at all by any party concerned. But our own sense of what is just and decent, and what is mean and outrageous, leads us to give it to our readers and the public.

It will be recollected that on the trial trip of the U. S. steamer Sebago, last year, the Portsmouth Cornet Band was employed, by some of her officers, on the occasion; and a hard day's work they had of it, too, as we know full well. So far, however, all right enough; but we are told that *they have never yet received their pay*,—and we think it no more than just, that whoever is accountable, should bear the blame of this meanness. They are not fit to wear the humblest of Uncle Sam's uniforms—not to mention "the decorations."

And this cheating a worthy company of musicians out of $50 or so, is not the only meanness that we have heard reported of some of the stranger ward officers who have sailed from this port. Some of our merchants have had so much trouble to get their pay for goods furnished, that they have not hesitated to suspect and charge attempt at fraud upon those whose dress and airs about town would proclaim them at least honest men, if not chivalrous gentlemen. And this unworthy conduct of the few has been so strangely in contrast to the unexceptionable deportment of nearly all the officers who have ever worn the "U. S." here, that we have deemed it worthy of this public censure, in the hope that we shall see no more such "swells" here.

☞ Carpenter Wm. M. Laighton, of this city, has been ordered to report to Com. Pearson, at the Portsmouth Navy Yard, for duty on board the U. S. frigate Colorado.

Carpenter Wm. F. Laighton, of this city, has been ordered to oversee the building of the U. S. gunboats, at Bath and Portland Maine.

☞ Mr. Wm. J. Ladd of this city, enlisted in Capt. Betton's Company, has been made Sergeant Major of the 13th Regiment. Mr. Ladd is a son of Alexander H. Ladd, Esq., and after graduating this summer at Exeter Academy, was admitted to the Freshman class of Harvard College.

TERRIBLE ACCIDENT ON THE EASTERN ROAD.—The excursion train which left this city on Wednesday afternoon at six o'clock for Boston, and the Newburyport train which leaves Boston at 6:20 P. M., collided about half a mile north of the Hamilton station, on a portion of a sharp curve and in a deep cut. The accident occurred about twenty minutes of eight o'clock. The Newburyport train was composed of one passenger car and a baggage car. The baggage car was broken up, but the passenger car was only slightly injured. There were about a dozen passengers on the train, who escaped unharmed; but the engineer, Mr. Dudley Weeks of Newburyport, and the fireman, Augustus Whitney, were instantly killed and shockingly mangled. Mr. Batchelder, station baggage master at Boston, who was in the baggage car, had his right leg broken in two places.

The excursion train consisted of four cars, in charge of Conductor Hatch.—The engines and tenders of both trains were completely demolished, and piled up a heap of ruins, at the side of the track. The front car of the excursion train was knocked in pieces, and fell on the left side of the track. The third car, which was an iron one, drove against the second, and forced itself into it more than twenty feet, piling passengers and seats in a heap at the further end. The beams and timbers of the second car pressed through into the third one, filling it with splinters, and injuring several persons. The fourth car was not hurt, and those in it were merely jarred a little.

The engineer, Mr. James Littlefield of this city, received severe internal injuries, though none of his limbs were broken.—The fireman, unknown here, was killed. Forty or fifty passengers received bruises, flesh wounds and wrenchings. The breakup could not have been more complete, and that scores were not instantly killed seems almost miraculous.

An engine was immediately sent to Salem for aid. It returned at half-past 9, and brought supplies for the comfort of the wounded. Another was dispatched to Boston, and brought along Superintendent Prescott with assistants. All of the wounded but Mr. Littlefield, were carried to Boston by a train which reached that city about midnight. He went up Thursday, and lies in a very critical condition.

A Coroner's inquest is being held, to decide the responsibility of the terrible accident. It is a general rule on Railroads, as in other business, that extra trains must keep out of the way of the regular travel, but the investigation will probably show where the blame lies.

ANOTHER ESCAPE.—Conductor Rowe, of the Portland train, informs us that Mr. Farwell's Kennebunk Stage very nearly escaped falling into the Portsmouth river, Thursday morning. The team of three horses became unmanageable just after passing the draw of Piscataqua Bridge—probably frightened by the approaching train—and shied against the railing, so violently as to break the lower rail and let one forward wheel half off the end of the planking. This threw the baggage, &c., off the top of the stage, into the river; and Mr. Farwell and an outside passenger leaped from their seats to the bridge. The hind wheel being considerably larger than the front, reached against the upper rail, which was new and strong, and prevented further mishap. There were several passengers inside, and had the stage gone over, all must have been lost in the deep surging tide.

☞ Warren L. Cooper, the third and last of the deserters from the Marine Barracks at the Portsmouth Navy Yard, was arrested at New Hampton, on Wednesday night, by Officer Johnson, of this city, assisted by Officer Watson, of Concord.—Cooper had enlisted in the 12th regiment, had received a bounty of $300 from the town and State, and was on a two-days' furlough at the time of his arrest. $200 of the money was recovered.

☞ Maj. Blake, of Exeter, paid an official visit to Newcastle on Tuesday. Mr. J. M. Lovering, also of Exeter, was in this city giving our brewers and others the means of complying with the law relative to this operation. Mr. John Hodgdon, 2d, assistant assessor for Portsmouth, is confined to his house by sickness.

☞ The June term of the U. S. District Court was held in this city on Tuesday, before Judge Harvey. The principal business seemed to be a decision in relation to the costs to be allowed to the libellant in the case of the sch. Pennsylvania vs. the sch. Gertrude Horton. The Court adjourned on Tuesday.

☞ The following officers have been ordered to the U. S. steamship Colorado: Lieut. Commander E. W. Henry, and Lieut. H. W. Miller.

McGREGOR'S PATENT

AIR-WARMING AND VENTILATING

FURNACES.

The subscriber would invite the attention of any person in want of a Furnace, to this celebrated heating apparatus, the most perfect in use;—simple, powerful and durable.

The advantages which this Furnace possesses over all others, are:

1st. The perfect consumption of coal No clinkers are made, and no ashes need be sifted.

2d. A continuous fire may be kept through the entire season.

3d. No red hot iron comes in contact with the air to be warmed, and ample accommodation is offered for the evaporation of water, so that the atmosphere of the rooms is that of a soft Italian summer, without any of the dry, oppressive air often felt in furnace heated rooms.

4th. No gas can escape from the fire chamber into the rooms above

5th. More heat is generated from the coal than by any other method of heating; consequently it is

THE MOST ECONOMICAL.

The patterns of this Furnace have been very greatly improved recently, and several sizes added, making in all twelve sizes of Brick and Portable Furnaces, adapted for all sizes of buildings.

This Furnace is more used than any other in first class dwelling houses and public buildings—and volumes of testimonials can be shown in its favor.

We might refer to the following persons who are using the McGregor in this city:

Rev. Chas. Burroughs, D. D.; Messrs. Alfred W Havin, Mark H. Wentworth, George Wentworth, J. P. Bartlett, Com. John Pope, Wm. L. Dwight, Mrs. Levi Woodbury. Also to Rev. Dani. Austin, Kittery; Capt. Chas. H. Salter, Greenland, and many others.

☞ ATTENTION, THE WHOLE! ☜
RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since.
CAROLINE B. SWETT.
This statement of my wife is correct.
SIMEON SWETT.
Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. After seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
HANNAH ROWE.
PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1858. Dr Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM. P. LEAVITT.

From ELDER I CHESLEY, *Lee, May* 31, 1841.
DR. SWETT: Fermit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if it be worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26y

HYMN TO THE FLOWERS.

[The following exquisite verses from the pen of Horace Smith, are well worthy of republication and repeusal at least once a year:]

Day stars! that open your eyes with man, to twinkle,
From rainbow galaxies of earth's creation,
And dew-drops on her lonely altars sprinkle,
Her libation—

Ye main worshipers! who, bending lowly,
Before the uprisen sun, God's lidless eye,
Throw from your chalices a sweet and holy
Incense on high!

Ye bright mosaics! that with storied beauty
The floor of Nature's temple tesselate,
What numerous emblems of instructive duty
Your forms create!

'Neath clustered boughs, each floral bell that swingeth
And tolls its perfume on the passing air,
Makes Sabbath in the fields, and ever rings
A call for prayer!

Not to the domes, where crumbling arch and column
Attest the feeblness of mortal hand,
But to that fane most catholic and solemn,
Which God hath planned—

To that cathedral, boundless as our wonder,
Whose quenchless lamps the sun and moon supply—
Its choir the winds and waves—its organ thunder,
Its dome the sky!

There, as in solitude and shade I wander
Through the green aisles, or stretched upon the sod,
Awed by the silence, reverently ponder
The ways of God!

Your voiceless lips, O flowers, are living preachers,
Each cup a pulpit, every leaf a book,
Supplying to my fancy numerous teachers,
From loveliest nook.

Floral apostles! that in dewy splendor
'Weep without woe, and blush without a crime,
Oh! may I deeply learn and never surrender
Your love sublime!

Thou wert not, Solomon, in all thy glory,
Arrayed, like lilies cry, "in robes like ours;
How vain your grandeur! ah! how transitory
Are Human Flowers!"

In the sweet-scented pictures, Heavenly Artist!
With which thou painted Nature's wide-spread hall,
What a delightful lesson thou impartest,
Of love to all!

Not useless are ye, flowers, tho' made for pleasure,
Blooming o'er field and wave, by day and night;
From every course rear sanction bids me treasure
Harmless delight!

Ephemeral songs! what instructors hoary
For such a world of thought could furnish scope?
Each fading calyx a memento mori,
Yet fount of hope!

Posthumous glories! angel like collection,
Uprailed from seed or bulb interred in earth,
Ye are to me a type of resurrection
And second birth!

Were I, O God! in churchless lands remaining,
Far from all voice of teachers and divines,
My voice would cast, in flowery of thy ordaining,
Priests, sermons, shrines!

FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

Excellent Wine for Females.

The Great Remedy for Kindred Affections, Rheumatism, Gravel, Complaints

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its delicious flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine:

Gen. W. Scott, U.S.A. Dr. Ward, Newark,
Gov. Morgan, N.Y. State Dr. Wilson, 11th St., N.Y
Dr. Parker, N.Y. City Dr. Dougherty, Newark
Dr. J. R. Chilton, " Dr. Parish, Phila.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke pipe or flues on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1846; since that time it has been used by THOUSANDS, and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the World. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
13 State Street, opposite Kilby Street,
—BOSTON,—

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Advice made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS is THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind makes the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to prosecute a patent, and the usual great delay there, are here received inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *successful*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications. SIXTEEN of these Claims, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotence, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Gravel, Strictures, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. These are the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the Head, Dimness of sight, Palpitation of the Heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, a certain and best preventive. Order by mail. Three for $1 and a red stamp.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all Diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new physiological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that not one case of complaint has yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—Letters must contain four red stamps, or they will not be answered.

SATURDAY, SEPTEMBER 20, 1862.

NOTES OF FORMER DAYS.

Meeting House, Parsonage, Mills, Joshua Moody, Charles II.—On the first day of January, 1657, Henry Sherburne was chosen by the town of Portsmouth to be clerk of the County Court, and Richard Cutt to be an associate of the County Court.

On the 27th day of August, the town empowered Brian Pendleton, John Cutt, Richard Cutt, William Seavey, and Henry Sherburne, the Selectmen, to build a new meeting house; which they accordingly erected two or three rods to the southward of the mill-dam, on the crotch of the roads leading to the pound and Frame point.

The inhabitants voted to give a call to Mr. Wooster to settle with them in the ministry, in case they could agree with him after he had made a visit and preached here. On the 7th of September, the Selectmen sent one of their number to make the proposal to him. It is uncertain whether he ever preached here.

Joshua Moodey began his ministerial labors in this town, the beginning of the year 1658. He was at first supported by subscription, eighty-six persons having subscribed for that purpose.

The town made a grant of the mill privilege at the outlet of the south creek to John Pickering, upon condition that he should make and keep in repair a way for foot passengers over the dam, in going to and from meeting. There was a great earthquake this year.

In 1659, February 21st, the Selectmen granted "to Mr. John Cutt full liberty to set up a saw-mill and corn-mill on the creek leading up to the fresh marsh. He had the privilege of cutting timber on the common for the saw-mill, both pine and oak, or any other timber. He was to grind corn for the town at all times, when required; and he was allowed the term of five years for building of said mills." Mr. Cutt erected a saw-mill and grist-mill at the head of the creek within the limited time. The saw-mill stood below the bridge, west of the place where Mr. Asa Ham's house now stands, and the water was brought to it across the road. Gondolas could come to the foot of the mill to take away the boards and lumber. The grist-mill was built at the dam, which was made across the fresh stream just above the place to which the tide flows.

The meeting-house or chapel which had been erected on the glebe land was disused after the one was built at the south end.—The town determined to alter it into a dwelling house for the use of the minister, and Richard Cutt was appointed by the Selectmen to superintend the work.

On the 5th of March, 1660, the town voted, in a formal manner, to settle Mr. Moodey with them in the ministry.

When Charles the Second ascended the throne, May 29, 1660, Robert Tufton, who had taken the name of Mason, entertained some hopes of recovering his property in New Hampshire, and petitioned the king, complaining of the "encroachments of the Massachusetts' Colony upon his lands, their making grants, and giving titles to the inhabitants, and thereby dispossessing him and keeping him out of his right," and prayed for redress. The king referred the petition to Sir Geoffry Palmer, the Attorney General, who made his report on the 8th of November, that "Robert Mason, grandson and heir to Captain John Mason, had a good and legal title to the province of New Hampshire."

In 1661 Mr. George Walton claimed the land at Fort point, and commenced building upon it. He pretended that he had it from Captain Neal, and had planted there some years since, but produced no deed or written title. The Selectmen "forewarned him to forbear building or fencing on the same," because that point of land had been appropriated for erecting fortifications for the defence of the harbor. The Selectmen, upon application, granted liberty to Capt. Pendleton to set up his wind-mill upon the Fort point, towards the beach, because the mill is of such common and public use.

At a town-meeting, Sept. 25th, 1662, "ordered that a cage be made, or some other means invented by the Selectmen, to punish such as sleep, or take tobacco on the Lord's day out of the meeting, in time of the public exercise." "Voted, that whoever shall kill a wolf within the bounds of this town, and shall bring some of the next neighbors, where such wolf is killed, to testify it was done in this town's bounds, and shall *nayle* the head of such wolf killed, upon the meeting-house, he shall have five pounds for his *paynes*, to be paid by the treasurer, the proof thereof to be made to the treasurer in being."

In 1664, at a meeting held April 18, the town empowered the Selectmen to repair the meeting-house and to hang the bell, and to do whatever other finishing work, thereunto belonging, they shall see needful.

NEW HAMPSHIRE ITEMS.

—— Among the sixty-one officers, prisoners at Richmond, who have been paroled, and who arrived at Old Point Comfort on the 15th inst., were Adjt. P. P. Bixby and Lieut. E. M. Emery of the 6th N. H.—Five thousand one hundred and ninety prisoners were released at the same time with the above—among them, it is said, many who have been reported killed.

—— The first 9 months' regiment from this State, will be the 16th, and a Dover correspondent says the Colonel will probably be John W. Kingman, Esq., of Durham, a lawyer of the firm of Christie & Kingman, of Dover. Among others mentioned for Lieut. Colonel are Joseph B. Adams, Esq., of Portsmouth, sheriff of Rockingham county, Hon. Jas. H. Edgerly, and John Legro, Esq., sheriff of Strafford county—both of Rochester. Rev. E. M. Wheelock, of Dover, (Unitarian) will probably be appointed Chaplain.

—— The Manchester American states that it has learned directly from the Governor and Council that Col. Potter *does* accept the appointment to command the 12th Regiment, notwithstanding the reports to the contrary. The Government has detached him from the regular service.

—— Harvey Jenkins of Unity, and Augustus Jones of Charlestown, had a personal altercation in East Unity recently.—Jenkins was armed with a six-shooter, and fired twice at his antagonist. The second shot took effect in the knee, making a bad and exceedingly painful wound, and it is thought will occasion the loss of a limb.—No arrest had been made at the last account.

☞ The modern prophets make wild work when they quote from the old bible, or use it in illustration. For example, Obadiah, a correspondent of the Independent Democrat, writing a sprightly letter from Mauritius, where Harriet Newell lies buried, says:—

"We feel assured that we shall die here, and as Moses gave commandment concerning his bones, so we shall order our body to be buried either in the brook between Paul and Virginia, or in the cemetery beside that of Mrs. Newell."

The ancient Obadiah was doubtless acquainted with the recorded fact that Moses died alone on Mount Pisgah, and no man knoweth his sepulchre. He gave no directions about his bones. But the modern Obadiah has mixed up Joseph, who wished to have his bones carried up from Egypt to Canaan, with Moses by whom they were carried up.

☞ The Boston Transcript says that "after the collision on the Eastern Railroad, the other night, Mr. Perham, with his head tied up, seemed to be ubiquitous, attending to the disabled passengers. Mr. A. K. Loring and the Rev. Mr. Case were very active in getting the passengers out at the car windows, removing the wounded to the house, &c.; and when they arrived in Boston procured carriages, and carried the bruised and helpless to their homes. They were thus engaged till near two o'clock."—Though Mr. Perham of course was not in the slightest degree responsible for the calamity, yet few feel it more deeply than he. He was not severely injured, but besides the wound in the head referred to above, he was struck and torn in the thigh, by a splinter.

☞ It is a law of momentum, that the heavier and swifter-moving body has most effect, of two coming into collision. It was deemed strange by some, that in the late Eastern Railroad accident, the light down train of a single car should not be harmed, while the excursion train of four well-loaded cars, should be so completely smashed up. And we notice that some paper's report of the disaster states that the down train had not got up much speed, but was running slow, and the other going very fast. This is hardly possible, considering the result of the collision; and Engineer Weeks was one of the quickest and most attentive on the road, and being a little late and with a light train, no doubt had got great speed on by the time his train was struck by the other. And his locomotive was the new, heavy, and powerful Traveller, while the excursion engine was a much lighter and less effective machine. Both were stove to pieces, and the ruins now lie at the roadside.

We heard a gentleman intimately acquainted with such matters, estimate the pecuniary damage to the Railroad, while coming down in the train the next day, at $40,000 or more—which may be an overestimate, as we hope it is.

☞ It is stated that the directors of the New York Gas Companies have determined that the Government tax shall not be added to their customers' bills.

THE REBELLION.

Perley telegraphs that the rebels were in possession of Harper's Ferry on Thursday. There seems to have been no fighting on the Potomac on that day. Union troops were constantly being sent forward. The result of the battle on Wednesday was a substantial triumph for the arms of the Union, though purchased at a lamentable sacrifice of life. The dispatch states the loss in killed and wounded on both sides at 10,000. The battle was renewed on Thursday morning. It is stated that twelve of our Brigadier Generals have been killed or wounded.

Gen. Longstreet has not been captured, nor has Gen. Hill been killed.

Gen. McClellan reports that on Thursday evening the enemy abandoned his position, leaving his dead and wounded on the field. Our forces were again in pursuit on Friday. At 10:30 Gen. Pleasanton was driving them across the river. Gen. McClellan says, "our victory is complete. The enemy is driven back in Virginia. Maryland and Pennsylvania are now safe."

It has demonstrated that there are no rebel troops between Washington and Bull Run. Our scouts reported that they were in full force at Drainesville, on Tuesday evening.

The military commenced fortifying Louisville, Ky., on Wednesday. Negroes were impressed to throw up rifle pits and to dig breastworks.

The Union garrison at Mumfordsville, Ky., numbering 4000 or 5000 men, chiefly from Indiana, surrendered on Wednesday. They were completely surrounded by Gen. Bragg's forces, estimated at 30,000 men.—Our loss in killed and wounded was less than 50. The rebels acknowledge a loss of 700 on Sunday.

It is not known in official quarters, as reported, that Charleston, S. C., has been invested, nor that there is sufficient force in that vicinity to make such an effort successful.

THE INDIAN WAR.—Gen. Pope telegraphs from the West that the Indian difficulties in Minnesota are more formidable than he had anticipated. He asks for authority to have two regiments of volunteers mounted to pursue the Indian war, and requests that no more troops be sent to the seat of war from Minnesota. One regiment which should have left for Kentucky on Thursday, is now ordered to St. Paul.

☞ The eleven thousand men surrendered at Harper's Ferry by Col. Miles and Gen. White, are to be sent to the West to be used against the Indians. They can thus be at once made useful, as they could not serve against the rebels for some time to come.

☞ The Springfield Republican says the Otis murder remains a profound mystery. The negroes who were arrested on suspicion have been discharged, it having been proved that on the day of the murder they were not in the vicinity.

☞ In Maine, the State Senate will stand twenty eight Republicans and Union, to three Democrats.

For Representatives, returns have been received of 148, which are classed as follows: Republicans, 104; Union Democrats, 11; Citizens' Candidates, 2; Democrats, 31.

A LONG BAKE.—Recently, one of the diggers at Pompeii, took from a baker's oven, an *entire batch of loaves, such as they were deposited in the oven seventeen hundred and eighty-three years ago.* They are eighty-two in number, and are all, so far as regards form, size, and indeed every characteristic except weight and color, precisely as they came from the baker's hand.

NEVER FORGET that life has more than one stand point, and whoever gazes at it always from one point of view, must infallibly go astray!

☞ Isaac Snodgrass, of Menard, Ill., has nine sons in the army. He is a Virginian by birth.

☞ A stringent order has been issued enforcing the absolute necessity of reducing the baggage trains of troops in the field.

☞ We have received the Atlantic Monthly for October,—a capital number.

☞ Com. Wilkes has sailed with his squadron for the West India waters.

—— A Concord correspondent of the Boston Journal says about 2000 nine months' men have enlisted in different parts of this State, and one regiment of them will be ordered into camp as soon as the 12th has departed. There will be no drafting at present, for volunteers are now enlisting faster than they can be armed.

BUY CALIFORNIA WINES.

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew him as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils, Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Flesh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunions, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Sties, Lame Wrist, and Sores and Wounds of the most serious nature, without leaving a scar. It will also cure pimples on the face, and beautify the skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external Salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Burr & Co., 28 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

One Box sent postpaid by mail to any part of the United States, on the receipt of 38 cents—or three Boxes for one dollar.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing a thick yellow lotus, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female need despair of good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints incidental to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, to pass without the country, having the sanction of some of the most *eminent Physicians in America.*

Experienced Nurses, during their confinement, they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Pills *sent by mail, secretly*, by remitting to the Proprietor. Sold by Druggists generally.

Local.

THE FAIR at Jefferson Hall, which is a pretty fair sort of a fair, after all, will be open this (Saturday) forenoon and afternoon, but we are told not this evening.—The tickets are but 15 cents, and every person, and especially ladies, will find much to interest them there. Give the children a chance to go this afternoon, too. Mr. Carter's enterprise and public spirit are certainly worthy commendation. We never had here before anything near so good in-door accommodations as he has furnished, for the display he expected; and contributions for which were numerously promised him, but failed to come; and it was the public's fault, not his, in not responding more fully in the mechanical department. But the show is large and fine in the fancy line, and well worth a visit.—We learn that a competent committee will award the premiums promised.

☞ We copy from the Journal this morning, a highly complimentary notice of Mr. Daniel J. Vaughan, of this city. He is doing good service in his present position. Yet however creditably the sons of the Granite State may acquit themselves, in the camp and on the field, when enlisted in regiments from other States, there is naturally a desire among their friends that they should be transferred to our own regiments. And feeling assured that Mr. Vaughan would well fill a position higher than that which he now occupies, his friends hope, as do we, that our State authorities will not forget one who has had so much experience, and is so highly recommended, when they are giving commissions in the new regiments.

☞ We are requested, by gentlemen who ought to know about the matter, of the Band being unpaid on the Sebago's trial trip—to state, that it was owing entirely to a mutual mistake, on the part of the officers of that vessel, as well as the Band themselves, that the bill was not fully settled at the time—a small *part* of it being paid by the officers, as it was. Those officers and the Band erroneously supposed, until after the Sebago had sailed, that other parties were to pay the balance of the bill; and probably the officers do not know to this day, that it is not paid. This, if correct,—and we have no reason to doubt it,—puts a different face on the affair, and entirely exculpates the officers. But it doesn't pay the Band—and we can't bear for this, almost our only musical institution, to lose a dollar of their well earned notes. But if we don't want to see *them* wronged, neither do we wish to harm the good name of any other man.

☞ 60 Volunteers from Kittery and 44 from Eliot went into camp at Portland on Wednesday. They were escorted to the cars by Associate Ex-1's of Portsmouth, Capt. Deering, and a delegation from Capt. Thacher's Company of nine mouths' men; and the Portsmouth Cornet Band accompanied them to Portland. They made an excellent company—some of them left work at the Navy Yard at $2.50 per day, to do service at $13 per month. This is patriotism.

For the Chronicle.

HOME GUARD.—We see that many companies similar to the Home Guard of our city, have been formed in Boston and other places. Can we not have half a dozen more companies formed in Portsmouth, and give one day out of a week in perfecting ourselves in drilling? In times like these, it behooves every man to learn to be a soldier. Who will start the second company?

CROAKERS.—There is a set of men in this city, as in all places, who consider themselves loyal men, but who will neither enlist for the war, nor help in any way the cause of military at home. Such drones ought to be put on a list, and shown up in the newspapers. YOUNG AMERICA.

☞ The Exeter News Letter of Monday, contains the old mention of *the three fires* at Odiorne's Mills, Seavey's Mills, and the Sagamore—all being really but *one* fire, and that a small one. But when an error of this kind gets a-going in the papers, it will not stay corrected, though it may be corrected ten times.

☞ Auctioneer Adams will sell, at his auction store, this Saturday morning, at 11 o'clock, a prime Carryall, an English open Phaeton, a new Harness, second-hand Harness, Furniture, &c. 1t*

☞ Rev. Dr. Edward B. Hall, of Providence, R. I., will preach at the Unitarian Church, to-morrow.

☞ It may save misunderstanding with some, for us to re state that there is *not* to be an excursion to Boston to-day.

☞ We have no hesitation in advising every lover of the beautiful, to visit the Fair at Jefferson Hall to-day.

☞ Two members of our Common Council are among the volunteers for nine months from this city.

☞ Uncle Toby acknowledges the receipt of a basket of fine fruit from Mr. Robinson.

☞ The Races at the Boston Franklin Park continue to-day, Saturday. On Thursday the Boston horse Wagram beat the Canada mare Verge, two straight four-mile heats, for $1200, in 8:5 3-4, 8:00 1-2.

IMMORTELLES.

POWER OF LOVE.

"If there were any power in human love,
Or in the intensest longing of the heart,
Then should the ocean and the land that part
Ye from my sight, all unavailing prove.
Then should the yearning of my bo-om bring
Ye here, through space and distance hither,
And life 'gainst love should be a baffled thing.
And circumstance 'gainst will lose all its might.

PAST HOURS.

Two angels have them in eternal keeping:
He that beside the dark vasulte of the past,
Stands to receive the treasures, that with weeping
And lamentation into them men cast,
Forgetting that lone they hold that fast
Which to his marble stone house they commit;
And He, that spirit bright and terrible,
Who at the feet of God doth thoughtful sit,
Upon whose scroll, in lines of flame are writ
Each hour of every day of those who dwell
Upon this earth; He hath those days and hours,
Which unscrupulous mind on us we counted ours;
And who, when that great history appears,
Shall make us answer as if we were there.

McGREGOR'S PATENT

AIR-WARMING AND VENTILATING

FURNACES.

The subscriber would invite the attention of any person in want of a Furnace, to this celebrated heating apparatus, the most perfect in use;—simple, powerful and durable.

The advantages which this Furnace possesses over all others, are:

1st. The perfect consumption of coal. No clinkers are made, and no ashes need be sifted.

2d. A continuous fire may be kept through the entire season.

3d. No red hot iron comes in contact with the air to be warmed, and ample accommodation is offered for the evaporation of water, so that the atmosphere of the rooms is that of a soft Italian summer, without any of the dry, oppressive air often felt in furnace heated rooms.

4th. No gas can escape from the fire chamber into the rooms above

5th. More heat is generated from the coal than by any other method of heating; consequently it is

THE MOST ECONOMICAL.

The patterns of this Furnace have been very greatly improved recently, and several sizes added, making in all twelve sizes of Brick and Portable Furnices, adapted for all sizes of buildings.

This Furnace is more used than any other in first class dwelling houses and public buildings—and volumes of testimonials can be shown in its favor.

We might refer to the following persons who are using the McGregor in this city:

Rev. Chas. Burroughs, D. D.; Messrs. Alfred W Haven, Mark H. Wentworth, George Wentworth, J. P. Bartlett, Com. John Pope, Wm. L. Dwight, Mrs. Levi Woodbury. Also to Rev. Dani. Austin, Kittery; Capt. Chas. H. Salter, Greenland, and many others.

RYE, N. H., Feb. 28, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—so it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a hundred of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since.

CAROLINE B. SWETT.

This statement of my wife is correct.

SIMEON SWETT.

Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side, and seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine be the most sure remedy in the world for Humors.

HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give me any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I feel good health. M. LOWD.

Exeter, Feb. 24, 1858. Dr Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. P. LEAVITT.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, and continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

From the Journal

Among the sons of Portsmouth now in the service of their country is Mr. DANIEL J. VAUGHAN, a graduate of the Portsmouth Journal office, who enlisted in the 57th Reg. New York Volunteers in November 1861, and has ever since been an active and efficient member of the company. We have seen a letter from the commander of the company, J. N. Bell, in which he says, "Corporal Vaughan, who for the last two months has been acting orderly sergeant of the company, has always performed his duties to my entire satisfaction, and I take pleasure in recommending him as a commissioned officer, as I think he is fully qualified to fill any position in the line. His bravery, efficiency and general good conduct during the battle of Fair Oaks, the siege of Richmond, and subsequently through the more trying days of our retreat, did much to promote the discipline of the company, and should secure for him the promotion he deserves." Will Gov. Berry, in giving commissions, bear in mind those who have shown themselves worthy to be relied upon in the hour of trial, and place high on that list the name of Daniel J. Vaughan.

THE FAIR AT JEFFERSON HALL.

We are requested by the Manager of the Fair at Jefferson Hall to state, that the Exhibition will be closed after Saturday afternoon. And having permission from the city authorities to occupy the Hall another week, on Tuesday morning next it will be again opened. Several gentlemen have interested themselves in making considerable additions to the collection, which will be taken in on Monday. We hope the ample space the Manager has provided will be filled in a manner which will make the exhibition every way creditable to our city.

ROGERS' GARDENS.—That the September rides and walks into the country about Portsmouth are charming, everybody here knows. There is one particularly inviting just at this time—a stroll to Rogers' Gardens in Kittery, a mile or two beyond Portsmouth Bridge, while the fall flowers are in bloom, and the fruit is just taking the blushes of maturity. The latch-string is always out—an open gate and cordial greeting being ever ready. The dahlias, China astors, verbenas, lilies, &c., look their prettiest now; and, especially that Nature is so bountifully bestowing her harvest gifts, a sight of the apple and pear trees, and a peep into the grapery are well worth taking an hour's walk for.

EIGHTY YOUNG OPERATIVES KILLED.

PITTSBURG, Pa., Sept. 17.—A frightful explosion occurred at the U. S. Arsenal this afternoon at 2 o'clock. It occurred in the large frame building known as the laboratory. One hundred and seventy-six boys and girls were employed in the building at the time of the disaster, of whom 75 or 80 were killed. One explosion followed another until the entire building was destroyed, and those who could not escape in time were burned up.

The scene was most appalling, the dead bodies lying in heaps as they had fallen. In some places where the heat was most intense, whitened bones could be seen through the smoke and flames. In other places large masses of blackened flesh were visible.

Up to the present time 63 bodies have been taken from the ruins.

The cause of the explosion is unknown, but it is admitted by all to have been accidental.

WAY OF DRAFTING.—In detailing the men, each name on the rolls is written upon a folded ballot and placed in a box, in the same manner as the names of jurymen. A Commissioner appointed for the purpose is first blindfolded, and then draws from the box till the requisite number is obtained. Each man whose name is thus drawn is immediately notified to appear at the rendezvous. Every man in New Hampshire who does not thus appear is subject to a fine of $75, but this does not release him from his obligation to serve his country. He must go himself, or furnish a satisfactory substitute. If the draft, when resorted to will be conducted by the municipal officers.

"HABEAS CORPUS."—This familiar law term, although so common, is not everywhere understood. Its literal meaning is "*You may have the body.*"

It lies where a person being indicted and imprisoned, has offered sufficient bail, which has been refused, though the case is bailable; in this case he may have an *habeas corpus* out of the proper court, in order to remove himself thither, and to answer the cause at the bar of that court.

OF THE RIGHT STAMP.—The Boston Traveller says: A son of Eben Eben Joy, Esq., of Newmarket, N. H., only 16 years old, enlisted in the nine months' service during his father's absence. Upon his return, Mr. Joy, instead of opposing his boy's wish to "go," at once proceeded to the recruiting office, and enlisted himself. He has another son in a Connecticut Regiment. Mr. Joy in early life was a fellow apprentice with Hon. Henry Wilson, though he has recently a Quartermaster in the N. H. V. M. He leaves a good business and a flourishing farm.

LOST AT SEA.—Among the passengers on board the steamer Golden Gate, which was burnt at sea on the northwest coast on the 26th of July, was Miss SARAH CATHARINE BRIARD, formerly of Portsmouth, and sister to Capt. William A. Briard. Her age was 65. She had taken passage for Boston. Her body floated ashore and was buried by the survivers.

We understand that Rev. Charles Corey of Seabrook, who accompanied our army during the late retreat from Bull Run, as an agent of the Christian Commission, will narrate the incidents which there came under his observation, in a lecture at the Middle Street Church next Tuesday evening.

The high open charges, from time to time, of the N. Y. Tribune, that Fernando Wood, the late Mayor, (who so long retained his popularity with the people,) was a man as corrupt in morals as he was in politics, have received an important *elucidation*, by a recent final decision in the highest court of the State, that of appeals, in an action for years pending in the lower courts, and carried up by Wood, dissatisfied, to the highest. A verdict against him of $16,000 has been obtained, for money fraudulently obtained. Wood's public position and the sway he has had in the great city, may well excuse this personal notice.

The idea has been expressed that the wards of the City, as separate towns, will be called upon to make up the quota required by the State. There is no more reason for this than there would be for assigning each Ward its quota of the State Tax. If a draft is ever made, the requisition will be on the city, and our city as a whole will of course have to respond.

Mr. John Scammon, jr., wishes us to say that the statement made in the *last* Journal that he expressed contrition and a willingness to take the oath of allegiance is *wholly* untrue.

Our authority for making the statement is the City Marshal and one of his assistants. It would have been much more to his credit to have taken that course.

The man who in these times openly opposes the efforts to put down the rebellion, and discourages enlistments by saying—"I should as lief be under the government of Jeff. Davis as under the government of Lincoln and the black republicans as we have been for a year past," certainly gives tokens that he is a secessionist, and should either be required to take the oath of allegiance, or be kept in a place of security.

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS FREE OF PORTUGAL.

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

As A DIURETIC, it imparts a healthy action to the Bladder and Kidneys, and Urinary Organs, very beneficial in Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The comfortable glass being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Also on hand, the celebrated and unequalled

HAIR DYE.

☞ MATHEWS' VENETIAN HAIR DYE.—This celebrated Dye was first prepared in 1845; since that time it has been USED BY THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.

THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.

THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.

THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.

THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.

THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.

THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most permanent Dye ever used.

Researches made into American and Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability or utility of inventions, of late been greatly improved by experienced hands brought from the Claimpagne country.

In Fine Champagne, Bouquet, Sparkle and Vinosity, they compare well with the best foreign productions, while having over the bulk of those sent to this country the inestimable advantage of being *absolutely pure*. Sold by

The American Annual Cyclopædia,
—and—
Register of Important Events
OF THE YEAR 1861,
Embracing Political, Civil, Military and Social Affairs, Public Documents, Biography, Statistics, Commerce, Finance, Literature, Science, Agriculture, and Mechanical Industry.

The form of this Cyclopædia has been selected, as affording room for the greatest variety of details, without becoming too minute and tedious. The work is already from an advanced stage of preparation, and will be issued as early in the year as its proper completion will permit. The volume will be in the style of the New American Cyclopædia, having not less than 750 pages, royal 8vo.

The work will be published exclusively by subscription, and an extensive appearance will be at once elegant and substantial.

In Cloth, $3. In Library Style, leather, $3.50.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at hi, office, Nos 7 and 9 ENDICOTT STREET, Bostons on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, pain and distress in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Painful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, rendering the married state, and inflicting the unfortunate individual to business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The cerial effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating marriage, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
April 7—1y 6aw.

CAUTION
To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the womb, Fluor Albus, Suppression, and Menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is his mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. D has on hand a large and great experience in the cure of diseases of women and children, that any other physician in Boston

Being constantly consulted by patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office hours from 8 A. M. to 9 P. M.
April, 1862—1y8aw

CERTAIN CURE
in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M., as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon, will give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail, two for 25 cents and a red stamp.

A star for every State: a State for every star.

MONDAY, SEPTEMBER 22, 1862.

THE REBELLION.

The fleet carrying the rebel prisoners to Vicksburg was fired into at Prentice, opposite Napoleon, Ark., killing a number of the rebel prisoners. None of our men were hurt. The crew gave the inhabitants fifteen minutes to remove the women and children, and then burnt the town.

The report of the capture of Mumfordsville, Ky., is not believed.

Gen. Pleasanton, who was dispatched on Friday, in hot pursuit of the enemy, with two batteries and two regiments, through a gap of high hills, cut off a large amount of their ammunition and supplies, etc., besides a small portion of Gen. Maxy Gregg's South Carolina brigade. He shelled the enemy with effect as they passed through the ravine. The last seen of the rebels they were flying in the direction of Winchester. It is stated, apparently on good authority, that their loss is two to our one. Their dead were left unburied, and their wounded found shelter in barns and woods along the whole route. Our entire army had crossed the Antietam on Friday morning, and was massed between Antietam creek and the Potomac, opposite Sheppardstown.

A brilliant cavalry reconnoissance was made on Thursday from Heintzleman's corps to Thoroughfare Gap, during which three of the rebel Gen. Ewell's staff were captured. The General was being removed in an ambulance to Richmond, and was got off by his guard.

Newspaper correspondents state that Stonewall Jackson relieved Longstreet in the latter part of the day, Friday, and is believed to have been killed during the engagement. A shout went along the whole line that Jackson was killed.

It is again asserted that Gen. Burnside has re-occupied Harper's Ferry. It is said that the rebels retreated, leaving the cannon and stores behind, and several hundred of Col. Miles' men not paroled.

Special dispatches say that the rebels were forced to destroy a large portion of their trains, and spike and abandon much of their artillery, so closely were they pursued by our army; that 50,000 rebels are still on this side of the Potomac, and that at least 20,000 wounded and dead rebels have been left behind. Many of the dead are unburied.

The Associated Press report states that the rebels saved all their transportation and carried off about 300 cannon. After our forces occupied the whole field, the rebel loss was found to be greater, particularly in killed, than was at first supposed. Their loss in killed and wounded will not come far from 18,000 to 20,000. Gen. Stark, rebel, was killed, and Gens. Ripley, Walker and Hayes were wounded.

BY TELEGRAPH.

The dispatch received, on Sunday noon, by Messrs. Hutchings, Ilsley and others, says:—

The Philadelphia Press says that Gen. Burnside on Monday afternoon was ordered to march to the relief of Harper's Ferry, and reached there at 10 A. M., Tuesday. He at once engaged the enemy and drove them across the river. Our troops charged and with a battery cleared the bridge; advancing as the rebels retreated. They recovered our guns and most of the stores and arms which we lost at the surrender of the place. The rebels were driven towards Winchester. Our loss was slight.

Gen. Lee, suffering much from a wound from a Minie ball in the thigh, has retired to Winchester; and Longstreet and Hill being each severely wounded and Anderson sick, Stonewall Jackson is in command. The rebel have succeeded in crossing their entire army, and have planted batteries at Williamsport, on the opposite side of the Potomac, to prevent our right wing from crossing.

There is a report at Fortress Monroe that 18,000 or 20,000 rebels are near Blackwater river, but ample preparation has been made to repel them.

Gen. Rosencrans, on Friday, defeated a rebel force at Inka, Miss.,—said to number 15,000, under Price. The rebel Gen. Little, formerly Governor of Mississippi, was killed, and Gen. Whitefield was wounded and taken prisoner. Our loss was 400 or 500 in killed and wounded. At last accounts Gen. Rosencrans was pursuing the fleeing enemy.

"A reliable gentleman," at Harrisburg from Hagerstown, states that the entire rebel army under Jackson has surrendered. He represents their loss at from 20,000 to 30,000, and says that their army is terribly demoralized.

Gen. McDowell and lady are just now in New York. No one credits the strange impression in the army, that Gen. McDowell is a "traitor." An Ohioan by birth, the husband of a New York lady, long and devoted is his faithful service in the army, it is impossible even to suspect him of infidelity to the great cause he was fighting for.—His embarrassments have been great, and some malign influence, in the Administration, though seemingly friendly, has terribly injured him, and made him appear idle and useless, at the head of a large army corps, and hence, it is probable, the impression respecting him in the army,—but there is no treason, no infidelity to the cause on his part.—*Boston Post.*

We hope almost all things, and believe almost all good things,—about our generals, one and all. But if there was any malign influence in the Administration against Gen. McDowell, (which we do not believe,) why did not a similar influence (not believed by us,) produce the same effect on Gen. McClellan? We are told and we believe that Gen. McC. is popular with the army, and Gen. McD. is unpopular.

In both cases there may be some extravagance of feeling and error of judgment among the soldiers: but we suspect that personal qualities, pleasant and unpleasant, have a great deal more to do with the opposite feelings of the soldiers towards the two men, than their relative skill as officers, merits as soldiers, or loyalty as citizens.

We need the talent, skill, and tact, of all the officers we have,—and with the great army we are raising, we must have commands for all who are fit for it.

As we write this, a good Union man mentions the names of Harney and Fremont, who have no commands, but are both fit to lead quick movements,—and hopes Gen. Wool, though old, may be placed where he can show the fire that yet remains in him.

MEASURES, WEIGHTS, AND EGGS.—*Messrs. Editors:*—What is a heaped Bushel? or in other words how many inches are there in what is called a heaped Bushel?—The United States Bushel is 2150.42 inches. 1. there is any law or settled custom for what must be added to make a heaped bushel, it would gratify the writer, and perhaps many others to know what it is. *

We refer the *calculation* to mathematicians. The old custom was, to heap potatoes or apples on a half bushel measure, as long as they would stay, without placing them. Bushel baskets were made so as to hold, when even full, two heaped half bushels.

In measuring shelled corn, it used to be heaped on the half-bushel, when new, until Christmas,—afterwards it was streaked.—Some years ago it was the practice here, to weigh potatoes, calling 60 lbs. a bushel.—The large buyers made that rule, and kept it up one year only. The next year they returned to the old heaped bushel.

Speaking of weights and measures, reminds us of the fact that eggs are sold, neither by weight nor measure, but by *count*, though some eggs weigh a great deal more, and are worth much more than others.—They ought to be weighed, as in that manner the meanest buyer and the craftiest seller could not get quite so much advantage as at present.

☞ The editor of the Brunswick, Me., Telegraph has been informed that the rebel General, Lee, is a son of David Lee, a native, and for many years a citizen of that town, and its informant is not quite confident that the rebel General may not have been born there. If this were true, some one of the many Bowdoin students in the army would like to have a pop at such a "Yagger" as that.

☞ We have reports by steamer Ocean Queen, at New York from New Orleans, that a formidable Anglo rebel steamer, mounting sixteen guns, ran the blockade at Mobile, on the 4th inst. She is supposed to be the notorious "Alabama," alias "290," the departure of which from England was announced some time ago. This vessel is said to have on board 36,000 stand of arms.

☞ We have Pensacola advices to the 13th inst. The health of the troops is good. The War Department has detached Fort Pickens, Barrancas, and Camp Arnold, at Pensacola, from the Department at Port Royal, and assigned the command to the Department of the Gulf. Admiral Farragut, with the flag-ship Hartford, a dozen or more gunboats, and a portion of Commodore Porter's mortar fleet, is in Pensacola Bay.

☞ A couple of young men, in Eliot, a short time since, girdled fifteen or twenty fruit trees, and thrice set fire to a woodpile very near a dwelling house in that town. After having committed these misdemeanors, they thought they could escape with impunity if they enlisted. They therefore enlisted, and were in camp in Portland, when they learned, by the appearance of an officer from Eliot, their mistake.—They were delivered up to him, and on Friday was conveyed back to Eliot.

☞ Gen. Hooker's wound is not so bad as was at first supposed. The bones of his foot are uninjured, and he will soon be enabled to rejoin his command.

Local.

THE CASE OF DR. BATCHELDER.—The American states that "United States Marshal Ela was in Manchester on Friday for the purpose of making a return upon the writ of Habeas Corpus, which was recently issued by Judge Bell, in favor of Dr. Batchelder of Epping, confined at Fort Constitution. A hearing upon the subject will be had before the Chief Justice on Friday. A. R. Hatch, Esq., of Portsmouth, appears for Dr. Batchelder, and Hon. Daniel Clark for the Government. It is understood that Marshal Ela declines to produce the body of the prisoner, having received instructions on the matter from the authorities at Washington."

☞ A very large fleet, said by some to be three hundred, coasters, manned by over a thousand men, put into our lower harbor on Sunday, the 14th. Some complaints were made by the farmers in the vicinity, whose orchards were visited and stripped of their fruit.

☞ Nathaniel Shackford, a Portsmouth boy, and known to many as an active military man here some years ago, has received the appointment of Captain of a company in the N. H. 12th Regiment.

☞ Dr. Mark F. Wentworth, of Kittery, has been elected Lieutenant Colonel of the Maine 27th (York County) Regiment,—for nine months' service.

☞ Our sweetest thanks and most blushing acknowledgements to Miss Amelia E. DeRochemont, of Newington, for a liberal basket of the most superb peaches we have seen this year, or any other year, sent to our counting room on Friday. Like the charming donor, the luscious fruit blushes at its own loveliness—their cheeks have borrowed from the oriental bloom of hers; and we own to the soft impeachment of being unable to withstand with equanimity, any such blandishments, of either sort.

☞ The jury summoned by the Coroner to investigate the cause of the late accident on the Eastern Railroad, by which one engineer and two firemen were killed, and several passengers injured, have rendered a verdict that they find that the collision was occasioned by the manner in which the orders were given to Mr. Dockham, the conductor of the regular train, and the deviation from the printed rules of the road in giving to Mr. Hatch, the conductor of the extra train, special written instructions to meet the regular train at Wesham; that the engineer of the extra train was negligent in not having a light on the front of his engine; and that giving verbal orders for the running of railroad trains is dangerous to public travel. They also express the opinion that the public have a right to regular trains, which should in no case be detained or endangered by extra trains.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

Portsmouth, N. H., Sept. 20, 1862.

DR. J. A. MERRILL,

THE CELEBRATED

ELECTRICIAN,

Having visited Portsmouth to attend a few special cases of CHRONIC DISEASE, would respectfully announce that he will devote a portion of his time to the treatment of

RHEUMATISM,
NEURALGIA,
PARALYSIS,
DYSPEPSIA,
DEAFNESS,
TORPIDITY of the Liver,
Prolapsus Uteri,
WEAK EYES,

AND ALL DERANGEMENTS OF THE

Nervous System,

By his new and complete system of

MEDICAL ELECTRICITY.

DR. MERRILL has devoted upwards of twelve years exclusively to the study and practice of ELECTRICITY, and has succeeded in reducing its use to a rational system of

MEDICAL PRATICE.

Deafness.

Dr. Merrill would especially invite attention to his successful treatment of Deafness; and, as many persons from a distance may be induced to visit him, begs leave to state that the only form of Deafness to which he considers his system of practice applicable, is that resulting from exhaustion or partial paralysis of the Auditory or Acoustic Nerves. In such cases, accompanied by ringing in the ears, want of proper secretions, &c., where there is no organic injury of the ear, his treatment is HIGHLY SUCCESSFUL.

Instruction.

DR. MERRILL is prepared to furnish physicians and others with his

Improved Electro-Magnetic Machine,

FOR MEDICAL PURPOSES.

He will also give thorough instruction to individuals or classes in his system of applying Electricity, enabling them to treat the various diseases successfully.

BUY CALIFORNIA WINES.

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe;" "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

"The Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

GRACE'S CELEBRATED SALVE!

A Sure Relief for the Sufferer!

This Salve is a vegetable preparation, invented in the 16th century by Dr. WM. GRACE, surgeon in King James' army. Through its agency in cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day; and was regarded by all who knew its virtues as a public benefactor. The Salve is used for the following diseases:—Burns, Bruises, Felons, Scald Head, Salt Rheum, Boils Scurvy, Sore Lips, Sore Ears, Swelled Nose, Ulcers, Lame Joints, Chilblains, Chapped Hands, Ringworms, Sprains, Flesh Wounds, Erysipelas, Scalds, Stings of Venomous Insects, Piles, Bunyons, Frozen Limbs, Nettle Rash, Sore Breast, Wens, Eruptions, Festers, Shingles, Cancers, Whitlows, Itch, Sties, Lame Wrist, and Sores and Wounds of the most scrious nature, without leaving a scar. It will also cure pimples on the face, and beautify the Skin.

There are thousands who are suffering for months and even years in consequence of Sores and wounds that might be cured in a short time by the use of this great external salve. It has never failed to effect a speedy cure when properly applied. This Salve has none of the irritating heating properties of other remedies, but cools, cleanses and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand, for it will save them trouble, suffering and money; and in many cases it has saved life itself. The manufacturer receives testimonials daily, from some of our most distinguished citizens, expressing benefits derived from its use. This Salve is warranted to give perfect satisfaction in every disease that it professes to cure; if not, the money will be refunded.

Price 25 cts. per box. Manufactured by WM. GRACE, Amesbury, Essex Co., Mass.

M. S. Bury & Co., 26 Tremont street, Boston, wholesale agents. All orders addressed to this firm or the manufacturer, will receive prompt attention.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstrations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *removing, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, throughout the country, having the sanction of some of the most *eminent Physicians in America.*

Explicit Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Pills *sent by mail, promptly*, by remitting to the Proprietor. Sold by Druggists generally.

PLEASURE AQUATICS.—NO. III.

Once more we tried our friend the yacht Florence, since that pleasant first occasion. It was a hurriedly gotten-up affair, and there were some deficiencies in the commissary department. But after a most agreeable sail outside Whale's-back, (shortened per request, so that the pleasure of some of the ladies should not be too "long drawn out,") Capt. Leach brought up alongside the old wharf in Gerrish's Cove, at Kittery Point, an excellent place; and the way the ladies caught cunners with the hooks the skipper baited and cleared for them; and the way "Jim" skinned and cleaned them—the fish, we mean; and the way the ladies fried them in that pan and pork, and meal, all borrowed with condiments, from the hospitable larder of Mrs. J. D. Lawrence, luckily near by; and the way supper was eaten on the rocks,—helped out materially by the liberal supply of hard biscuit kindly furnished by Mrs. R. F. Gerrish; and how we got home finally, late at night, by dint of the Capt. and Jim shoving and rowing the heavy craft near the shore—is there any need of saying more, than that it is a good plan to start for home a little earlier?—and yet how *can* you, if the ladies are not thro' supper, (and *such* suppers as the dear creatures do eat, down river!) or a man has got a cunner-bone in his throat?

—— Once again we tried boating—this time in a larger craft, the popular Shoals-packet and pilot-boat Sibyl; and our voyage reached farther seaward, even to Star Island. After enjoying more than one plate of one of the best chowders we or any other hungry body, ever tasted, at the Atlantic House, with as good appetite as a man who has not been and will not be seasick, can expect; we turned us directly about, and came in with the Sibyl again.

But there being a party of our Boston friends stopping at the Atlantic, and as we found things so much to our satisfaction there, we next day tried that sail again—this time with ladies in tow. And they had the good grace not to get sea sick on this trip *out*, too; but alas! when coming in—well, no matter, it is "all over" now; in fact, we thought there was too much *over* then, for the comfort of some of them. We don't hanker after taking unacclimated ladies out to sea, as a general rule. However, passing Appledore, (which presents a pleasanter appearance this season than ever before, with the large addition, and the fuller growth of trees and grass on the lawn, and the convenient landing which has been arranged) we kept on till reaching Gosport, and were all soon under charge of mine host Caswell, of the Atlantic. Here our whole party had a jolly time for the best part of a week. One gent was a most determined fisherman, and kept Jim out whenever he could get any fresh porgies for bait—for Mr. Cod is one of the most dainty of feeders—the seaweed is his "grass," so they say—and he will touch none but the nicest morsels. But we preferred lounging on the islands; nor could we recommend the boat fishing to the ladies—but perhaps they can now commend it, as some of them tried it, to their satisfaction,—or at any rate, to their conviction. This reminds us of our first trip to the Shoals, of our first fishing; and, Jerusalem! of our first (and almost our last) sea sickness. About a quarter of a century ago! [oh dear, how we all do grow old!] more than twenty years ago, at any rate, when we had seen a sixpence worth of years, we insisted on going fishing, one night, from Kittery Point; and some old salts took us with them to the vicinity of the Shoals, where we caught more fish than we ever took before or since, and the greatest fit of sea-sickness we ever had or ever hope to have. We can't "contain ourselves" when we think of it—we couldn't *then*; nor will we undertake to describe it. All we have got to say to those who persist in being sea-sick,—which *we* don't, thank heaven!—is, "don't."

Well, we found Gosport, where almost all the Shoals people live, to be *the* place to see Smith's Islands, after all said—and mine host Caswell proved a very agreeable and accommodating landlord, and his assistants likewise; and the Atlantic is a very comfortable and pleasant hotel.

We believe the Appledore House was open this season, but as we saw no authoritative mention of it in the Chronicle, we did not feet sure, and so did not call there. We were told, however, that the host, who is one of the "heavy men" of the Shoals, and reports always said, is religiously inclined, has procured one of those secesh bells sold in Boston recently, (weight about 150 lbs.) and will elevate it to the belfry on the roof of his main house, so that he can "ring his visitors in" hereafter.

A ramble about Star Island, (so called from its shape) with Rev. Dr. Beebe, was a rare afternoon enjoyment. [*En passant*, it may seem a little odd to some—the title we give Mr. Beebe above. But having been a regularly educated, and for years a practising, physician, in New York, we suppose no one will dispute his "Dr."; and that he was afterwards regularly licensed to heal souls as well as bodies, we take it for granted, gives him an equally undeniable "Rev." So if he isn't entitled to the two D.'s, *alias* Rev. Dr., who is? Though probably he, and perhaps no one else, ever thought of it before. He first came to the Shoals, about seven years ago, with the idea of staying for a summer, but has remained ever since. And his removal would be an irreparable loss, for he has acted as missionary, pastor, school-teacher, town agent, doctor, counsellor, and what not—and has evidently contributed largely to the improvement of the inhabitants of Gosport, which has been remarked within a few years.]

Mr. B. yet retains his responsible position as almost the only resident of these ocean isles, who can be called upon to officiate professionally at the mysterious beginning or end of life.

We cannot, need not, go into detailed description of the Shoals. Everybody has been there, or ought to go; that is if they won't be seasick. There are nine of the Islands, which ought never to have been robbed of the name of Smith's Isles, which the discoverer, John Smith, gave them—We shall not attempt to give the interesting history and reminiscences of the singular group, which Mr. Bebee related to our little party, as we followed him over the rocks; but we shall only advise all who love the sea and its crags, to improve their first opportunity to spend a few days at Gosport, and try and induce Mr. B. to aid them in appreciating his anomalous home.

After visiting the burying yards, where there are no *marked* stones except for two old pastors who dieil here; Miss Underhill's chair, whence a young lady school teacher was washed off and drowned a few years ago, by one of those monstrous, sudden waves, which sometimes rise far higher than their surrounding fellows, before or after; the caves, in one of which tradition says an old lady hid with her two grandchildren, while Indians from the mainland were searching and robbing the island, till the little ones becoming hungry and frightened began to cry, when she in her excitement and agony, killed them both; and the flume, and the seams, and the cliffs, and scores of beautiful and terrible attractions—we don't think that brace of ladies who performed such ground and lofty tumbling with us, will soon forget any of them.

After climbing till we were all tired enough to think we had had a good time, Mr. Bebee's invitation to visit his residence was accepted. And among the objects of interest here, were the splendid medicine-chest presented to them by Rev. Mr. Austin, with a fund to replenish it; and the large silver medal from Government to 3d Sergeant Bebee, of the N. Y. Volunteers in the Mexican war. Then after admiring the flowers and other evidences of good taste on the part of his better-half, we visited the little miniature stone church of only twenty pews, and from its steeple enjoyed one of the most gorgeous sunsets we ever beheld. Mr. B. is trying to get a bell for the spire, and the $200 needed ought surely to be forthcoming from some lover of the Gospel and progress.

But we must leave all this—for time is short, both then and now. We saw Jim splitting fish, saw a man trying out cod liver oil, or "medicine oil," as he called it, by the barrel—and he drinks it like water, too—ugh! saw strings of hake's "sounds," which are dried and used in clarifying wine—saw, saw everything there was to see, so far as our time went.

But good bye Mr. Caswell, and Jim, and all—and Saturday morning we must push off in the whaleboat, and Jim go too, to hit the train for Boston. All well, pretty well, till the wind leaves us, outside Whale's Back. Then a glorious mirage, of the Shoals—and rowing that heavy boat in, and hunting up a hack and baggage-wagon, and getting "all aboard" Cram's train in time, but no time to say good bye then—so now good bye. IND.

—— Capt. J. F. Littlefield, of the 2d Regiment, has died of his wound and his remains have been taken to Great Falls.—The deceased, who was one of the most estimable citizens of the town, volunteered as a private under the President's first call.—Elected to the 1st Lieutenantcy of Co. E, he participated in the terrific charge which the New Hampshire 2d made on the crimson field of Bull Run. He was made Captain, and subsequently Lieutenant Colonel of the 13th Regiment, by Gov. Berry; and, at the time of the late actions under Gen. Pope, he was in Washington, perfecting his papers, as Lieutenant Colonel. Hearing that the army were engaged with the enemy, he hastened to his post and fell, after having received three successive wounds.

☞ The St. Paul's, Minn., Pioneer, of the 17th inst., says that the Chippewa embassy have returned, and that they successfully settled all questions of dispute, and left the Indians in a more cordial and friendly state of mind than has existed in many years. Nearly all the Chiefs were present and signed a treaty of perpetual friendship at Crow Wing on the 13th inst., whereupon the whole band prepared to leave for their homes, all satisfied. Hole-in-the-Day promises to disperse his men.

McGREGOR'S PATENT

AIR-WARMING AND VENTILATING

FURNACES.

The subscriber would invite the attention of any person in want of a Furnace, to this celebrated heating apparatus, the most perfect in use;—simple, powerful and duratile.

The advantages which this Furnace possesses over all others, are:

1st. The perfect consumption of coal No clinkers are made, and no ashes need be sifted.

2d. A continuous fire may be kept through the entire season.

3d. No red hot iron comes in contact with the air to be warmed, and ample accommodation is offered for the evaporation of water, so that the atmosphere of the rooms is that of a soft Italian summer, without any of the dry, oppressive air often felt in furnace heated rooms.

4th. No gas can escape from the fire chamber into the rooms above

5th. More heat is generated from the coal than by any other method of heating; consequently it is

THE MOST ECONOMICAL.

The patterns of this Furnace have been very greatly improved recently, and several sizes added, making in all twelve sizes of Brick and Portable Furnaces, adapted for all sizes of buildings.

This Furnace is more used than any other in first class dwelling houses and public buildings—and volumes of testimonials can be shown in its favor.

We might refer to the following persons who are using the McGregor in this city:

Rev. Chas. Burroughs, D. D.; Messrs. Alfred W Haven, Mark H. Wentworth, George Wentworth, J. P. Bartlett, Com. John Pope, Wm. L. Dwight, Mrs. Levi Woodbury. Also to Rev. Dan. Austin, Kittery; Capt. Chas. H. Salter, Greenland, and many others.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a fever of the most dangerous character. And from the abundant evidence I had of the good effect of Mr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by emetics, which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since.

CAROLINE H. SWETT.

This statement of my wife is correct.

SIMEON SWETT.

Portsmouth, N. H., April 13, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have been free of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.

HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1858. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented my rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."

WM. P. LEAVITT.

From ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26g

Morning Chronicle.

COTTON AND REBELLION.—The Newburyport Herald gives some statistics of the cotton and woolen manufactures, and then says: "Our interest demands that every effort should be made to crush out this Rebellion and open the cotton country. It demands, too, that in the settlement of our national difficulties, regard should be had to the preservation of the cotton culture.—If the South were to cease to supply us with this article so essential to our welfare, the prosperity of New England would be, it seems to us, almost fatally impaired."

Crush out the rebellion and cotton will take care of itself. Cotton is a useful article—so is gold: but it is not best to worship either of them, or to purchase them with fraud, oppression, or any other sickedness.

☞ The following officers, having each served upward of forty consecutive years, are entitled to be retired upon full pay, on their own application:

Generals—Wool, Harney, Sumner, Mansfield, Totten, D. Hunter, and I. W. Ripley.
Colonels—G. H. Thomas (M. G. vol.), Tompkins, Taylor, Larned, Long, Craig, Symington, Dimick, Morris (Bvt. B. G.), Gates, Merchant, H. Brown (Bvt. B. G.), Waite, Loomis, Abercrombie (B. G. vol.), Morrison and Wright (M. G. vol.).
Lieut. Colonels—Vinton, Andrews, Thayer, DeRussy, Delafield, Brewerton, Bache, Graham, Ramsay, and Burke.
Paymaster—Major Leslie.
Surgeons—Satterlee and King.

Gen. Totten, of the Engineer Corps, may be considered the Father of the Army, having been in the service longer than any other officer. His first commission was dated July 1, 1805; and with the exception of about two years he has been continuously in the service ever since.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE OF PORTUGAL.

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture of manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
A few well known gentlemen and physicians, who have tried the Wine:
Gov. W. Scott, U.S.A. Dr. Ward, Newark.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and, as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent of the properties of the heat in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Also on hand, the celebrated and unequalled

VENETIAN LIQUID
HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE—This celebrated Dye was first prepared in 1846; since that time it has been USED BY THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE, contained in those usually sold for ONE DOLLAR.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no annoyance or trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, interfere with the NATURAL softness OF THE HAIR—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,
ESTABLISHED IN 1845.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France and other Foreign countries. Drawings, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any of the Patents issued, by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that he has MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGE AND ABILITY, he would add that he has abundant reasons to believe, and can prove, that no other office of the kind are the charges for professional services so moderate. The immense business of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions, adapted to patent cases.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him advantageously known to other superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the denial, great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure to them the broadest and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. His numerous clients prize our great talent and ability on his part leads me to recommend *all inventors* to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of business made on these *notes* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.
Boston, Dec. 2, 1861 aw

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Lumbar pains and distresses in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Rightful Swellings, and the long train of ills, which follow exposure attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
April 7—1y 31aw

CAUTION
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the womb, Fluor Albus, Suppressed or painful menstruation, derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is this mode of treatment, that the most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has had more than twenty years experience in the care of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the treatment of them.
☞ All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
April 9, 1862 1y

CERTAIN CURE
In all cases, for No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M., at his above office, on all unusual and chronic diseases as gently, safe and safely, having by his unexampled success, in all such cases, induced a population which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon, should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail, two for $1 and red stamp.

A star for every State: a State for every star

TUESDAY, SEPTEMBER 23, 1862.

THE REBELLION.

The rebel gunboat which ran the block ade at Mobile on the 4th inst. is the Ovieto, not the 290, or Laird's gunboat, as was at first reported. The latter vessel has not had time to reach Mobile since she sailed from England. There are now three powerful rebel gunboats in the harbor of Mobile. Commander George Henry Preble has been dismissed from the service for al lowing the Ovieto to run in.

Some of our troops on the right wing crossed the Potomac on Saturday to feel the position of the enemy, and finding him in considerable force returned to the Maryland side with little loss.

The Associated Press account of the late battles says there is no evidence that either Longstreet or Lee was wounded in the battle of Wednesday. The number of prisoners in our hands is about 2000. At least 10,000 stand of arms were found on the field, belonging to the rebels.

Special dispatches state that the belief is that the enemy must be out of artillery ammunition from their not responding to our guns. It is believed by citizens that the rebels lost at least 5000 men by desertion during the raid into Maryland. On Saturday the enemy crossed at Williamsport, but were driven back by the advance of our army, assisted by the Pennsylvania militia.—Williamsport is now occupied by our men in strong force. The rebels hoped in crossing there to turn Gen. McClellan's right flank, but failed. Maryland Hights were occupied on Friday by a Federal force. The indications were that the enemy was continuing his retreat into Virginia, and leaving the line of the Potomac.

Advices from Cave City, Ky., say that a portion of Gen. Buell's force attacked and repulsed Bragg's rear guard from Horse Cave, Thursday evening, upon learning which, Bragg is reported to have moved his main body across the river southward from Mumfordsville.

☞ One fatal case of yellow fever has occurred in New Orleans. An engineer named O'Brien, belong to the tugboat Ida was taken sick with the disease and died. By order of Gen. Butler the house and block wherein he lived were quarantined, and nobody allowed to go near it. The market reports say sugar is very clear, and brings now 10 cents per pound, while flour has fallen to $7 per barrel. Bread has now to be sold 16 ounces for 5 cents, and 62 ounces for 20 cents.

☞ It was stated that two thousand New Jersey soldiers stampeded from their camp last week in a state of mutiny, because furloughs were denied them, but a later dispatch says the account was much exaggerated. Only 250 ran away, and 600 received furloughs, leaving 1500 in camp.—All returned to camp on Monday, and good order again prevailed.

☞ An agent of the Cherokee Indians is in Washington, with a communication from them to the President, asking that they be recognized in all their treaties and rights, and stating that what the nation has done seemingly favoring the rebels, was from intimidation.

☞ Secretary Chase has informed the people officially that the whole government expenses for the year ending June 30, 1862, were about $500,000,000.

☞ The President on Saturday appointed Gen. Hooker a Brigadier in the regular army.

☞ Gen. Halleck officially complains of the injury done to the Union cause by injudicious publications in the N. Y. Post.

☞ The people of San Francisco have forwarded drafts for $100,000, for the relief of the sick and wounded in the army and navy.

☞ Ida Clark, who has just served a term of imprisonment as a pickpocket, was arrested in Boston on Saturday, for robbing a trader from Maine of $1100.

☞ A man has just died in Boston from the escape of blood, occasioned by the extraction of a tooth two weeks since.

THE OTIS MURDER.—The Springfield Republican states that the four negroes, who were suspected of the murder of Emily Jones and her children, are re-arrested upon the confession of one of their number.

☞ Announcement is to be made that the Indian rebellion will make the overland route unsafe for emigrants.

4TH OF JULY AMONG THE SAINTS.

From the Newark Daily Journal.

The celebration of the eighty-sixth anniversary of American Independence in the City of the Saints, while differing in no outward particular from ordinary celebrations of the day, yet lacked that patriotic fervor which distinguishes the commemoration of the day in the States.

At nine o'clock the procession formed at the Court House, and proceeded to the Bowery, where the people gathered together for the usual Fourth of July ceremonies.

Upon the stage were seated the dignitaries of the church, and the Federal officers, who, by Brigham's invitation had joined with the Saints in the celebration.

But the presence of the representatives of the Government seemed not at all to check the utterance of unpatriotic sentiments on the part of the speakers chosen for the occasion.

In the opening prayer the chaplain blessed God that, notwithstanding the wickedness and folly of the nation, in driving them from their homes, they were now enjoying the blessings of peace in these mountains.

The orator of the day entered into a philosophical statement of the causes which led to this war, showing clearly that it was traceable directly to the expulsion of the Mormons from Missouri and Illinois, and that it was a retribution, visited by the Lord upon the United States Government, for its great sin against this chosen people.

Then followed an historical address, beginning with England's unjust taxation of the colonies, and ending with the persecution of the Saints.

Next in order was an address, semi-religious, semi-political, with a touch of prophecy. The speech, somewhat rambling, contained some eloquent passages. The aim of the speaker seemed to be, to predict the overthrow of all powers standing in the way of the progress of the Mormon faith, and to declare the final triumph of the tribe of Joseph.

Hon. Frank Fuller, Acting Governor of the Territory, was loudly called for. It is a way which the Mormon leaders have, to show great attention to the officers of the Government, to put them forward on all public occasions, and in every way to induce them to commit themselves in their favor.

Governor Fuller had treated everybody with such courtesy during his year in the Executive Chair, that a friendly and highly complimentary speech was of course expected. To one whose position afforded a good view of Brigham and the other guns, a look of perplexity was clearly perceptible on each saintly face.

Compliment, adulation, flattery, were waived. The speaker expressed no thanks for the honor conferred. He addressed them from a sense of duty merely. He neglected to notify them that they had rendered their names immortal by building up a smiling city here in the mountains, and omitted the old story about making "the wilderness blossom as the rose." That he felt keenly the insult and invective poured out against the Government by the orator of the day, must have appeared to every observing listener. More in sorrow than in anger, he pointed them to the noble deeds of the fathers and founders of our imperiled government, and showed them what true men could do and dare and suffer in a good cause—the cause of country. He did not tell them, as scavenger politicians have so often done, that the battles of the Revolution were fought to establish the great principle of religious liberty, especially in regard to wives; or that the Constitution of the United States particularly sustained their views on the plurality question.

The speech was handsomely delivered, and the Gentile portion of the audience applauded warmly. The Saints were rather quiet, and omitted the usual "Amen" at the close. As a significant fact, the Church organ, the Deseret News, reports all the other speeches in full, passing the Governor's over with the remark that it was "an eloquent production."

Brigham then delivered a short address, which, like all his remarks in public, was received as directly from the Lord.

Mr. Frederick Cook, Treasurer of the Overland Mail Co., made a brief, pleasant, kindly speech. He intimated that in just as far as the people did right, they would be prospered and protected. He very appropriately reminded them that there was "a God in Israel," an item frequently overlookod in this region.

Ex-Gov. Doty, of Wisconsin, now Supt. of Indian Affairs for Utah, was called upon to speak, a crumb of comfort from some Gentile source being evidently much desired; but the worthy old gentleman stood up, thanked the audience and declined.

Every allusion which the speakers made to the prospect of Territorial Utah being admitted as the State of Deseret, was warmly applauded by the people, showing their great desire, notwithstanding the cruelties which they had received from the United States Government, to enjoy still further its protection.

At half-past twelve o'clock the assembly was dismissed with benediction, and the people separated with that admirable quiet and order which characterizes all public gatherings among the Saints.

The entertainment was concluded with a ball in the evening. On any such festive occasion, it is usual to have a ball in each ward throughout the city, so that enjoyment may be furnished for all, but the elite of Mormondom are invited to Brigham's ball, held in the Social Hall. A LADY.

MAY AND DECEMBER.—Last week in the parish of Kinglass, a gay old man, aged eighty years, got married to his servant girl of the interesting age of sixteen. The bridegroom is a small farmer, possessed of five or six acres of land.—*Connaught Watchman.*

"Mistaken souls, who dream of bliss."

May and December, indeed. Infancy and dotage. They ought to have been united, or hitched together (don't insult all decent marriage, by calling such a connection as this by the sacred name,) on the first day of April.

☞ Brig. Gen. Cassius M. Clay's appointment to New Orleans has been revoked, and he is waiting orders.

NEW HAMPSHIRE ITEMS.

—— A traveller on one of our New Hampshire railroads speaks of finding "ironclad" doughnuts for sale at one station.

—— On Saturday, 6th inst., Frank Piper, of Tuftonborough, while at play on a picket fence, fell and, being caught by the throat on one of the pickets, was so injured that he died next morning.

—— On Thursday last, as a stage was descending a hill in Madison, it overset. It had eight passengers, most of whom were more or less injured.

—— Clarence Edgerly, a clerk in Manchester, was shot in the hand close by the wrist, on Thursday, while showing a revolver to a customer. He had his hand over the muzzle and accidentally snapped the piece, which was loaded and capped.—The ball could not be removed without too much risk.

—— The 10th Regiment was paid of last week. It is said that about one hundred, who enlisted subsequent to Sept. 1, have not been paid the State bounty.

—— The Manchester American states that "the Governor and Council have ordered the disbanding of the Fourth Regiment, and will transfer the solders to the Second. The Second has been so much reduced by disease and the casualties of the battle-field, that only skeletons of companies remain, while the officers remaining able to do duty are very few. The vacancies in the Field, Staff and Line officers of the Second will be filled by such as are unobjectionable in the Fourth, while all others will be mustered out of service.—The arrangement has been made by the State Government with the approval of the War Department."

—— Hon Paul J. Wheeler, of Newport, died suddenly on Saturday morning, of strangulated Hernia.

—— When Col. Marston with his command reached Boston, on their way to Washington, in June of last year, he made a brief speech in reply to the greetings of his friends. In that speech was the following sentence:—

"Gentlemen, this Second Regiment of New Hampshire have no acquaintance with war. They are all civilians. I know not what they may accomplish; perhaps not much; but if they are set about anything, I trust I may say in the language of Miller, "We'll try to do it."

The country knows how well this modest pledge has been fulfilled.

—— Nathaniel S. Durgin, who was bound over some weeks ago for a fatal assault upon Robert Smith, at the American House in Manchester, was discharged by the court at Amherst last week. He was let off on his own recognizance of $1000.

—— The 5th N. H. Regiment is reported to have captured some rebel colors in the battle of Antietam.

IMPORTANT TO SMALL DEALERS.—The impression very generally prevails, that under the new tax law all confectioners, grocers, &c., will be required to take out a license. This is erroneous. Section sixty-five provides that "when the annual gross receipts or sales of any apothecaries, confectioners, eating houses, tobacconists, or retail dealers shall not exceed the sum of one thousand dollars, such apothecaries, confectioners, eating houses, and retail dealers shall not be required to take oath and pay for licenses,—anything in this act to the contrary notwithstanding.

THE REBEL ARMY, says Uncle Toby, have "changed their base," from the north to the south side of the Potomac.

"It is asserted that our army drags after it six thousand army wagons. General McClellan, however, has ordered a reduction of baggage."

That is right, and ought to have been done long ago.

☞ There is said to be no foundation for the rumors which have been current, that President Lincoln has placed in the hands of the Governors of the Northern States an order for a draft of 400,000 more men, to be made when the one now pending is filled.

☞ B. F. Harding was elected U. S. Senator by the Oregon Legislature on the 12th, after 30 ballots. The last vote stood—Harding 28; Geo. K. Williams 23. Harding is a Union Democrat.

☞ One of the best "echo verses" we ever saw was the following, written during the rage for Paganini, the great violinist:

"What are they who pay three guineas
To hear a tune of Paganini's?
Echo—Pack o' ninnies."

☞ They manufacture artificial ice in Bombay. The machine is now in active operation, and turning out 25 *tons* daily, of beautiful ice, pure and tasteless as American ice, and sold at 40 per cent. cheaper.

☞ It is said to be quite certain that the homicide of William M. Mills, of Rockland, Me., at St. John, N. B., was in no way the result of a refusal to pull down the American flag, or of hoisting it.

☞ Joshua E. Treadwell, of Kennebunk, Me., is enlisting a company between the ages of 45 and 60, to be offered to the Governor of that State for service in the war.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

As the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this. Believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise. We would refer to Messrs. Geo. L. Treadwell, Oren Brag don, J. B. Upham, J. Woodman Moses, John R. Holbrook, Geo. B. French, Frank Jones, John Stokell, James H. Pindar, James Shaw, Charles A. Hodgdon; Charles Stimson, Kittery; Thomas J. Tarlton, Newcastle; and the host of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, it agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper

ADVERTISING ABROAD.—For the accommodation of merchants and others of the citizens of Portsmouth, we are ready at all times to forward Advertisements for insertion in any papers in New Hampshire, Boston, Maine, or elsewhere,—at the publishers' lowest rates. Apply at the Chronicle Counting Room.

Our terms for Subscription, Advertising and Job Work, except where accounts are open, are, **invariably and exclusively,** *cash in advance* of doing the work.

☞ We always take it as a favor, if subscribers will inform us immediately, when their papers are missed, or if delivered by others than our regular authorized carriers, or not strictly in accordance with our patrons' orders or desires.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstrations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, perfect regularity.* They are known to thousands, who have used them at different periods, throughout the country; having the sanction of some of the most *eminent Physicians in America.*

Explicit Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Pills *sent by mail, promptly*, by remitting to the Proprietor. Sold by Druggists generally.

THE HABEAS CORPUS—DR. BATCHELDER'S CASE.—The Manchester American states that Marshal Ela, on Friday, made a return to Judge Bell, of Manchester, that he was directed by the War Department to inform the Judge that the President had suspended the writ of Habeas Corpus in cases of "disloyal practices" against the Government, to which class Dr. Batchelder's case manifestly belonged, and that if any further proceedings were had, which the Government did not anticipate, he was directed by the War Department to call upon the military force of the United States.

Mr. Hatch, counsel for Dr. Batchelder, then moved for an attachment against the Marshal, for not producing Dr. Bachelder before the Judge. The Judge held, that under the statute it was left to his discretion to issue the attachment; and, without deciding the main question whether Dr. Bachelder was properly held or not, he was not inclined to grant the attachment, as it evidently would result in no good to Dr. Batchelder; that it was quite clear the Government had made up its mind to hold him, whatever should be his own opinion, and that further proceedings would only result in a contest between the State and the United States authorities, which should be avoided, especially at this time.

So Dr. Batchelder will remain at Fort Constitution, until the United States Government otherwise order.

☞ The City Committee at Washington desire us to state that the absurd report which has been in circulation in some quarters, in this city, in regard to their being arrested or delayed in Washington, of course had no foundation; and that the silly rumor probably arose from a private dispatch (which was made public,) to one of the committee, who had returned home first, and through forgetfulness brought away a pass of the Provost Marshal which had been given the whole committee to visit the 2d N. H. Regiment, two miles beyond Alexandria. The remaining members of the committee, however, obtained another pass and visited the regiment before they received the one which a part of the committee accidentally brought away.

NAVIGATION CLOSED.—"The yacht Sybil made her last regular trip to the Shoals, as a packet, on Saturday, Sept. 20th. The travel to that healthful "watering" place has decreased since cool weather has shown itself, but the number of boarders has been more this year than at any former time—although from the additional accommodations at Appledore, the now very large house has hardly been full this season."

WAR LECTURE POSTPONED.—We are requested to state that on account of the indisposition of the Rev. C. H. Corey, his lecture announced for this evening at the Middle Street Church, is indefinitely postponed.

☞ We understand that Mr. Nathaniel J. Coffin, of this city, has received a commission as Second Lieutenant in one of our New Hampshire regiments.

☞ It is stated that thirty-five members of Gov. Langdon Engine Co. No. 3, of this city, have volunteered for the war.

☞ Master's Mates Charles W. Adams and Henry S. Lambert, of this city, have been ordered to the steam frigate Colorado.

☞ Ex-President Pierce and lady were in town on Monday afternoon.

☞ Capt. George A. Gerrish, of the N. H. Battery, arrived in Boston on Saturday.

Mr. Sidney Woodbury, one of the firemen killed at the collision on the Eastern Railroad, on Wednesday evening, was a son of the late Amos Woodbury, and was about 29 years of age. He was unmarried. —[*Gloucester Telegraph.*

☞ Capt. Reynolds, late of the frigate Colorado, 41, has been ordered to the command of the Marine Barracks, in Boston, Lieut. Col. Dulany, having been transferred to the Marine corps at Norfolk, Va.

☞ Mrs. Haskell, of Augusta, informs the Farmer that she has 7 sons in the Union army. Thereupon Mr. H. deems it necessary to inform the Age that he has 7 sons in army. The Age thinks it's a coincidence.

☞ Gen. Reno's last words, before being carried away wounded from the battlefield, were:—"Boys, I can be with you no longer in body, but I am with you in spirit."

A CARD.

The officers and members of LACONIA ENGINE CO. No. 2, would tender their sincere thanks for many favors and courtesies received from SUPERINTENDENT GILMORE and CONDUCTOR LANGLEY, of the C. & P. Railroad, while on their way to Concord as escort to Captain Betton's Company to camp. Also to WM CONN, Esq. Mail Agent on the C. & P. Railroad, we feel under great obligation for the kind regard expressed by you for our welfare and prosperity. We are sensible, sir, that you have the interest of our Company at heart, and knowing this, shall consider it our pleasure, as well as our duty, to stand by you and assist you in all times of need and danger.'

From Concord we took the cars to Manchester, and immediately marched to the camp ground of the 10th Regt. N. H. Volunteers, COL. DONAHOE commanding, who very kindly tendered us the civilities of the camp; for the same he will please accept our thanks. Also to CAPT. GEORGE W. TOWLE, for the kind invitation to dine with him, which we were unable to accept, owing to previous engagements. Also to SHEKANAH SNOW, LASKEY and J. ALBERT SANBORN, for refreshments furnished us during our short stay on the camp ground. Also to AMOSKEAG STEAM FIRE ENGINE CO., No. 1, of Manchester, for the kind reception extended to us, by them. Their generous hospitality and gentlemanly treatment during our stay entitle them to our everlasting gratitude; and when we reflect that their kindness was purely voluntary, it awakens in us a sense of obligation which we feel can never be forgotten or overpaid. Especially would we speak of Ass't Engineer GEORGE F. DEMERRY, as a gentleman well adapted to the position in which the city has placed him;—for his particular friendship we would return our hearty thanks. Also to H. COMINS, G. MANN, MR. HOLLIS and the Clerk of Hose Company No. 1, and HENRY DEMARY, of Fire King Steam Fire Engine Co., No. 2, of Manchester, we desire to tender our acknowledgements for the handsome manner in which we were entertained by them, as well as the gallant courtesy they evinced in making our stay in that place one of unmingled satisfaction.

Per order of Company,

BUY CALIFORNIA WINES.

They are the Purest!
The Best!
The Cheapest!

The "sunny slopes" of "Los Angelos" have announced to the world that America is a wine-growing country, and as the discovery of gold sent a thrill through the old world, so will the discovery of these Wines startle them again, as it says, "one more link broken which has bound us to Europe," "one more step to independence." Let every man, woman and child who uses Wine, see to it that they buy none other than these.

"The Rock" is a most delicious Wine, and rivals in delicacy its German predecessor.

"The Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine

The Port has a fine flavor and body; and The Port is excellent because it is pure.

McGREGOR'S PATENT
AIR-WARMING AND VENTILATING
FURNACES.

The subscriber would invite the attention of any person in want of a Furnace, to this celebrated heating apparatus, the most perfect in use;—simple, powerful and durable.

The advantages which this Furnace possesses over all others, are:

1st. The perfect consumption of coal No clinkers are made, and no ashes need be sifted.

2d. A continuous fire may be kept through the entire season.

3d. No red hot iron comes in contact with the air to be warmed, and ample accommodation is offered for the evaporation of water, so that the atmosphere of the rooms is that of a soft Italian summer, without any of the dry, oppressive air often felt in furnace heated rooms.

4th. No gas can escape from the fire chamber into the rooms above

5th. More heat is generated from the coal than by any other method of heating; consequently it is THE MOST ECONOMICAL.

The patterns of this Furnace have been very greatly improved recently, and several sizes added, making in all twelve sizes of Brick and Portable furnaces, adapted for all sizes of buildings.

This Furnace is more used than any other in first class dwelling houses and public buildings—and volumes of testimonials can be shown in its favor.

We might refer to the following persons who are using the McGregor in this city:

Rev. Chas. Burroughs, D. D.; Messrs. Alfred W Haven, Mark H. Wentworth, George Wentworth, J. P. Bartlett, Com. John Pope, Wm. L. Dodge, Mrs. Levi Woodbury. Also to Rev. Danl. Austin, Kittery; Capt. Chas. H. Salter, Greenland, and many others.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the scalt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

About seventeen years ago I discovered a bunch growing in my breast, attended with severe piercing pain, and when about as large as a hen's egg it broke out, and proved to be a Cancer of the most dangerous character. And from the abundant evidence I had of the good effect of Dr. Swett's Panacea in many such cases, I was encouraged to depend upon it for a cure in this case, and by keeping my stomach pure by using the pills which he prepared, and taking twelve bottles of Panacea, my Cancer was fully cured in about two months, and I have had no trouble from it since. CAROLINE B. SWETT.

This statement of my wife is correct.
SIMEON SWETT.
Portsmouth, N. H., April 18, 1861.

I have been greatly afflicted with a Humor called by the doctors Salt Rheum and Erysipelas, causing many sores on my side. And seven bottles of Dr. Swett's Panacea I believe have effected a radical cure, as I have had no sign of the complaint since. I believe this medicine to be the most sure remedy in the world for Humors.
HANNAH ROWE.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEETS PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Exeter, Feb. 24, 1838. Dr. Swett:—"Sir, for the benefit of those who are afflicted as I have been, with a humor, which prevented quiet rest night and day, I would say, that your PANACEA has effected a radical cure on me; and would add—that by the use of it, my health has been greatly improved; therefore, I cheerfully recommend it as superior to any other medicine I ever used for humors and consumptive complaints."
WM. P. LEAVITT.

From ELDER I. CHESLEY, Lee, May 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I believe your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

THE WEAK-KNEED PATRIOT.

I shall not be drafted for Dixie, my dear,
I'm so terribly weak in the knees, do fear!
But it won't be so bad, you know, to stay here,
For a great many more will stay too, my dear.

They say that McClellan is eager to see
Such folk as myself from the North country;
But certain I am that he never could be
A war that so many are weak in the knee.

I've been to the doctor, and told him I'd do
Whatever was reason to put the thing through;
But he laughed, and, shrugging his shoulders, said he,
"You are too awfully weak in the knee."

I will not say how it may be by and by,
For queerest things happen, you cannot tell why;
But if our poor fellows should carry the day,
Why then, very like, I might travel that way.

How sweet it would be, at the time of the year,
To go down to Dixie for rest, my dear,
One's knees might be well, and the coast should be clear,
To ride and have nothing to fear, my dear.

But I can't go to Dixie just now, my dear,
I can't go to Dixie just now, my dear,
For I'm weak in the knee, my dear. Oh dear!
I'm terribly weak in the knee. Oh dear!

☞ The workmen at the Charlestown Navy Yard have formed an association to promote enlistments, by aiding the families of volunteers from their number. They, on Friday, last contributed $1360.61, and there had been 118 volunteers. Each family is to receive $10 per month from the fund.

☞ There was a great fire in Buffalo, N. Y., on Thursday night. Thirty or forty buildings were destroyed. A large amount of wheat, corn and oats was destroyed, and the loss will probably reach half a million dollars.

☞ "Tales of the Day," for October, is received. We are pleased to see that it has not been found necessary to reduce the size of so good a magazine, as the publishers stated would be the case.

☞ Harper's Magazine for October, is at hand. It contains five illustrated articles and stories, of the usual high order. For sale by J. H. Foster.

SPEER'S SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use.
FEMALES, AGED PERSONS, INVALIDS

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Every family should use the SAMBUCI WINE, celebrated in Europe for its invaluable medicinal qualities as a gentle Stimulant, Tonic, Diuretic and Cordial, highly esteemed by eminent physicians, used in European and American Hospitals, and in families of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Urinary and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wine to use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, Because it will not intoxicate as other wines, is free from no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians who have tried the Wine:
Gen. W. Scott, U.S.A. Dr. Ward, Newark,

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pots used for respiration, the unpleasant effects to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order; thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 25 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Also on hand, the celebrated and unequalled
MAGEE COOKING STOVES,

VENETIAN LIQUID
HAIR DYE.
☞ MATHEWS' VENETIAN HAIR DYE.
This celebrated Dye was first prepared in 1846 since that time it has been USED BY THOUSANDS and in no instance has it failed to give PERFECT SATISFACTION.
THE VENETIAN DYE is the cheapest in the world. Its price is ONLY FIFTY CENTS, and each bottle contains DOUBLE THE QUANTITY OF DYE contained in those usually sold for one dollar.
THE VENETIAN DYE is the safest composition of its class. It is WARRANTED NOT TO INJURE the hair, or the scalp, in the least.
THE VENETIAN DYE works with RAPIDITY AND CERTAINTY. It causes no stain nor any trouble to those who use it.
THE VENETIAN DYE produces any shade that may be desired,—one that will not fade, crock, nor wash out,—one that is as permanent as the hair itself.
THE VENETIAN DYE does not, in any manner, interfere with the NATURAL SOFTNESS OF THE HAIR,—it neither scorches nor dries it.
THE VENETIAN DYE is the best, cheapest, safest, most convenient, most successful, and most *permanent* Dye ever used.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into the condition of foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters appertaining thereto. Copies of the claims of any Patent furnished, by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or acquiring the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and no BUSINESS IS THE SAME FRACTION OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and worthy than the subscriber for obtaining their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDWIN BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*; such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor* by the Commissioner of Patents.

R. H. EDDY.

Boston, Dec. 2, 1861 aw

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at hi, office, Nos 7 and 9 ENDICOTT STREET, Bostons on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Imposthumes, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Gumors, Pimples, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D devotes a great part of his time to the treatment of those diseases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual to business or society. Some of these sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for their use, on receiving description of your cases. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Price 1 dollar and a red stamp.

April 7—1y. Saw.

CAUTION

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the womb, Fluor Albus, or green stuff, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. No unnecessarily certain is the new mode of treatment, that most obstinate complaints yield under it, and the almost all-powerful remedies in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

April, 1862—1y Saw

CERTAIN CURE

in all cases, for No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every nature, and more so, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

N. B.—Dr. Dow imports and has for sale a new article, called the FRENCH CAPOTTEN SECRET. Order by mail. Two for $1 and a red stamp.

A star for every State: a State for every star.

WEDNESDAY, SEPTEMBER 24, 1862.

FREEDOM.—Freedom of speech and action are nice things to talk and write about, but the world has really seen very little of either as yet. And the sad state of our country to-day, is by many, in great part attributed to great latitude of tongue and pen,—both which are now of necessity much curtailed. A correspondent of a Portland paper, writing of the recent Popham celebration, says concerning the Plymouth puritans, whom many are disposed to regard blessed with divine inspiration:—

"It reads prettily in history and poetry, that our Pilgrim fathers came here to establish freedom to worship God"; but the persecutions of the Baptists, Quakers, and others, are an awful protest against this Massachusetts theory.

The religious influence of the age was the "unseen hand" of Providence, directing the "beautiful vicissitude" of events, to the settlement of this continent; but the "greed of gain" was as strong with the Puritan as with the Cavalier; and the English company of "Merchant Adventurers," had really as much to do with the colonization of all New England, as religious or civil considerations.

The employment of English soldiers by the Dutch governments, led them to tolerate the erection of protestant churches and chapels; but the polemical spirit of the age followed the "Independants" across the channel, and the "Separatist Church" at Amsterdam soon separated, by what, to our age, appears a puerile disputation about infant baptism, church government and "woman's apparel."

Bradford says, that "a young widow, a grave matron, very modest, ready to do any good works, and helpful to many," was excommunicated "for wearing of some whalebone in the boddice and sleeves of her dress, and also corked shoes."

EMANCIPATION.—On the 22d of Sept., 1862, President Lincoln issued his official proclamation, announcing, as President and Commander-in-Chief,—

1. That the war is to be prosecuted to restore the Constitution.

2. That on the 1st January, 1863, all the Slaves in States then in rebellion, shall be thenceforward forever free.

4. That by proclamation, Jan. 1, 1863, the Executive will designate the States or parts of States then in rebellion.

5. That attention is called to the confiscation and emancipation Acts of March 13 and June 17, 1862.

He closes by ordering the army and navy to execute these laws and orders,—and by promising to recommend to Congress a proper compensation to *loyal* citizens for all losses caused by the U. S., including loss of slaves.

MAINE ELECTION.—The Saco Democrat contains nearly complete returns, viz. from 434 towns. Last year, the two Democratic parties cast 40,000 votes, this year 39,500. Last year the Republicans had 55,000 votes this year 44,000. Thus the "Democratic" vote is just about the same as last year, but a large share of it has been transferred from Col. Jameson, the "War," to Bion Bradbury, the Candidate of the "Peace" wing of the party. The republican vote is reduced by nearly the full number of volunteers who have gone to the war. The volunteers are not all republicans, but probably three-fourths of them are so.

☞ The Post Office Department has ordered the continuance of the Pacific mails on the overland route, having received reliable information that there is no danger to be apprehended from their being interfered with by the Indians. It is positively asserted that since the removal of the Cherokee tribe, at no time has there been any necessity for the mails being discontinued. The great overland mail now passes daily through Denver. Passengers are constantly travelling on this route.

☞ The keel has been laid at the Charlestown Navy yard for the new side-wheel steamer, to be called the Talapoosa, and three ribs of the frame are already up.—Work on this vessel will be pushed forward with all possible despatch. The new iron-clad steamer, the keel of which has been laid, will be called the Monadnock, after the mountain of that name in New Hampshire. A large gang of carpenters are at work on the frame of the ship.

☞ The Proclamation of the rebel Gen. Lee, to the Marylanders, had no visible effect. In secret, and when protected, the secessionists have ascertained a rebel victory was necessary to give them confidence.

☞ A letter says: "Nearly all the Marylanders who enlisted in the rebel army, after passing the Potomac, are coming into the city (Washington) prisoners, looking very sheepish and crest-fallen."

THE REBELLION.

Gen. Bragg has outstripped Gen. Buell and on Monday was marching rapidly on Louisville. Maj. Gen. Nelson was making arrangements to defend the city, and ordered the women and children to prepare to leave without delay. Humphrey Marshall, with 12,000 men and 42 pieces of artillery, it is thought, will join Kirby Smith's force at Lexington.

Twenty-six stands of colors were taken during the battle of the Antietam and have been received at headquarters. 7 more are known to have been captured, but remain in the hands of the regiments which took them.

Gen. Grant reports that our loss in the battle of Inka, Miss., will be less than 100, while 261 of the rebel dead were found upon the field.

Quantrell's guerrilla band was dispersed on the 9th, after a fourteen days' pursuit. Our forces took all their transportation and subsistance, 100 stand of arms, 10,000 rounds of ammunition, 100 horses, a number of tents and other camp equipage, and a considerable quantity of dry-goods, groceries, &c., previously stolen by the band.

A special dispatch from Jeffersonville, Ind., says the rebel Gens. Bragg and Smith have divided their forces,—Smith to hold Gen. Buell in check, while Bragg advances on Louisville. Many citizens are crossing into Indiana. Bragg is yet some distance from the city, but is advancing rapidly.

It is reported that Gen. McClellan's army is rapidly crossing into Virginia at Williamsport. Gen. Kinley's brigade, in advance, went over the river on Sunday. Gen. McClellan and staff were at Williamsport, actively engaged in superintending the crossing of the troops. An impression prevailed in the army that Sigel and Heintzelman were now in Virginia to stop the retreat of the rebels.

FOREIGN.—The steamship Scotia, from Liverpool 13th and Queenstown, 14th, has arrived at New York. The Index, the London organ of the Confederates, says George A. Sanders brought no communication whatever from the Confederate government to European Commissioners. The Paris correspondent of the Lond n Times gives the version of Butler's difficulty with the French Consul at New Orleans as very unfavorable to Butler.

Important discoveries are said to have been made to enable jute to be used to a great extent as a substitute for cotton. That article has advanced nearly 50 per cent. since the beginning of the month, and is greatly excited. Hemp is also considerably higher.

Serious disturbances took place at Prossnity and Moravia, owing to the stoppage of the cotton factories. The riots continued three days, and were stopped by the military.

It is stated that the Queen of England has formally demanded the hand of the Princess Alexandra of Denmark, for the Prince of Wales.

Latest reports relative to Garibaldi say that it is all but settled that there will be a general amnesty with Garibaldi and his followers. A distinguished English physician has been sent to Garibaldi.

☞ The State of Louisiana has formerly been in the receipt of a very nice little revenue from the sale of negro children born of convicts in the State Prison. Some stupid Yankee has taken it into his head that raising human beings for sale in this way is wrong, and so he writes to Gen. Butler, asking his opinion. Uncle Ben. tells him not to sell another baby.

☞ The French painter Pauli is about to marry the daughter of the wealthy Paris jeweller, Edward Handle, a jew. The dowry is to be three million francs, (six hundred thousand dollars,) and the bride is to become a Roman Catholic on the day after the wedding. Cardinal Morlot, Archbishop of Paris, is to officiate at the ceremony, and Paris is alive with expectation.

☞ The Auburn (Me.) Advertiser states that Mrs. H. A. Stevens, of that place, died on Wednesday, in Dr. Matson's office, under the effects of chloroform, administered for the purpose of extracting teeth. The deceased was a nervous and delicate young woman. She was attended by her husband when she died.

☞ Attorney General Bates has, in reply to certain queries put to him by the Secretary of the Interior, concerning pension matters, decided that it is his opinion that the mother of a deceased soldier is entitled to a pension, *whether she be married or be a widow*, provided she was dependant on him in whole or in part.

☞ The President has appointed Brig. Gen. Schuyler Hamilton of the U. S. Volunteers, a Major General of Volunteers, for meritorious service at New Madrid and Island No. 10.

It is supposed that Gen. Richardson's wound is mortal. Gen. Dana's wound is below the knee. He will probably be fit for duty in a month.

NEW HAMPSHIRE ITEMS.

—— The following are among the wounded in the battle at Sharpsburg:

New Hampshire 5th.—Col. E. E. Cross, wounded slightly in leg; Capt. Chas. H. Long, slightly; Lieut. J. W. Parks, Lieut. J. W. Graves, Lieut. H. R. Twitchell, Lieut. Jos. R. George, Lieut. S. F. Hurd, Lieut. C. W. Bean; Capt. N. H. Ranlett, thigh; Lieut. O'Neil Furchell, Co B, two wounds in leg; Sergt. David O. Clark, Co K, leg; Sergt. Dan Gibson, Co A, body; Sergt. S. W. Townsend, Co H, arm, slight; Sergt. Gilman Greene, do., wounded; Corporal D. E. Eaton, do., do; Sergt. F. H. Law, Co K, foot; Sergt. Maj. Charles F. Liscomb, leg; Corporal John Pierce, Co D, leg, slight; J. G. Love, Co G, back; Corporal Chas. Bliss, Co D, leg; Sergt. E. A. Rhodes, Co B, wounded; Sergt. J. W. Parks, Co B, wounded; Corporal C L. Stevens, Co G, thigh, slight; Lieut. S B. Little, do., do.

New Hampshire 9th.—Killed—Charles Noyes, Co F; C. B. Marvin, Co G; A. M. Stoddard, Co K; Geo. Fox, Co I; —— Flanegan, Co D; I. C. Brockelden, do.; —— Russell, Co G.

Wounded—Lieut. Col. Titus, shoulder; Chas. Wallace, slightly; Josiah Scott, Co H, in knee; S. C. Symmistes; Sergt. C. H. Little, Co K, leg; Gilman Leavitt, Co K, wrist; Joseph Jolley, Co I, hand; H J. Brophy, Co D, arm; Willis Bean, Co I, leg; W. H. Perry, Co K, side; M. Sullivan, Co I, finger; G. W. Muzzey, Co B, do; R W. Swan, Co B, leg; Elijah P. Purinton, do., arm; C. H. Thompson, do., leg; G. E. Holland, Co F, arm; D. H. Winship, Co F, arm off; Joel Annis, do., slightly.

The 9th lost about 52 killed and wounded during the day—five of them killed.

—— The Concord Statesman says that an officer in the army of the Potomac, lately remarked,—"When there is a rough job in hand, Little Mac calls on Hooker's Division. Fighting Joe looks the matter over, and if there be a particularly hard corner, he gives that to Grover's Brigade. Gen. Grover wants a regiment he can rely on to the bat's end, to hold a difficult position, and he selects the Second New Hampshire. Then if there is one place more difficult and dangerous than all the rest, Col Marston brings out Company B of Concord."

—— Lieut. Geo. A. Gay, of the 5th, was mortally wounded at the battle of Antietam last Wednesday. 110 enlisted men and 14 officers were killed and wounded. The regiment went in 300 strong. The 5th captured the regimental colors of the 4th North Carolina Volunteers, and did gallant work in conjunction with Richardson's division.

—— The Concord Statesman publishes a letter from an indignant patriot, James Leonard, of Upper Gilmanton, in which, after expressing his anxiety to engage in the war, he says:—

"I think a regiment of able-bodied men who have been through as many hardships as I have in California, would be worth two regiments of young boys, clerks and loafers. I enlisted, passed examination by the regimental surgeon, and thought all was right. But after several men over forty-five years of age had been accepted, and several infants, such as a man like me could whip a dozen of,—I was rejected because I had the honesty to acknowledge I was more than forty-five years of age. The mustering officer was a very good looking man, about thirty-five years old, but I guess I can run faster and jump higher than he; also take him down, whip him, endure more hardships, and kill three rebels to his one."

—— A few months since a man in Exeter, by an advertisement, requested the rumsellers not to sell him any *intoxicating drink*. They have disregarded the man's prayer, and he still continues to drink.—On Friday night last, the man's daughter appeared before one of these retailers, where she found her father, and with tears in her eyes persuaded him to go home, after making a few sarcastic and cutting remarks to the dealer.

—— The extensive forge shop of the Nashua iron company was destroyed by fire on Thursday afternoon, Sept 11, together with a large steam hammer, recently put in at a cost of about $20,000. The shop was being worked night and day on heavy government work, and employed about 100 men. Loss from $40,000 to $50,000.

—— It was the habit many years ago, of very careful Concord traders, to go about town before making their semi-annual purchasing excursions to Boston, and ascertain how many of their customers would each take a barrel of flour, and then to add a barrel or two for sale by the few pounds.—There are now annually sold there about 65,000 barrels of flour. The largest dealer in that city, sold, between Aug. 1861, and May, 1852, 32,000 bushels of corn. The quantity of Southern and Western corn sold there in a year is said to be not less than 100,000 bushels. The product of our own fields is consumed chiefly where produced, in feeding animals, and for household consumption. The bulk of that sold in the State is raised outside our borders.

—— Lieut. George E. Belknap, of Newport, has been ordered to the iron-clad steamship New Ironsides.

☞ Members of the 2d Maryland Regiment insist that they have killed Senator Toombs. They say his body was found on the field and recognized by a surgeon who knew him, although the insignia of his rank was removed from his clothing.

☞ Tea is *sixteen dollars a pound* in Petersburg, Va., calico a dollar and a half a yard, and U. S. treasury notes selling at 75 per cent. premium.

☞ Judge Thomas, of Massachusetts, has declined to be a candidate for re-election to Congress, or for any other office.

A Practical Guide to Health and Vigor.

The New Gymnastics,

For Men, Women and Children. With a translation of Prof. Kloss' Dumb Bell Instructor and Prof. Schreber's Pangymnastikon. By DIO LEWIS, M. D. With three hundred illustrations. **Price $1.00.**

The author of this work has been engaged for many years in teaching Gymnastics. The book describes and illustrates his NEW SYSTEM OF PHYSICAL TRAINING. It comprises exercises with DUMB BELLS, RINGS, WANDS, CLUBS, etc., all of which are made perfectly clear by full explanations, while many are illustrated by pictorial representations of the position of the body required to perform them.

This book should be possessed by every one who values exercise as a means of health. Ladies especially will find in it a great variety of exercises, all of which may be practised in their own homes. For sale by

Deafness.

Dr. Merrill would especially invite attention to his successful treatment of Deafness; and, as many persons from a distance may be induced to visit him, begs leave to state that the only form of Deafness to which he considers his system of practice applicable, is that resulting from exhaustion or partial paralysis of the Auditory or Acoustic Nerves. In such cases, accompanied by ringing in the ears, want of proper secretions, &c., where there is no organic injury of the ear, his treatment is HIGHLY SUCCESSFUL.

Instruction.

DR. MERRILL is prepared to furnish physicians and others with his

Improved Electro-Magnetic Machine,

FOR MEDICAL PURPOSES.

He will also give through instruction to individuals or classes in his system of applying Electricity, enabling them to treat the various diseases successfully.

Important to Females.

DR. CHEESEMAN'S PILLS.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, whites, all nervous affections, hysterics, fatigue, pain in the back and limbs, &c., disturbed sleep, which arise from the interruption of nature.

DR. CHEESEMAN'S PILLS

was the commencement of a new era in the treatment of those irregularities and obstructions which have consigned so many to a PREMATURE GRAVE. No female can enjoy good health unless she is regular, and whenever an obstruction takes place the general health begins to decline.

DR. CHEESEMAN'S PILLS

are the most effectual remedy ever known for all complaints peculiar to FEMALES. To all classes they are invaluable, *inducing, with certainty, periodical regularity.* They are known to thousands, who have used them at different periods, through out the country, having the sanction of some of the most *eminent Physicians in America.*

Explicit Directions, stating when they should not be used, with each Box.—The *Price One Dollar per Box*, containing from 50 to 60 Pills.

Pills sent by mail, promptly, by remitting to the Proprietor Sold by Druggists generally.
